PENNSYLVANIA RAILROAD SYSTEM—Tunnels under Hudson River extend from Pennsylvania Railroad Station, New York, to Weehawken, N. J. There is no station at Weehawken; the electric trains from the Pennsylvania Station run to Manhattan Transfer, near Newark, N. J., without a stop. Work started April 1, 1904; completed in 1910. Two tubes of cast iron rings, 23 feet outside diameter and 21 feet 2 inches inside diameter; subaqueous portion 6,118 feet long.

Manhattan crosstown tunnels from the Pennsylvania Railroad Station, mentioned above, across New York under 32d and 33d Sts. to First Ave. Started July, 1905, completed in 1910. There are two tunnels, each with two tracks. The tunnels are built of concrete with the crown about 60 feet below the surface of the street.

East River tunnels connect with the crosstown tunnels and extend under the East River to Long Island City. Started September, 1904; completed in 1910. Four separate tubes with rings 23 feet outside diameter, each tube, from the Manhattan shaft to the Long Island City shaft, 3,900 feet long

HUDSON AND MANHATTAN RAILROAD SYSTEM—North tunnels under the Hudson River from Jersey City to Morton St., New York. Started November, 1874; the first in New York, officially opened February 25, 1908. Two single track tubes, with a minimum inside diameter of 15 feet 3 inches, and approximately 5,700 feet long.

Up-town tunnels connect with north tunnels at Morton St. and extend to Christopher St. thence to Sixth Ave. and up Sixth Ave. to 33d St. Started March, 1904, completed in 1910. Section from Morton to 12th St. shield construction, remainder cut and cover.

South tunnels under Hudson River from Jersey City to the Church St. Terminal Buildings (Cortlandt, Church and Fulton Sts.), New York. Started May, 1905; opened for traffic July, 1909. Two tubes about 5,950 feet long, with cast iron rings, 16 feet 7 inches outside diameter and 15 feet 3 inches inside diameter.

Tunnels (consisting of two single track tubes) extend from the Hoboken terminal of the Lackawanna Railroad to Washington St., Jersey City, with connections to the north tunnels and to the Erie Railroad Station. At Washington St. a branch runs to the Pennsylvania Railroad Station at Jersey City, where connections are made with the south tunnels. West from Washington St. to a point east of Summit Ave. is a double track concrete tunnel with a centre wall dividing the tracks. Work started March, 1906; completed in July, 1911.

BELMONT TUNNEL under the East River from 42d St., New York, to Long Island City. Subaqueous portion two single track tubes with cast-iron rings 16 feet 10 inches outside diameter, and a clear inside diameter of 15 feet 6 inches. Through rock a horseshoe shaped concrete section is used and in other places a rectangular double track cross section with reinforced concrete lining. Construction started by New York and Long Island Railroad, July 12, 1905; practically completed January 1, 1908. (Commonly known as the Steinway Tunnel).

RAPID TRANSIT TUNNEL under the East River from the Battery, New York, to Joralemon St., Brooklyn, connecting the New York and Brooklyn subways. Started April, 1903; trains running January 9, 1908. Two tubes, 6,784 feet long, with a finished inside diameter of 15 feet 6 inches.

CLARK STREET TUBE—This tunnel underneath the East River, connecting the Interborough-Seventh Avenue subway in Manhattan with the Fulton Street-Flatbush Avenue subway of the Interborough in Brooklyn, was completed and put in operation the Summer of 1919.

The B. R. T. subway tubes from Whitehall St., Manhattan, to Montague St., Brooklyn, from East 14th St., Manhattan, to North 7th St., Brooklyn, and from East 60th St., Manhattan, under Blackwell's Island to Long Island City, Queens, were in full operation in 1921.

WEST SHORE RAILROAD TUNNEL, WEEHAWKEN, NEW JERSEY—Commenced in 1881, and completed twenty-three months later, at a cost of $525,000. It is double-tracked and the original length was 3,983 feet. A steel and concrete portal, constructed in 1907 at the east increased its length to 4,273 feet. One-fourth of the tunnel is bricklined, the remaining portion, unlined. The normal section is 27 feet in width and 19 feet high. 80,500 cubic yards of rock were removed, and five vertical shafts were utilized, giving ten working faces, and average progress of 173 linear feet per month was maintained. The average expenditure per linear foot of lined section was $200, and of unlined section, $110, and equivalent of $7.00 per cubic yard of excavation. The tunnel is a tangent, with the exception of the extended portion of the east end, previously mentioned, at which point the freight and passenger tracks divide. There is a grade of 0.30% toward the east, and 0.34% toward the west, from approximately the centre of the tunnel. It is ventilated by rotary fans, installed in 1911.

BERGEN CUT OF ERIE RAILROAD through Bergen Hill, Jersey City, parallel to the present tunnel, which is 4,700 feet long. The Bergen cut was started March, 1906, and completed July 1, 1910. It has five four-track tunnels, with open cuts between the tunnels, making a total length of 4,300 feet. Tunnel sections 58 feet wide at the bottom and 21 feet high.

LACKAWANNA RAILROAD TUNNEL through Bergen Hill, Jersey City. Started February 28, 1906; completed February 14, 1909. Parallel to and 24 feet away from old tunnel and of the same length, viz., 4,283 feet. New tunnel is double tracked, lined with concrete, having inside dimensions 23 feet high by 30 feet wide. Bush track construction used.

ELEVATIONS IN MANHATTAN—FEET ABOVE SEA LEVEL.

Battery, 5; City Hall, 36; 5th Ave. and 23rd St., 38; 59th St. and 5th Ave., 47.5; 8th Ave. and 59th St., 76.5; Mt. Morris Pk., 100; Reservoir, Central Park, 112 at water-level; Morningside Pk., 132; Broadway and 118th St., 135; Kingsbridge Road and 175th St., 200; Washington Bridge Road and 184th St., 250.

SUBWAY AND "L" LINES IN NEW YORK CITY.

The New York State Legislature in 1921 (act signed May 12) authorized the construction of a subway between Brooklyn and Staten Island, to be used for both freight and passengers.

There are three subway systems and two elevated railroad systems in the City of New York devoted to local passenger rapid transit. There is also a fourth system, that of the Pennsylvania Railroad, which, by means of twin tubes extending under Manhattan at 33d Street, connects the Pennsylvania Terminal at Seventh Avenue with Long Island City, enabling through all-rail passenger and freight traffic between New England and the South and West. This route is used by the New Haven Railroad trains between Boston and Washington. Of the three local subway systems in the city, only one, that of the Hudson and Manhattan Railway Company, is altogether under ground. The others run on elevated structures in the outlying parts.

Hudson Tubes—There are two sets of these tubes under the Hudson River, one connecting Montgomery Street, Jersey City, with the Hudson Terminal Station at Fulton-Cortlandt-Church Streets, Manhattan; the other connecting the Hudson tubes in Jersey City-Hoboken with Christopher Street, Manhattan. The main trunk-line tubes of the system run from Montgomery Street, Jersey City, to Park Place, Newark, emerging to the surface on Jersey City Heights, and connecting on the meadows with the Pennsylvania Railroad, at a surface station called Manhattan Transfer. In New Jersey, one set of tubes parallels the Hudson River, linking up the Pennsylvania, Erie, and Lackawanna railroad passenger stations, so that travellers may go to or from their stations, to or from downtown or uptown Manhattan. In Manhattan, the Hudson tubes connect Christopher Street with Broadway and 33d Street by way of Sixth Avenue.

Interborough Rapid Transit Company's Subways—There are two of these systems, the east side and the west side, with cross connections in Manhattan and also in Brooklyn, so that for one five-cent fare passengers may go to or from the eastern part of Brooklyn to the northern parts of Manhattan and the Bronx.

The west side system starts on an elevated structure at Livonia and New Lots Avenues, East New York (Brooklyn), goes on Livonia Avenue to Saratoga Avenue, then turns into the Eastern Parkway, where it becomes a subway. It runs through the Eastern Parkway to Flatbush Avenue, at Eighth Avenue, thence down Flatbush Avenue to Fulton Street, through Fulton Street to Clark Street; through Clark Street and under the East River to William Street, Manhattan; through William Street to Fulton Street; thence west to West Broadway; to Hudson Street; to Seventh Avenue; to Broadway; to St. Nicholas Avenue; to Amsterdam Avenue; to Broadway, to 242d Street, at Van Cortlandt Park. It emerges from Fort George Hill near Dyckman Street, and goes to 242d Street on an elevated structure.

Another branch of the west side system starts at Flatbush and Nostrand Avenues, Brooklyn, and runs in a subway through Nostrand Avenue to the Eastern Parkway, where it joins the other branch. Through trains run in both branches over the entire west side system. Transfers to the east side subway system are made at Nevins Street or at Atlantic Avenue, Brooklyn, and at 96th Street and Broadway, Manhattan.

At 96th Street and Broadway, the west side system has a branch (part of the original Interborough subway) that extends under the northwest corner of Central Park to Lenox Avenue, to 145th Street, thence under the Harlem River to 149th Street, where it joins the east side trunk line on Westchester Avenue and the Southern Boulevard. Just south of Bronx Park, an extension, on an elevated structure, branches off and goes along White Plains Road, to 241st Street, Mount Vernon. This extension also is used by Third Avenue "L" trains.

The west side-east side systems have an elevated extension on Jerome Avenue extending north from Mott Avenue and 149th Street, up through Fordham and Bedford Park, to a point between Van Cortlandt Park and Woodlawn Cemetery, ending at about 242d Street. This extension is also used by Sixth Avenue and Ninth Avenue "L" trains.

The east side system starts at Flatbush and Atlantic Avenues (Long Island R. R. Terminal), Brooklyn, goes on Flatbush Avenue, to Fulton Street; to Joralemon Street; thence under the East River to Battery Park, Manhattan; thence under Broadway, to Park Row; to the Brooklyn Bridge; to Lafayette Street, to Fourth Avenue; to 42d Street (Grand Central Station); to Lexington Avenue; to 130th Street; thence under the Harlem River to Mott Avenue; to 149th Street, where it emerges onto an elevated structure; to Westchester Avenue; to the Southern Boulevard; to the southern part of Bronx Park (Bronx Zoo).

An extension of the east side system starts at Mott Avenue and 138th Street, and goes through 138th Street to the Southern Boulevard; to Whitlock Avenue; to Westchester Avenue, and through Old Westchester Village, to the Eastern Boulevard, at the west side of Pelham Bay Park.

The Queensboro Branch of the Interborough subway system starts at 42d Street and Lexington Avenue, and uses the Belmont tubes under the East River at 42d Street; to Long Island City, there emerging onto an elevated structure and going to the Queensboro Bridge Plaza. There it splits into two elevated branches, one going through Ravenswood, on Second Avenue, to Ditmars Avenue, Astoria; the other going on Queens Boulevard, Greenpoint Avenue and Roosevelt Avenue, to Alburtis Avenue, Corona. Both branches are used by the Second Avenue, Manhattan, "L" trains between Queensboro Bridge Plaza and the terminals of the branches.

All of the Interboro's subway lines are city-owned.

Brooklyn Rapid Transit Company's Subways—There are three B. R. T. subways—the Fourth Avenue line, the Broadway line, and the Queensboro line.

The Fourth Avenue route starts at Fourth Avenue and 86th Street, South Brooklyn, and runs along Fourth Avenue to Flatbush Avenue, to the Manhattan Bridge, re-entering a subway at the Manhattan approach to the bridge, continuing west by way of Canal Street to Broadway, where it joins the Broadway tubes of the B. R. T. Fourth Avenue traffic usually goes by way of the Montague Street tube and Broadway.

The Broadway subway line starts at Flatbush Avenue and Malbone Street (Empire Boulevard) at the Willinck entrance to Prospect Park; goes along Flatbush Avenue to Fourth and Atlantic Avenues, where it connects with the Fourth Avenue subway and also with the Interborough subway; thence on Flatbush Avenue to Fulton Street, to Borough Hall, to Montague Street; thence under the East River to Whitehall Street, Manhattan; thence under Trinity Place, Church Street, Broadway and Seventh Avenue; thence under 59th and 60th Streets, and by tunnel under the East River to a connection with the Queensboro lines. The Fourth Avenue route connects with the Broadway route at Flatbush and Myrtle Avenues.

The Brighton Beach line of the B. R. T. connects with the B. R. T. subway at Malbone Street, and the B. R. T. surface and "L" Coney Island lines connect with the Fourth Avenue subway at 86th Street, so that there are through subway trains by both subways between Manhattan, Queens, Brooklyn, and the Coney Island district.

Owing to the many connecting and transfer points, the above grouping of Interborough and B. R. T. routes is arbitrary, intended for the reader's convenience, inasmuch as the trains are operated at times over other than the group routes indicated.

All of the B. R. T. subways are city-owned.

Under a contract between the city and the B. R. T., a 5-cent fare is assured by subway or "L" between Queens Plaza, Manhattan, or Brooklyn, and Coney Island. The B. R. T. surface lines, by resolving themselves into their old corporate identities, are able to charge a 10-cent fare to Coney Island, and on several of their other surface routes they charge 10 cents for through rides.

The lines remaining to be completed in the Dual System are, for the Interborough Company, the extension of the Queensboro subway from Lexington Avenue (Grand Central Terminal) to 41st Street and Eighth Avenue and, for the New York Municipal Corporation, the 14th Street-Eastern and the Nassau Street lines.

ADDITIONS TO ROADS IN 1920—*Continued.*

ELEVATED RAILROADS IN THE CITY.

Elevated Lines in Manhattan and the Bronx—There are four elevated roads in these two boroughs, all operated by the Interborough.

Second Avenue "L" starts at South Ferry, Battery Park, runs north to Pearl Street and New Bowery to the Bowery; to Division Street; to Allen Street; to 23rd Street; to Second Avenue; to 129th Street, where it merges with the Third Avenue "L."

Third Avenue "L" starts at Park Row (old Chatham Street) and the Brooklyn Bridge, and runs on Park Row to the Bowery, at Chatham Square, where it bends into the Bowery; to Third Avenue; to 129th Street, where it crosses the Harlem River, and continues north through Willis and Melrose Avenues, to Third Avenue, the Bronx; thence past Crotona and Bronx Parks to Williamsbridge, at White Plains and Gun Hill Roads. There it connects with the White Plains Road elevated Interborough subway extension to Mt. Vernon.

At 149th Street, the "L" connects with the Interborough subway elevated line that runs on Westchester Avenue, the Southern Boulevard, and White Plains Road to Mt. Vernon. The "L" trains use this extension along with the subway trains.

Ninth Avenue "L" starts at South Ferry, Battery Park, and runs north through the park to Greenwich Street; to West 14th Street and Ninth Avenue; on Ninth Avenue to 53rd Street, where it merges with the Sixth Avenue "L," and the two roads jointly continue on Ninth (Columbus) Avenue, to 110th Street; to Eighth Avenue; to 155th Street, where the road crosses the Harlem River, bearing east, connecting with the Yonkers branch of the N. Y. Central R. R., at Sedgwick Avenue, and continuing east to Jerome Avenue, whence it uses the Jerome Avenue elevated extension of the Interborough subway that goes on up to Woodlawn Cemetery.

Sixth Avenue "L" starts at South Ferry, Battery Park, and runs north through the park to Church Street; to Park Place; to West Broadway; to West Third Street; to Sixth Avenue; to West 53rd Street (where a shuttle train runs between 50th Street and 59th Street, on Sixth Avenue); to Ninth Avenue, where it merges with the Ninth Avenue "L."

Elevated Lines in Brooklyn and Queens—The "L" roads in Brooklyn and Queens (except the Interborough's subway extensions) are operated by the Brooklyn Rapid Transit Company. They run trains over the Brooklyn, the Manhattan and the Williamsburg Bridges across the East River. Thus these lines connect Manhattan with the Borough of Brooklyn and with the outlying districts, including Richmond Hill, Jamaica, Canarsie, Sheepshead Bay, Brighton Beach, and Coney Island. The East New York, Jamaica, Brownsville lines are all joined by a loop at Manhattan Crossing, East New York, so that trains can be operated via any bridge between Manhattan, Jamaica, Ridgewood, and Canarsie, and the intervening districts of Brooklyn.

TO CONEY ISLAND FOR FIVE CENTS.

The only direct "L" line to Coney Island at the present time is the Culver Line, operating via the Fifth Avenue line to 36th Street, and thence via a new structure, principally on Gravesend Avenue, to Coney Island.

Since the completion of the Brighton Line subway connection in 1920, no through elevated service is operated over the Brighton route, a shuttle service only being maintained between Franklin Avenue and Fulton Street and Prospect Park.

The Myrtle Avenue "L" runs from the Brooklyn Bridge, and also via the Williamsburg Bridge, to Metropolitan Avenue, Ridgewood.

The Fulton Street "L" runs from the Brooklyn Bridge to East New York.

The Lexington Avenue "L" runs from the Brooklyn Bridge to Jamaica, via Myrtle and Lexington Avenues, and Broadway.

The Broadway "L" runs from Manhattan via the Williamsburg Bridge to East New York and Canarsie.

The Fifth Avenue "L" runs from the Brooklyn Bridge to Bay Ridge, with surface car extensions to Coney Island and Fort Hamilton. At 36th Street the line has a surface-"L" extension to Coney Island over the new elevated on Gravesend Avenue.

SUMMARY OF RAPID TRANSIT DATA.

There are over 600 miles of subway and "L" tracks in the city, of which 361 miles are Interborough lines, and 258 are B. R. T. lines. The Interborough subway roads total 222 miles; the Manhattan "L" system, 139 miles. The Interborough subway roads have cost over $300,000,000; the Brooklyn Rapid Transit subway roads over $193,000,000. The Interborough's share of the cost has been over $148,000,000, including $48,000,000 the company spent on the first East River tubes and the extension to Flatbush and Atlantic Avenues, Brooklyn. The city has put up the rest of the cost of the Interborough subways. Of the cost of the Brooklyn Rapid Transit subways the company has borne over $69,000,000; the city, over $124,000,000.

Under the Dual System of rapid transit all of the lines operated by the Interborough and the Consolidated Railroad Co. (the latter a B. R. T. subsidiary), including the first subway and the elevated lines of the two systems are combined in two great operating units, covering four of the five boroughs. Each company has lines which operate through the so-called community centre of the city, namely the section of Manhattan Island below 59th Street.

New York's original subway, operated by the Interborough, now denoted the First Subway, is an integral part of the Dual System. Under the operating conditions scheduled for the new lines, it lost its identity and was merged for operating purposes with other lines assigned under the dual agreements to the Interborough.

The dual system was created when the city, through the Public Service Commission, on March 19, 1913, entered into an agreement (the dual contracts) with the Interborough and the Municipal Railway Corporation (the latter a B. R. T. subsidiary), providing for the construction and operation of new lines and extensions.

HOW TO FIND ANY STREET NUMBER IN NEW YORK.

To find what street is nearest, take the number, cancel last figure, and divide by 2, add the key number found below. The result will be the nearest street. The key numbers are: Avenue A, 3; Avenue B, 3; Avenue C, 3; Avenue D, 3; First Avenue, 3; Second Avenue, 3; Third Avenue, 9 or 10; Fourth Avenue, 8; Fifth Avenue to Central Park, 18 or 17; above Mount Morris Park, 24; Sixth Avenue, 6; Seventh Avenue, 12; Eighth Avenue, 9; Ninth Avenue, 13; Tenth Avenue, 14; Eleventh Avenue, 15; Lexington Avenue, 22; Madison Avenue, 26; Park Avenue, 34 or 35; Columbus, Amsterdam, and West End Avenues, 59 or 60; Broadway above 14th Street (subtract), 30 or 31; Central Park West, divide house number by 10, and add 60; Riverside Drive, divide house number by 10, and add 72.

In 1860 the Staten Island steam roads carried 63,641 passengers; in 1870, they carried 336,706; in 1880, they carried 390,151.

In 1880 the "L" lines in New York City carried 60,831,757 passengers.

THE WATER SUPPLY OF NEW YORK CITY.

(For THE ALMANAC; by Merritt H. Smith, Chief Engineer.)

Manhattan and Bronx—The Boroughs of Manhattan and Bronx, prior to the introduction of Catskill water, were supplied entirely from the Croton watershed and from the Bronx and Byram watershed, the latter being now part of the Catskill system. Croton water was first introduced in 1842. Water from the Bronx River was introduced in 1854, and from the Byram River in 1896. The Croton watershed furnishes about half of the present supply for Manhattan and Bronx, the other half being supplied from the Esopus watershed. The Esopus watershed in the Catskills, from which the Catskill supply is obtained, has an area of 257 square miles. The water from the Esopus watershed is collected in the Ashokan Reservoir, about fourteen miles west of the Hudson at Kingston, N. Y., and about ninety-two miles from the northern city boundary. The available supply from the Esopus watershed is increased by the rainfall and run-off on some twenty-two square miles of watershed (the Bronx and Byram watershed) tributary to Kensico Reservoir, which lies east of the Hudson River, and about seventeen miles from the northern city boundary. Under average rainfall and run-off conditions the available supply from the Esopus watershed is 375,000,000 gallons daily, and from the Bronx and Byram watershed about 20,000,000 gallons daily, making the total available supply of water from the Catskill system 395,000,000 gallons daily; the safe minimum yield from these two sheds is 315,000,000 gallons daily.

The Croton watershed, which lies some 22 miles north of the city line, has an area of 375 square miles and a safe minimum yield of 336,000,000 gallons daily. Under average rainfall and run-off conditions the yield of this shed is 400,000,000 gallons daily. The water from the Croton watershed is collected in twelve reservoirs and six lakes and ponds.

Brooklyn—The Esopus watershed together with the old Brooklyn system furnish the entire supply for the Borough of Brooklyn, with the exception of the Twenty-ninth Ward, which is supplied by the Flatbush Water Works Company, a private water company, the source of supply being ground water collected from driven wells. The supply from the old Brooklyn system, which yielded about 150,000,000 gallons, and which is now, for the greater part, held in reserve, was obtained from driven wells, infiltration galleries, and small streams along the south shore of Long Island. This supply was first introduced in 1859.

Queens—The city supplies only the First and Third Wards in the Borough of Queens. The Esopus watershed furnishes the entire present supply to these wards. The First Ward was formerly supplied from the Brooklyn system, supplemented by a small amount derived from the municipal driven well pumping stations in the First and Third Wards. The Third Ward was supplied by two pumping stations, now held in reserve, one station drawing its supply from driven wells and the other obtaining about half its supply from wells and one-half from a small lake, the water being filtered. The combined yield of the two plants is about 6,000,000 gallons daily. The Second, Fourth and Fifth Wards, Queens, are supplied by private water companies, the source of supply being entirely ground waters, collected by means of driven wells. There are four of these private companies, with three others serving special customers.

Richmond—The Borough of Richmond is supplied from the Esopus watershed, supplemented by a small amount (about 7,000,000 gallons daily), derived from wells pumped at two stations. Silver Lake Reservoir, the terminal reservoir for the Catskill system, is located in this borough.

WATER CONSUMPTION IN NEW YORK CITY.

NOTE.—Catskill water was introduced into the city in 1917. Before that, the supply in Manhattan and the Bronx was drawn from the Croton watershed, with a little from the Bronx and Byram watersheds; the supply in Queens and Richmond was drawn from local Long Island sources; and Brooklyn got most of its water from wells, ponds, and springs out on Long Island, in Southern Nassau and Suffolk counties. Private water companies still supply water in the boroughs of Brooklyn and Queens.

The figures show daily consumption, in gallons.

1920.....	466,200,000	187,200,000	18,100,000	18,400,000	45,000,000	734,900,000

The figures by boroughs show only daily consumption of city water. The "total" column shows daily city water consumption plus consumption of water of private companies. In 1920, for example, the total daily consumption in Brooklyn, including private water, was 200,700,000 gallons; in Queens, 49,600,000 gallons. Private companies supplied 13,500,000 gallons in Brooklyn, and 31,500,000 in Queens.

MANHATTAN AND BRONX WATER CONSUMPTION, 1868-1897 (City Water).

OTHER DATA ON THE WATER SUPPLY.

The new Catskill Mountain water supply is a gravity system. For New York City's Catskill Mountain water system there are two contiguous drainage areas, or watersheds, occupying the central portion of the Catskill Mountains lying between 85 and 125 miles from New York. The Schoharie watershed has an area of 314 square miles. Esopus has an area of 257 square miles. These two watersheds have a total area of 571 square miles, from which 600 million gallons of water daily can safely be drawn throughout each year. Along the aqueduct provisions have been made for storing a large quantity of water. From the Ashokan reservoir it is almost a three-days' journey for the water to flow through the aqueduct to the Silver Lake terminal reservoir on Staten Island.

For surveys, real estate, construction, engineering and general supervision, and all other items except interest on the bonds, the total cost of the completed Catskill system will be about $177,000,000, of which $22,000,000 is for the Schoharie works.

Ashokan reservoir, about fourteen miles west of the Hudson at Kingston, was built at a cost of nearly $30,000,000. The water which the reservoir holds would cover all Manhattan Island to a depth of thirty feet; the area of its surface is equivalent to that of Manhattan below One Hundred and Tenth Street. The water surface of the west basin when full is at an elevation of 590 feet above mean tide in New York Harbor.

Kensico reservoir, east of the Hudson, and thirty miles from the City Hall, contains enough Catskill water to supply New York several months if carefully husbanded. It acts as a storage reservoir. This reservoir is formed by the Kensico dam across the valley of the Bronx River, about three miles north of White Plains and fifteen miles north of the Hill View reservoir. The total cost of Kensico reservoir was about $13,500,000. It is 355 feet above tidewater.

Hill View reservoir is located in the City of Yonkers, just north of the New York City line, and fifteen miles south of Kensico reservoir. Its function is to equalize the difference between the use of water in the city as it varies from hour to hour and the steady flow in the aqueduct. It is an uncovered, artificial reservoir of the earth embankment type. It holds 900,000,000 gallons of water, with a depth of 36½ feet, and has a water surface of 90 acres. The total cost of Hill View reservoir was about $4,700,000. It was first filled December 29, 1915. It is 295 feet above tidewater.

The Hudson River is crossed by means of a tunnel wholly in granitic rock, at a depth of 1,114 feet below sea level, between a shaft at Storm King Mountain on the west bank and another shaft on the east side of the river at Breakneck Mountain.

At the Ashokan reservoir, and also at Kensico reservoir, aerators have been built. The aerators are substantially alike and are great fountain basins, approximately 500 feet long by 250 feet wide, each containing about 1,600 nozzles, through which jets of water are thrown vertically into the air, permitting thorough admixture of oxygen from the atmosphere and removal of undesirable gases and other matters causing tastes and odors.

Within the screen chamber down stream from Kensico reservoir chlorine is introduced into the water flowing in the aqueduct for the destruction of germ life. The gas is delivered at the chamber compressed to a liquid state in steel containers holding one hundred pounds each. Chlorine is used to insure the practical sterilization of the water before it goes to the city and is wholly neutralized or dissipated before the water reaches the distribution pipes.

From Hill View reservoir, Catskill water is delivered into the five boroughs by a circular tunnel in solid rock reducing in diameter from 15 to 14, 13, 12, and 11 feet. The total length of the tunnel is eighteen miles. From two terminal shafts in Brooklyn, steel and cast iron pipe lines extend into Queens and Richmond. A 36-inch flexible-jointed, cast iron pipe, buried in a trench in the harbor bottom, has been laid across the Narrows to the Staten Island shore, whence a 48-inch cast iron pipe extends to the Silver Lake reservoir, holding 435,000,000 gallons. The total length of this delivery-system is over thirty-four miles. The tunnel is at depths of 200 to 750 feet below the street surface, thus avoiding interference with streets, buildings, subways, sewers and pipes. These depths are necessary, also, to secure a substantial rock covering to withstand the bursting pressure of the water inside and afford the requisite watertightness. The waterway of the tunnel is lined throughout with Portland cement concrete.

The city tunnel, which is the longest tunnel in the world for carrying water under pressure, or for any other purpose, was constructed from twenty-five shafts, including the downtake shaft at Hill View reservoir, about 4,000 feet apart, located in parks and other places where they interfered very little with traffic. Through twenty-two of these shafts the water is delivered into the street mains. These connections from the tunnel to the mains are made by means of vertical riveted steel pipes (called risers) embedded in concrete in the upper part of each shaft and lined with concrete to prevent corrosion inside. Concrete fills all spaces outside the risers, sealing the shafts against the escape of water excepting through the pipes. Provision is made at Shaft 11 in Morningside Park and at Shaft 21 on the shore of the East River, at Clinton and South Streets, Manhattan, for unwatering the tunnel, whenever necessary, for inspection, cleaning or repairs. Unusual features in connection with the operation of the tunnel are the bronze riser valves in the shafts. The former are located about 100 feet below the top of sound rock and are designed to close automatically in case of an important break in the valve chamber or in the street mains. They can also be closed by hand from within the chambers at the shaft tops.

The cost of the portions of the Catskill Aqueduct within the city limits, including the tunnel, pipe lines, appurtenances and Silver Lake reservoir, was about $26,400,000.

The terminal Silver Lake reservoir for the Catskill water system, located on Staten Island, is about 2,400 feet long and 1,500 feet wide. It holds 435,000,000 gallons, and is 228 feet above tidewater.

GIVING NEW YORK CITY FIRE PROTECTION.

High Pressure Fire Service System—The high pressure fire service system in Manhattan is bounded by Thirty-fourth Street, Madison Avenue, Twenty-fourth Street, Lexington Avenue, Fourteenth Street, Third Avenue, Bowery, Houston Street, East River, Battery, North River. There are two pumping stations—Gansevoort and West Streets, and Oliver and South Streets. Each station has six electrically driven centrifugal pumps. Either fresh or salt water may be used. Each pump can deliver 3,000 gallons a minute. The combined capacity of the two stations is equal to about fifty fire engines. The distributing system consists of 128 miles of mains, eight to twenty-four inches in diameter, and about 2,750 four-nozzle hydrants. There are approximately 696 telephones communicating with Fire Department headquarters and with the main and subsidiary stations of the New York Edison Company, from which the necessary electric power is obtained. The present system cost about $1,330,000.

In Brooklyn there are two high pressure fire service systems. The one for the business and manufacturing districts is bounded by the Navy Yard, St. Edward's Street, St. Felix Street, Fort Greene Place, Fifth Avenue, Twenty-fourth Street, Fourth Avenue, Thirty-ninth Street and the water front, covering an area of 4.8 square miles. The supply is furnished by two stations, one located at the foot of Joralemon Street, and the reserve at Willoughby and St. Edward's Streets. Both draw their supply from the Ridgewood mains. The main station is connected to the East River. The pumps are electrically operated in both stations, and have a combined rated capacity of 24,000 gallons per minute. The distributing system consists of about forty-five miles of mains, eight to twenty inches in diameter.

The Coney Island high pressure system protects an area of 470 acres. The pumping station is located at West Twelfth Street and Coney Island Creek. The total capacity is 4,500 gallons per minute. The water is distributed through six miles of mains.

PARKS IN MANHATTAN AND BRONX.

THE total area of improved parks in Manhattan is 1,275 acres; unimproved parks, 209 acres; playgrounds, 5 acres; parkways, streets, etc., under jurisdiction of Department of Parks, 40,929 feet long, width varying from 90 to 168 feet.

fty-ninth Street Playground, west of Amsterdam Ave.
Jackson Square Playground, 8th Ave. and Horatio St.
Queensboro Bridge Playground.
St. Catherine's Playground, 67th St. and 1st Ave.
Yorkville Playground, 101st St. near 2d Ave.

There are also playgrounds in the following named parks: Battery, Chelsea, Colonial, Columbus, Corlears Hook, DeWitt Clinton, Hamilton Fish, Hudson, John Jay, Thomas Jefferson, Morningside, Mount Morris, Riverside, at 97th Street and ball ground at 79th Street, Ryan, St. Gabriel's, St. Nicholas, Carl Schurz, William H. Seward, Tompkins Square.

Of the parks in Manhattan named in the above list, Fort Washington, Highbridge, St. Nicholas, and Isham are unimproved. The Harlem River Driveway is 11,562 feet long and 100 to 150 feet wide; Morningside Drive is 3,538 feet long and 90 feet wide; Riverside Drive is 17,000 feet long and 90 to 168 feet wide, and the extension, 135th to 158th Street, is 6,560 feet long.

SOME FACTS ABOUT CENTRAL PARK.

The great park of New York extends from 59th St. to 110th St., being over 2½ miles long, and from 5th Ave. to 8th Ave., being over half a mile wide. It covers 843 acres, of which 185 are in lakes and reservoirs and 400 in forest, wherein over half a million trees and shrubs have been planted. There are 10¾ miles of roads, 5½ of bridle paths, and 31 of walks. The landscape architects of the Park were Frederick Law Olmsted and Calvert Vaux. Work was begun on the Park in 1857. The following fanciful names have been officially applied to the several entrances to the Park: 5th Ave. and 59th St., Scholar's Gate; 5th Ave. and 59th St., Artist's Gate; 7th Ave. and 59th St., Artisan's Gate; 8th Ave. and 59th St., Merchant's Gate; 8th Ave. and 72d St., Woman's Gate; 8th Ave. and 81st St., Hunter's Gate; 8th Ave. and 96th St., Mariner's Gate; 8th Ave. and 96th St., Gate of All Saints; 8th Ave. and 100th St., Boy's Gate; 5th Ave. and 110th St., Stranger's Gate; 5th Ave. and 67th St., Student's Gate; 5th Ave. and 72d St., Children's Gate; 5th Ave. and 79th St., Miner's Gate; 5th Ave. and 90th St., Engineer's Gate; 5th Ave. and 105th St., Woodman's Gate; 5th Ave. and 102d St., Girl's Gate; 5th Ave. and 110th St., Pioneer's Gate; 5th Ave. and 110th St., Farmer's Gate; 7th Ave. and 110th St., Warrior's Gate.

Union Square was purchased by the city in 1833 for $116,051; Madison Square, in 1847, for $65,952; Tompkins Square, in 1834, for $93,358; Washington Square, in 1827, for $77,970; and Manhattan Square, in 1839, for $54,657.

The first park space in the City of New York was that now called Bowling Green Park. In 1732 this plot of ground was leased by citizens for playing the game of bowls. The plot was originally square and in the middle there was erected, in 1770, a lead statue of George III. After the Declaration of Independence the statue was torn down by a mob and the lead used for making bullets for the American army. In 1786 Bowling Green was first laid out as a park. At that time it was the centre of the fashionable residential district.

Open water existed originally where the Staten Island Ferry houses now stand, and the site of the aquarium was under water until about 1800. State Street was not laid out until 1789, and was then bounded on the Bay on one side. A ledge of rocks stretched across Manhattan Island, and facing these rocks along the edge of the water there was built in the early days a line of defensive works known as "The Battery." These works extended from Whitehall Street to what is now Rector Street, and cannon were mounted behind them. About 1723 the first steps were taken to fill in to the present water line, but many years passed before this was actually accomplished.

The present City Hall Park constitutes a part of what was known in the latter half of the seventeenth century as "The Common Lands," which stretched from the site of the Post Office northward toward the Tombs and from the line of Broadway across what is now Park Row. This land was originally used for the grazing of cattle and at its northeasterly end was what was known as "Fresh Water Pond." The land originally comprising The Commons was gradually reduced by the laying out of streets and the construction of buildings. At the close of the Revolutionary War improvements were begun in City Hall Park. The erection of the present City Hall was authorized in 1803 and it was ready for occupancy in 1811. During the Civil War the present site of the Post Office Building was occupied by sheds where the soldiers were supplied with food. After the war it was ceded to the United States Government as a site for the Post Office.

The chief parks above the Harlem are: Bronx, north of E. 182d St. and White Plains Road; 719 1-3 acres. Claremont, Belmont St., Clay Ave. and 170th St.; 38 acres. Crotona, Fulton, 3d, and Arthur

PUBLIC GOLF LINKS.

Located in Forest Park, on Myrtle, Woodhaven and Jamaica Avenues; consists of 118 acres and an 18-hole course. Golf House at Forest Parkway.

PARKS IN RICHMOND BOROUGH (STATEN ISLAND).

Silver Lake, bounded by Revere Ave., University Pl., Forest Ave., Richmond Turnpike and Clove Pl. 96.27 acres water; 68.84 acres land.

Tompkinsville Sq., bounded by Arrietta, Bay and Griffin Sts. 0.44 acres.

Barrett Park, at St. George; 0.20 acres.

Westerleigh Park, bounded by Maine, Williard, Springfield and Neal Dow Aves.; 1.43 acres.

Washington Park, Stapleton, bounded by Bay, Canal, Wright, and Water Sts.; 1.43 acres.

Hero Park, bounded by Richmond Turnpike, Louis St. and Howard Ave.; 1.92 acres.

Clifton Park, bounded by Vanderbilt Ave., Bay St., and the Rapid Transit R. R.; 0.18 acres.

Port Richmond Park, bounded by Park and Heberton Aves., and Bennett and New Sts.; 1.28 acres.

Among the proposed parks is Clove Lake Park, 191 acres, bounded by Forest, Slosson and Brookside Aves.

PARKWAYS IN RICHMOND BOROUGH.

St. Austins Place, New Brighton between St. Austins Place N. and St. Austins Place S.; 0.14 acres.

Haven Esplanade, Forest Ave. to Castleton Ave.; 0.18 acres.

Henderson Avenue, New Brighton, Henderson Ave., east side and Davis Ave.; 0.01 acres.

Canal Street, Stapleton between Broad St. and Wright St.; 0.20 acres.

Ellicott Place, New Brighton, between Arnold St. and Prospect Ave.; 0.10 acres.

Maple Avenue, Mariners Harbor, between Netherland Ave. and Linden Ave.; 0.64 acres.

There are in Manhattan Borough, according to Park Commissioner Francis D. Gallatin, about 130,000 trees, of eighty varieties, of which 90,000 are in Central Park, 25,000 in other parks, and 15,000 in the streets. These trees die at the rate of 3,500 a year, and 2,500 new trees are planted. In the entire city there are, it is estimated, over 1,000,000 trees.

THE NEW YORK AQUARIUM IN BATTERY PARK.

(By Charles H. Townsend, Director.)

THE Aquarium Building was erected in 1807 by the United States Government as a fort, called West Battery and after the war of 1812 was called Castle Clinton. It had a battery of thirty guns, the embrasures for which still remain in the outer wall, which is nine feet thick. The old ammunition rooms are surrounded with walls of masonry fifteen feet thick. In 1823 the building was ceded by Congress to the City of New York and used as a place of amusement called Castle Garden, which had a seating capacity of 6,000. It was connected with Battery Park by a bridge, the intervening space having since been filled in. Gen. Lafayette was received here in 1824; President Jackson in 1832; President Tyler in 1843; Louis Kossuth in 1851. Prof. Morse, inventor of the telegraph, demonstrated here in 1835 the practicability of controlling the electric current.

Jenny Lind began singing here in 1850 under the management of P. T. Barnum. Among other notables received here were President Van Buren and the Prince of Wales. The building was used as a landing place for immigrants from 1855 to 1890, during which period 7,690,606 immigrants passed through its doors.

AQUARIUM OPENED DEC. 10, 1896.

Then, for several years, the historic old structure was in process of repair for the use of the Aquarium, which was opened by the city on Dec. 10, 1896; and on Nov. 1, 1902, its management was transferred from the Department of Parks to the New York Zoological Society, a private scientific association with a membership of 2,400.

The Aquarium is reached by all elevated, surface and subway lines running to South Ferry. The building is open free, every day in the year. The hours for visitors are: 9 A. M. to 5 P. M., April-September; 10 A. M. to 4 P. M., October-March. The attendance exceeds 2,000,000 visitors a year.

The New York Aquarium is the largest in the world and contains a greater number of species and of specimens than any other. It has 7 large floor pools, 94 large wall tanks and 30 smaller tanks. There are also 26 reserve tanks containing specimens not on exhibition. The building is circular in form, with a diameter of 205 feet. The largest pool is 37 feet in diameter and 7 feet deep. During 1921 the space available for exhibits was increased one-fifth. The exhibits include fishes, turtles, crocodilians, frogs, salamanders, marine mammals and invertebrates and are both northern and tropical in character. There are usually about 200 species of fishes and other aquatic vertebrates on exhibition. The total number of specimens, exclusive of invertebrates and young fry in the hatchery, varies from 5,000 to 6,000. Most of the local fresh-water and salt-water species are collected by the employees. Tropical fishes are brought by steamer from the Bermuda Islands.

The fish hatchery, maintained as a fish-cultural exhibit, produces yearly from three to eight millions of young food and game fishes, which are afterward deposited in New York State waters. The Aquarium is equipped for heating sea water for tropical fishes in winter, and has a refrigerating plant for cooling fresh water in summer. Flowing fresh water is supplied from the city water system, while the pumps circulate about 300,000 gallons of salt water daily. The pumps run day and night. The salt water tanks are supplied from a reservoir holding 100,000 gallons of pure stored sea water. This water, originally brought in by steamer, is used as a "closed circulation," the water being pumped through the exhibition tanks, falling thence through sand filters back to the reservoir.

The library attached to the director's office contains 1,000 volumes, and is limited to works relating to fishes, fish-culture, fishery industries, angling and aquatic life in general. The Aquarium publishes annual reports and occasional bulletins, which are issued as publications of the New York Zoological Society. A number of circulars and pamphlets relative to the work of the Aquarium have also been published

MUSEUMS IN NEW YORK CITY.

AQUARIUM—Battery Park. Open, free, every day; April-Sept., 9 A. M. to 5 P. M.; Oct.-March, 10 A. M. to 5 P. M.

METROPOLITAN MUSEUM OF ART—Fifth Ave. and 80th-84th Sts. Open, Winter, 10 A. M. to 5 P. M.; Summer, 10 A. M. to 6 P. M. Free daily (except Mondays and Fridays, 25c.).

AMERICAN MUSEUM OF NATURAL HISTORY—77th St. between Columbus Ave. and Central Park West. Open, free, every day; week days, 10 A. M. to 5 P. M.; Sundays, 1 P. M. to 5 P. M.

NEW YORK HISTORICAL SOCIETY AND MUSEUM—Central Park West and 76th St. Open daily except Sunday, free, 1 P. M. to 5 P. M. Closed during August and on Christmas, New Year's and July 4.

NEW YORK BOTANICAL GARDEN—Bronx Park, north of Pelham Parkway. Open daily.

BRONX ZOO—Bronx Park. Open daily, Winter, 10 A. M. to 4.30 P. M.; Summer, 9 A. M. to half hour before sunset. Free (Exc. Mon. and Thur., 25c).

CENTRAL PARK ZOO—Fifth Ave. and 63d St.; daily, free.

BROOKLYN INSTITUTE—Eastern Parkway and Washington Ave. Open daily, weekdays 9 A. M. to 6 P. M.; Sundays, 2 P. M. to 6 P. M.; Thursday evenings, 7.30 to 9.45. Free (except Mondays and Tuesdays, 25c.).

BROOKLYN BOTANIC GARDEN—Flatbush Ave. and Malbone St. (Empire B'l'v'd). Open daily, free.

METROPOLITAN MUSEUM OF ART.

THE museum was incorporated April 13, 1870, "for the purpose of establishing and maintaining . . . a museum and library of art, of encouraging and developing the study of the fine arts, and the application of arts to manufacture and practical life, of advancing the general knowledge of kindred subjects, and, to that end, of furnishing popular instruction." After one-half century of growth, it has to-day, through bequests, gifts, and purchases, collections of incalculable value, embracing both fine and decorative arts. They comprise objects in almost every material—marble, stone, wood, pottery, porcelain, glass, metals, lace, textiles, &c.—and embody man's attempts throughout the ages to achieve his ideals of beauty. In date they range from 3000 B. C. to the twentieth century and represent the ancient world—Assyria, Babylonia, Cyprus, Egypt, Greece, and Rome; the Orient, including China, Japan, Corea, India, Persia, and Asia Minor; Europe from the Early Christian and Byzantine Art through the Romanesque, Gothic, Renaissance, and later periods; and our own country.

These collections are housed in a building erected by the city, in Central Park, affording 280,000 square feet of exhibition floor space. Among the more noteworthy individual objects or collections are the mastaba tomb erected about 4,500 years ago in the Egyptian cemetery at Sakkara for a Theban dignitary named Perneb and re-erected here in its original form, with its painted scenes in low relief still preserved; six large alabaster reliefs from the palace in Nimrod of Ashur-nasir-pal, who reigned over Assyria from 885 to 860 B. C.; an Etrusean bronze chariot of the sixth century B. C., the only complete ancient bronze chariot known; the Casnola antiquities from Cyprus; a group of Roman fresco paintings from Boscoreale, especially those on the walls of a reconstructed cubiculum (bedchamber), and a gathering of ancient glass, "one of the richest and most important in the world." In the accumulations of Near Eastern Art of special interest are the domed room from a Jain temple in India, recently installed, the gift of Robert W. and Lockwood de Forest, which represents the wood carving of India and is supplemented by an extensive collection of Indian and Thibetan jewelry; the Indian miniatures in the Alexander Smith Cochran Collection, and some remarkable examples of early Indian stone carving; the Persian manuscripts and miniatures in the Cochran Collection; twenty-four manuscripts and a number of single sheets represent such masters of decoration as Binzad and Mirak, and some of the greatest names in Persian calligraphy from the fifteenth to the eighteenth century. The Far Eastern objects include the well-known Benjamin Altman gathering of Chinese porcelains and the Heber R. Bishop assemblage of jades.

OVER 1,200 PAINTINGS IN THE MUSEUM.

The paintings, over twelve hundred in number, represent the Italian, Spanish, German, Dutch, Flemish, French, English and American schools. There is an unusual showing of the works by Rembrandt, nineteen in all, thirteen received in the bequest of the late Benjamin Altman. Through the gift of J. Pierpont Morgan the Museum possesses a Raphael, the so-called Colonna Altarpiece, a Virgin and Child Enthroned with Saints. Groups of paintings kept together by the conditions under which they were received are: the George A. Hearn Collection, principally American in character; the Benjamin Altman Collection, strongest in its Dutch paintings, but including four Memlings, a Dürer, a Giorgione, a Fra Angelico, two Velasquezes, and other works of rare excellence; and the Catharine Lorillard Wolfe Collection, consisting largely of works by French artists of the early and middle years of the nineteenth century.

Others of special note are the William H. Riggs Collection of Arms and armor, which in its scope and quality ranks with European national collections, and, with the Ellis and Dino Collections, gives an opportunity to study the development of armor from the fifteenth to the eighteenth century; the Crosby Brown gathering of 3,600 specimens, including representative instruments of all nations, among them the earlier of the two existing pianos by Bartolommeo di Francesco Cristofori, the inventor of the pianoforte; and the William H. Huntington assemblage of portraits of Washington, Franklin, and Lafayette in all materials.

The Pierpont Morgan Collection, the gift of J. Pierpont Morgan, fills an entire wing and is a priceless gathering of the decorative arts of Europe from the Gallo-Roman and Merovingian periods to the end of the eighteenth century. The rarest and most precious section of the collection represents the supreme work of the goldsmiths, Byzantine and Mediaeval enamelers, and ivory carvers. The most comprehensive gathering included in the Pierpont Morgan wing is that brought together by Georges Hoentschel of Paris, the collector, and consisting of two parts; sculpture, furniture, textiles, ivories, woodwork, and architectural fragments of the Gothic period, chiefly of French, Flemish, Dutch, German, Spanish, and Italian origin, and French decorative arts of the seventeenth and eighteenth centuries—furniture and woodwork, many samples from historic buildings, decorative paintings, and ormolu fittings. Among the treasures of the Pierpont Morgan Collection are also five Gothic tapestries, known as the Sacrament Set because they picture in weaving the sacraments of the church; two sculptured groups, an Entombment and a Pieta, from the famous Chateau de Biron in southwestern France; superb examples of the goldsmith's craft from the fifteenth to the eighteenth century; a unique collection of snuff boxes, vanity boxes, scent bottles, and dance programmes, signed by famous jewelers of the eighteenth century; and a large collection of watches representative of the work of the best craftsmen in Europe from the sixteenth to the nineteenth century.

COLLECTION SERVICEABLE TO THE PUBLIC.

To make the museum collections serviceable to the public, to manufacturers and designers, to artists and art students, and to the pupils in the public and private schools of New York City and vicinity is the constant effort of the members of the museum staff, working on behalf of the trustees.

A reference library and a collection of photographs are open to the public and a large collection of lantern slides is available on easy terms for lectures given anywhere east of the Mississippi. Opportunity to copy the objects in the collections themselves is granted with reasonable restrictions. A study room of textiles has been fitted up with every facility for the use of the large collection of laces and textiles, and other study rooms in different parts of the building are intended for the convenience of those who wish to study the various collections at length.

AMERICAN MUSEUM OF NATURAL HISTORY.

THE American Museum of Natural History, located at 77th Street and Central Park West, was founded and incorporated in 1869 for the purpose of encouraging and developing the study of natural science, of advancing the general knowledge of kindred subjects, and to that end of furnishing popular instruction. It is open free every day in the year; on weekdays and holidays from 9 A. M. to 5. P. M., on Sundays from 1 to 5 P. M.

The constitution provides for a self-perpetuating board of trustees, not to exceed twenty-five in number, who hold office for terms of five years, with the Mayor, the Comptroller and the President of the Park Board serving as trustees ex-officio.

The building, which is the property of the city, is one of the largest municipal structures in the city and has cost over $5,000,000. At present only eight sections of the building have been erected, which when completed will cover the entire area of Manhattan Square. The city makes an annual maintenance appropriation for heating, lighting, repairing and supervising the building, caring for its collections, the construction of cases, and other maintenance work. All the collections, however, are the property of the corporation and are acquired by gift of the trustees and members and other friends and supporters. The funds from which the trustees purchase and prepare specimens, carry on explorations in all parts of the world, publish the results of its research work and enlarge its present library of natural history of over 70,000 volumes are raised by the museum and its friends, and derived from the income of an endowment amounting to $9,603,952.57.

NOTEWORTHY EXHIBITS.

The American Museum is famous as possessing the largest collection in the world of gems and gem material, the finest and most complete exhibits illustrating the evolution of the horse, the finest series of bird habitat groups, an extensive collection of meteorites, and the largest and best collections of fossil vertebrates and material showing all phases of the life of primitive man.

First Floor—Collections illustrating the life of the Indians of the North Pacific Coast, the Eskimo, Indians of the Woodlands, Plains and Southwest. Two new and large groups (Hopi and Apache) in the Southwest Hall. Forestry Hall—Sections of trees, including one from a big tree of California which measures 16 feet in diameter and is 1,341 years old. Natural woods, with specimens of their leaves and flowers, and sections of the finished woods. Exhibits in food needs and economics. (Temporarily placed in this hall.) Darwin Hall—Specimens, models and groups showing invertebrate life, the Nahant Tide-Pool and the Wharf-Pile Groups being particularly interesting. New exhibit representing a two-inch section of seabottom, with its characteristic microscopic plant and animal life, magnified more than 15,000 times.

Second Floor—Collections from Africa. Material illustrating the life of prehistoric man of North America. Ancient monuments of Mexico and Central America. Birds of the world. Recent fishes. Mammals of North America. Extensive reptile and amphibian material, including a number of beautiful groups (Lower California Lizard, Bullfrog, Great Salamander and New England Spring Groups). The most recent finest and largest of the groups is the Florida Group. This reproduces a portion of a cypress swamp, with a stretch of sandy lowlands, teeming with characteristic animal life.

Third Floor—Shells. Collections from the living tribes of Asia, including Chinese bamboos, porcelain, basketry, inlaid work, embroidery, cloisonne enamel, agricultural implements, carvings in wood, ivory and stone, and an especially valuable collection of ancient bronzes and pottery; material illustrating the mode of living, costumes and war implements of Siberia. Large and fine collections from the Indians of South America. Hall of Primates—Monkeys, apes and primitive man. Mammals of the world, including whales. Insect life. Birds of North America (the famous habitat groups). Public health exhibits dealing with problems of water supply, disposal of wastes, bacteria, insects and diseases, military hygiene.

Fourth Floor—Collections from the Philippine Islands and the South Seas. Mineral collections. Hall of Gems, the gift of J. Pierpont Morgan—Collections including practically every variety of known gem, cut and uncut, some of remarkable size and purity of color; largest perfect crystal in the world, mounted on bronze base supported by three Chinese figures; exceptionally fine cameos, carved jade, etc. Hall of Fossil Invertebrates and Historical Geology—Large collections and models of caves and of Copper Queen Mine, showing cross sections and surrounding country. Halls of Fossil Vertebrates, devoted to the great collections of the remains of creatures which lived from 30,000 to 20,000,000 years ago.—These collections, by right of extent, variety, quality and methods of preparation and exhibition, are the finest in the world. The collections illustrating the evolution of the horse approach in importance and value the combined collections of this sort to be found in all other institutions. Hall of the Age of Man—Casts of prehistoric men and skeletons of the animals of their time (mammoths, mastodons and giant ground sloths). In the adjoining hall are fossil camels, giant pigs, a pigmy hippopotamus and primitive rhinoceros-like animals; fossil lemurs and monkeys which have an important bearing on the ancestry of man. Dinosaur Hall—Remains of fossil reptiles and fishes which lived from three million to ten million years ago. "Mummy" of dinosaur (trachodon) in which the texture of the skin has been preserved. Fossil aquarium reproducing a number of the earliest known fishes, with typical marine surroundings—all prepared on the basis of recovered specimens illustrating the animal and plant life of the time.

Fifth Floor—Reference library. Osborn library of Vertebrate Paleontology. Offices. Laboratories. Studios.

In addition to its work in securing and exhibiting natural history specimens, the institution maintains a Department of Public Education, which works in conjunction with the city's public schools and institutions for the blind, giving lectures, and circulating loan collections, slides and motion picture films. In 1920, 887 natural history collections and 116,342 slides were circulated. For teaching the blind, special apparatus, including relief globes and maps, are used.

From its Department of Public Health, located on the sixth floor, it distributes specimens of living bacteria to accredited institutions and individuals all over the world. While the institution is forced, through lack of building space, to keep the great majority of its collections in storage rooms, this material is available for study by persons interested.

NEW YORK HISTORICAL SOCIETY GALLERY AND MUSEUM.

THE New York Historical Society, founded in 1804, is open free to the public daily. Sundays excepted, 9 A. M. to 5 P. M., and on holidays, 1 to 5 P. M. (excepting Christmas, New Year's and July 4. Closed for the month of August for cleaning and repairs). The Society has occupied since 1908 the building on Central Park West between 76th and 77th Streets, completed and furnished by the Society at a cost of $1,000,000 including the land. The home before that was on Second Avenue. It is supported by endowment funds and membership fees without aid from city or State. The Society maintains a library, museum and gallery of art. The library contains 130,000 volumes and 150,000 pamphlets, newspapers, prints, maps and a large collection of manuscripts, all relating to American history. The newspaper collection numbers 5,386 volumes, of which 3,381 were printed in this city and State. The earliest file being the "Boston News-Letter," beginning in 1704. The first newspaper printed in New York City was "The New York Gazette," established in 1725 by William Bradford, the first printer in the Colony of New York. The Society's file of this paper begins with 1730. The largest collection of New York City and State newspapers may be found here. The old New York prints cover the period from the earliest "View of the City," published in 1651, to modern times, and is unrivaled in its completeness by either private or public collections elsewhere. Among which may be mentioned The Burgis View of the City, 1717, of which only one other copy is known; the Maverick

NEW YORK HISTORICAL SOCIETY GALLERY AND MUSEUM—*Continued.*

View of Wall Street, about 1825, and the Tiebout Engraving of the City Hall on Wall Street. The maps include the James Lyne survey of the city in 1731, published by William Bradford—the first engraved map of the city published—one of two known copies; the Dyckinck plan of 1755, the Ratzer map of 1767, and the commissioners map of 1811, besides a large collection of atlases and maps of all periods. The more important manuscripts are the Cadwallader Colden papers, De Peyster family papers, James Duane papers, Albert Gallatin papers, General Horatio Gates papers, diary of Philip Hone, Rufus King papers, Lloyd family papers, Rutherford papers, and Lord Sterling papers.

The Museum contains many relics of New York and American history, besides an Egyptian collection of 3,000 objects, the first brought to America. Three mummied bulls from the tombs are features, while every form of Egyptian art during the Old and Middle Kingdom and the Empire, 2900-1167 B. C., is represented. The collection is especially rich in papyri. The Society also possesses the Nineveh Sculptures, presented in 1858 by the late James Lenox. Of local relics the Beekman family couch, used before the Revolutionary War, in this city, may be mentioned, as well as the remains of the famous Equestrian Statue of King George III., and the statue of William Pitt (the Earl of Chatham), champion of the American cause in Parliament.

The Gallery of Art now numbers over 1,000 paintings, including old masters. Over 300 of the paintings are American portraits: George Washington by Stuart, Peale and Durand, John Adams, John Quincy Adams, Bayard family portraits, Aaron Burr, Henry Clay, George and De Witt Clinton, John S. Copley by himself, De Peyster family portraits, Hamilton Fish, Benjamin Franklin, Albert Gallatin, Fitz-Greene Halleck, Alexander Hamilton, Andrew Jackson, John Jay, Thomas Jefferson, Lafayette, James Madison, Oliver H. Perry, Edgar Allan Poe, Red Jacket, Schuyler family portraits, Stuyvesant family portraits, Zachary Taylor, Daniel Webster, and N. P. Willis. The Society also possesses the original water color drawings made by John James Audubon for his "Birds of America,"—460 beautifully executed pictures. Special exhibitions of the Society's collections are held from time to time to which the public is invited. Since the occupation of the present building in 1908 the Society's treasures in art and literature have been exhibited and freely placed at the disposal of the public for its enjoyment, use and study.

NEW YORK BOTANICAL GARDEN.

THE New York Botanical Garden occupies a reservation of nearly 400 acres of Bronx Park north of Pelham Parkway. The tract includes the beautiful natural features of the valley of the Bronx River, its gorge, its waterfall and its rapids, and over 100 acres of natural woodland, including the famous Hemlock Forest, the most southern grove of hemlock spruce near the Atlantic Coast. The institution was chartered by the Legislature of New York, 1891, and the first reservation of 250 acres was set aside by the city in 1895, and about 140 acres were added by the city in 1915. The grounds and buildings are open to the public every day in the year without charge.

Museum Building, situated a short distance from the Botanical Garden Station of the New York Central & Hudson River Railroad, has a frontage of 312 feet, is Italian Renaissance; front approach is ornamented by a bronze fountain by Carl E. Tefft and by terra-cotta and marble fountains and seats; the vista lines are formed by four parallel lines of tulip trees. Three floors are devoted to public exhibits.

There is a large public lecture hall in the basement of the museum building, in which free public lectures are given every Saturday afternoon from Spring until Autumn. The upper floor of the building contains the library of 29,000 volumes on botany, horticulture and related sciences, including several special collections; the herbarium, containing prepared and dried specimens of plants from all parts of the world, occupies the greater portion of several rooms on the upper floor and comprises some 1,500,000 specimens. There are also laboratories equipped for research on the upper floor, to which properly qualified students of botany are admitted and instructed by one or another member of the garden staff.

The Mansion—A large stone house built by the Lorillard family in 1856, stands above the Bronx River near the waterfall.

NEW YORK ZOOLOGICAL PARK.

(By W. T. Hornaday, the Director.)

THE New York Zoological Park was founded in 1895 by the New York Zoological Society, a scientific corporation. The park was formally opened Nov. 9, 1899. The grounds, many of the buildings, and an annual maintenance fund are provided by the city. The remainder of the buildings and the animal collections are furnished by the society, which is also charged with the direct management of the park.

The Zoological Park is free to the public on all days of the week except Mondays and Thursdays. Should Monday or Thursday fall on a legal holiday, admission to the Zoological Park is free. The opening and closing hours are 10 A. M. until one-half hour before sunset. On pay days admission for adults is 25 cents, and for children under twelve years, 15 cents. The park embraces a tract of 264 acres. It contains thirty-five acres of water, and its land consists of heavy forest, open forest and meadow glades, in about equal proportions. The park is about one mile long and three-fifths of a mile wide.

The principal buildings are the Elephant, Lion, Primate, Zebra, Large Bird, Reptile, Antelope, Ostrich and Small Mammal Houses, and the Aquatic Bird House. The principal open-air enclosures are the Bear Dens, Flying Cage, Pheasant Aviary, the Eagle and Vulture Aviary, Wolf and Fox Dens, Burrowing Rodent Quarters, Beaver Pond, Duck Aviary, Wild Fowl Pond and Mountain Sheep Hill. The most valuable and important mammal collections are the apes, baboons and monkeys, the lions, tigers and leopards, the zebra and wild horse collection, the antelopes and deer, the bears, and the huge specimens in the Elephant House, comprising elephants, rhinoceroses and hippopotami. The collection of living birds in the Zoological Park is the largest and most varied to be found anywhere in the world. The collection of birds of paradise, including the rare bluebird of paradise, and the collection of parrots, parakeets and lories easily rank among the finest of their kind.

During the war and for some time after its close, accessions to the park were comparatively few on account of obstacles in the way of importation and transportation, but during 1920 the park received three large shipments, one from London, one from South Africa and one from Australia, which have brought the number of species and specimens of mammals, birds and reptiles now on exhibition in the Zoological Park to the very highest record, and afford visitors to the park an opportunity to see and study rare live animals from the far corners of the earth. In 1920 the census of the collections in the park was 629 mammals representing 196 species, 2,412 birds of 797 species, and 465 reptiles and amphibians, representing 85 species. Total number of specimens, 3,606; total number of species, 1,078. The attendance of visitors for 1920 was 2,250,177, an increase over the previous year of 214,318.

Routes to the Zoological Park—*Automobiles*—Lenox Avenue north to 145th Street; across Harlem River to 149th Street, continuing to top of hill, turn left at Mott Avenue; thence north along Franz Sigel Park to Grand Boulevard and Concourse; thence along Grand Boulevard and Concourse for about two miles to Fordham Road; thence to the right and continuing to the park. *Subway*—Seventh Avenue Division, Bronx Park train to end of line at 180th Street and Boston Road entrance to the Zoological Park. Lexington Avenue Division, East 180th Street train to 177th Street and change to Bronx Park train to end of line at 180th Street. *Harlem Railroad*—Grand Central Station to Fordham Station; thence east either by cab or surface car through Pelham Avenue to Fordham entrance to the Zoological Park. *Third Avenue "L"*—To Fordham Road Station; thence east by cab or surface car through Pelham Avenue, to Fordham entrance to the Zoological Park.

BROOKLYN BOTANIC GARDEN.

THE Brooklyn Botanic Garden, located between Eastern Parkway and Empire Boulevard, and Flatbush and Washington Avenues was opened to the public on Linnaeus's birthday, May 13, 1911. The Garden comprises about 50 acres of land, on which are located the various plantations, the conservatories and the laboratory building. The object of the Garden is the advancement and diffusion of a knowledge and love of plants, and its special aim is to be of service to the local community. The grounds are open free to the public daily. The Garden is supported, in part only, by the city.

The Native Wild Flower Garden contains about 900 species that grow without cultivation within 100 miles of New York City; the Rock Garden contains over 600 species of alpine and other rock-loving plants; the Japanese Garden has been pronounced the most perfect specimen of that kind of garden in any public park in America; the general Systematic Garden, chiefly of European herbs and shrubs, occupies the central portion of the grounds; the Ecological Garden illustrates the relation of plants to various factors of environment, such as water, light, gravity, insects, etc. The Iris Garden extends along the brook, and the Children's Gardens, containing over 250 individual plots, are at the south end of the grounds. A library of over 10,000 books and pamphlets on plant life and gardening is open free to the public, and also the herbarium of over 150,000 specimens. Illustrated lectures and occasional exhibits are also open free. The Conservatories contain a collection of tropical and sub-tropical plants, including those used for food, fibre, and other economic purposes, including banana, sugar-cane, tea, coffee, rubber, hemp, papyrus, figs, citrus fruits, etc

MUSEUMS OF THE BROOKLYN INSTITUTE OF ARTS AND SCIENCES.

THE Central Museum on Eastern Parkway at Washington Ave., the Children's Museum in Bedford Park, the Department of Education with activities in the Academy of Music building, the Brooklyn Botanic Garden and the Biological Laboratory at Cold Spring Harbor, L. I., are under the general management of the Trustees of the Brooklyn Institute of Arts and Sciences. They receive appropriations from the city for maintenance, and their collections are provided for entirely from private sources. The construction work is done through the Department of Parks and the bills are audited through this department. The new wing of the Central Museum was begun in 1918.

The museum contains a noteworthy collection of paintings, other objects of art, carvings, desert groups, Egyptian jewelry, archaeological gatherings, Japanese and Chinese armor, weapons, etc.

THE HALL OF FAME.

(Director, Dr. Robert Underwood Johnson.)

MARCH 5, 1900, the Council of New York University accepted a gift of $100,000, afterward increased to $250,000, from a donor, whose name was withheld, for the erection and completion on University Heights, New York City, of a building to be called "The Hall of Fame for Great Americans." A structure was built in the form of a terrace with superimposed colonnade connecting the University Hall of Philosophy with the Hall of Languages. On the ground floor is a museum 200 feet long by 40 feet wide, consisting of a corridor and six halls to contain mementoes of the names that are inscribed above. The colonnade over this is 600 feet long with provision for 150 panels, each about 2 feet by 6 feet, each to bear the name of a famous American.

Only persons who shall have been dead ten or more years are eligible to be chosen. Fifteen classes of citizens were recommended for consideration, to wit: Authors and editors, business men, educators, inventors, missionaries and explorers, philanthropists and reformers, preachers and theologians, scientists, engineers and architects, lawyers and judges, musicians, painters and sculptors, physicians and surgeons, rulers and statesmen, soldiers and sailors, distinguished men and women outside the above classes. Fifty names were to be inscribed on the tablets at the beginning, and five additional names every fifth year thereafter, until the year 2000, when the 150 inscriptions will be completed.

In February, 1904, the plan was announced of a Hall of Fame for Women near the former, with places for 50 tablets. Its foundation has been begun.

The rules prescribed that the council should invite nominations from the public. Every nomination seconded by a member of the University Senate should be submitted to an electorate of one hundred eminent citizens selected by the council. Executive office of the Hall of Fame is at No. 15 West 81st St., N. Y.

The hall was dedicated May 30, 1901, when twenty-five or more national associations each unveiled one of the bronze tablets in the colonnade, and on May 30, 1907, eleven new tablets were unveiled, orations being given by the Governors of New York and Massachusetts.

AMERICANS IN THE HALL OF FAME.

Chosen in 1900—George Washington, Abraham Lincoln, Daniel Webster, Benjamin Franklin, Ulysses S. Grant, John Marshall, Thomas Jefferson, Ralph Waldo Emerson, Henry W. Longfellow, Robert Fulton, Washington Irving, Jonathan Edwards, Samuel F. B. Morse, David G. Farragut, Henry Clay, Nathaniel Hawthorne, George Peabody, Robert E. Lee, Peter Cooper, Eli Whitney, John J. Audubon, Horace Mann, Henry Ward Beecher, James Kent, Joseph Story, John Adams, William E. Channing, Gilbert Stuart and Asa Gray.

Chosen in 1905—John Quincy Adams, James Russell Lowell, William T. Sherman, James Madison, John G. Whittier, Mary Lyon, Emma Willard, Maria Mitchell.

Chosen in 1910—Harriet Beecher Stowe, Oliver Wendell Holmes, Edgar Allan Poe, James Fenimore Cooper, Phillips Brooks, William Cullen Bryant, Frances E. Willard, Andrew Jackson, George Bancroft, John Lathrop Motley.

Chosen in 1915—Alexander Hamilton, Mark Hopkins, Francis Parkman, Louis Agassiz, Elias Howe, Joseph Henry, Rufus Choate, Daniel Boone, Charlotte Cushman. Of these Hamilton and Agassiz had been elected in 1905 to the separate hall proposed for famous foreign-born Americans. When the Constitution was amended in 1914, to do away with the line of discrimination between native-born and foreign-born, it was required that the four foreign-born, already chosen, be re-elected in competition with the native-born put in nomination. Two above named were approved, while John Paul Jones and Roger Williams lacked the votes.

Chosen in 1920—Samuel L. Clemens (Mark Twain), James B. Eads, Patrick Henry, William T. G. Morton, Augustus Saint-Gaudens, Roger Williams, Alice Freeman Palmer.

Total to date—Fifty-six men, seven women.

On May 21, 1921, there was a public unveiling at the Hall of Fame on University Heights of twenty-six bronze tablets bearing the names of men and women who have been elected in this and previous elections, thirty-seven tablets having already been unveiled.

MONUMENTS AND STATUES IN MANHATTAN.

ARTHUR, CHESTER A., Madison Square.
BARTHOLDI STATUE, see "Liberty."
BEAR AND FAUN FOUNTAIN (Seligman), Morningside Park and 116th St.
BEETHOVEN, bronze bust, on a granite pedestal 15 feet high, Central Park, on the Mall; unveiled 1884.
BOLIVAR, GEN. SIMON, Bolivar Hill, Central Park West; unveiled 1921.
BROWNSON, ORESTES A., bronze bust of, Riverside Park and 104th St.
BRYANT, WILLIAM CULLEN, Bryant Park, W. 42d St. and 6th Ave.
BURNS, bronze statue, Central Park, on the Mall; unveiled 1880.
BUTTERFIELD, GENERAL DANIEL, bronze figure, on marble pedestal. Claremont Ave. and 122nd St.
CARRERE, JOHN M., memorial to, Riverside Drive and 99th St.
COLUMBUS MONUMENT, 8th Ave. and 59th St. (Columbus Circle).
COLUMBUS, marble statue, south entrance to Mall, Central Park; unveiled 1892.
COMMERCE, bronze figure, Central Park, near the 8th Ave. and 59th entrance; unveiled 1865.
CONKLING, bronze statue, Madison Square Park, cor. Madison Ave. and 23d St.
COOPER, PETER, statue opposite Cooper Union.
COX, bronze statue of the statesman S. S. Cox, erected by the letter carriers, Astor Place.
DE PEYSTER, ABRAHAM, statue in Bowling Green.
DODGE, bronze statue of William E. Dodge, at Broadway, 6th Ave. and 36th St.; unveiled 1885.
EAGLE AND PREY, bronze group, Central Park, west of Mall.
ERICSSON, statue of the inventor, on the Battery.
FALCONER, THE, Central Park near W. 72d St. entrance
FARRAGUT, bronze statue, Madison Square Park, near 5th Ave. and 26th St.
FIREMEN'S MEMORIAL MONUMENT, 100th St. and Riverside Drive.
FORT WASHINGTON MONUMENT, Fort Washington Ave. and 183d St.
FOUNTAIN, 116th St. and Riverside Drive.
FRANKLIN, bronze statue, Printing House Square; unveiled 1872.
GARIBALDI, bronze statue, Washington Square; unveiled 1888.
GRANT, ULYSSES S., tomb, Riverside Drive and 123d St.; 160 feet high; dedicated April 27, 1897.
GREELEY, bronze statue, City Hall Park, unveiled 1890.
GREELEY, Greeley Square, 33d St. and Broadway.
HALE, bronze statue of Nathan Hale, martyr spy of the Revolution; City Hall Park, near Broadway and Mail St. Temporarily in City Hall Plaza.
HALLECK, bronze statue, Central Park, on the Mall; unveiled 1877.
HAMILTON, granite statue of Alexander Hamilton, Central Park, on the East Drive.
HANCOCK, in Hancock Square, St. Nicholas Ave. and W. 124th St.
HEINE, poet, Lorelei Fountain, Mott Ave. and 161st St.
HOLLEY, bronze bust of Alexander Holley, Washington Square; unveiled 1890.
HUDSON, HENRY, 100 foot shaft, Spuyten Duyvil.
HUMBOLDT, bronze bust, Central Park, near the 5th Ave. and 59th St. entrance.
HUNT, RICHARD M., Memorial, 5th Ave., opposite Lenox Library.
INDIAN HUNTER, bronze figure, Central Park, near lower entrance to the Mall.
IRVING, bronze bust, Bryant Park, on W. 40th St.; unveiled 1866.
JACK PHILIPS TITANIC MEMORIAL, U. S. Barge Office.
JEFFERSON STATUE, City Hall.
JEFFERSON, THOMAS, in front of the Pulitzer School of Journalism, Columbia University.
JOAN OF ARC, Riverside Drive and 93d St.
LAFAYETTE, bronze statue, Union Square, lower end of Park; unveiled 1876.
LIBERTY ENLIGHTENING THE WORLD, on Bedloe's Island, in the Harbor.
LINCOLN, bronze statue, Union Square, southwest corner; unveiled 1868.
LOWELL DRINKING FOUNTAIN, Bryant Park
MAINE, U. S. S., MEMORIAL, National, Columbus Circle.
MARTYRS MONUMENT, Trinity Churchyard, in memory of the American soldiers and sailors who died in the British prison ships in the Revolutionary War.
MAZZINI, bronze bust, Central Park, on the West Drive.
MOORE, bronze bust of Thomas Moore, the poet, Central Park, near the Pond and 5th Ave. entrance; unveiled 1880.
MORSE, bronze statue of the inventor of the telegraph, Central Park, near 5th Ave. and 72d St.
OBELISK, Central Park, near the Metropolitan Museum of Art; brought from Egypt and erected 1881; granite, 70 feet long, and weighs 200 tons.
PULITZER FOUNTAIN, 5th Ave. and 59th St.
SCHILLER, bronze bust, Central Park, in the Ramble; unveiled 1859.
SCHURZ, CARL, statue, 116th St. and Morningside Drive.
SCOTT, bronze statue of Sir Walter Scott, Central Park, on the Mall; unveiled 1872.
SEVENTH REGIMENT, bronze figure of a soldier of this regiment, to commemorate its dead in the Civil War, Central Park, on the West Drive.
SEWARD, bronze statue, southwest corner of Madison Square Park; unveiled 1876.
SHAKESPEARE, bronze statue, Central Park, at the lower end of the Mall, unveiled 1872.
SHERMAN, GENERAL, equestrian statue, 5th Ave. and 59th St.
SIGEL, FRANZ, bronze monument, 106th St. and Riverside Drive; unveiled in October, 1907.
SIMS, bronze statue of Dr. Marion Sims, Bryant Park, north side.
SOLDIER OF GREENWICH VILLAGE, bronze World War memorial, Abingdon Sq. Park.
SOLDIERS AND SAILORS' MONUMENT, Riverside Drive.
STEAD, W. T., tablet in memory of; in Central Park wall, 5th Ave. and 91st St. July 1921.
STILL HUNT, bronze statue, Central P'k. opp. 76th St.
STRAUS MEMORIAL, Broadway and 106th St.
STUYVESANT, marble effigy of Gov. Peter Stuyvesant in the outer wall of St. Mark's Church.
THE PILGRIM, bronze statue, Central Park, near E. 72d St. entrance.
THORWALDSEN, bronze statue, 59th St., facing 6th Ave.
TIGRESS AND CUBS, bronze group, Central Park near 64th St.
VERDI, statue, Sherman Square.
VERRAZZANO, statue, Battery Park.
WASHINGTON AND LAFAYETTE, bronze statue, W. 114th St., Morningside and Manhattan Aves.
WASHINGTON, bronze bust, City Hall.
WASHINGTON, bronze equestrian statue, Union Square, southeast side.
WASHINGTON, bronze statue, at the entrance to the Sub-Treasury Building, Wall St.; unveiled 1883.
WASHINGTON MARBLE ARCH, Washington Square, at the foot of 5th Ave. There are now two statues of Washington on the Arch—one representing Washington as President and the other as Commander-in-Chief of the Army.
WATER GATE, foot of W. 110th St., where Henry Hudson landed.
WEBB, ALEXANDER S., bronze statue of, near main building, College of the City of New York.
WEBSTER, bronze statue, Central Park, on the West Drive, near 72d St.
WORLD WAR MEMORIAL, Chelsea Park, unveiled 1921.
WORTH, granite shaft in honor of Major General Worth, U. S. A., at Broadway and 25th St.

The bronze Lafayette panel, Prospect Park, at 9th St., Brooklyn, was dedicated on May 10, 1917. Marshal Joffre, hero of the Marne, unveiled the statue, which was accepted for the city by Mayor Mitchel. Former Premier Viviani, who headed the French Commission to the United States, spoke, as did Marquis de Chambrun, great-grandson of Lafayette. The work cost $35,000, the gift of the Henry Marteau estate. The sculptor was Daniel Chester French. The monument consists of a panel of bronze about 12 feet long and 10 feet high, against which is a figure of Lafayette in the uniform of a General in the Continental Army, with a negro holding his horse's head. The panel rests against a structure of granite of Italian Renaissance design.

THE NEW YORK PUBLIC LIBRARY.

(Prepared for the ALMANAC by Edmund L. Pearson, Editor of Publications of the Library.)

THE corporate existence of the New York Public Library began May 23, 1895, by the consolidation of the Astor Library, the Lenox Library and the Tilden Trust. The Astor Library, incorporated 1849, owned at the time of consolidation a fund of $941,000 and 266,147 books. The Lenox Library, incorporated 1870, owned in 1895 a fund of $505,500 and 86,000 books. The Tilden Trust (founded by Samuel J. Tilden, who died 1886), brought to the library $2,000,000. In 1901, the New York Free Circulating Library, with 11 branches, was consolidated with the new system. Between 1901 and 1904, the New York Free Circulating Library for the Blind, the Aguilar, St. Agnes, Harlem, Tottenville, Washington Heights, University Settlement, Webster, and Cathedral Libraries all joined the corporation. In 1901, Andrew Carnegie gave $5,200,000 to Greater New York for library buildings, on condition that the city provide the land and maintain the libraries when built. With the part of this sum which was assigned to the New York Public Library, 37 branch libraries have been built. (The Boroughs of Brooklyn and Queens have their own libraries. The New York Public Library serves the Boroughs of Manhattan, the Bronx and Richmond.) There are in the New York Public Library, 42 branches in all. In addition there are six sub-branches, in buildings not owned by the library. In 1909, John S. Kennedy left the library $3,000,000.

The central building of the library, Fifth Avenue and 42d Street, built by the city, was opened May 23, 1911; cost, $9,000,000; architects, Carrère and Hastings; hours, weekdays, including holidays, 9 A. M. to 10 P. M. Sundays, 1 P. M. to 10 P. M. It contains the Reference Department, the descendant of the Astor and Lenox Libraries, and the headquarters of the Circulation Department (the branch libraries). Reference Department has 1,471,724 books and pamphlets; the Circulation Department has 1,157,414 books. Exceeded in size only by the Library of Congress in this country, and by two or three European libraries, it is the first library in the world in point of use. The average annual number of persons recorded as using the Reference Department, 1916-1920, was 868,323. The actual use is much larger; the count includes only those who apply on written slips for books. The average annual number of books lent for home use by the Circulation Department, 1916-1920, was 10,003,381. Between 6,000 and 10,000 persons enter the Central Building daily. To maintain the Reference Department in 1920 the library disbursed $930,170.45, chiefly from its own endowments. In 1920 the disbursement for the Municipal Reference Branch, in the Municipal Building, was $20,531.87, of which sum the city gave $20,217.17. For the Circulation Department in 1920 was expended $1,117,571.01, of which the city gave $1,022,048.15. No public funds are spent for books, salaries, or other costs of the Reference Department in the Central Building, or for the Central Circulation Branch and Central Children's Room in that building.

The branch library buildings usually contain lending and reference departments for adults, similar departments for children, lecture rooms used for meetings for educational purposes and for organizations for social betterment. The branch libraries work in concert with the schools, and pay special attention to the Americanization of foreign born citizens. The Reference Department, in the Central Building, in addition to its main reading room, with seats for 768 readers, has special rooms devoted to art and prints, American history, maps, manuscripts, music, genealogy, Slavonic literature, Jewish literature, Oriental literature, economics and public documents, books for the blind, current periodicals, science and technology, and current newspapers. There are three exhibition rooms and two galleries, which are devoted to the Lenox and Stuart art collections, with portraits of Washington, by Gilbert Stuart, paintings by Reynolds, Raeburn, Copley, Turner, etc. The Avery collection of prints is notable. Valuable books include the Astor and Lenox collections, particularly strong in Americana, with many early printed Bibles, first folio Shakespeares, etc.; and the Spencer collection of illustrated books in fine bindings.

The library has 1,218 employees, counting both departments. A training school for librarians is maintained in the building. Director of the Library, Edwin H. Anderson. Chief Reference Librarian, Harry M. Lydenberg. Chief of Circulation Department, Franklin F. Hopper.

THE SCHOOL OF JOURNALISM.

THE School of Journalism, at Columbia University, founded and endowed by the late Joseph Pulitzer, opened in September, 1912, and a year later entered its new building, at 116th St. and Broadway. The Director is J. W. Cunliffe; the Director Emeritus, Dr. Talcott Williams. One-fourth of the 140 students are from New York City and vicinity. There are a reference-library of 10,000 books, a file of 50 daily papers (American and foreign), and a "morgue" of 500,000 newspaper clips.

Advisory Board—Nicholas Murray Butler, Columbia University, N. Y. City; Solomon B. Griffin (1915-1923), *Springfield Republican*, Springfield, Mass.; John Langdon Heaton, *The World*, N. Y. City; Arthur M. Howe (1919-1923), *Brooklyn Daily Eagle*; Victor Fremont Lawson, *Chicago Daily News;* Robert Lincoln O'Brien (1919-1923), *Boston Herald;* Charles Ransom Miller, *New York Times;* Edward Page Mitchell, *The Sun*, N. Y. City; Joseph Pulitzer, Jr. (1920-1924), *St. Louis Post-Dispatch;* Ralph Pulitzer, *The World*, N. Y. City; Melville Elijah Stone, Associated Press, N. Y. City; Samuel Calvin Wells, Philadelphia, Pa.; Charles G. Proffitt, A. M., *Executive Secretary, Alumni Fed.;* Claire M. Howard, Ph. D., *Adviser to Women Students in Journalism;* Alice Miller Hitchcock, *Librarian.*

Administrative Board—President Butler, Prof. Cunliffe, Dean Hawkes, Prof. Roscoe Brown, Prof A. H. Thorndike, Prof. Pitkin, Prof. Seager, Prof. C. P. Cooper.

1920 PULITZER PRIZES AND TRAVELLING SCHOLARSHIPS.

(Awarded in May, 1921.)

For the most disinterested and meritorious public service rendered by any American newspaper during the year—$500 gold medal to the *Boston Post* for its work in exposure of Get-Rich-Quick Ponzi.

For the best example of a reporter's work during the year; the test being strict accuracy, terseness, the accomplishment of some public good commanding public attention and respect—$1,000 to Louis Seibold of *The World*, for his interview with President Wilson, published June 18, 1920.

For the American novel published during the year which shall best present the wholesome atmosphere of American life, and the highest standard of American manners and manhood—$1,000 to Edith Wharton, authoress of *The Age of Innocence.*

For the best book of the year upon the history of the United States—$2,000 to *The Victory at Sea*, by Rear Admiral William Snowden Sims, in collaboration with Burton J. Hendrick.

For the best American biography teaching patriotic and unselfish services to the people, illustrated by an eminent example, excluding, as too obvious, the names of George Washington and Abraham Lincoln —$1,000 to *The Americanization of Edward Bok* (autobiography).

Three travelling scholarships, having the value of $1,500 each, to graduates of the School of Journalism, who shall have passed their examinations with the highest honor and are otherwise most deserving, to enable each of them to spend a year in Europe to study the social, political and moral conditions of the people, and the character and principles of the European press—Won by: 1. Martha Francis Drewry, of Petersburg, Va.; 2. Girard Chaput, of Holyoke, Mass.; 3. Edward Harrison Collins, of Brooklyn, N. Y. *Alternates:* 1. Howard Palfrey Jones, of Milwaukee, Wis.; 2. Frank Fraser Bond, of St. John's, Newfoundland; 3. Charles Mowbray Davidson, of Boise, Idaho.

An annual scholarship, having the value of $1,500, to the student of music in America who may be deemed the most talented and deserving, in order that he may continue his studies with the advantage of European instruction—Awarded to Foster M. Hankins, 26, self-taught violinist, of Winston-Salem, N. C., for his *Symphony in F Minor. An annual scholarship*, having the value of $1,500, to an art student in America, who shall be certified as the most promising and deserving by the National Academy of Design, with which the Society of American Artists has been merged—Awarded to Vincent Nesbert, 23, of Pittsburgh. *Annual prize of Sigma Delta Chi*, professional fraternity in the School of Journalism, for practical journalistic work outside the curriculum's requirements—Won by Jesse T. Hiller, Alex. G. Henderson, The World's correspondent at Columbia University, and Robert A. Curry received first and second honorable mention, respectively.

There will be, it is announced, two new prizes, to be awarded in 1922—$500 for the best cartoon; and $1,000 for the best book of verse.

Of the eighty-eight candidates (graduates of New York City public schools) for the Pulitzer Scholarships at Columbia University, 1921, over fifty passed the examinations. Each Pulitzer scholar receives upon the usual conditions of satisfactory performance, a stipend of $250 and, in addition, free tuition if he attends Columbia University.

PUBLIC MARKETS IN NEW YORK CITY.

Under the supervision of the Municipal Department of Public Markets.

THE public markets are West Washington, Gansevoort, Washington, Jefferson and Delancey in Manattan, and Wallabout in Brooklyn.

Washington Market, at Fulton and West Streets, covers an area of 175 x 203 feet, and was established 1812. Meat, fish and game, butter, eggs, cheese, fruits and vegetables are sold there. The city charges r space in this market.

West Washington Market, established in 1889 at Gansevoort and West Streets, covers 369 x 400 feet. here are ten buildings—two-story structures in blocks of twenty stands, with marketing space on the first oor and offices on the second. It is a wholesale market in which meat, garden produce and live poultry e sold. The stalls are leased.

Jefferson Market, at Greenwich Avenue and Sixth Avenue, occupies 36,000 square feet. This is a retail arket. Space is rented by the city to dealers.

Gansevoort Market, an open square bounded by West, Little West Twelfth, Washington and Gansevoort Streets, has no buildings of any kind. It is by legislation restricted to the use of farmers and gardeners r the sale of products they themselves have grown. Each farmer is charged 25 cents daily. It is mostly wholesale market for dealers.

Delancey Street Market is under the approach to Williamsburg Bridge at Pitt and Willett Streets, where sh, vegetables and fruits and miscellaneous dry goods are sold. It occupies a space 400 x 100 feet.

Harlem Market—Under Harlem Bridge, 130th Street and 3d Avenue. Things are sold at retail.

Queensboro Market, retail, under Queensboro Bridge; Manhattan approach, 1st Avenue, Avenue A, 0th and 60th Streets.

Wallabout Market has an area of thirty-six acres. It extends from Clinton Avenue to East Avenue, to Vallabout Basin. The city owns the land and the ground is leased. Many farmers use this market to sell eir produce to dealers, and pay 25 cents a day for each wagon space in the market. Mostly all the purases are wholesale.

Jamaica Public Market, parallel to L. I. R. R., Archer Avenue and Twombley Place. This is a farm roduce market, established, April, 1920.

There are about 30 open air street (pushcart) markets in Manhattan, 2 in the Bronx, and 12 in Brooklyn, nder the direction of a supervisor of the Department of Public Markets. Prices are regulated by the epartment, and are sanctioned by the Board of Aldermen.

PUBLIC BATHS IN THE BRONX.

The only Municipal bath in the Borough of the Bronx is located at 156th St. and Elton Ave.

INSTITUTIONAL CARE FOR N. Y. CITY'S TUBERCULOUS.

PERSONS suffering from tuberculosis, suitable for and desiring institutional care, are received in hospitals nd sanatoria belonging to the city, or are accepted as proper public charges in those under private manageent which have the certificate of the State Board of Charities that they comply with its rules and regulaions, after they have been accepted by the Commissioners of the Department of Public Welfare through he Tuberculosis Hospital Admission Bureau, at 124 E. 59th Street, Manhattan, or (for Otisville Sanatorium nd Riverside Hospital) by the Department of Health's Hospital Diagnosis Station, at 128 Prince Street, anhattan. Patients are examined at the Tuberculosis Hospital Admission Bureau on Monday, Wednesay and Friday, between 9 A. M. and 12 o'clock noon; children, for preventoria, on Tuesdays and Thursdays rom 9 to 10.30 A. M. The hours of the Department of Health's Hospital Diagnosis Station are 2 to 4 P. M. Monday, Wednesday and Friday. Applications for Ray Brook, Otisville, and Bedford sanatoria and Farmingdale and St. Agatha's preventoria are to be written out in duplicate, on special forms, by the patients' hysicians or by the Tuberculosis Clinic of the district wherein the pateint resides.

Laws Governing Free Treatment.—The laws of the State and city place certain restrictions upon the xtension of relief by the City of New York. These are as follows:

Financial Condition.—Persons who are without means to pay for their treatment, and whose relatives, legally responsible, are unable to do so, are entitled to care at city expense.

Residence.—One year's residence in Greater New York is required for all hospital, sanatoria and preentoria cases. Applicants for Ray Brook Sanatorium must have been citizens of the United States for at east one year, and residents of the city for one year.

Aliens.—These are persons who have resided in the United States for less than five years, and are not itizens. If sick, they are entitled to hospital care, pending arrangement for their deportation to the ountry from which they emigrated.

Non-Residents.—Persons coming from another State, where they have a legal residence, and who ave been in Greater New York for less than one year, come under this classification. These persons, if ick, are entitled to hospital care, but must be referred to the State Board of Charities for transportation ack to the town of their last legal settlement. The State Department of Public Charities cares for cases n New York State.

A New York law (chapter 900, approved May 21, 1920) provides for the listing and recommendation y the State Commissioner of Health of private institutions and dwellings found suitable for the board nd lodging of tuberculous patients, and further provides for State aid to tuberculous patients, not bedidden, who are unable to pay either in whole or in part for such board and lodging. A fixed and uniform ate of payment for board and lodging is prescribed by the State Department of Health, except that the ate of payment is determined by the City Department of Health and the Commissioner of Health as to atients residing in cities of the first class.

PLACES OF AMUSEMENT IN NEW YORK CITY.

(Seating capacity and Fire Department figures in parenthesis. Where there are no figures, in the case of new theatres, the capacity was not officially fixed when The Almanac went to press.)

NEW YORK CITY PENSION LAW.

(Chapter 427, Laws of 1920, effective Oct. 1, 1920.)

The New York City Pension Law provides that all employees, except those in exempt class, entering the city service after Oct. 1, 1920, shall become members of this system and all present city employees may become members by filing with the Board of Estimate and Apportionment a statement waiving all present or prospective benefits in other city retirement systems. The Board of Estimate and Apportionment has charge of all funds and of the entire system; the Comptroller is the custodian of the several funds, which are (1) Annuity savings funds, (2) Annuity reserve fund, (3) Contingent reserve fund, (4) Pension reserve fund, (5) Pension fund.

Teachers, policemen, firemen and street-cleaners do not enter into this system, as they have their own.

Among the provisions of this law are life insurance protection equal to the last six months' pay of the employee, disability insurance protection of from one-quarter to one-half of the salary any time after completing ten years of service and paying as long as the disability continues, a three-quarter pay pension if the employee is disabled in the performance of duty, a half-pay pension to the dependents with return in cash of all the contributions at 4 per cent. per annum if the employee is killed in the performance of duty, retirement on demand after the ages of fifty-eight, fifty-nine and sixty, regardless of the length of service.

The city pays for all of these benefits except one-half of the cost of service or superannuation retirement benefit on account of service during membership in the fund. If the employee joins within the first year, the city also pays the entire cost of the benefits allowed by reason of service rendered prior to Oct. 1, 1920. The amount of the salary paid into the pension fund will be from 3 to 8 per cent.

CIVIL SERVICE RULES IN THE CITY OF NEW YORK.

SYNOPSIS of regulations governing the admission of persons into the Civil Service of the City of New York. Information may also be had by applying to the Secretary of the Municipal Civil Service Commission, Municipal Building, 14th floor.

Under the White Civil Service Law, Chapter 370, Laws of 1899, April 19, the rules apply to all positions in the service of the City of New York except officers elected by the people, all legislative officers and employés, heads of any department, or superintendents, principals, or teachers in a public school, academy, or college. This requires "examinations, wherever practicable, to ascertain the fitness of applicants for appointment to the Civil Service of said city." The Constitution requires that these examinations shall be competitive, "so far as practicable."

There are approximately 55,000 permanent employees in the city service, exclusive of the teaching force of the Department of Education.

The entire Administration of the City of New York is divided into two general services, namely: The Unclassified Service and the Classified Service. The Unclassified Service includes all elective officers; the officers and employés of the Board of Aldermen; members of the Board of Elections; the head, or heads, of any department of the City Government; or any person appointed by name in any statute.

The Classified Service includes all positions not in the Unclassified Service.

The Classified Service is divided into four classes, namely:

EXEMPT CLASS—The Exempt Class includes the deputies of principal executive officers authorized by law to act generally for and in place of their principals; one secretary of each officer, board, and commission authorized by law to appoint a secretary; one clerk and one deputy clerk, if authorized by law, of each court, and one clerk of each elective judicial officer. In addition thereto there may be included in the Exempt Class all other subordinate offices for the filling of which competitive or non-competitive examination may be found to be not practicable.

NON-COMPETITIVE CLASS—Includes all those positions of a minor nature, in the city institutions or elsewhere, that it is not practicable to fill through competitive examination.

LABOR CLASS—Includes all unskilled laborers and such skilled laborers as are not included in the competitive or non-competitive classes.

COMPETITIVE CLASS—Includes all positions in the Classified Service (excepting those in the Exempt, Non-Competitive or the Labor Class) for which it is practicable to determine the merit and fitness of the applicant by competitive examination.

Vacancies in the Exempt Class may be filled without examination, appointments being made by the Mayor or other official having jurisdiction over the department where the vacancy exists.

Positions in the Non-Competitive Class are filled as a result of the examinations held by the department where the person is to be employed.

FILING APPLICATIONS FOR POSITIONS IN COMPETITIVE CLASS—Applications for positions in the Competitive Class will be issued and received only for the position or positions advertised, and only during the period specified by the commission in such advertisement. Advertisements for the various examinations appear in the prominent daily papers and in the *City Record*. The *City Record* is on file in the reading room of any of the city libraries.

All applications for an examination must be on a prescribed form addressed to the "Secretary of the Municipal Civil Service Commission." When an examination is advertised application blanks may be obtained at the office of the commission, Room 1400.

Application blanks will be mailed upon request provided a self-addressed stamped envelope or sufficient postage is enclosed to cover the mailing. The commission will not guarantee the delivery of the same. Postage on applications forwarded by mail must be fully prepaid.

Applicants must be citizens of the United States and residents of the State of New York. The requirement as to residence may be waived by the commission, but only with the proviso that applicants become residents of the State of New York prior to the date of their appointment.

Applicants for patrolmen must have resided within the State of New York at least one (1) year prior to the date of appointment.

The prescribed application form filled out in the applicant's handwriting sets forth the following:

The applicant's name, age, residence, statement regarding citizenship or naturalization, statement regarding arrests or previous service in a City Department, if any, and also the certificate for citizens whose residences or places of business are within the City of New York.

In examinations for positions requiring previous experience, applicants must fill in and file with their application an experience paper. In some examinations where experience is a qualifying subject, applicants receiving less than the minimum passing mark in this paper are barred from the remainder of the examination.

Applications for positions in the Labor Class are issued and received continually.

Applicants for all positions in the Competitive and the Labor Classes are required to take a medical and physical examination.

Applicants for Labor Class positions that require previous training or experience must take an oral or practical test; no written examination is given to applicants.

CONDUCT OF EXAMINATIONS.

Applicants shall be admitted to examination upon the production of the official notification to appear for that purpose.

All paper upon which examinations are to be written shall be furnished to the applicants by the examining board and shall bear some suitable official indorsement, stamp, or mark, for the purpose of identifying the same.

All examinations shall be in writing, except such as refer to expertness or physical qualities, and except as herein otherwise provided.

The sheets of questions shall be numbered and shall be given out in the order of their numbers, each, after the first, being given only when the competitor has returned to the examiners the last sheet given to him. In general, no examination shall extend beyond five hours without intermission, and no questions given out at any session, to any candidate, shall be allowed to be answered at another session.

The time allowed for completing the examination shall be announced before the first paper is given out.

The following municipal departments and offices come under jurisdiction of Civil Service rules:

Accounts, Com. of.
Armory, Board of.
Art Commission.
Assessors, Board of.
Bellevue and Allied Hospitals.
Board of Ambulance Service

Taxes and Assessm'ts, Dept. of.
Tenement House Dept.
Water Supply, Gas, and Electricity, Dept. of.
Weights and Measures.

Inspectors of Elections and Poll Clerks are not subject to competitive examination.

The minimum height of firemen has been reduced one inch, from 5 ft. 7 in. to 5 ft 6 in.

BASEBALL.

BALL playing was popular in Egypt 4,000 years ago, and a leather ball has been used ever since t almost every country including China. But batting the ball is a modern innovation. According to th Commission appointed at A. G. Spalding's suggestion in 1907 baseball originated in the United States and the first scheme for playing it was devised by Major Gen. Abner Doubleday, in 1839, at Cooperstown N. Y. The game was developed from Town Ball into a diamond-shaped field, and a code of playin rules was adopted by the Knickerbocker Base Ball Club of New York, in 1845. In 1858 the National Assc ciation of Base Ball Players was formed, and the first game with an admission fee was played July 20, a the Fashion Race Course, near Jamaica, L. I., between the New York and Brooklyn clubs. The first tou of an organized club was made through New York State, in 1860, by the Excelsiors of Brooklyn. Tl first Eastern club to tour the West was the National, of Washington, D. C. The first professional baseba club (1869) was the Cincinnati (Red Stockings), formed in 1866 as an amateur organization. The Na tional Association of Professional Base Ball Players was formed in 1871 (with 10 clubs); the Nation League of Professional Base Ball Clubs, in 1876; the American Association, in 1882; the American Leagu in 1902.

The World's Series of 1921 was played between the New York Nationals and the New York American All games were played at the Polo Grounds, New York City, between Oct. 5 and 13. The New York Nationals won five out of eight games. New attendance and receipt records were established. The reco by games:

RACQUETS, COURT TENNIS, SQUASH.

COURT TENNIS.

Jan. 15—Jock Soutar won Professional Court Tennis Championship by defeating C. J. Fairs, 6—5, 6—6, 5—6, 6—4, 6—2, at Philadelphia.

Jan. 19-21—Jay Gould won Open Court Tennis Championship by defeating Jock Soutar, 6—5, 6—2, 6—6, 6—4, 6—0, 6—2, at Philadelphia.

April 9—Jay Gould won National Amateur Court Tennis Championship by defeating C. S. Cutting, 6—5, 6—1, 6—0, at Boston.

April 16—Jay Gould and J. W. Wear won National Court Tennis Doubles Championship by defeating J. Crane and G. R. Fearing, 6—4, 6—2, 6—3.

RACQUETS.

Jan. 15—F. T. Frelinghuysen and A. G. Mortimer won Canadian Doubles Racquets Championship by defeating A. C. Cassils and A. W. Wilson, 4—15, 15—13, 15—11, 15—10, 15—12, at Montreal.

Jan. 16—C. C. Pell won Canadian Racquet Championship by defeating H. Dickson, 15—10, 15—8, 15—10, at Montreal.

Feb. 13—C. C. Pell won the Gold Racquet Competition by defeating H. Morgan, 15—9, 15—11, 12—15, 15—11, at Tuxedo Park, N. Y.

Feb. 22—C. C. Pell won National Racquet Championship by defeating A. G. Mortimer, 15—6, 12—15, 8—15, 15—6, 15—0, at New York City.

March 13—C. C. Pell and A. G. Mortimer won National Racquets Doubles Championship by defeating Jay Gould and J. W. Wear, 15—12, 11—15, 9—15, 15—10, 15—13, 4—15, 15—5., at Boston.

SQUASH.

Jan. 29—T. R. Coward won National Class B Squash Championship by defeating F. S. Whitlock, 15—4, 10—15, 15—8, 15—9, at New York City.

Feb. 12—F. Van S. Hyde won National Squash Tennis Championship by defeating Jay Gould, 15—9, 15—5, 16—18, 18—15, at New York City.

Feb. 20—C. C. Peabody won Canadian Squash Racquet Championship by defeating A. Powers, 15—6, 15—12, 8—15, 15—13, at Montreal.

Feb. 28—S. W. Pearson won National Squash Racquet Championship by defeating H. Morgan, 15—8, 15—6, 15—8.

ASSOCIATION (SOCCER) FOOTBALL.

U. S. Football Association National Challenge Cup competition series, emblematic of national championship. Final round at Fall River, Mass., April 19. Robins Dry Dock F. C. (Brooklyn), 4; Scullin Steel F. C. (St. Louis), 2.

PREVIOUS WINNERS.

1913-14—At Pawtucket, R. I., May 16, 1914; Brooklyn Field Club, 2; Brooklyn Celtic F. C., 1; referee, Charles E. Creighton, New York City.

1914-15—At Taylor Stadium, Lehigh University, South Bethlehem, Pa., May 1, 1915; Bethlehem Steel Co. F. C., 3; Brooklyn Celtic F. C., 1; referee, George Lambie, Boston, Mass.

1915-16—At Pawtucket, R. I., May 6, 1916; Bethlehem Steel Co. F. C., 1; Fall River Rovers F. C., 0; referee, David M. Whyte, Brooklyn, N. Y.

1916-17—At Pawtucket, R. I., May 5, 1917; Fall River Rovers F. C., 1; Bethlehem Steel Co. F. C., 0; referee, William Taylor, Pawtucket, R. I.

1918-19—At Harrison, N. J., May 19, 1918; Bethlehem Steel Co. F. C., 3; Fall River Rovers F. C., 0; referee, C. E. Creighton, New York City.

1919-20—At Fall River, Mass., April 19, 1920; Bethlehem Steel Co., F. C., 2; Paterson (N. J.), F. C., 0.

1920-21—At. St. Louis, May 2, 1921; Ben Miller A. C. (St. Louis), 2; Fall River F. C. (Quincy, Mass.), 1.

ENGLISH CHAMPIONSHIPS.

Tottenham Hotspurs, 1; Wolverhampton Wanderers, 0. Final round played at Stamford Bridge, London April, 23.

ROWING.

YALE VS. HARVARD—VARSITY EIGHTS.

YALE and Harvard eights have rowed fifty-three races, beginning in 1852 on Lake Winnepesaukee, at two miles, when Harvard won. In 1855 the course was changed to Springfield and lengthened to three miles. Lake Quinsigamond was the scene for nine years, and Lake Saltonsall for 1869. After an interval of seven years the crews in 1876-77 went to Springfield, Mass., when the four-mile course was inaugurated. In 1878 the crews changed again to New London, Conn. The records:

DATE.	Won By.	TIME. Winner.	TIME. Loser.	DATE.	Won By.	TIME. Winner.	TIME. Loser.

WORLD'S PROFESSIONAL SCULLING CHAMPIONSHIPS SINCE 1880.

Earnest Barry, professional champion from 1912 to 1919, who lost title to Alfred Felton, regained championship by defeating latter in return match rowed on the Parramatta River, N. S. W., Aug. 28, 1920, by twelve lengths in slow time. Previous races:

1880—E. Hanlan, Toronto, Canada, beat E. Trickett, Putney to Mortlake, November 15. Time—26m. 12s.

1881—E. Hanlan beat E. C. Laycock, Sydney, N. S. W., Putney to Mortlake, February 14. Time—25m. 41s.

SCULLING CHAMPIONSHIPS—*Continued.*

1882—E. Hanlan beat R. W. Boyd, on Tyne, April 3. Time—21m. 25s.
1882—E. Hanlan beat E. Trickett, Putney to Mortlake, May 1. Time—28m. 00s.
1884—E. Hanlan beat E. C. Laycock, on Nepean River, N. S. W., May 22. Time not taken.
1884—W. Beach, Dapto, N. S. W., beat E. Hanlan, on Parramatta River, N. S. W., August 16. Time not taken.
1885—W. Beach beat T. Clifford, Dapto, N. S. W., on Parramatta River, N. S. W., February 28 Time—26m. 00s.
1885—W. Beach beat E. Hanlan, on Parramatta River, N. S. W., March 28. Time—22m. 51s.
1885—W. Beach beat N. Matterson, Sydney, N. S. W., on Parramatta River, N. S. W., Decembe 18. Time—24m. 11s.
1886—W. Beach beat J. Gaudaur, St. Louis, U. S. A., Putney to Mortlake, September 18. Time—22m. 29s.
1886—W. Beach beat Wallace Ross, St. John's, N. B., Putney to Mortlake, September 25. Time—23m. 5s.
1887—W. Beach beat E. Hanlan, on Nepean River, N. S. W., November 26. Time—19m. 55s.
1888—P. Kemp, Sydney, N. S. W., beat T. Clifford, on Parramatta River, N. S. W., February 1 Time—23m. 47s.
1888—P. Kemp beat E. Hanlan, on Parramatta River, N. S. W., May 5. Time—21m. 36s.
1888—P. Kemp beat E. Hanlan, on Parramatta River, N. S. W., September 28. Time—21m. 25s.
1888—H. E. Searle, Grafton, N. S. W., beat P. Kemp, on Parramatta River, N. S. W., October 2 Time—22m. 44s.
1889—H. E. Searle beat W. O'Connor, Toronto, Canada, Putney to Mortlake, September 9. Time—22m. 42s.
1890—J. Stanbury, N. S. W., beat W. O'Connor, on Parramatta River, N. S. W., June 30. Time—22m. 59s.
1891—J. Stanbury beat J. McLean, N. S. W., on Parramatta River, N. S. W., April 28. Time not take
1892—J. Stanbury beat T. Sullivan, New Zealand, on Parramatta River, N. S. W., May 2. Time—17m. 26⅕s.
1896—J. Stanbury beat C. R. Harding, Putney to Mortlake, July 13. Time—21m. 51s.
1896—J. Gaudaur beat J. Stanbury, Putney to Mortlake, September 7. Time 23m. 01s.
1901—G. Towns beat Jake Gaudaur, Rat Portage, Canada. Time—20m. 30s.
1904—G. Towns beat R. Tressider, on Parramatta River, N. S. W. Time—21m. 49s.
1905—J. Stanbury beat G. Towns, on Parramatta River, N. S. W., July 22. Time—(unofficia 19m. 50s.
1906—G. Towns beat J. Stanbury, on Parramatta River, N. S. W., July 28. Time—19m. 53 1-5s.
1907†—G. Towns beat E. Durnan, on Nepean River, N. S. W., March 2. Time—22m. 27s.
1907—W. Webb beat C. Towns, on Parramatta River, N. S. W., August 3. Time—20m. 45s.
1908—W. Webb beat R. Tressider, on Wanganui River, February 25. Time—20m. 28s.
1908—R. Arnst beat W. Webb, on Wanganui River, December 15. Time—19m. 52s.
1909—R. Arnst beat W. Webb, on Wanganui River, June 22. Time—18m. 15s.
1910—R. Arnst beat G. Whelch, Akaroa Harbor, N. Z., April 4. Time not given.
1910—R. Arnst beat E. Barry, Zambesi, Rhodesia, August 18. Time—20m. 14 3-5s.
1911—R. Arnst beat Harry Pearce, on Parramatta River, N. S. W., July 29. Time—19m. 46s.
1912—E. Barry beat R. Arnst on Thames River, London, England, July 29. Time—23m. 8s.
1912—E. Barry beat E. Durnan, Thames River, England, October 14. Time—22m. 31s.
1919—A. Felton beat E. Barry, Thames River, England, October 27. Time—25m. 40s.
1920—E. Barry beat A. Felton, Parramatta River, N. S. W., August 28. Time—24m. 32s.
†Afterward resigned when challenged by his brother, C. Towns.
No races 1913-1918 on account of the war.

International 6-Metre Yacht Races, held off Isle of Wight, July-August. United States and England each entered four 6-metre yachts and six races were sailed. The courses were 14 miles in each race, and under the scoring system adopted the English team of yachts won by a final score of 117 to 88 points.

North Atlantic Fishing Vessel Championship Races, held off Halifax, N. S., Oct. 22-24, won by Canadian challenger Bluenose, which defeated the United States Cup defender, Elsie, in two straight races. Elsie carried away a topmast in the first race and was easily defeated by 12m. 30s. The second race was sailed in a gale, Bluenose winning again by 9m. 31s.

st single cast, any event—4-oz. lead—461 ft. made by Harold G. Lentz, Anglers' Club of ity, N. J., July 31, 1920 (world's record).

ge five casts, open field—4-oz. lead—434 ft. n., made by Harold G. Lentz, Anglers' Club i City, N. J., July 31, 1920 (world's record).

ge five casts V-shaped court—4-oz. lead—. 3 2-5 in., made by Howard Kain, Asbury C., at Asbury Park, N. J., Aug. 11, 1917.

ge five casts, 30-ft. lane—3-oz. lead—331 ft. ., made by John C. Clayton, Asbury Park t Belmar, N. J., Aug. 19, 1916.

ge five casts, 30-ft. lane—4-oz. lead—334 ft. ., made by Wm. E. Sylvester, Belmar F. C., ar, N. J., Aug. 28, 1915.

ace-accuracy—down straight line, with distad falls aside of line deducted from length of z. lead, average five casts—365 ft. 7 1-5 in., Howard Kain, Asbury Park F. C., at Ocean J., Aug. 18, 1917.

acy—nearest cast to stake 140 feet distant—ilman, Asbury Park F. C., touched stake at N. J., Aug. 25, 1917.

Longest cast of five in V-shaped court—3 or 4-oz. lead—341 ft. 8 in., Dr. Carleton Simon, Midland Beach F. C., at Ocean City, N. J., Aug. 8, 1914.

Women—Longest single cast of five, open field—4-oz. lead—238 ft. 10 1-2 in., Mrs. C. Y. Cooper, Belmar, N. J., Aug. 28, 1915.

Women—Average of three casts, open field—4-oz. lead—232 ft. 7 in., Miss Elizabeth M. Gallaher, at Belmar, N. J., Aug. 16, 1919.

Women—Average of five casts, open field—4-oz. lead—204 ft. 7 in., Mrs. C. Y. Cooper, Belmar, N. J., Aug. 28, 1915.

1921 Ocean City Cup Event—Won by Ocean City Fishing Club team, composed of Dr. J. W. Pinkham, Churchill Hungerford, jr., Raymond Riday, John Vanderherchen and G. Ed Cornman; team total, 8680 ft. 11 in. (world record). New York Casting Club team, 8266 ft. 4 in., second. Anglers' Club of Ocean City, 7719 ft. 6 in., third. Asbury Park Fishing Club team, 7355 ft. 10 in., fourth. Long Island Casting Club team, 5764 ft. 7 in., fifth. Longest single cast, 421 ft. 10 in., made by Fred J. Berger, New York Casting Club.

TENNIS.

THE feature of the national tennis season was the successful retention of the Davis Cup, emblematic of the world's team tennis championship, by the United States players. A complete summary of the results and scores of the Davis Cup preliminaries, in which ten nations competed for the privilege of meeting the American holders of the international trophy in the challenge round, follow:

FIRST ROUND—*England, 4; Spain, 1.*—R. Lycett (E.) defeated M. Alonzo (S.), 6—4, 6—2, 6—4; F. G. Lowe (E.) defeated Count de Gomar (S.), 6—3, 4—6, 6—1, 6—0; Lycett (E.) defeated De Gomar (S.) three straight sets; Alonzo (S.) defeated Lowe (E.), 8—6, 6—1, 8—6; M. Woosnam and R. Lycett (E.) defeated Alonzo and Gomar (S.), 2—6, 10—8, 6—2, 6—2. *Belgium, 3; Czecho-Slovakia, 2.*—M. Lammens (B.) defeated M. Ardelt (C.) 6—3, 6—2, 4—6, 6—1; M. Zemia (C.) defeated M. Washer (B.), 4—6, 6—3, 9—7, 2—6, 6—2; Zemia (C.) defeated Lammens (B.), 6—2, 6—4, 6—2; Washer (B.) defeated Ardelt (C.), 4—6, 7—5, 7—5, 6—3; Wasner and Lammens (B.) defeated Zemia and Just (C.), 4—6, 3—6, 8—6, 6—4, 6—0. *Australasia, 5; Canada, 0.*—J. O. Anderson (A.) defeated E. M. Lafambois (C.), 4—6, 7—5, 6—0, 6—2; J. B. Hawkes (A.) defeated P. Bennett (C.), 8—6, 6—4, 7—5; Anderson (A.) defeated Bennett (C.), 6—3, 6—0, 6—2; C. V. Todd (A.) defeated Lafambois (C.), 6—2, 6—3, 6—8, 6—2; Anderson and Todd (A.) defeated Bennett and G. D. Holmes (C.), 6—2, 6—3, 6—1. *Japan defeated Philippines by default.*

SECOND ROUND—*Australasia, 3; England, 2.*—Anderson (A.) defeated Woosnam (E.), 4—6, 6—2, 6—4, 6—4; Lowe (E.) defeated Hawkes (A.), 6—4, 6—4, 6—1; Anderson (A.) defeated Lowe (E.), 6—2, 6—3, 3—6, 6—2; Woosnam (E.) defeated Hawkes (A.), 6—3, 0—6, 7—9, 6—2, 6—3; Anderson and Todd (A.) defeated Woosnam and Turnbull (E.), 4—6, 9—7, 6—2, 6—4. *India, 3, France, 1.*—J. Samajueilh (F.) defeated Jacobs (I.), 6—3, 8—6, 9—7; M. Sleem (I.) defeated W. H. Laurentz (F.), 4—6, 6—2, 3—6, 6—2, 6—0; Sleem (I.) de Samajueilh (F.), 6—1, 6—3, 6—3; A. H. Fyz L. Dean (I.) defeated Laurentz and Brugnon 6—1, 5—7, 2—6, 6—2, 6—4. *Denmark a Argentina by default. Japan defeated Belgi default.*

SEMI-FINAL ROUND—*Australasia, 5; De 0.*—J. O. Anderson (A.) defeated Eric Tegne 6—0, 6—2, 6—1; Norman Peach (A.) defeate Ingersley (D.), 3—6, 6—2, 6—0, 3—6, 6—2; son (A.) defeated Vagn Ingersley (D.), 6—0 7—5; Peach (A.) defeated Tegner (D.), 7—5 6—4; Anderson and Todd (A.) defeated Tegn Henricksen (D.), 6—3, 6—3, 6—2. *Jap India, 0.*—I. Kumagae (J.) defeated M. Slee 9—7, 6—1, 6—1; Z. Shimidzu (J.) defeated Fyzee (I.), 6—2, 6—1, 9—7, Kumagae (J.) d Fyzee (I.), 3—6, 6—3, 6—3, 9—; Shimidzu feated Sleem (I.), 7—5, 2—6, 6—0, 6—2; Ku and Shimidzu (J.) defeated Fyzee and Dea 6—1, 6—1, 2—6, 2—6, 6—0

FINAL ROUND—*Japan, 4; Australasia,* Shimidzu (J.) defeated J. O. Anderson (A.) 7—5, 6—4; I. Kumagae (J.) defeated J. B. H (A.), 3—6, 2—6, 8—6, 6—2, 6—3; I. Kumag defeated J. O. Anderson (A.), 3—6, 7—5 6—2, 6—1; Z. Shimidzu (J.) defeated J. B. (A.), 4—6, 6—3, 6—2, 6—2; Anderson and (A.) defeated Shimidzu and Kumagae (J.) 6—3, 6—2, 6—2.

CHALLENGE ROUND—*United States, 5, 0.—First Day*—William M. Johnson (U. S.) d I. Kumagae (J.), 6—3, 6—4, 6—2; William T 2d (U. S.) defeated Z. Merion Cricket Club won the Halifax Cup York was represented in the competition by Field, this being the first time an individu from New York competed. R. F. Anderson Frankford Club won the batting average and Clotnier of the Germantown won the bowling a

The Interstate game between Rhode Isla Massachusetts, played July 4, at Boston, w by Massachusetts by 46 runs.

Australia defeated England in the test winning 3, the other 2 being drawn.

Middlesex won the English County Ch ship in 1921.

The highest individual scores of the seas hit by Gordon Bottomley, 173, in the United and C. R. Summerville, Jr., 212, not out, in

H. Livingston of the Pittsburgh Field Clu lished a record for the United States by scori consecutive centuries in one week in a tou held in Chicago in August, 1907; a similar performed by H. N. R. Coblet in Canada in a ment held in Vancouver, British Columbia, in 1906. H. V. Hordern of the University of P vania established a record for the United St Canada by securing 213 wickets during 1907 King and F. F. Kelly are the only two bowl have taken over 2,000 wickets. A. C. M scored 424 for Lancashire vs. Somerset at T England, July, 1895—the record in a fi match. A. F. J. Collins, playing at Clifto 1899, for Clarke's House against North Tow 628, not out—the record in any match. Mc University scored 1,094 runs against Esse Melbourne (Australia), 1898—the highest ticated record. In a match between A. E. St English team and New South Wales, 1,739 r scored—a record in first-class cricket. The partnership on record was 623 runs by Capt and Private Fitzgerald, First Royal Munster vs. Army Service Corps at Curragh, 1895. I match in Australia F. R. Spofforth bowled 6 10 wickets of his opponents in each inning without parallel. F. R. Spofforth on the Au tour in 1878 took 764 wickets—a world's recor W. G. Grace, the world's greatest cricketer, d 23, 1915. He hit up 217 centuries during his which will not likely ever be equalled.

Best records in the United States and Can by G. S. Patterson eleven playing against Woods eleven at Philadelphia, scoring 689 1894. Australians against Vancouver scor for 8 wickets in 1913. J. B. King scored 344 Belmont against Merion B. in 1906. W. Ro 206, not out, and A. G. Sheath, 118, not out 340 runs in partnership, without the loss of a at San Francisco in 1894. Smallest score, A 0 against Roseville at Guttenberg, N. J., 1 The smallest score in international match in States, West Indians 13 against Australian Smallest score in Canada, Winnipeg 6 Australians, 1913. Largest score in the Metro District Cricket League Championship, New Athletic Club 385 runs for 5 wickets again hattan, at Bayonne, N. J., 1897.

Seven centuries in a season, P. J. Higgins Angeles in 1912, 159, 100, 100, 121, 182, 110, 1

G. S. Patterson of the Germantown C. C 1,748 runs in season of 1892—a record for the States. Rev. F. W. Terry of Toronto C. C 1,509 runs in season of 1892—a record for Ca

MOTOR BOAT RACING.

HE Harmsworth Trophy, emblematic of the world's motor boat speed championship, won, retained ault, at the International Regatta held at Detroit, Sept. 5. The Maple Leaf VII., challenger, entered Mackey Edgar, Royal Motor Yacht Club of Great Britain, sprang a leak during the first race and ank after being towed from the course. Following the challenger's withdrawal, the three defending completed the race with the appended result:

Boat.	Owner.	Club.	Time, 40 Miles.	Average.
America II.	Gar. Wood	Detroit Y. C.	46m. 16.23s.	59.8 M. P. H.
Chicago	S. Clark	Chicago Y. C.	Distanced.

Totals	27½	27	20	18½	15	13	13	10	10

Other point winners follow: Syracuse, 8; first in the 220-yard dash and third in the 100-yard dash Woodring. Lafayette, 9; second in both dashes with Le Coney and fifth in the one-mile run. Georgetov first in the one-mile run with J. Connelly. Rutgers, 4; fourth in the quarter and fourth in the 220 hurdles. Holy Cross, 3; third in the shot-put. Columbia, 1½, in pole vault. Bowdoin, 1, fifth in ham

Results by events:

TRACK EVENTS—*100-Yard Dash*—Won by M. M. Kirksey, Stanford; Le Coney, Lafayette, second; A. Woodring, Syracuse, third; R. K. Hutchinson, University of California, fourth; H. B. Lever, University of Pennsylvania, fifth. Time—0.10. *220-Yard Dash*—Won by Allen Woodring, Syracuse; Le Coney, Lafayette, second; R. K. Hutchinson, California, third; R. O. Davison, Cornell, fourth; R. S. Maxam, Pennsylvania, fifth. Time—0.21 2-5. *440-Yard Run*—Won by O. O. Hendrixson, California; R. S. Maxam, University of Pennsylvania, second; W. Stephenson, Princeton, third; H. Ray, Rutgers, fourth; R. G. Smith, Cornell, fifth. Time—0.49. *Half Mile*—Won by E. W. Eby, University of Pennsylvania; A. B. Sprott, University of California, second; G. Bawden, Massachusetts Institute of Technology, third; U. B. Demming, Penn State, fourth; J. F. Cook, Cornell, fifth. Time—1.55 1-5. *Mile Run*—Won by J. J. Connolly, Georgetown; L. A. Brown, University of Pennsylvania, second; D. F. O'Connell, Harvard, third; D. B. Strickler, Cornell, fourth; R. Crawford, Lafayette, fifth. Time—4.17 1-5. *Two-Mile Run*—Won by R. C. Brown, Cornell; J. L. Romig, Penn State, second; C. M. Dorr, California, third; W. K. McMahon, M. I. T., fourth; N. P. Brown, Cornell, fifth;. Time—9.32. *120-Yard Hurdles*—Won by E. J. Thomson, Dartmouth; C. G. Krogness, yard, second; H. E. Barron, Penn State, third W. Williams, Leland Stanford, fourth; E. F. Sm University of Pennsylvania, fifth. Time—0.14 *220-Yard Hurdles*—Won by E. J. Thomson, I mouth; L. Falk, Stanford, second; W. Wells, ford, third; H. Meyers, Rutgers, fourth; F Smalley, University of Pennsylvania, fifth. Ti 0.24 2-5.

FIELD EVENTS—*Shot Put*—Won by J. A. burn, Dartmouth, 45 ft. 3 1-2 in.; C. Halsey, Pr ton, 45 ft. 3 3-8 in., second; T. G. Dinan, Holy C 44 ft. 5 1-8 in., third; J. R. Tolbert, Harvard, 3 3-8 in., fourth; R. E. Jordan, Yale, 43 ft. 1 fifth. *High Jump*—Tie between R. W. Lar Yale, and H. P. Muller, California, at 6 ft. 3 1- L. T. Brown, Dartmouth, 6 ft. 2 1-2 in., third between R. Williams, Stanford, W. H. Lathrop, nell, and C. G. Krogness, Harvard, for fourth. *mer Throw*—Won by G. Dandrow, Massachu Institute of Technology, 157 ft. 4 1-2 in.; J. F. Br Harvard, 149 ft. 1 in., second; T. Speers, Prince 141 ft. 1 in., third; L. H. Weld, Dartmouth, 14 9 3-4 in., fourth; T. D. Tootel, Bowdoin, 14 1 1-2 in., fifth. *Pole Vault*—Tie between A Norris, California, R. W. Harwood, Harvard, G. D. Brown, Yale, at 12 feet; tie between R Burtt, Columbia, and J. W. Temple, Universi

Pennsylvania, for fourth, at 11 ft. 6 in. *Broad Jump*—Won by E. O. Gourdin, Harvard, 23 ft. 6 3-4 in.; C. G. Krogness, Harvard, 22 ft. 6 5-8 in., second; D. Lourie, Princeton, 22 ft. 4 3-8 in., third; H. P. Muller, California, 22 ft. 3 1-4 in., fourth; R. S. Grubb, Penn State, 21 ft. 9 in., fifth.

WESTERN CONFERENCE.

Twenty-first Annual Championship Western Conference Athletic Association held at Chicago, June 4. Point winners: Illinois, 61; Michigan, 35 1-5; Wisconsin, 29; Notre Dame, 25; Iowa, 17 1-2; Ames, 4; Missouri, 11; Ohio State, 10; Northwestern, 13; Purdue, 9; Minnesota, 9; Chicago, 3; Michigan Aggies, 3; Butler, 1. Individual events winners:

TRACK EVENTS—*100-Yard Dash*—Won by Hayes, Notre Dame; Wilson, Iowa, second; Rohner, Purdue, third; Losch, Michigan, fourth; Prescott, Illinois, fifth. Time—9 4-5s. Ties conference record held jointly by Blair, Chicago; May, Illinois, and Ward, Chicago. *120-Yard High Hurdles*—Won by Knollin, Wisconsin; Crawford, Iowa, second; Anderson, Minnesota, third; Wallace, Illinois, fourth; Bootan, Northwestern, fifth. Time—15s. *220-Yard Dash*—Won by Wilson, Iowa; Hayes, Notre Dame, second; Simmons, Michigan, third; Moorehead, Ohio, fourth; Hultkrans, Minnesota, fifth. Time—22s. *220-Yard Low Hurdles*—Won by Knollin, Wisconsin; Wallace, Illinois, second; Anderson, Minnesota, third; Desch, Notre Dame, fourth; Ettenger, Ohio, fifth. Time—24 3-5s. *440-Yard Run*—Won by Butler, Michigan; Szold, Northwestern, second; Degay, Michigan Aggies, third; Chiappazzi, Illinois, fourth; Donohue, Illinois, fifth. Time—51s. *Half-Mile Run*—Won by Higgins, Ames; Yates, Illinois, second; Nash, Wisconsin, third; Webb, Ames, fourth; Buckholder, Michigan, fifth. *One-Mile Run*—Won by Wall, Wisconsin; McGinnis, Illinois, second; Patterson, Illinois, third; Sweltzer, Minnesota, fourth; Ferguson, Ohio, fifth. Time—4m. 31 2-5s. *Two-Mile Run*—Won by Wharton, Illinois; Rathbun, Ames, second; Furnas, C. C. Purdue, third; Altman, Illinois, fourth; Doolittle, Butler, fifth. Time—9m. 43 1-5s.

FIELD EVENTS—*High Jump*—Won by Murphy, Notre Dame; Osborne, Illinois and Alberti, Illinois, tied for second and third; Hoffman, Iowa, and Walker, Michigan, tied for fourth and fifth place. Height—6 ft., 2 7-8 in., new conference record. *Broad Jump*—Won by Crulkshank, Michigan; Hamilton, Missouri, second; Stincheomb, Ohio, third; Sundt, Wisconsin, fourth; Osborne, Illinois, fifth. Distance—23 ft. 2 1-2 in. *Javelin Throw*—Won by Hoffman, Michigan; Dunne, Michigan, second; Brede, Illinois, third; Hamilton, Missouri, fourth; Sundt, Wisconsin, fifth. Distance—178 ft. 4 in., new conference record. *Discus Throw*—Won by Blackwood, Northwestern; Weiss, Illinois, second; Miller, Purdue, third; Carlson, Illinois, fourth; Spiers, Ohio, fifth. Distance—145 ft., 1-2 in. *Shot Put*—Won by Shaw, Notre Dame; Vanorden, Michigan, second; Weiss, Illinois, third; Sundt, Wisconsin, fourth; Hamilton, Missouri, fifth. Distance—43 ft. *Pole Vault*—Won by Merrick, Wisconsin; Hamilton, Missouri, second; Hogan, Notre Dame, third; Devine, A. A. Iowa, fourth; Wilder, Wisconsin, fifth. Height—12 ft. *Hammer Throw*—Won by Hill, Illinois; Furness, Illinois, second; Blackwood, Northwestern, third; White, Ohio, fourth; Redmon, Chicago, fifth. Distance—129 ft. *One-Mile Relay*—Won by Michigan; Illinois, second; Ames, third; Chicago, fourth; Notre Dame, fifth. Time—3m. 26 2-5s.

BEST CONFERENCE RECORDS.

100-Yard Dash—9 4-5s., W. Ward, May, Chicago, June 1, 1907, and June 6, 1908, and J. Ward, Chicago, Urbana, Ill., June 5, 1915, and W. Hayes, Notre Dame, Chicago, June 4, 1921. *220-Yard Run* (around a turn)—22s., William Hogenson, Chicago, June 3, 1905; H. J. Huff, Grinnell, June 1, 1907. *Straightaway*—21 3-5s. J. Ward, Chicago, Urbana, Ill., June 5, 1915, and J. Scholz, Missouri, Ann Arbor, June 5, 1920. *440-Yard Run*—47 2-5s., Bluga Dismond, Chicago, Evanston, Ill., June 3, 1916. *880-Yard Run*—1m. 53 1-5s., Don Scott, Mississippi A. and A., Evanston, Ill., June 3, 1916. *One-Mile Run*—4m. 15 4-5s., E. H. Fall, Oberlin, Chicago, Ill., June 9, 1917. *Two-Mile Run*—9m. 29 3-5s., C. J. Stout, Chicago, Evanston, June 3, 1916. *120-Yard High Hurdles*—14 3-5s., Robert Simpson, Missouri, Evanston, Ill., June 3, 1916. *220-Yard Low Hurdles*—23 4-5s., Robert Simpson, Missouri, Evanston, Ill., June 3, 1916. *Pole Vault*—12 ft. 8 1-4 in., J. K. Gold, Madison, Wis., June 7, 1913. *Running High Jump*—6 ft. 2 7-8 in., J. Murphy, Notre Dame, Chicago, June 4, 1921. *Running Broad Jump*—24 ft. 1 in., C. E. Johnson, Michigan, Chicago, Ill., June 7, 1919. *Putting 16-Pound Shot*—47 ft. 1-4 in., Ralph Rose, Michigan, June 4, 1904. *Throwing 16-Pound Hammer*—160 ft. 4 in., K. Shattuck, California, Madison, Wis., June 7, 1913. *Throwing the Discus*—155 ft. 2 in., A. M. Mucks, Wisconsin, Evanston, Ill., June 3, 1916. *One-Mile Relay* (4 men)—3m. 21 4-5s., Chicago (Campbell, Stegemann, Cornwall, Dismond), Urbana, Ill., June 5, 1915, and Illinois (Donohue, Prescott, Spink, Emery), Ann Arbor, June 5, 1920. *Javelin Throw*—178 ft. 4 in., Hoffman, Michigan, Chicago, June 4, 1921.

INDOOR CHAMPIONSHIPS.

Western Conference Indoor Championships held at Chicago, March 19. Point winners: Northwestern, 45; Michigan, 25 1-2; Wisconsin, 23. Individual winners: *One-Mile Run*—Won by Sweltzer, Minnesota; Wall, Wisconsin, second; Harbison, Purdue, third; Hart, Northwestern, fourth. Time—4m. 31 2-5s. *440-Yard Dash*—Won by Butler, Michigan; Donohue, Illinois, second; Fields, Illinois, third; Kaiser, Wisconsin, fourth. Time—51 4-5s. *50-Yard Dash*—Won by Simmons, Michigan; Losch, Michigan, second; Knollin, Wisconsin, third; Wilson, Iowa, fourth. Time—5 3-5s. *60-Yard Hurdle*—Won by Knollin, Wisconsin; Wallace, Illinois, second. Sargent, Michigan, third; Crawford, Iowa, fourth; Time—7 3-5s. (ties conference record). *Running High Jump*—Won by Alberts, Illinois; Osborne, Illinois, second; Hoffman, Iowa, and Pence, Purdue, tied for third. Height—6 ft. 4 1-8 in. New conference record. *Two-Mile Run*—Won by Wharton, Illinois; Allman, Illinois, second; Dusenberry, Illinois, third; Gaumnitz, Minnesota, fourth. Time—9m. 46 3-5s. *Pole Vault*—Wilder and Merrick of Wisconsin, tied for first and second; Westbrook of Michigan and McGregor of Purdue, tied for third and fourth. Height—12 ft. *880-Yard Run*—Won by Yates, Illinois; Brown, Illinois, second; Nash,

Wisconsin, third; Burkholder, Michigan, fourth. Time—1m. 59 4-5s. *One-Mile Relay*—Won by Illinois (Schlapprizzi, Sweet, Fields and Donohue); Michigan, second; Chicago, third; Wisconsin, fourth. Time—3m. 29 1-5s. *Shot Put*—Won by Weiss, Illinois; Vanorden, Michigan, second; Stipe, Michigan, third; Sundt, Wisconsin, fourth. Distance—43 ft. 2 1-2 in.

NEW ENGLAND INTERCOLLEGIATES.

Held at Cambridge, Mass., May 21. Point scores: Massachusetts Tech., 46; Williams, 21; Holy Cross, 11; Bates and Brown, 10 each; Amherst, 8; Colby, 7; New Hampshire State, 6; Wesleyan, 5; Bowdoin and Worcester Tech., 3 each; Maine, 1. Individual winners:

TRACK EVENTS—*100-Yard Dash*—Won by J. F. S. Carter, Brown; C. B. Miller, Williams, second; T. W. Bossert, M. I. T., third; T. P. Spitz, M. I. T., fourth. Time—10 1-5s. *220-Yard Dash*—Won by J. W. Driscoll, Boston College; J. F. S. Carter, Brown, second; L. V. Dodge, Williams, third; D. F. Thomas, Maine, fourth. Time—22 3-5s. *120-Yard Hurdles*—Won by W. E. Weise, Colby; J. J. Sullivan, Boston College, second; Philip Phillips, Williams, third; O. A. Mills, M. I. T., fourth. Time—15 4-5s. *440-Yard Run*—Won by J. W. Driscoll, Boston College; O. L. Bardes, M. I. T., second; C. H. Stowers, Williams, third; W. C. Forstall, Brown, fourth. Time—49 1-5s. (New record. Previous mark made in 1911 by J. D. Lester, Williams.) *220-Yard Hurdles*—Won by J. J. Sullivan, Boston College; K. E. Carrington, Wesleyan, second; W. E. Weise, Colby, third; Franklin Wing, Amherst, fourth. Time—25 2-5s. *880-Yard Run*—Won by G. Bawden, M. I. T.; T. J. King, Holy Cross, second; C. S. Richmond, Williams, third; J. B. Sheppard, Vermont, fourth. Time—1m. 57s. *Mile Run*—Won by Richard S. Buker, Bates; J. W. Crofts, Williams, second; H. R. Coan, Williams, third; E. E. Sanborn, M. I. T., fourth. Time—4m. 22 1-5s. *Two-Mile Run*—Won by Raymond B. Buker, Bates; W. K. MacMahon, M. I. T., second; Cecil E. Leath, New Hampshire, third; R. E. Hendrie, M. I. T., fourth. Time—9m. 43s.

FIELD EVENTS—*Pole Vault*—Won by M. F. Sheldon, M. I. T., 11 ft. 6 in.; P. M. Stearns, M. I. T., A. H. Fletcher, M. I. T., and A. H. Chapin, Jr., Williams, tied, at 11 ft., for second. *Discus Throw*—Won by W. N. Pinkham, M. I. T., 127 ft. 1-2 in.; A. H. Sawyer, New Hampshire, 126 ft. 8 1-2 in., second; A. B. Ferris, Holy Cross, 125 ft. 3 1-4 in., third; C. G. Dandrow, M. I. T., 124 ft. 4 1-2 in., fourth. *High Jump*—Won by R. H. Clarke, Amherst, 5 ft. 10 1-2 in.; V. B. Darling, Amherst, and E. A. Merrill and W. B. Greenlough, both M. I. T., 5 ft. 8 3-4 in., tied for second. *Hammer Throw*—Won by C. G. Dandrow, M. I. T., 153 ft. 3 in.; T. D. Tootel, Bowdoin, 133 ft. 10 in., second; A. R. Tonon, M. I. T., 129 ft. 1-4 in., third; A. H. Sawyer, New Hampshire, 124 ft. 11 1-2 in., fourth. *Shot Put*—Won by T. G. Dignan, Holy Cross, 43 ft. 2 1-4 in.; C. G. Dandrow, M. I. T., 41 ft. 3 1-2 in., second; R. W. Chutter, Vermont, 38 ft. 4 in., third; W. A. Case, Holy Cross, 37 ft. 9 in., fourth. Point Score: M. I. T., 46; Boston College, 23; Williams, 21; Holy Cross, 11; Brown, 10; Bates, 10; Amherst, 8; Colby, 7; New Hampshire, 6; Wesleyan, 5; Bowdoin, 3; Vermont, 3; Maine, 1.

INTERNATIONAL MEETS.

Harvard and Yale vs. Oxford and Cambridge, held at Boston, July 23. Won by Harvard and Yale, 8 events to 2, first places only counting.

Individual winners: *100-Yard Dash*—Won by E. O. Gourdin, Harvard; H. M. Abrahams, Cambridge, second; S. H. Feldman, Yale, third. B. D. Rudd, Oxford, fourth. Time—10 1-5s. *220-Yard High Hurdles*—Won by C. G. Krogness, Harvard; A. Hulman, Yale, second; L. F. Partridge, Cambridge, third; W. S. Kent-Hughes, Oxford, fourth. Time—15 2-5s. (Equals series record.) *440-Yard Run*—Won by B. G. D. Rudd, Oxford; G. J. Chapman, Yale, second; T. C. Coxe, Yale, third; R. C. Gregory, Cambridge, fourth. Time—49s. (New series record.) *880-Yard Run*—Won by T. Campbell, Yale; B. G. D. Rudd, Oxford, second; E. W. Siemens, Yale, third; N. R. Milligan, Oxford, fourth. Time—1m. 55s. *One-Mile Run*—Won by M. D. Stallard, Cambridge; N. G. Tatham, Cambridge, second; H. W. Hilles, Yale, third. Time—4m. 20 2-5s. (A series record.) *Two-Mile Run*—Won by M. K. Douglas, Yale; W. R. Seagrove, Cambridge, second; E. C. Van Der Pyl, Yale, third. Time—9m. 32 1-5s. *Running Broad Jump*—Won by E. O. Gourdin, Harvard, 25 ft. 3 in.; H. M. Abrahams, Cambridge, 22 ft. 1 in., second; C. J. Krogness, 21 ft. 7 3-4 in., third; L. St. C. Ingraham, 20 ft. 6 in., fourth. (New world's record.) *Running High Jump*—Won by R. W. Landon, Yale, 6 ft. 3 in.; C. G. Krogness, Harvard, 6 ft., second; B. Burns, Cambridge, 5 ft. 11 in., third; R. T. Dickinson, Oxford, 5 ft. 10 in., fourth. (New series record.) *16-Pound Shot Put*—Won by J. R. Tolbert, Harvard, 43 ft. 5 in.; R. E. Jordan, Yale, 42 ft. 6 1-2 in., second; A. L. Reese, Oxford, 41 ft. 9 1-2 in., third; H. Watthouse, Cambridge, 39 ft. 3-8 in., ourth. *16-Pound Hammer Throw*—Won by J. F. Brown, Harvard, 159 ft. 3 3-4 in.; M. C. Nokes, Oxford, 156 ft. 1 in., second; P. E. Cruikshank, Yale, 123 ft. 3 1-4 in., third; N. F. Burt, Cambridge, 122 ft. 2 1-2 in., fourth. (New series record.)

Oxford and Cambridge vs. Princeton and Cornell held at Travers Island, N. Y., July 28. Result a tie, each team scoring five firsts. Individual winners:

TRACK EVENTS—*100-Yard Dash*—Won by Abrahams, Cambridge; Lovejoy, Cornell, second; McKim, Princeton, third; Rudd, Oxford, fourth. Time—10 2-5s. *120-Yard High Hurdles*—Won by Massey, Princeton; Partridge, Cambridge, second; no third. Time—15 4-5s. *440-Yard Dash*—Won by Stevenson, Princeton; Rudd, Oxford, second; Johnson, Cornell, third; Gregory, Cambridge, fourth. Time—49 3-5s. *Half-Mile Run*—Won by Rudd, Oxford; Milligan, Oxford, second; Johnson, Princeton, third; Carter, Cornell, fourth. Time—1m. 56 4-5s. *Mile Run*—Won by Stallard, Cambridge; Irish, Cornell, second; McCulloch, Princeton, third; Kent-Hughes, Oxford, fourth. Time—4m. 23 4-5s. *Three-Mile Run*—Won by Forseman, Princeton; Seagrove, Cambridge, second; no third. Time—18m. 3-5s.

FIELD EVENTS—*High Jump*—Won by Stanley, Cornell, 5 ft. 8 3-4 in.; Brunder, Princeton, and Dickinson, Oxford, tied for second at 5 ft. 7 1-2 in.; Burr, Cambridge, third. *Broad Jump*—Won by Abrahams, Cambridge, 21 ft. 8 in.; Lourie, Princeton, 21 ft. 5 in., second; Ingram, Oxford, 21 ft. 4 1-2 in., third; Nichols, Cornell, 21 ft. 1 in., fourth. *Pound Shot Put*—Won by Halsey, Princeton, 43 ft. 9 in.; Reese, Oxford, 40 ft 7 in., second; Gooden, Cornell, 39 ft. 7 1-2 in., third; Waterhouse, Cambridge, 39 ft. 5 3-4 in., fourth. *16-Pound Hammer Throw*—Won by Nokes, Oxford, 160 ft. 7 in., a new international intercollegiate record; Baker, Princeton, 145 ft. 6 in., second; Wagar, Cornell, 128 ft. 3-16 in., third; Burt, Cambridge, 121 ft. 5 3-4 in., fourth.

PENNSYLVANIA RELAY CARNIVAL.

The twenty-seventh annual relay championship held at Franklin Field, Philadelphia, April 29. Results: College pentathlon championship won by R. Legendre, Georgetown, with 10 points.

NAME AND COLLEGE.	Broad Jump.	Javelin.	200 Metres.	Discus.	1,500 Metres

S. 10, Manhattan; Walter Ashcroft, P. S. 11, Brooklyn; Arnold Kahn, P. S. 10, Manhattan, and James Edwards, P. S. 3, Brooklyn), second. Time—1.31 1-5. *One-Mile Relay Race, High Schools, Juniors*—Won by Chicago (Melvin Larson, Lane H. S.; John Sweet, Senn H. S.; O'Neil Farrell, Austin H. S., and Howard Storch, Senn H. S.); New York (William F. Adler, Stuyvesant H. S.; Bert Mayer, Vander Childs H. S.; Richard Kline, George Washington H. S., and Allen Potts, Commercial H. S.), second. Time—2.58. *One-Mile Relay Race, High Schools, Seniors*—Won by Chicago (Ray Johnson, Austin H. S.; Claude Brignall, Englewood H. S.; Philip Pfleger, Lane H. S., and Leon Emmert, Senn H. S.); New York (Milton Hamon, De Witt Clinton H. S.; Frederick Gruman, Brooklyn Vocational School; Herbert Purvis, Stuyvesant H. S., and Louis Alpern, Morris H. S.), second. Time—2.52. Point score: Chicago, 58 points; New York, 29 points.

New England Skating Association Championship, Brookline, Mass., Feb. 6. Results: *220-Yard New England Championship*—Won by J. J. Hennessy, Hanover, N. H.; John Rogers, New Bedford, Mass., second; Terry Conners, Stamford, Conn., third. Time—0.25. *880-Yard New England Championship*—Won by J. J. Hennessy, Hanover, N. H.; Terry Conners, Stamford, Conn., second; John Miller, Hartford, Conn., third. Time—2.00. *One-Mile New England Championship*—Won by J. J. Hennessy, Hanover, N. H.; John Miller, Hartford, Conn., second; Ralph Pasbo, Springfield, Mass., third. Time—3.59 1-5. *Three-Mile New England Championship*—Won by John Miller, Hartford, Conn.; T. A. Corcoran, Cambridge, Mass., second; J. J. Hennessy, Hanover, N. H., third. Time—12.00. *880-Yard Ladies' Race*—Won by Jennie S. Engelmann, Hartford, Conn.; Dorothy M. Baker, Boston, Mass., second; Mrs. Jewel Pitt, Hartford, Conn., third. Time—2.30. *One Mile, Boys Under 17 Years*—Won by A. Wanser, Dorchester, Mass.; A. L. May, Cambridge, Mass., second; Wm. E. Wilson, Dorchester, Mass., third. Time—4.45. *One-Third Mile Backward*—Won by T. H. Jones, Dorchester, Mass.; H. McCarthy, South Boston, Mass., second; Mr. Skinner, Boston, Mass., third. Time—1.45. *One-Half Mile, Boys Under 14*—Won by Wm. E. Wilson, Dorchester, Mass.; V. J. Lombardo, Dorchester, Mass., second. Time—2.14.

Final point standing International Skating Circuit Competitors. The three meets comprising the circuit were the Canadian, held at Montreal; the National, held at Saranac Lake, and the International, held here at Lake Placid. The Western skaters did not compete in the Canadian meet, in which Jewtraw finished second to Russell Wheeler of Montreal, having a total of 80 points. At Saranac Lake Jewtraw carried off the National Championship with a total of 120 points. At the International meet here he added 70 points, making his total for the three meets 270. Ranking next in the total number of points was Charles I. Gorman of St. John, N. B., who has 200. He earned 70 in the Canadian meet, 70 in the National meet and 60 in the International. Joe Moore of New York City, winner of the International title, was third with a total of 150, capturing 20 in the Canadian meet, 30 in the National meet and 100 in the International. Roy McWhirter of Chicago, who did not skate in the Canadian meet, has a total of 150, having won 90 in the National meet and 60 in the International. Russell Wheeler of Montreal, who won the Canadian championship with a total of 90 points, has a circuit total of 100, scoring nothing at Saranac Lake and adding but 10 points at the International meet.

National Figure Skating Championship, held at Philadelphia, Feb. 25-28. Results: *Women's Junior*—Won by Miss Beatrice Loughlin, N. Y.; Miss Guinevere Treleaven Knott, Cohasset, Mass., second; Miss Rosalie Knapp, N. Y., third. *Women's Senior*—Won by Mrs. Theresa Weld Blanchard, Boston; Mrs. R. Cramer, N. Y., second. *Men's Junior*—Won by Ferris Greenslet, Boston; Raymond Harvey, N. Y., second; Charles A. McCarthy, Chicago, third; Elnar Josephson, N. Y., fourth; Curtis L. Tho, Philadelphia, fifth; Gunnar Palm, N. Y., sixth; Oliver P. Tatum, Philadelphia, seventh; Carl Borndle, Pittsburgh, eighth. *Men's Senior*—Won by Sherwin C. Badger, Boston; Nathaniel C. Niles, Boston, second; Edward M. Howland, Boston, third; C. J. Christensen, St. Paul, fourth; Joseph Chapman, Philadelphia, fifth. *Pair Skating*—Won by Nathaniel C. Niles and Mrs. Theresa Weld Blanchard, Boston. Mr. and Mrs. Edward M. Howland, Boston, second. Charles M. Rotch and Mrs. Channing Frothingham, Boston, third. *Waltzing*—Won by Nathaniel C. Niles and Mrs. Theresa Weld Blanchard, Boston; Sherwin C. Badger and Mrs. Channing Frothingham, Boston, second; C. J. Crulkshank and Miss Slattery, St. Paul and N. Y., third. *Ten Step*—Won by Nathaniel C. Niles and Mrs. Theresa Weld

Blanchard, Boston; C. J. Cruikshank and Miss Slattery, St. Paul and N. Y., second; Mr. and Mrs. Edward M. Howland and Charles M. Rotch and Mrs. Channing Frothingham, all of Boston, tied for third.

Special skating feats during 1921: Frank Gallagher skated 165 3-8 miles in 24 hours at Philadelphia Rink, Jan. 30-31. Ben O'Sickey and Mrs. McMillan, skating tandem, created new world record of 48 seconds at Newburgh, N. Y., Jan. 1, man-and-woman's quarter-mile race.

21	Humorist	J. B. Joel	S. Donoghue
	(Died of hemorrhage, June 27).		

* Dead heat, stakes divided."

NOTE: The Derby of 1915-6-7-8 was run at Newmarket as the "New" Derby. The 1920 Derby was run in record time of 2 minutes 34 4-5 seconds; previous best time being Lemberg's, 1910, 2 minutes 35 1-5 seconds.

The 1921 Derby was run on June 1. Humorist at 12 to 1 in the betting, won in a hard drive by a neck from Viscount Astor's Craig an Eran, while three lengths back Joseph Watson's Lemonora finished third. Lord Allen Breck, the favorite, fourth. A. K. Macomber's The Bohemian, an American bred horse, was never prominent and finished among the also rans. The time was 2 minutes, 45 seconds. The King and Queen were present.

The Derby was instituted by the twelfth Earl of Derby in 1780. A year earlier the same racing peer had started the Oaks, named after his place at Banstead Downs—the Valley of Lambert's Oaks. Lord Derby won his own race in 1787 with Sir Peter Teazle, named thus in honor of his wife, who was Miss Farren, who had been acting as Lady Teazle in "The Senool for Scandal," when Lord Derby saw her for the first time. On May 18, 1847, Lord George Bentinck moved the adjournment of the House of Commons over Derby day. This motion was moved each year until 1879.

The Derby course on Epsom Downs is left-handed, and consists of two straights and a turn—the historic Tottenham Corner.

THE TURF.

Morvich, owned by Benjamin Block, was the sensation of the American turf season. He earned 5,234 as a two-year-old, winning every race entered. But two other American horses have exceeded record in the past fifty years. In 1893, Domino, as a two-year-old, won $170,890 by capturing all races in which he was entered, and in 1907 Colin won $131,007 with twelve straight victories.

No racing in 1911 and 1912. *No time taken.

PUGILISM—DEMPSEY-CARPENTIER.

CHAMPIONSHIP bouts in the various weight classes were frequent during 1921, the feature contest being the heavyweight championship battle fought between Jack Dempsey and Georges Carpentier. The bout, which had been under discussion for almost two years, was fought at Jersey City, N. J., on Saturday, July 2. Dempsey won by a knockout in the fourth round. In every respect the contest was a record breaker from the signing of the contract on Nov. 9, 1920. The principal facts in tabulated form follow:

Result—Dempsey won by knockout in fourth round.
*Attendance—Paid admissions, 74,958.
*Net Ticket Receipts—$1,552,422.15.
Gross Gate Receipts—$1,626,580.
Principals—Jack Dempsey, of Salt Lake City, heavyweight champion of the world, defender. Georges Carpentier, of Lens, France, European heavyweight champion, challenger.
Referee—Harry Ertle.
Place—Rickard's Arena, Jersey City, N. J.
Promoter—George L. "Tex" Rickard.
Date—Saturday, July 2, 1921. 3 P. M.
Scheduled Number of Rounds—12.
Time of Rounds—Three minutes with one minute intermission.
Weight of Gloves—Eight ounces each.
Purse—Dempsey, $300,000; Carpentier, $200,000 and 50% of moving picture rights divided equally; win, lose or draw.

Price of Tickets—From $5 to $50.

Arena—Approximate cost, $650,000; seating capacity, 91,000.

Physical statistics of the boxers:

	Dempsey.	Carpentier.
Age	26	27
Weight	188	172
Height	6 ft. 1	5 ft. 11½
Reach	74 in.	73 in.
Chest (normal)	42	41
Chest (expanded)	46	43½
Waist	33	31
Neck	16½	16¾
Wrist	7½	7¼
Biceps	16¼	14½
Calf	15¼	16¾
Ankle	9	8½

BOXING.

Lack of space prevents the recording of other than important bouts. Abbreviations used follow: K. O., knockout; R. D., referee's decision; P. V., public verdict; D., draw. In case of a draw, the names of boxers in winners' and losers' columns has no significance. The letter "X" opposite date indicates such a draw.

PUGILISTIC CHAMPIONS.

All attempts to designate and classify the pugilistic champions and title holders are more or less arbitrary because of the fact that few such champions won and defended the championships at the same weight. Among the lighter weight boxers it is not at all unusual for a pugilist to be forced from one class into the next higher by growth and increased weight. The following list, dating from 1890, is generally accepted by critics and boxers as being the correct classification, although holders did not always win title from previous champions:

HEAVYWEIGHTS (over 158 lbs.)—1890-1892, John L. Sullivan; 1892-1897, James J. Corbett; 1897-1899, Robert Fitzsimmons; 1899-1906, James J. Jeffries; 1906-1908, Tommy Burns; 1908-1915, Jack Johnson; 1915-1918, Jess Willard; 1919-1921, Jack Dempsey.

MIDDLEWEIGHTS (158 lbs.)—1890-1897, Robert Fitzsimmons; 1897-1907, Tommy Ryan; 1907-1908, Stanley Ketchel; 1908, Bill Papke and Stanley Ketchel; 1908-1910, Stanley Ketchel; 1911-1913, claimed by Frank Klaus, Mike Gibbons, Ed McGoorty and Geo. Chip; 1914-1917, Al McCoy; 1917-1920, Mike O'Dowd; 1921, Johnny Wilson.

WELTERWEIGHTS (145 lbs.)—1890-1893, no recognized champion; 1894-1896, Tommy Ryan; 1896-1897, Kid McCoy; 1898-1900, Billy Smith; 1900, Rube Ferns; 1901, Matty Matthews and Rube Ferns; 1901-1904, Joe Walcott; 1904-1908, Dixie Kid; 1914-1916, Kid Graves; 1916, Jack Britton; 1917-1918, Ted (Kid) Lewis; 1919-1921, Jack Britton.

LIGHTWEIGHTS (133 lbs.)—1890-1893, Jack McAuliffe; 1893-1899, Kid Lavigne; 1899-1902, Frank Erne; 1902-1908, Joe Gans; 1908-1910, Battling Nelson; 1910-1912, Ad Wolgast; 1912-1914, Willie Ritchie; 1914-1917, Freddie Welsh; 1917-1921, Benny Leonard.

FEATHERWEIGHTS (122 lbs.)—1890-1892, no recognized champion; 1892-1897, George Dixon; 1897, Solly Smith; 1898, Solly Smith and Dave Sullivan; 1898-1900, George Dixon; 1900-1901, Terry McGovern; 1901-1904, Young Corbett; 1904-1908, Tommy Sullivan; 1908-1911, Abe Attell; 1911-1921, Johnny Kilbane.

BANTAMWEIGHTS (116 lbs.)—1890-1892, George Dixon; 1892-1894, no recognized champion; 1894-1898, Jimmy Barry; 1898-1901, no recognized champion; 1901-1903, Harry Forbes; 1903-1905, Frankie Neil; 1905-1907, no recognized champion; 1907-1913, Johnny Coulon; 1914-1915, Kid Williams; 1916-1920, Pete Herman; 1920-1921, Joe Lynch; 1921, Pete Herman, Johnny Buff.

AMATEURS.

National Amateur Athletic Union Championships, held under auspices Boston A. A., Boston, April 11-12. Results, final bouts only: *108-lb. Class*—John Hamon, Pittsburgh, defeated Willie O'Connell, New York, 3 rounds. *115-lb. Class*—George Daley, New York, defeated Pascal Colletti, New Orleans, 3 rounds. *125-lb. Class*—Dan Gartin, Philadelphia, stopped Ray Rodgers, Pittsburgh, 3 rounds. *135-lb. Class*—Ben Ponteau, New York, defeated Ed. Crozier, New York, 3 rounds. *145-lb. Class*—Charles Jenkissen, Los Angeles A. C., stopped Henry C. Bohlin, Brockton, 2 rounds. *158-lb. Class*—Sam Lagonia, New York, defeated B. Feeney, New York, 4 rounds. *175-lb. Firsts count 5 points; seconds, 3 points; thirds, 2 points; fourths, 1 point.

The series of championships having resulted in a tie of 30 points each between Frank L. Kramer and Ray Eaton for first place, it was arranged to run off the tie with a match race at one mile at Newark Velodrome, August 31. Prior to that date, Eaton had a disagreement with the management of the track over the matter of extra compensation for services, and declined to ride off the tie. Kramer rode around the course and was awarded the championship for 1921, under the rules of the National Cycling Association.

Middle Distance Sprint Championships—September 7, Newark Velodrome, 25 miles, R. J. McNamara. Fifty Mile event and Tandem championships not contested in 1921.

MOTOR-PACED COMPETITION—PROFESSIONAL, 1921.

Winners of individual championships—Quarter Mile, Chris Dotterweich; One-third Mile, One-half Mile, and One Mile, Robert A. Walthour, Jr.; Two Mile, Fred Spencer; Five Mile, Carl Hambacher.

IMPORTANT CYCLING EVENTS.

On November 16, 1919, at Sheepshead Bay, New York, Arthur Van der Stuyft rode 61 miles, 1,590 yards in one hour, behind motorcycle pace. The track was the famous two-mile motordrome, now gone. With the throwing out of the old Paul Guignard record of 63 miles, 189.8 yards, reported from Munich, Germany, September 15, 1909, by the Union Cycliste Internationale, Van der Stuyft's record becomes a world performance. It is in all events an American record

In June, 1914, Oscar Egg rode 27.50 miles unpaced in the hour, at the Velodrome Buffalo, Paris.

The two-hour paced record was made at Leipzig, Germany, October 11, 1908, by Arthur Van der Stuyft, who rode 106 miles, 1,498 yards.

The amateur one hour motor-paced record is 56 miles, 1,128 yards, and was made by Francois Cuzin, at Munich, September, 30, 1909. Cuzin completed 100 kilometres (62½ miles) in 1.05.45 2-5.

* Made in handicap.

1 hour, 24 miles 1,472 yards, George H. Collett, New York City, May 30, 1900.

The fastest time made for the mile in amateur competition was by Hans Olrt, the 1915 National and World's Champion, who at the Newark Velodrome, September 15, 1915, rode from scratch in a one-mile handicap in 1m. 53 2-5s. He finished third in the race, his time being officially taken. It does not count as a record, as he did not win the race.

In a race closed to members of the Empire City Wheelmen, of Brooklyn, N. Y., run on August 19, 1917, on the Sheepshead Bay Speedway, amateur competition records between 60 and 100 miles, inclusive,

SHEEPSHEAD BAY CLOSED RACE—*Continued.*

were broken. The time was taken every ten miles, and the new times are as follows: 70 miles, P. L. Kane, 3.07.04; 80 miles, William Henky, 3.35.08; 90 miles, R. A. Rom, 4.04.23; 100 miles, Thomas A. Kennedy, 4.33.37. As the N. C. A. racing rules do not provide for the acceptance of closed competition performances superseding open competition, the foregoing performances must be classified as Amateur Closed Competition Records.

Professional unpaced road records were established in a time trial at Los Angeles, Cal., by Fred T. Keefe, January 8, 1911, as follows: 25 miles, 1.10.00 3-5; 50 miles, 2.24.00 3-5; 75 miles, 3.44.00; 100 miles, 5.02.00.

NATIONAL A. A. U., HANDBALL CHAMPIONSHIPS.

Junior Doubles, held under the auspices of the Detroit A. C., Detroit, Mich., March 2-6—Won by A. Lee Henry and E. J. Smith, Detroit A. C. Championship Singles, held under the auspices of the Los Angeles A. C., Los Angeles, Cal., May 22-29—Won by Max Gold, Los Angeles A. C.; Geo. Klawiter, unattached, second; Bill Ranft, Los Angeles A. C. third. Championship Doubles, held under the auspices of the Los Angeles A. C., Los Angeles, Cal., May 22 to 29—Won by Geo. Klawiter, unattached, and R. Retzer, Los Angeles A. C.; Bill Ranft, Los Angeles A. C., and Max Gold, Los Angeles A. C., second; M. Laswell, Los Angeles A. C., and Gene Haskell, Los Angeles A. C., third.

FOOTBALL.

INTERCOLLEGIATE football continued to increase in popularity during the 1921 season. New attendance records were established in all parts of the country. The scores of some of the leading college teams follow:

CORNELL.			PRINCETON.			NAVY.			DARTMOUTH.

TRAPSHOOTING.

The Twenty-second Grand American Handicap Tournament, at which the national trapshooting championship titles are contested for, was held at the South Shore Country Club, Chicago, Aug. 22-27, 1921. A record was established for the number of targets thrown during the tournament—355,472 from 14 traps, which included two that were used for practice. There were 636 entries in the Grand American Handicap itself—the feature event—which was won by E. F. Haak, of Canton, Ohio, with a score of 97x100 from the 21-yard mark.

The winners of the several national championship titles competed for at this tournament were as follows:

National Singles (amateur)—Nic Arie, Kingman, Ariz. Score, 198x200.

National Singles (professional)—Art Killam, St. Louis, Mo. Score, 198x200. (Won from Mark Arie, Champaign, Ill., in shoot-off—75 to 74.)

National Singles (women's)—Mrs. Toots Randall, New York, N. Y. Score, 98x100.

National Singles (junior)—Elmer Herrold, Ashkum, Ill. Score, 48x50. (Won from J. F. Bonner, New York, N. Y., in shoot-off—18x20 to 17.)

National, 18 yards (amateur)—Nic Arie, Kingman, Ariz. Score 198x200.

National, 18 yards (professional)—Fred S. Tomlin, Glassboro, N. J. Score, 199x200. (Won from Fred Gilbert, Spirit Lake, Iowa, in shoot-off—25 to 24.)

National Doubles (amateur)—R. A. King, Delta, Col. Score, 94x100 (50 pairs). (Won from Sam S. Sharman, Salt Lake City, Utah, in double shoot-off, 10 pairs each event. Scores, King, 16-17; Sharman, 16-15).

National Doubles (professional)—Mark Arie, Champaign, Ill. Score, 93x100 (50 pairs). (Won from John Jahn, Long Grove, Iowa, after four shoot-offs, 10 pairs each event. Scores, Arie, 18, 19, 19, 20; Jahn, 18, 19, 19, 19.)

National Five-Man Team Championship—Wisconsin (F. G. Fuller, Mukwonago, 99; Oscar Larson, Waupaca, 99; C. W. Olney, West Allis, 97; C. H. Larson, Waupaca, 96, and A. J. Roberge, LaCrosse, 96). Total score, 487x500.

Sectional Ten-Man Team Championship (East vs. West)—West Team. Score, 975x1,000. Winning team—J. S. Day, San Antonio, Tex., 99; Frank Hughes, Mobridge, S. D., 99; F. M. Troeh, Vancouver, Wash., 99; E. F. Woodward, Houston, Tex., 99; C. A. Carroll, Joliet, Ill., 97; Fred Etchen, Coffeyville, Kan., 97; F. G. Fuller, Mukwonago, Wis., 97; Oscar Larson, Waupaca, Wis., 97; Harry Thoman, Huron, S. D., 97, and J. S. Frink, Worthington, Minn., 94.

TRAPSHOOTING—*Continued.*

Other events on the programme of this tournament resulted as follows:

South Shore Introductory (100 targets, 16 yards rise)—Won by Harry Thoman, Huron, S. D. Score, 100 straight. (Thoman was tied by C. E. Bonner, New York, N. Y.; Frank Hughes, Mobridge, S. D.; G. D. Williams, Miami, Fla.; Fred Harlow, Newark, Ohio; E. F. Woodward, Houston, Tex., and G. H. Ford, Indianapolis, Ind., and won in the shoot-off with 75 straight, Bonner being the runner-up with 74 breaks in the shoot-off.)

Lake Michigan Special (100 targets, 16 yards rise)—Four tied for first place with 100 straight: Fred Plum, Atlantic City, N. J.; James Underwood, St. Joseph, Mo.; Sam S. Sharman, Salt Lake City, Utah, and C. D. Coburn, Mechanicsburg, Ohio. There being no trophy for high gun a shoot-off was not necessary.

Preliminary Handicap (16 to 23 yards, 100 targets)—Won by M. L. Fox, Emery, S. D. Score, 99 from 19-yard mark.

Classification Event (five classes, shooters classified under A. T. A. Standard System): Class 1—Seven men tied with 100 straight. Won by John H. Noel, Nashville, Tenn., after breaking 99 in the shoot-off. E. W. Renfro, Butte, Mont., was runner-up with 98 in the shoot-off.

Class 2—Two tied with 100 straight. Dean Bergen, Chicago, Ill., won after shoot-off with E. F. Haak, Canton, Ohio.

Class 3—Two tied with 98. J. A. Bolen, Kansas City, Mo., won after double shoot-off with M. M. Foott, Columbus, Ohio.

Class 4—F. B. Telling, Cleveland, Ohio. Score, 99.

Class 5—Two tied with 94. C. W. Foss, Flint, Mich., won from Phil Hammersmith, Naperville, Ill., in shoot-off.

Women's Trophy in Grand American Handicap—Won by Miss Harriet M. Smith, Milwaukee, Wis. 92 from the 16-yard mark.

Governor's Cup (high score on the 800 targets on the programme, open to all amateurs)—R. A. King, Delta, Col. Score, 767.

AMATEUR WRESTLING.

Intercollegiate championships held at Princeton University March 18-19. Won by Penn State with 24 points; Cornell, 13; Princeton, 11; Yale, 10; Pennsylvania and Lehigh, 5 each; Columbia, 3. Results, final bouts only: 115-lb. class—Won by Watson, State College; Mackey, Cornell, second; Schwartzbach, Lehigh, third. 125-lb. class—Won by Garber, State College; Roberts, Cornell, second; Davis, Penn, third. 135-lb. class—Won by Hart, Columbia; Detar, State College, second; Mallon, Yale, third. 145-lb. class—Won by Morrison, Princeton; Bertolet, Lehigh, second; Benjamin, Yale, third. 158-lb. class—Won by McBride, Cornell; Mowrer, State College, second; Loeser, Lehigh, third. 175-lb. class—Won by Spangler, State College; Wright, Cornell, second; Darrell, Yale, third. Unlimited class—Won by Carpenter, Princeton; Mackey, Yale, second; McMahon, State College, third. Final score—Penn State, 24; Cornell, 13; Princeton, 11; Yale, 10; Pennsylvania, 5; Lehigh, 5; Columbia, 4.

Intersectional intercollegiate championships between Penn State and Indiana University, winner of conference championship, held at Bloomington, Ind., March 30. Results: Penn State, 32 points; Indiana, 14; bouts: 115-lb. class—Watson, Penn State, twice defeated Stanley, Indiana, each time on decisions. 125-lb. class—Radcliffe, Indiana, defeated Garber, Penn State, in 0.30; the latter forfeited the last two bouts due to a slight injury. 135-lb. class—Detar, Penn State, defeated Smith, Indiana, on a decision. 145-lb. class—Reed, Indiana, defeated Rumberger, Penn State, on a decision. 158-lb. class—Mowrer, Penn State, defeated Moore, Indiana, on a decision. Heavyweight class—McMahon, Penn State, defeated Held, Indiana, on a decision in 1.45.

Amateur Athletic Union National Championships, held under the auspices of the Los Angeles Athletic Club, Los Angeles, Cal., April 7, 8 and 9. Results, final bouts only:

108-lb. class—Carl Benson, Swedish-American Athletic Club, N. Y., defeated Forest McNulty, Polytechnic High School, 10m. 3s., body scissors and arm-lock. 115-lb. class—Jot Troyer, Redlands University, defeated John Heenan, U. S. S. New Mexico, 3m. 12s., arm bar lock and head chancery. 125-lb. class—Robin Reed, Multnomah Amateur Athletic Club, Portland, Ore., defeated J. J. Humerich Los Angeles Athletic Club, 15m. 35s., head scissors. 135-lb. class—J. J. Humerich, Los Angeles Athletic Club, defeated Nathan Sosovsky, unattached, San Francisco, decision. 145-lb. class—R. J. Vis, Los Angeles Athletic Club, defeated Gus. Coumas, Los Angeles A. C., decision, 15m. 158-lb. class—Charles Johnson, Swedish Gymnasium, Boston, Mass., defeated Theodore Sarris, Olympic Club, San Francisco, decision. 175-lb. class—Fred Meyer, Chicago Hebrew Institute, Chicago, defeated W. T. Powers, Los Angeles A. C., decision. Heavyweight class—Fred Meyer, Chicago Hebrew Institute, Chicago, defeated L. Ardouin, Olympic Club, San Francisco, decision.

HORSESHOE PITCHING.

(Under the auspices of the National Horseshoe Pitchers' Association, Akron, Ohio.)

PAST champions are as follows: 1915, Frank E. Jackson, Kellerton, Iowa; 1919, Fred M. Brust, Columbus, Ohio; 1920, Geo. W. May, Akron, Ohio; 1921, Frank E. Jackson, Kellerton, Iowa.

There were no national tournaments held during the war, 1916-1917-1918.

There are 50,000 members in the National Association, and some 300,000 horseshoe pitchers within the United States. The National Association supports a paper, publishes a rule book every year, and promotes a National Tournament. The 1922 National Tournament will be held in August, 1922, at Des Moines, Iowa.

Lady champions: 1920, Miss Marjorie Voorhees, Asbury Park, N. J.; 1921, Mrs. J. R. Mathews, Minneapolis, Minn.

CROSS-COUNTRY MARATHON, DISTANCE RUNS AND WALKS.

NATIONAL A. A. U. ten-mile run and seven-mile walk, held under the auspices of the Hollywood Inn Club, at Glenn Park, Yonkers, N. Y., October 30, 1921. *The Run*—R. E. Johnstone, Edgar Thomson Steel A. A., 53m. 20 4-5s. first; William Ritola, unattached, 53m. 27s., second; James Hennigan, Dorchester Club, 53m. 56 2-5s., third; John Gray, Enterprise Catholic Club, 55m. 8 4-5s. fourth; Fred Faller, Dorchester Club, 56m. 26 4-5s., fifth. *The Walk*—William Plant, Morningside A. C., 55m. 2 3-5s., first; W. J. Rolker, New York A. C., 56m. 31 4-5s., second; Charles Foster, Detroit Y. M. C. A., 56m. 35 1-5s., third; M. Greenberg, Pastime A. C., 57m. 36 3-5s. fourth; Frank Kieser, Morningside A.C., 59m. 42 2-5s., fifth.

A. A. U. Mile Steeplechase, held under the auspices of the New York A. C. at Travers Island, New York, on September 24, 1921. Won by Mike Devanney, Millrose A. A.; Frank Titterton, unattached, New York, second; A. Dolder, New York A. C., third. Time, 11m. 34s.

A. A. U. Senior Cross Country Championship Race, held at Pittsburgh, Nov. 19, 1921. Distance 5 miles. Winner, Earl Johnson, 24m. 23s. Team scores: New York A. C., 40; Pittsburgh A. C., 57; Carnegie Tech., 77.

INTERCOLLEGIATE CHAMPIONSHIPS.

Annual I. C. A. A. A. A. Cross-Country Championship, held at Van Cortlandt Park, New York City, Nov. 21, 1921. Results (first five runners only): *Six Mile Varsity Race*—Won by R. E. Brown, Cornell, 32m. 20 1-2s.; N. P. Brown, Cornell, 32m. 21s., second; C. C. Carter, Cornell, 32m. 48s., third; M. Rick, Princeton, 32m. 49s., fourth; G. Miske, Cornell, 32m. 53s., fifth. *Three Mile Freshman Race*—Won by E. O. McLane, Pennsylvania, 16m. 2 6-10s.; S. Kerr, Pennsylvania, 16m. 12 4-10s, second; H. S. North, Cornell, 16m. 19s., third; W. C. Seufert, Princeton, 16m. 21s., fourth; P. Adams, Yale, 16m. 27s., fifth.

*Tied for fourth place.
†Tied for fifth place.

National Interscholastic Cross-Country Championship, held at Fairmount Park, Philadelphia, Nov. 24, 1921. Distance 3 1-2 miles. Results: Individual. Won by B. Irwin, Cedar Rapids, Iowa, 18m. 9 4-10s.; R. Maurie, Hutchinson High, Buffalo, 18m. 22s., second; Cox, Rochester High Day School, 18m. 24s., third; Mound, Hutchinson Central High, 18m. 36s., fourth; J. Shaw, Hutchinson Central, 18m. 31s., fifth.

Team Scores—Hutchinson Central High, Buffalo, 59 points; West Philadelphia High, 96; St. Benedict's School, Newark, 109; Manual Training School, Brooklyn, 115; Schenectady (N. Y.) High 122.

MARATHON RACES.

Boston A. A. Marathon Race, held April 19, 1921. 25 miles. Results: F. Zuna, Paulist A. C., N. Y., 2h. 18m. 57 3-5s.* first; C. Mellor, Logan Sq. A. C., Chicago, 2h. 22m. 12s., second; P. Trivoulidas, Millrose A. A., N. Y., 2h. 27m. 41s., third; C. W. A. Linder, Boston A. A., 2h. 28m. 2s., fourth; A. R. Michelson, Stamford, Conn., 2h. 30m. 35s, fifth; E. Fedre, St. Alphonsus Assn., Boston, 2h. 31m. 34s, sixth; V. Kyronen, Millrose A. A., N. Y., 2h. 32m. 36s., seventh; O. J. Lasko, Millrose A. A., 2h. 33m. 39s., eighth; J. Goff, St. Christopher Club, N. Y., 2h. 37m. 35s., ninth; R. F. Conboy, 74th Regiment, Buffalo, 2h. 38m. 18s., tenth.

New Record—Pontiac-Detroit Marathon, held at Detroit, April 2, 1921. Results: Charles Mellor, Logan Square A. C., Chicago, 2h. 29m. 01s., first; Frank Zuna, Paulist A. C., New York City, 2h. 29m. 09s., second; Edouard Fabre, Montreal, third; S. Christensen, Chicago, fourth; M. J. Dwyer, New York, fifth.

Masonic Marathon, held at Detroit, Sept. 10, 1921. Distance, twenty-two and one-half miles. Result: Earl Johnson, Pittsburgh, 2h. 17m. 1 1-5s., first; S. Minnick, Detroit, second; B. Riddle, Detroit, third; H. Dobler, Detroit, fourth.

* New record.

CHESS.

(Compiled by H. Helms.)

FEW years can compare with 1921 in the matter of happenings of really thrilling interest to followers of chess. Of paramount importance was the world's championship match at Havana during March and April, which produced a new champion in the person of Jose R. Capablanca, the Cuban marvel, who dethroned Dr. Emanuel Lasker of Berlin, holder of the title 27 years. This he did without the loss of a single game, the total number played being 14, of which he won 4 and drew 10. A challenge from A. Rubenstein of Russia followed soon after. The twelvemonth was further noteworthy because of the Eighth American Chess Congress at Atlantic City during July, when the United States Chess Association was organized. The masters tournament was won by David Janowski of New York. Probably the greatest revival chess has ever experienced in this country was, in a large measure, due to the travels of little Samuel Rzezewski, the Jewish prodigy from Poland, who made a most comprehensive tour which took in the chief chess centres of the East, the Middle West, and the Pacific Coast. Everywhere he went, the boy was uniformly successful in exhibitions of simultaneous play against opposing teams of from 10 to 20 players.

RECORDS FOR YEAR 1921.

Twenty-eighth Intercollegiate Tourney, New York, December 28-30, 1920—Won by Columbia, total of 9½-2½. Other scores: Princeton and Harvard, each 5-7; Yale, 4½-7½. The winning team: Columbia—1, M. A. Schapiro, '23; 2, O. Frink, Jr., '22; 3, P. Wolfson, '22; 4, F. Worden, '20. The record: Columbia, 15 wins; Harvard, 9; Yale, 2; Princeton, 1. In addition, Harvard and Yale tied in 1909. It was not played off.

Twenty-second Triangular College Chess League Tourney, New York, December 27-30, 1920—Won by Cornell, total of 10-6. Other scores: N. Y. University, 8½-7½; City College, 8-8; Massachusetts Institute of Technology, 7-9; Pennsylvania, 6½-9½. The winning team: Cornell—1, H. Adelsberg, '21; 2, H. Garfinkel, '22; 3, L. H. Campbell, '24; 4, N. N. Gottheoffer, '22. The record: Pennsylvania, 11 wins; Cornell, 8; City College, 1. In addition, Pennsylvania tied once with Cornell and once with Brown, one of the organizers of the League, but no longer a member.

Berlin International Masters Tournament, December 16-30, 1920—Won by G. Breyer, Budapest,

6½-2½. Other leading scores: E. D. Bogoljubow, Russia, and Dr. S. Tartakower, Austria, each 5½-3½; R. Retl, Austria, 5-4.

World's Championship Match, Havana, March 15-April 21—Jose R. Capablanca, Havana, 4; Dr. Emanuel Lasker, Berlin, 0; drawn, 10. Dr. Lasker had held the title since 1894, when he defeated William Steinitz, who had been champion for 28 years.

Manhattan C. C. Championship—Won by David Janowski after a tie with R. T. Black, with scores of 10½-1½ each. Janowski won the play-off by 2-1. Other leading scores: M. Schapiro, 10-2; A. Schroeder, 8½-3½; G. E. Northrup, 7-5.

New Jersey State Championship, Newark, February 22—Won by J. W. Brunnemer, Hillsdale, after a tie with C. E. Armstrong, with scores of 3½-½ each.

Metropolitan Chess League Championship—Won by the I. L. Rice Progressive Chess Club with 10½ matches out of 11 and a total of 72 games; Brooklyn C. C., second, with 10 matches and 66½ games; Marshall C. C., third, with 8½ matches and 61½ games; Columbia University, fourth, with 7½ matches and 52½ games; Brooklyn Central Y. M. C. A., fifth, with 7½ matches and 48½ games.

Brooklyn C. C. Championship—Won by A. C. Cass, 5-2; second, F. J. Le Count, 4½-2½; third, S. Katz, 4-3.

Eighth American Chess Congress, Atlantic City, July 6-20—Masters Tournament: Won by D. Janowski, New York, 8½-2½; second, N. T. Whitaker, Washington, D. C., 8-3; third, C. Jaffe, New York, 7-4; fourth, M. D. Hago, New York, 6½-4½; fifth (triple tie), S. Factor, Chicago, F. J. Marshall, New York, and V. Sournin, Washington, D. C., each, 6-5. Amateur Tournament: Won by C. E. Norwood, Boston, after a tie with J. H. Adams, Baltimore, with scores of 8½-½ each; third, C. D. Franz, Brooklyn, 7-2; fourth, G. G. Neldich, Atlantic City, 6-3; fifth, W. M. Vance, Colorado Springs, 5-4. Women's Tournament: Won by Mrs. Natalie Nixdorff, New York, 4-0; second, Mrs. W. I. Seaman, Staten Island, 2-2. Problem Solving Tourney: Won by C. Promislo, Philadelphia; second, J. F. Barry, Boston; third, I. S. Turover, Washington, D. C.; fourth, H. Helfman, New Brunswick, N. J.; fifth, L. B. Meyer, New York; sixth, L. Rothstein, Hoboken, N. J.

New York State Championship, Syracuse, August 1-5—Won by J. Bernstein, New York, 6½-½; second, H. T. Thomas, Rochester, 5½-1½; third, R. L. White, Buffalo, 4½-2½; fourth, B. Forsberg, New York, 4-3. Class A: Won by D. F. Searle, Rome, 8½-1½. Class B: D. V. Sullivan, Syracuse, 5-2.

Triberg Masters' Tournament, July—Won by A. Aljechin, Russia, 7-1; second, E. D. Bogoljubow, Russia, 5-3.

Budapest International Masters' Tournament, September—Won by A. Aljechin, Russia, 8½-2½; second, E. Gruenfeld, Austria, 8-3; third and fourth (tie), B. Kostich, Serbia, and Dr. S. Tartakower, Austria, each 7½-3½.

Western Championship Tournament, Cleveland, Ohio, October 5-13—Won by Edward Lasker, Chicago, 9½-1½; second, S. Factor, Chicago, 9-2; third, H. Hahlbohm, Chicago, 8½-2½; fourth, N. T. Whitaker, Washington, D. C., 8-3; fifth, L. Stolzenberg, Detroit, 7½-3½. Minor Tournament—Won by Dr. J. G. Hancos, Akron, Ohio, 6-1.

BILLIARDS.

World's Professional 18.2 balkline Championship, played at Chicago, ending Nov. 23. Final standing:

Player.	W.	L.	H.R.	H. Av.	Gr. Av.
*Schaefer	5	1	318	200	52 19-42
*Hoppe	5	1	282	66 4-6	34 20-59
Cochran	3	3	384	80	34 34-54
Conti	3	3	150	80	28 37-61
Morningstar	2	4	145	50	27 58-69
Horemans	2	4	163	66 4-6	27 38-62
Sutton	1	5	148	37 1-7	28 12-54

* Tied at end of tournament.

Schaefer tied Hoppe by defeating the title holder 400 to 26 and then won the play-off, 500 to 346. The new champion averaged 83 2-6 with a nig run of 212 in this match against Hoppe's average of 69 1-5 and high run of 140.

National Three-Cushion Professional Billiard Championship, held at Pittsburgh, ending Oct. 15. Final standing:

Player.	W.	L.	P.C.	Player.	W.	L.	P.C.
Kleckhefer	7	2	.778	Heal	4	5	.444
Layton	6	3	.667	Cannefax	3	6	.333
De Oro	6	3	.667	Denton	3	6	.333

C. P. Matthews	4	1	3	.250

National Amateur Pocket Billiards (pool) Championship, played at Chicago, ending March 11. J. H. Shoemaker, New York, and C. A. Vaughn, Chicago, tied for first place, with 4 wins 1 defeat each. On the play-off Shoemaker defeated Vaughn, 125 to 78.

BEST RECORD AVERAGES.

Professional—200 at 18.2, Jacob Schaefer 2d, Chicago, Nov. 19, 1921; 40 at 18.1, Jacob Schaefer, Chicago, 1898; 10 at straight cushion caroms, J. Schaefer, New York, 1883; 37.97 at champion's game, G. F. Slosson, Paris, 1882; 52 at 14.1, George Sutton, Baltimore, Md., Oct. 28, 1914.

Amateur—57.14 at 14.2, Calvin Demarest, Chicago, 1908; 33.33 at 18.2, Lucien Rorolle, Paris, 1903.

BEST RECORD RUNS.

Professional—436 at 18.2, Jacob Schaefer 2d, New York, March 5, 1921; 155 at 18.1, Willie Hoppe, Philadelphia, Pa., Nov. 29, 1910; 246 at 18.2, Maurice Vigneaux, Chicago, 1883, when record balkline was first played; 303 at 14.1, Willie Hoppe, New York, April 23, 1914; 85 at straight cushion carons, F. C. Ive, Boston, 1906; 398, champion's game, Paris, 1882; 2,196 at English billiards, by George Gray, Australia, at London, March 18, 1911.

Amateur—175 at 18.2, L. Rerolle, Paris, 1908; 202 at 14.2, Calvin Demarest, Chicago, 1908.

Three-Cushion—Best run, 18, Pierre Maupome, St. Louis, Mo., September 18, 1914, in exhibition; 18, Charles Morin, St. Louis, Mo., May 20, in competition.

POOL.

Best run under new rule, one ball always on table—74, Morton Phillips, Chicago, Feb. 13, 1913; in amateur city championship, 81, Bennie Allen, Philadelphia, 1919; in professional championship tournament.

SWIMMING.

Amateur Athletic Union Championships were held by events in various sections of the country, one or more events being allotted to a club. The events, dates, places and results follow:

MEN'S A. A. U. SENIOR OUTDOOR CONTESTS.

50 yards—Held under the auspices of the Duluth B. C., Aug. 6, 1921—Won by John Weismuller, Illinois A. C.; C. W. Topp, Chicago A. A., second; Jack Gow, Duluth B. C., third. Time—23 1-5s. *100 yards*—Held under the auspices of the Hawaiian A. A. A. U, Aug. 1, 1921—Won by Pua Kealoha, Hui Makani; Warren Kealoha, Hui Makani, second; no third. Time—53s. *220 yards*—Held under the auspices of the Indianapolis A. C., Indianapolis, Ind., Aug. 19, 1921—Won by J. Weismuller, Illinois A. C.; Ludy Langer, Honolulu, second; Norman Ross, Illinois A. C., third. Time—1m. 28s. *440 yards*—Held under the auspices of the Buckeye Lake Y. C., Pittsburgh, Pa., Aug. 12, 1921—Won by Ludy Langer, Hui Nalu Club; John Weismuller, Illinois A. C., second; Adam Smith, Erie Y. M. C. A., third. Time—5m. 45s. *880 yards*—Held under the auspices of the United Labor League, Pittsburgh, Pa., Sept. 5, 1921—Won by Ludy Langer, Hui Nalu Club (Hawaii); Adam Smith, Erie Y. M. C. A., second; George Pawling, Philadelphia S. C., third. Time—12m. 3s. *Senior outdoor 10-miles (men)*—Held under the auspices of the Riverton Y. C., Riverton, N. J., July 23, 1921—Won by J. W. Hall, Jr., Y. M. C. A., Brooklyn 2h.12m.25s; Henry Geibel, N. Y. A. C 2h.13m.45s, second; V. H. Kiffe, Brooklyn Y. M. C. A. 2h.18m.10s, third; L. R. Helwig, Brooklyn Y. M. C. A. 2h.20m.25s, fourth; S. Mendleson, Toronto Y. M. H. A. 2h.28m.34s, fifth; D. B. Mattos, Brazil 2h.29m. 18s, sixth. *220-yard breast stroke*—Held under the auspices of the Coronado A. A., Tent City, Coronado, Aug. 28, 1921—Won by M. J. McDermott, Illinois A. C.; William Fair, Venice S. A., second; Dennis O'Brien, Chicago A. A., third. Time—3m. 10 2-5s. *440-yard breast stroke*—Held under the auspices of the N. Y. A. C, Travers Island, Aug 6, 1921—Won by R. D. Skelton, Illinois A. C.; Stephen Ruddy, N. Y. A. C., second; Victor H. Kiffe, Central Y. M. C. A., third. Time—6m. 50 2-5s. *150-yard brck stroke*—Held under the auspices of the Hawaiian A. A. A. U., July 30, 1921—Won by Warren Kealoha, Hui Makani; Charles Pung, Healani, second; George Kane, Healani, third. Time—1m.49s. *Fancy diving*—Held under the auspices of the Detroit B. C., Detroit, Mich., Aug. 13, 1921—Won by A. W. Hartung, Illinois A. C.; William Heyn, Chicago A. A., second; Joseph Miller, Detroit A. C., third. *High diving*—Held under the auspices of the Southern Pacific Asso., July 24, 1921—Won by Clarence Pinkston, Olympic Club, 166.2 points; Clyde Swensen, Los Angeles A. C., 153.8 points, second; Lewis Balbach, Columbia University, 149.9 points, third.

MEN'S A. A. U. JUNIOR OUTDOOR CHAMPIONSHIPS.

50 yards—Held under the auspices of the Hawaiian A. A. A. U of the U. S., at Naval Slip, Piers 5 and 6, Honolulu Harbor, May 27, 1921—Won by W. W. Harris, Outrigger Club; Sam Kahanamoku, Hui Nalu, second; John Mahu, Healani, third. Time—24 4-5s. *100 yards*—Held under the auspices of the Coronado A. A., Tent City, Coronado, Cal., Aug. 28, 1921—Won by Junior Dula, San Diego R. C.; Walter Grace, Los Angeles C., second; Carl Doerr, Los Angeles A. C., third. Time—59 1-5s. *220 yards*—Held under the auspices of the East Lake Club, Birmingham, Ala., Aug. 13, 1921—Won by Leo Jarvis, Dallas, S. C.; Louis Domingues, Dallas S. C., second; E. F. Hatcher, Atlanta A. C., third Time—2m. 50s. *880 yards*—Held under the auspices of the Coronado A. A., Tent City, Coronado, Cal., Aug. 21, 1921—Won by Thoney Karasezwski Olympic Club; Claude Calvert, San Diego R. C., second; Edward Friel, Los Angeles A. C., third. Time—12m. 50 1-5s. *One mile*—Held under the auspices of the Indianapolis A. C., in the Broad Ripple Pool, July 28, 1921—Won by Mitrie Konowaloff, Crystal S. C., Seattle, Wash.; Ferdinand Ehrlich, Detroit A. C., second; Robert Knitpash, unattached, Indianapolis, Ind., third. Time—26m. 36 3-5s. *Long distance*—Held under the auspices of the Duluth B. C., Aug. 6, 1921—Won by James White, Duluth B. C.; Wesley Taylor, Duluth B. C., second; Boyd Spencer, Duluth B. C., third. Time—omitted. *220-yard breast stroke*—Held under the auspices of the Southern Pacific Asso., July 24, 1921—Won by Charles Fletcher, Stanford University; D. O'Brien, Coronado A. A., second; Steven Patrick, Coronado A. A., third. Time—3m. 16 3-5s. *Fancy diving*—Held under the auspices of the Brighton Beach Baths, Brighton Beach, Sept. 3, 1921—Won by R. Saacke, N. Y. A. C., 133 points; Thomas Hirschfield, City A. C. (N. Y.), 130 points, second; J. Byrnes, unattached (N. Y.), 116 points, third. *High dive*—Held under the auspices of the Hawaiian A. A. A. U. of the U. S., at Naval Slip Piers 5 and 6, Honolulu Harbor, May 28, 1921—Won by Haig Prieste, L. A. A. C., 137.6 points; Robert K. Fuller, Healani, 126.1 points, second; General W. Addison, Outrigger Club, 116.7 points, third.

MEN'S SENIOR A. A. U. INDOOR CHAMPIONSHIPS.

50 yards—Held under the auspices of the Hawaiian A. A. A. U in the Y. M. C. A. Natatorium, March 12, 1921—Won by Warren Kealoha, Hui Mohari S. C.; W. W. Harris, Jr., Outrigger C. C., second; Sam Kahanamoku, Hui Nalu C. S., third. Time—25s. *100 yards*—Held under the auspices of the Brookline S. C., Brookline, Mass., March 3, 1921—Won by Norman Ross, Illinois A. C.; Davy Jones, Illinois A. C., second; Gordon Smith, Brookline S. C., third; Leo Handy, unattached, fourth. Time—58 1-5s. *220 yards*—Held under the auspices of the N. Y. A. C., March 1, 1921, in the N. Y. A. C. pool —Won by Norman Ross, Illinois A. C.; Leo Giebel, N. Y. A. C., second; Davy Jones, Illinois A. C., third. Time—2m.22 1-5s. *500 yards*—Held under the auspices of the Great Lakes Naval Training School Great Lakes, Ill., March 15, 1921—Won by Norman, Ross, Illinois A. C.; John Weismuller, Illinois A. C., second; A. Siegel, Illinois A. C., third. Time—6m. 10 3-5s. *150-yard back stroke*—Held under the auspices of the Los Angeles A. C., Los Angeles, Cal., April 27, 1921—Won by Rey Kegeris, Los Angeles A. C.; Norman Ross, Illinois A. C., second; Holmes Bowers, Los Angeles High School, third; Frank Themer, unattached, fourth. Time—1m. 49 4-5s *220-yard breast stroke*—Held under the auspices of the Olympic Club in the Olympic Club pool, San Francisco, Cal., April 20, 1921—Won by Robert D. Skelton, Illinois A. C.; Jack Howell, Olympic Club, second; Paul Nelson, Los Angeles A. C., third. Time—3m. 2 3-5s. *440-yard breast stroke*—Held under the auspices of the Detroit Y. M. C. A., Detroit, Mich., April 2, 1921—Won by Robert Skelton, Illinois A. C.; Steve Ruddy, N. Y. A. C., second; Jack Howell, Olympic Club, San Francisco, third. Time—5m. 37 2-5s. *Fancy diving*—Held under the auspices of the Multnomah A. A. C. in the Multnomah pool, April 9, 1921—Won by Clarence Pinkston, Olympic Club; L. E. Kuehn, Oregon Agricultural College, second; Clyde Swensen, Los Angeles A. C., third. (Point result omitted.) *Plunge for distance*—Held under the auspices of the Pittsburgh Aquatic Club, Pittsburgh, Pa., March 7, 1921—Won by Fred Schwedt, Detroit Y. M. C. A., 73 ft. 6 in.; M. Jacobs, University of Pittsburgh, 70 ft., second; E. Gluck, Schenley High School, 61 ft., third. *400-yard relay*—Held under the auspices of the Illinois A. C., Chicago, Ill., April 6, 1921—Won by Illinois A. C; Chicago A. A., second; N. Y. A. C., third. Time—3m. 44s.; Illinois A. C. team, P. McGillivray, H. J. Hebner, W. L. Wallen and N. Ross. *Water polo*—Held under the auspices of the Illinois A. C., Chicago, Ill., April 6 and 7, 1921—Preliminary games—Illinois A. C. defeated Olympic Club, 7 to 4, and Chicago A. A. defeated N. Y. A. C., 7 to 3; final won by Illinois A. C.; Chicago A. A., second; Olympic Club, San Francisco, Cal., third.

MEN'S JUNIOR INDOOR A. A. U. CHAMPIONSHIPS.

50 yards—Held under the auspices of the Rochester Y. M. C. A., Rochester, N. Y., March 29, 1921—Won by William L. Jellife, N. Y. A. C. Time—25 1-5s. *100 yards*—Held under the auspices of the Neptune S. C., Neptune Beach, Alameda, Cal., April 10, 1921—Won by Lester E. Smith, Olympic Club; Thoney Karasezwski, Olympic Club, second; Ramond Jorgenson, Neptune S. C., third. Time—

1m. 4-5s. *220 yards*—Held under the auspices of the St. Paul A. C. in the St. Paul A. C. tank, St. Paul, Minn., March 12, 1921—Won by Murray Lampher, University of Minnesota; Sam Hill Minneapolis Y. M. C. A., second; Hal Keidl, Minneapolis Y. M. C. A., third. Time—2m. 41 3-5s. *500 yards*—Held under the auspices of the Pittsburgh A. A. in Pittsburgh A. A. pool, Pittsburgh, Pa., Feb. 26, 1921—Won by Pat J. Corr, University of Pittsburgh, Pittsburgh, Pa.; Henry Glancy, Pittsburgh A. C., Pittsburgh, Pa., second; J. E. Weaver, Irish-American A. C., Pittsburgh, Pa., third. Time—7m. 7s. *100 yard back stroke*—Held under the auspices of the Cleveland Y. M. C. A., Cleveland, O., April 16, 1921—Won by Hugh Addison, Olentangy Park S. C., Columbus, O; Ehrlich, Detroit A. C., Detroit, Mich, second; Fred Rebman, Hill Top Y. M. C. A., Pittsburgh, Pa., third; Cooks, Cleveland Y. M. C. A., fourth. Time—1m. 11 2-5s. *220-yard breast stroke*—Held under the auspices of the Illinois A. C., Chicago, Ill., March 3, 1921—Won by R. D. Skelton Illinois A. C.; A. Brunhart, Chicago A. A., second; E. F. Vacin, Illinois A. C., third. *440-yard breast stroke*—Held under the auspices of the Los Angeles A. C., Los Angeles, Cal., March 23, 1921—Won by Paul Nelson, Los Angeles A. C; I. Messenger, Los Angeles A. C., second; Charles Fletcher, Stanford University, third. Time—7m. 13s. *Fancy diving*—Held under the auspices of Idora Park S. C., Oakland, Cal., May 15, 1921—Won by Phil Patterson, Olympic Club, 386 points; A. Sweeney, Neptune Club, 337.7 points, second; Donald Snedden, unattached, 313.8 points, third. *Plunge for distance*—Held under the auspices of the Crystal S. C., Seattle, Wash., May 27, 1921—Won by Lambert Sternbergh, Crystal S. C.; Jack Way, Crystal S. C., second; Harry McWatters, Crystal S. C., third. Distance—72 ft. 11 in. *400-yard relay*—Held under the auspices of the Olympic Club, San Francisco, Cal. April 20, 1921—Won by the Olympic Club team, University of California, second; Neptune Club of Alameda, third. Time—4m. 2-5s.

WOMEN'S SENIOR A. A. U. OUTDOOR CHAMPIONSHIPS.

50 yards—Held under the auspices of the Women's S. A., Aug. 20, 1921—Won by Ethelda Bleibtrey, W. S. A.; Charlotte Boyle, W. S. A., second; Helen Wainwright, W. S. A., third. Time—29 2-5s. *100 yards*—Held under the auspices of the Hawaiian A. A. U. of the U. S., Naval Slip, Piers 5 and 6, Honolulu Harbor, May 30, 1921—Won by Ethelda Bleibtrey, N. Y. W. S. A.; Marlechen Wehselau, Outrigger Club, second; Estelle Cassidy, Outrigger Club, third. Time—1m. 3 2-5s. *440 yards*—Held under the auspices of the Indianapolis A. C., Indianapolis, Ind., Aug. 18, 1921—Won by Ethelda Bleibtrey, W. S. A; Charlotte Boyle, W. S. A., second; Euphrasia Donnelly, H. A. C., third. Time—6m. 30s. *880 yards*—Held under the auspices of the Alamo A. A., Lake Hopatcong, Aug. 14, 1921—Won by Ethelda Bleibtrey, N. Y. W. S. A.; Charlotte Boyle, N. Y. W. S. A., second; Helen Wainwright, N. Y. W. S. A., third. Time—14m. 37 3-5s. *One mile*—Held under the auspices of the Neptune S. C., Capitola-by-the-Sea, Cal., June 26, 1921—Won by Thelma Darby, Los Angeles A. C.; Lois Barry, Milwaukee A. C., second; Florence Freisenhausen, California S. C., third. Time—31m. 58s. *Long distance*—Held under the auspices of the W. S. A., Brighton Beach Baths, Aug 29, 1921—Won by Ethelda Bleibtrey, N. Y. W. S. A., 56m. 27s.; Charlotte Boyle, N. Y. W. S. A., 58m. 57s., second; Margaret Woodbridge, Detroit A. C., 58m. 34s., third; Helen Wainwright, N. Y. W. S. A., 1h. 1m. 34s., fourth; Aileen Riggin, N. Y. W. S. A., 1h. 2m. 38s., fifth. *400-yard relay*—Held under the auspices of the W. S. A., Aug. 27, 1921—Won by W. S. A. team, composed of Ethelda Bleibtrey, Charlotte Boyle, Helen Wainwright and Aileen Riggin; W. S. A. team, composed of Alice Lord Maude McFarlane, Helen Meany and Florence Briscoe, second; W. S. A. team, composed of Ethel Baker, Lillian Stoddart, Kathryn Brown and Gertrude Morris, third. Time—4m. 47s. *Fancy diving*—Held under the auspices of the W. S. A. of N. Y., Aug. 6, 1921—Won by Helen Meany, W. S. A., 124.35 points; Aileen Riggin, W. S. A., 122.28, second; Helen Wainwright, W. S. A., 83.60, third. *High diving*—Held under the auspices of the W. S. A. of N. Y., Aug. 27, 1921—Won by Helen Meany, W. S. A., 130.49 points; Aileen Riggin, W. S. A., 122.11, second; Josephine Meany, W. S. A., 113.6, third.

WOMEN'S JUNIOR OUTDOOR A. A. U. CHAMPIONSHIPS.

50 yards—Held under the auspices of the Hawaiian A. A. A. U, Aug. 1, 1921—Won by Estelle Cassidy, Outrigger Club; Ruth Scudder, Outrigger Club, second; Lillie Bowmer, Outrigger Club, third. Time—29m. 3-5s. *100 yards*—Held under the auspices of the East Lake Club, Birmingham, Ala., Aug. 13, 1921—Won by Virginia Ashe, Atlanta A. C.; Marian Harper, Dallas, S. C., second; Florence Yates, Birmingham A. C., third. Time—1m. 21 3-5s. *220 yards*—Held under the auspices of the Southern Pacific Asso., San Diego, June 19, 1921—Won by Bobby Middlemas, Los Angeles A. C.; Marion Himmelstein, Los Angeles A. C., second; Evelyn Sandstrom, San Diego, third. Time—3m. 28 2-5s. *440 yards*—Held under the auspices of the W. S. A. N. Y., July 23, 1921—Won by Aileen Riggin, W. S. A.; Alice Lord, W. S. A., second; Helen Wainwright W. S. A., third. Time omitted. *880 yards*—Held under the auspices of the Freeport A. A., Freeport, L. I., Sept. 18, 1921—Won by Lillian Stoddart, W. S. A.; Florence Briscoe, W. S. A., second; Frances Cooney, W. S. A., third. Time—18m. 2 2-5s. *Long distance*—Held under the auspices of the Duluth B. C., Aug. 6, 1921—Won by Frances Colman, Duluth B. C.; Frances Currier, Duluth B. C., second; Grace Lewis, Duluth B. C., third. Time omitted. *150-yard back stroke*—Held under the auspices of the Coronado A. A., Tent City, Coronado, Cal., July 31, 1921—Won by Marion Himmelstein, Los Angeles A. C.; Florence Chambers, Junior College, second; no third. Time—2m. 26 1-5s. *High diving*—Held under the auspices of the Indianapolis A. C., Indianapolis, July 28, 1921—Won by Mrs. Vonnie Malcomson, Detroit A. C.; Marie Peterson, Minneapolis A. C., second; Regina Ries, Hoosier A. C., third.

WOMEN'S SENIOR INDOOR A. A. U. CHAMPIONSHIPS.

50 yards—Held under the auspices of the Milwaukee A. C., April 6, 1921—Won by Charlotte Boyle, W. S. A.; Margaret Woodbridge, Detroit A. C., second; Helen Wainwright, W. S. A., third. Time—30 2-5s. *100 yards*—Held under the auspices of the Cleveland A. C., Cleveland, March 30, 1921—Won by Charlotte Boyle, N. Y. W. S. A.; Margaret Woodbridge, Detroit A. C., second; E. Smith, unattached, Columbus, O., third; R. Smith, unattached, Columbus, O., fourth. Time—1m. 7 1-5s.; won by a touch. *220 yards*—Held under the auspices of the Philadelphia Turngemeinde, March 5, 1921—Won by Margaret Woodbridge, Detroit A. C.; Charlotte Boyle, W. S. A., second; Irene Guest, Meadowbrook A. C., third. Time—52 2-5s. *100-yard back stroke*—Held under the auspices of the Illinois A. C., Chicago, Ill., April 7, 1921—Won by Sybil Bauer, Illinois A. C., Chicago; Margaret Woodbridge, Detroit A.C., second; Marcelle Miller, Illinois A.C., Chicago, third. Time—1m. 21s. *100-yard breast stroke*—Held under the auspices of the Greensburg Y. M. C. A., March 28, 1921—Won by Frances Taylor, Pittsburgh A. A., Pittsburgh; Dorothy Andre, Southeast High School, Detroit, second; Ruby Butler, Dayton, O., Y. M. C. A., third. Time—1m. 31 4-5s. *Fancy diving*—Held under the auspices of the Ambassador S. C., March 19, Atlantic City, N. J.—Won by Helen Wainwright, W. S. A. N. Y.; Helen Meany, W. S. A., second; Elizabeth Becker, Philadelphia Turngemeinde, third; Ada Taylor, A.S.C., Atlantic City, fourth. The number of points were: Miss Wainwright, 128.8; Miss Meany, 124.6; Miss Becker, 116.9 *Plunge for distance*—Held under the auspices of the Detroit Y. M. C. A., April 2, 1921—Won by Dorothy McWood, Detroit, unattached; Helen Nolan, Detroit, unattached, second; Mrs. H. G. Mitchell, Detroit A. C., third. Distance—60 ft. 2 in. *400-yard relay*—Held under the auspices of the W. S. A., April 29, 1921— Won by W. S. A. team, composed of Charlotte Boyle, Helen Wainwright, Gertrude Ederle and Alice Lord; W. S. A. team, composed of Gertrude Morris, Helen Meany, Florence Briscoe and Maude McFarlane, second; W. S. A. team, composed of Eileen Ross, Kathryn Brown, Isebelle Grandefeld and Virginia Wilson, third. Time—4m. 51s.

WOMEN'S JUNIOR INDOOR A. A. U. CHAMPIONSHIPS.

50 yards—Held under the auspices of the Pittsburgh A. A., Pittsburgh, Pa., Feb. 26, 1921—Won by Eleanor Smith, unattached, Columbus, O.;

Frances Taylor, Pittsburgh A. A., second; Elizabeth Vance, Greensburg Y. W. C. A., third; Hazel Fowler, Irish-American A. C., Pittsburgh, fourth. Time—31 2-5s. *100 yards*—Held under the auspices of the W. S. A. N. Y., March 12, 1921—Won by Helen Wainwright, W. S. A. N. Y.; Elizabeth Becker, Philadelphia Turngemeinde, second; Gertrude Ederle, W. S. A. N. Y., third; Gertrude Morris, W. S. A. N. Y. fourth. Time—1m. 11 2-5s. *220 yards*—Held under the auspices of Idora Park, Oakland, Cal., May 1, 1921—Won by Thea Cavill, unattached; Florence Friesenhausen, California S. C., second; Gertrude Seyden, Neptune S. C., third. Time—3m. 25s. *500 yards*—Held under the auspices of the Southern Pacific Asso., June 17, 1921—Won by Lois Barry, Milwaukee A. C.; Marian Himmelstein, Los Angeles A. C., second; R. Middlemas, Los Angeles A. C., third. Time—8m. 25s. *100-yard back stroke*—Held under the auspices of the Milwaukee A. C., April 6, 1921—Won by Margaret Woodbridge, Detroit A. C.; Lois Barry, Milwaukee A. C., second; Helen Wainwright, W. S. A., third. Time—1m. 22 2-5s. *100-yard breast stroke*—Held under the auspices of the Illinois A. C., Chicago, Ill.—Won by Edna O'Connell, Illinois A. C.; Dorothy O'Brien, Illinois A. C., second; Elna Mydel, Illinois A. C., third. Time—1m. 30s. *Fancy diving*—Held under the auspices of the Metropolitan Asso., July 21, 1921—(Results not furnished.) *Plunge for distance*—Held under the auspices of Idora Park, Oakland, Cal., May 1, 1921—Won by Ernestine Renzel, Neptune S. C., 55 ft. 4½ in.; Ada Hersey, Neptune S. C., 49 ft. 3½ in., second; May Sehou, California S. C., 47 ft. 3 in., third.

EASTERN INTERCOLLEGIATE CHAMPIONSHIPS

Individual championships—Held at Columbia pool, New York City, March 19, 1921. Results: *50 yards*—Won by Damon, Amherst; Binney, Yale, second; Emory, Navy, third. Time—24 2-5s. *100 yards*—Won by Thurston, Yale; Jelliffe, Yale, second; Emory, Navy, third. Time—56 2-5s. *220 yards*—Won by Giebel, Rutgers; Pratt, Yale, second; Marshall, Yale, third. Time—2m. 27 1-5s. *200-yard Freshman relay*—Won by Pennsylvania team (Medholdt, Loeb, Holst, Genthner); Brown, second; Navy, third. Time—1m. 42 3-5s. *Plunge*—Won by Meagher, Yale, 75 ft.; Mahar, Columbia, second; Wood, Yale, third. Time—52 2-5s. *Fancy diving*—Won by Pollard, Yale; Armstrong, Pennsylvania, second; Balbach, Columbia, third.

Chicago	3	2	.600
Northwestern	3	2	.600
Iowa	0	2	.000
Wisconsin	0	3	.000

During the summer of 1921 Henry Sullivan of Lowell, Mass., made four attempts to swim the English Channel, but was unable to accomplish the feat. Several other long-distance swimmers also failed. Of the scores of swimmers from all parts of the world who have tried to cross the Channel but two have been accredited with success. In 1875 Capt. Matthew Webb, an Englishman, crossed from Dover to Calais in 21 hours, 35 minutes. He was favored by a light wind and a comparatively calm sea, actually swimming about 32 miles.

The distance across the Channel at the narrowest point, Dover to Cape Gris Nez, a French headland in the Pas de Calais, is about 20 miles, but swimmers are compelled to zigzag in combatting the waves and tides.

The second successful attempt to cross the Channel was made on Sept. 6, 1911, by William T. Burgess, an Englishman by birth, but a naturalized Frenchman. Fifteen times previously he had attempted to make the perilous swim. On the sixteenth he swam from South Foreland, Dover, to Le Chatelet, a little village two miles east of Cape Gris Nez, in 22 hours 35 minutes. He covered about 60 miles.

TRACK AND FIELD ATHLETICS.

AMATEUR ATHLETIC UNION CHAMPIONSHIPS

Held under the auspices of the Southern Pacific Association of the Amateur Athletic Union and Tournament of Roses Association, at Pasadena, Cal., July 2, 4 and 5, 1921. Junior Outdoor. *100-Yard Run*—Won by Vernon Blenkiron, Los Angeles A. C.; E. Sudden, Olympic Club, second; J. S. Prescott, Chicago A. A., third; J. R. Patterson, Colgate University, fourth. Time—9 4-5s. *220-Yard Run*—Won by E. Sudden, Olympic Club; J. R. Patterson, Colgate University, second; H. E. Hagen, Chicago A. A., third; A. Newhoff, Olympic Club, fourth. Time—22s. *440-Yard Run*—Won by J. W. Driscoll, Boston A. A.; P. Spink, Chicago A. A., second; H. Frentres, Illinois A. C., third; V. Lally, St. Anselm A. C., fourth. Time—48 2-5s. *880-Yard Run*—Won by H. C. Cutbill, Boston A. A.; C. L. Nash, Illinois A. C., second; F. Farmer, Olympic Club, third; R. R. MacIntosh, Los Angeles A. C., fourth. Time—1m. 56 3-5s. *One-Mile Run*—Won by A. Forward, Olympic Club; R. E. Dodge, Los Angeles A. C., second; W. B. Kitts, Los Angeles A. C., third; F. Farmer, Olympic Club, fourth. Total.....	.....	.....	.....	5,015

Switzerland, 4,933; France, 4,609; Italy, 4,575; Netherlands, 4,464. Prizes: U. S.—1st place, the Argentine Trophy.

Individual Championship of the World—1st Place—W. R. Stokes, Washington, D. C., U. S. Team; 2d place, Lieut. Com. C. T. Osburn, U. S. N., U. S. team.

AVIATION.

THE feature of the American aviation season was the Pulitzer Trophy airplane race, held at Omaha, Neb., Thursday, November 3, in which a new world's record of 176.7 miles per hour for competitive speed flying was established by the winner, Bert Acosta. The contest, held annually, takes its name from the Pulitzer Trophy, a classic winged figure upholding an airplane, which was donated to the Aero Club of America by Ralph, Joseph Jr., and Herbert Pulitzer. As prizes for the individual pilots of the first, second and third machines, the Pulitzers donated gold, silver and bronze plaques.

CONDITIONS OF THE CONTEST.

The conditions of the second contest stated that competing airplanes must have a safety factor of 7.5 in the case of monoplanes and of 6 in the case of biplanes; an air speed in excess of 140 miles per hour as loaded for start of race; and a visibility and manoeuvreability which in the opinion of the contest committee is not a menace to other contestants or spectators.

The course for the contest was triangular, and of a length of 30.7 miles, which the contestants had to cover five times. The total length was thus 153.5 miles.

The following were the rules of the race:

(a) Pilots must hold a straight course after starting, until they have gone the distance to be specified and marked.

(b) A plane overtaken must hold its altitude and a true course, in order that it may not in any way impede or interfere with a faster overtaking plane.

(c) A plane overtaking a slower plane shall never pass or attempt to pass between that plane and any pylon or captive balloon marking a turning point.

(d) After crossing the finishing line, all planes shall continue on their course until they have attained the altitude of 2,000 feet, then they may turn and return to the field, and land in that part of the field assigned for landing, and in so doing shall not cross the course or finish line.

(e) Pilots shall pass all turning points in plain view of the observing officials stationed at each turning point and at an altitude of not over 500 feet.

The winner of the contest is the pilot who completes the full course in the shortest elapsed time, and second place the second best time, etc., provided the pilot is not disqualified. All contestants are required to hold an aviator's license issued by the International Aeronautical Federation, and to be entered upon the competitors' register of the Aero Club of America.

Contestants were cautioned against "doping" the fuel with picric acid, ether or similar high explosive liquids.

The following cash prizes were offered to the contestants: Winner, $3,000; second place, $2,000; third place, $1,000.

THE MACHINES ENTERED.

Following is a list of the machines entered in the Pulitzer Trophy race:

*Type.	Make.	Engine.	Pilot.
T Curtiss	Cox	435 hp. Curtiss C-12	Clarence Coombs
B Curtiss	Navy	405 hp. Curtiss CD-12	Bert Acosta
B Ansaldo	Balilla	400 hp. Curtiss C-12	Lloyd Bertaud
B Thomas-Morse	MB-6	300 hp. Wright	Lieut. J. A. MacReady
M Thomas-Morse	MB-7	300 hp. Wright	Lieut.-Col. H. E. Hartney
B SVA-9		225 hp. S.P.A.	James Curran

*T, triplane; B, biplane; M, monoplane.

THE RESULT.

Position.	Pilot.	Machine.	Time.		Average
			Min.	Sec.	Miles per Hour
1	Bert Acosta	Curtiss-Navy	52	9 3-5	176.7
2	Clarence Coombs	Curtiss-Cox	54	7 3-5	170.26
3	Lieut. J. A. MacReady	Thomas-Morse	57	20 3-5	160.71
4	Lloyd Bertaud	Ansaldo-Curtiss	61	31 3-5	149.78
	James Curran				Descended.
	Lieut.-Col. H. E. Hartney				Crashed.

For the sake of comparison, and also because erroneous reports attributed to the winner of last year's Pulitzer race an average speed of 176 miles per hour, it is worth while noting that Pilot Acosta's performance establishes a new world's speed record as flown in competition. The winner of the 1920 Pulitzer race, Capt. C. C. Moseley, who piloted a Verville-Packard 600 horse power racer, was first credited with having made an average speed of 176 miles per hour, and with having broken all racing speed records, when as a matter of fact his actual speed was only 156.5 miles per hour. The error in computing his speed arose from the fact that the course originally selected on Long Island was to have been 132 miles in length, and kite balloons were to mark the turning points. As the kite balloons were not delivered in time for the race, the nearest prominent landmarks had to be selected, and when the Geodetic Survey subsequently determined the length of the course it was found to be 29.02 miles, or for the four laps covered a total distance of 116.08 miles. This explains the discrepancy between the two speed figures.

AMERICAN LEGION AERIAL DERBY.

Held at Kansas City, Nov. 2, over triangular course with a total of 140 miles. Results: Won by Lloyd Bertaud, New York, 60m. 15 2-5s.; Lieut. T. D. Givens, Ft. Sill, Okla., 66m. 15 1-5s., second; C. B. Wrightsman, Tulsa, Okla., 67m. 17 1-5s., third; Lieut. Wagner, Ft. Sill, Okla., 67m. 55 1-5s., fourth; Major Lamphier, Ft. Sill, Okla., 68m. 12 2-5s., fifth.

Prizes: 1st, Kansas City R. C. Cup and $3,000; 2d, $1,500; 3rd, $750; 4th, $500; 5th, $250.

LEGION JUNIOR DERBY.

The Legion Junior Derby was open to any type of airplane having a maximum horizontal speed of less than 100 miles per hour, and the race was run around a triangular course of 17.1 miles, which had to be covered five times. The total distance was thus 87.5 miles, and the winner had to cover it in the shortest time of all contestants.

The entrants for this contest included the following types: Curtiss Oriole and JN-H, Laird Swallow, Lincoln Standard, Longren H.2 and A.K., and the Sport Farman.

The race was won by C. S. Jones on a Curtiss Oriole (C-6 engine) at an average speed of 97.3 miles per hour.

NATIONAL BALLOON RACE.

The National Balloon race, the winner of which was entitled to represent the United States in the International Balloon race starting in Belgium later in the year, was held at Birmingham, Ala. The start was made on May 21, and the race was won by the balloon Birmingham Semi-Centennial, with Ralph Upson, pilot, and C. G. Andrus, aid, in the basket. The winning distance was 425 miles, and the balloon was in the air 34h. 40m. before the landing was made at Stuart, Va. Details of the race follow:

APPROXIMATE FINISH OF THE NATIONAL BALLOON RACE, FROM BIRMINGHAM, ALA., MAY 21, 1921.

Name of Balloon.	Pilot and Aid.	Landed at.	Order of Start
Birmingham Semi-Centen.	R. Upson and C. G. Andrus	10 miles W. of Stuart, Va	2
Riverview Club, St. Louis.	V. Von Hoffman and H. Mueller	15 miles N. E. of Carthage, Tenn.	7
City of Akron	W. T. Van Orman and W. P. Seiberling	4 miles E. of Lebanon, Tenn.	5
City of Birmingham	Roy F. Donaldson & W. E. Seiberling	10 miles S. E. of Nashville, Tenn.	4
St. Louis Chamber of Com.	H. E. Honeywell and J. M. O'Reilly	Nashville, Tenn	8
Atascadera	Capt. J. Berry and Chas. A. White	7 miles of Smyrna, Tenn	1
U. S. Army Balloon No. 1	Lieut.-Col. F. P. Lahm and Major O. Westover	6½ miles E. of Columbia, Tenn.	6
St. Louis No. 5	J. S. McKibben and C. W. Merrell	4 miles W. of Columbia, Tenn.	3
U. S. Navy	Lieut.-Com. L. J. Roth, U. S. N., and Lieut. H. E. Halland, U. S. N.	8 miles E. of Laurenceburg, Tenn	9

INTERNATIONAL BALLOON RACE.

The start of the International Balloon race for the Gordon Bennett Trophy was made from Brussels, Belgium, on Sunday, Sept. 18. The race was won by Capt. Paul Armbruster, representing Switzerland, who landed on the coast of Ireland. His official distance was announced as 766 kilometres. Henry Spencer of England was second, with a record of 667 kilometres, and Ralph Upson of the United States a close third, with 664. Baldwin of England was fourth, making 631 kilometres, and the other contestants finished in the following order: Valle, Italy, 617 kilometres; Barbanti, Italy, 603 kilometres; Dubois, France, 599 kilometres; Van Orman, United States, 565 kilometres; Magdalena, Spain, 558 kilometres; Labrousse, Belgium, 542 kilometres; Blenalme, France, 532 kilometres; De Luyter, Belgium, 500 kilometres; and L. Crombez, France, 315 kilometres. Bernard Von Hoffman, United States, was not classed, as his balloon descended in the sea. Von Hoffman and his companion, J. C. McKibben, had a narrow escape from drowning. Carried across the English Channel by a 40-mile blow, they were within five miles of the Irish coast late Monday evening when the wind died out. Their balloon dropped to the sea and was in danger of sinking when a ship was sighted. A Holmes light was thrown overboard and the ship lowered a boat. Both Von Hoffman and McKibben were in the water when rescued.

OTHER AVIATION FEATURES.

A new world's altitude record of 40,800 feet was established by Lieut. John A. MacReady at Dayton, Ohio, on Sept. 28, supplanting that of R. C. Schroeder, who reached 38,180 feet on Feb. 28, 1920. Lieut. MacReady was in the air 1 hour and 47 minutes, requiring all but a few minutes of the total flying time to reach his mark. At 39,000 feet, ice formed on his oxygen tank, but he pressed on until the altimeter registered 41,000 feet. At this point his engine coughed and died. He then glided safely to the ground.

MacReady's new record is 2,620 feet higher than that of Schroeder, and in this flight the pilot suffered none of the hardship met by the former chief test pilot. Schroeder's eyeballs froze and excessive dilation of the heart kept him in a hospital nearly two weeks after the flight. On landing, MacReady declared he suffered only from numbness. He climbed out of the plane unassisted.

MacReady was clothed in the heaviest furs, with special helmet and goggles. To insure clear vision a special gelatine was used on the goggles to prevent collection of ice. The suit was electrically heated throughout.

A centrifugal air compressor operated by a gas turbine formed the supercharger which made the flight possible. The turbine derives its power from the hot exhaust gas of the motor, and air thus compressed is fed to the carbureter at the same pressure as air at sea level.

Lieut. Georges Kirsch of France won the Deutsche de la Meurthe Airplane Cup race of 300 kilometres at Etampes, France, on Oct. 1, covering the distance with five turns in 1h. 4m. 39 1-5s. Kirsch's time was a new record for 300 kilometres.

Mme. Adrienne Bolland, French aviatrix, flew across the Andes from Mendoza, Argentina, to Chile, on April 1, in 4h. 2m. She was the first woman aviator to perform the perilous feat.

POLO.

THE feature of the polo season was the recapture of the International Cup by the United States team in the international games at Hurlingham, England. The American four won the cup carried to England in 1914 in two straight games, winning the first 11 goals to 4, and the second 10 to 6. The complete record of the International Cup play follows:

1886—Newport, R. I.—England, 2 matches; America, 0. America—1. W. Thorn, 2. R. Belmont, 3, F. P. Keene, Back, T. Hitchcock. England—1, Capt. T. Hone, 2, Hon. R. T. Lawley, 3, Capt. M. Little, Back, J. Watson.

1909—Hurlingham, England—England, 1 match; America, 0. America—1, W. McCreery, 2, F. J. Mackey, 3, F. P. Keene, Back, L. McCreery. England—1, Capt. Beresford, 2, F. M. Freake, 3, W. S. Buckmaster, Back, J. Watson.

1902—Hurlingham, England—England, 2 matches; America, 1. America—1, R. L. Agassiz, 1, M. Waterbury, 2, J. E. Cowdin, 2, L. Waterbury, 3, F. P. Keene, Back, L. Waterbury, Back, R. L. Agassiz. England—1, C. P. Nickalls, 2, P. W. Nickalls, 2, F. M. Freake, 2, G. A. Miller, 3, W. Buckmaster, 3, G. A. Miller, 3, P. W. Nickalls, Back, C. D. Miller, Back, W. Buckmaster. America won first match, 2 to 1; England won second, 6 to 1, and third, 7 to 1.

1909—Hurlingham, England—America, 2 matches; England, 0. America—1, L. Waterbury, 2, J. M. Waterbury, Jr., 3, H. P. Whitney, Back, D. Milburn. England—1, Capt. H. Wilson, 1, Harry Rich, 2, F. M. Freake, 3, P. W. Nickalls, 3, Lord Wodehouse, Back, Capt. H. Lloyd. America won first match by 9 to 5, and second by 8 to 2.

1911—Meadow Brook, L. I.—America, 2 matches; England, 0. America—1, L. Waterbury, 2, J. M. Waterbury, Jr., 3, H. P. Whitney, Back, D. Milburn. England—1, Capt. Cheape, 2, Lieut. A. N. Edward, 3, Capt. J. H. Lloyd, Back, Capt. Wilson. America won first match by 4 1-2 to 3, and second by 4 1-2 to 3 1-2.

1913—Meadow Brook, L. I.—America, 2 matches; England, 0. America—1, L. Waterbury, 1, L. E. Stoddard, 2, J. M. Waterbury, Jr., 2, L. Waterbury, 3, H. P. Whitney, Back, D. Milburn. England—1, Capt. Cheape, 2, F. M. Freake, 2, Capt. Edwards, 3, Capt. R. G. Ritson, Back, Capt. Lockett. America won first match by 5 to 3, and second match by 4 1-2 to 4 1-4.

1914—Meadow Brook, L. I.—England, 2 matches; America, 0. America—1, R. La Montagne, 2, J. M. Waterbury, Jr., 3, L. Waterbury, Back, D. Milburn. England—1, Capt. Tomkinson, 2, Capt. Cheape, 3, Major Barrett, Back, Capt. Lockett. England won first match by 8 1-2 to 3, and second by 4 to 2 3-4.

1921—Hurlingham, England—America, 2 matches; England, 0. America—1, Louis E. Stoddard, 2, T. Hitchcock, Jr., 3, J. Watson Webb, Back, D. Milburn. England—1, Lieut.-Col. H. A. Tomkinson, 2, Major F. W. Barrett, 3, Lord Wodehouse, Back, Major Lockett. America won first match by 11 to 4, and second by 10 to 6.

NATIONAL CHAMPIONSHIPS.

Played at Philadelphia, Sept. 12-27. National Junior Championship, final round, Meadow Brook Foxhunters 17, Philadelphia Country Club 3. National Senior Championship, final round, Rockaway 10, Meadow Brook, 7. National Open Championship, final round, Great Neck 8, Rockaway 6.

RULES OF POLO.

The rules of polo are very similar to those of football. At one time there was an offside rule as in Association "footer," but the Hurlingham committee abolished it. A tournament match is divided into seven periods of play, each lasting eight minutes. These periods are often referred to as "chukkers," a word which those who have played the game in India bring home with them. Ponies are changed after each period. This means that every player should have a stud of four ponies at his disposal.

The attacking side is allowed a free hit sixty yards from the back line, opposite to where the ball crossed the line. A severe penalty is imposed for dangerous play, such as crossing. In this case a free hit fifty yards in front of the goal, or, if preferred, from where the foul took place, is allowed. In the event of minor infractions of the rules, such as foul hooking of sticks, the penalty is a free hit from where the foul occurred.

The history of the games between England and America dates back to 1886, when a Hurlingham team visited the United States and easily secured the cup. It remained at Hurlingham until 1909, when it was captured by Mr. H. P. Whitney's "Big Four."

FACTS ABOUT THE EARTH.

THE superficial area of the earth is 196,940,000 square miles—140,295,000 square miles of water and 56,255,000 square miles of land. The three great oceans comprise the Atlantic, 41,321,000 square miles; Pacific, 68,634,000 square miles, and Indian, 29,430,000 square miles. There are about 1,000,000 square miles of lake and river surface on the land, and 1,910,000 square miles of islands in the seas. The diameter of the earth at the equator is 7,926 miles, and through the poles 7,899.6 miles. The average elevation of the land above sea level is 2,300 feet. The average depth of the ocean below sea level is 12,600 feet. The deepest place in the ocean yet found is off Mindanao, Philippine Islands, 32,088 feet. The highest mountain is Mount Everest, in the Himalayas, 29,002 feet. This gives a range of 61,090 feet or more, 11½ miles, between the bottom of the oceans and the top of the land.

AREA AND POPULATION OF THE EARTH BY CONTINENTS.

Continental Divisions.	Area in Square Miles.	Inhabitants.		Continental Divisions.	Area in Square Miles.	Inhabitants.	
		Number.	Per Sq. Mile.			Number.	Per Sq. Mile.
Africa	11,622,619	142,751,000	12.3	Australasia	3,312,613	16,228,591	4.9
America, N.	8,589,257	150,000,000	16.3	Europe	3,872,561	464,681,000	120.0
America, S.	7,570,015	56,337,775	7.4	Polar Regions	5,081,935	.....	.....
Asia	17,206,000	872,522,000	50.7	Total	57,255,000	1,702,520,366	29.6

The best estimates of the earth's area place the fertile regions at 29,000,000 square miles; steppes at 14,000,000 square miles; deserts at 4,861,000 square miles; and polar regions at 6,970,000 square miles.

The population of the earth at the death of Emperor Augustus, estimated by Bodio, was 54,000,000. The population of Europe hardly exceeded 50,000,000 before the fifteenth century.—*Mulhall.* The population of the earth at its present ratio of gain will be about 4,000,000,000 in 2014.

The proportion of females to each 1,000 males in 1910 was: United States 934; England 1,068; Germany, 1,026. In France (1901), 1,033.

In the United States, January 1, 1920, there were 104 males to every 100 females, as against 106.0 in 1910 and 104.4 in 1900.

Abbe Theodore Moreaux, director of the observatory of Bourges, in an article in La Revue du Ciel, declares the world to be 500,000,000 years old. The Abbe Moreaux also estimates that man has existed for tens of thousands of years. He says the belief of German scientists that human beings have existed for 400,000 years has no basis in fact. Life, Abbe Moreaux says, has existed on the earth for at least 240,000,000 to 260,000,000 years, although it has not been human life. He says the moon was not once part of the earth, but was a sun, since extinct, but it formerly aided in warming the earth.

POPULATION OF THE EARTH ACCORDING TO RACE.

Race.	Location.	Number.	Race.	Location.	Number.
Indo-Germanic or Aryan (white)	Europe, America, Persia, India, Australia	806,000,000	Malay and Polynesian (brown)	Australasia	35,000,000
			American Indian, North and South (red and half-breeds)	West'n Hemisphere	27,000,000
Mongolian or Turanian (yellow and brown)	Asia	630,000,000			
Semitic (white)	Africa, Arabia, etc.	70,000,000			
Negro and Bantu (black)	Africa	134,000,000	Total		1,702,000,000

POPULATION IN INDUSTRIAL OCCUPATIONS IN UNITED STATES AND EUROPE.

THE following table gives the percentages of total occupied population for the principal groups in the eight leading industrial countries prior to the war:

Occupation Group.	Great Britain.	France.	Germany.	Austria.	Hungary.	Italy.	Belgium.	United States.
Agriculture	12.66	41.42	35.11	60.80	70.15	59.06	21.90	See separate classification below.
Commercial occupations	11.39	6.54	6.30	3.34	2.56	3.43	11 79	
Conveyance of men, goods and messages	8.20	2.89	2.89	1.70	1.55	3.12	2.03	
Mines and quarries	5.00	1.59	3.25	1.56	.78	.89	6.46	
Metals, machines, implements and conveyances	7.89	4.35	6.99	2.78	2.15	2.14	5.95	
Building and works of construction	6.77	4.20	6.99	2.96	1.48	5.02	7.28	
Textile fabrics	6.92	4.55	3.75	3.26	.37	4.81	6.86	
Dress	7.23	8.05	5.39	3.92	2.85	6.64	7.86	

The total number of persons 10 years of age and over, of both sexes, who were reported by the census enumerators in 1920 as gainfully occupied was 41,609,192, representing 50.3 per cent. of the total population 10 years of age and over, 82,739,315. This total was made up of the following numbers of persons engaged in the several general occupational classes, stated in the order of their numerical importance: Manufacturing and mechanical industries, 12,812,701, or 30.8 per cent.; agriculture, forestry, and animal husbandry, 10,951,074, or 26.3 per cent.; trade, 4,244,354, or 10.2 per cent.; domestic and personal service, 3,400,365, or 8.2 per cent.; clerical occupations, 3,119,955, or 7.5 per cent.; transportation, 3,066,305, or 7.4 per cent.; professional service, 2,152,484, or 5.2 per cent.; extraction of minerals, 1,090,854, or 2.6 per cent.; public service (not elsewhere classified), 771,120, or 1.9 per cent.

For males alone the distribution was as follows: Manufacturing and mechanical industries, 10,881,637, or 32.9 per cent.; agriculture, forestry, and animal husbandry, 9,867,000, or 29.9 per cent.; trade, 3,574,435, or 10.8 per cent.; transportation, 2,852,043, or 8.6 per cent.; clerical occupations, 1,696,297, or 5.1 per cent.; domestic and personal service, 1,216,151, or 3.7 per cent.; professional service, 1,136,157, or 3.4 per cent.; extraction of minerals, 1,087,357, or 3.3 per cent.; public service (not elsewhere classified), 748,716, or 2.3 per cent.

The gainfully occupied females were distributed as follows: Domestic and personal service, 2,184,214, or 25.5 per cent.; manufacturing and mechanical industries, 1,931,064, or 22.6 per cent.; clerical occupations, 1,423,658, or 16.7 per cent.; agriculture, forestry, and animal husbandry, 1,084,074, or 12.7 per cent.; professional service, 1,016,307, or 11.9 per cent.; trade, 669,919, or 7.8 per cent.; transportation, 214,262, or 2.5 per cent.; public service (not elsewhere classified), 22,404, or three-tenths of 1 per cent.; extraction of minerals, 3,497, or less than one-tenth of 1 per cent.

1921	37,885,242	4,882,288	No census.	20,430,623	22,336,907	42,767,530

Of the Jan. 19, 1921 (census) population of England and Wales, there were 18,082,220 males, and 19,803,022 females. In Scotland there were 2,348,403 males, and 2,533,885 females.

England (1921) 35,678,530; Wales (1921) 2,206,712.

The 1921 figures for males and females (last 3 columns), exclude Ireland.

The census of Ireland in 1821 is the first which was made on such a basis as to afford a comparison with those of subsequent decades.

Since 1831 the total included army, navy and merchant service at home.

JEWISH POPULATION OF THE WORLD.

The American Jewish Year Book for 1921-1922 estimates the Jewish population of the world at 14,771,931, separately divided as follows: North America, 3,379,668; South America, 118,657; Europe, 10,439,191; Asia, 434,332; Africa, 380,668; Australasia, 19,415.

The same authority estimates the number of Jews in the United States at 3,300,000, of whom 1,500,000 (1918 estimate) are in New York City.

The Jews in Russia-in-Europe are said to number 3,300,000, about the same as in the United States.

According to a computation made early in 1920 by David Trietsch, the statistician, of London, the Jewish population of the world is approximately 15,430,000. By other estimates, there are in Austria and Hungary, 2,250,000; in France, 100,000; in Germany, 600,000; Holland, 107,000; Roumania, 240,000; Palestine, 100,000; Armenia, 175,000; Argentina, 110,000; Morocco, 104,000. These are the chief countries. In New York State, it is estimated, there are over 1,600,000; in Pennsylvania, 325,000; Illinois, 250,000; Massachusetts, 190,000; New Jersey, 150,000; Ohio, 167,000. In Chicago there are 250,000; Philadelphia, 210,000; Cleveland, 100,000.

VITALITY OF LAST CHILDREN.

The old belief, still common, that first-born children are endowed by nature with greater vitality and longevity than last-born has induced Dr. Alfred Ploetz of Munich, Germany, to make a study to ascertain if this were true. He compiled the returns from a large number of families of the nobility, and his figures show, generally speaking, that the vitality of first to ninth-born children varied very little, but that from the tenth to the nineteenth-born the mortality was markedly greater.

In the following table Dr. Ploetz has made groupings of first-born children, second-born, and so on, and it was his object to find out how many of these died before the fifth year. Order or birth, number of children, and per cent. died, as follows:

First-born	614	26.4	Fifth-born	311	26.0	Tenth to nineteenth-born	302	34.4
Second-born	539	24.9	Sixth-born	249	26.1			
Third-born	455	26.4	Seventh to ninth-born.	463	26.3		3,319	26.7
Fourth-born	386	25.6

A large proportion of the figures in 1921 column are somewhat preliminary, and they relate to that year or to the latest previous year for which figures are available. For later data on separate items see Index. Population is continental. Net ordinary receipts and disbursements do not include loans, Treasury notes or general postal revenues or expenses. 1921 commercial failures cover first six months.

TERRITORIAL EXPANSION OF THE UNITED STATES.

The area of the original thirteen States (years 1783-1817) was 892,135 square miles.

Division.	Yr.	Added. Square Miles.	Division.	Yr.	Added. Square Miles.	Division.	Yr.	Added. Square Miles.
Louisiana purchase..	1803	827,987	Gadsden purchase...	1853	29,670	Addit'nal Philippines	1901	68
Gained through treaty with Spain.	1819	13,435	Alaska.....	1867	590,884	Panama Canal Zone.	1904	436

Mexican cession....	1848	529,189	Philippine Islands...	1898	114,958	Total added area..	..	2,851,313
			Samoa.....	1899	77	Total United States including original 13 States,		3,743,448

Payments for above were made by the United States as follows: Louisiana purchase, $15,440,000; Gadsden purchase, $10,000,000; Alaska, $7,200,000; Florida, $5,000,000; Hawaiian Islands, public debt assumed to the amount of $4,000,000; Mexican cession, $8,250,000.

The Treaty of Paris, of December 10, 1898; terminating the Spanish-American War, provided for a money payment to Spain (for relinquishing claim to Porto Rico, Guam, and Philippine Islands) of $20,000,000, and a subsequent treaty of November 7, 1900, provided for a further payment of $100,000 for other Philippine Islands.

By the first treaty the Philippine Islands were ceded to the United States, and the later treaty of November 7, 1900, ceded certain outlying islands of the Philippines not included in the first cession.

The United States did not acquire, by the Isthmian Canal Convention of November 18, 1903, any title to territory in the Republic of Panama, but merely a perpetual right of occupation, use, and control of and over a zone of land ten miles in width. For this privilege it paid to the Republic of Panama the sum of $10,000,000, and undertook to pay the sum of $250,000 annually so long as such occupancy continued, such payments beginning on February 26, 1913.

For the Danish West Indies, consisting of the islands of St. Croix, St. Thomas and St. John, the United States paid $25,000,000, and took possession on March 31, 1917. They then had 32,000 population.

No money payments were made upon the acquisition of the other Territories mentioned in the list.

THE CENTRE OF UNITED STATES POPULATION.

Census Year.	Approximate Location by Important Towns.	From Point to Point in Direct Line.†
1790.....	23 miles east of Baltimore, Md.....	.....
1800.....	18 miles west of Baltimore, Md.....	40.6

1900.....	6 miles southeast of Columbus, Ind	14.6
1910.....	In the City of Bloomington, Ind.....	39.0
1920.....	In Owen County, Ind., 8.3 miles southeast of Spencer, Ind.....	9.8

*West Virginia formed part of Virginia until 1863. †Movement in miles during preceding decade.

The 1920 centre of population is located where the parallel of latitude of 39 degrees 10 minutes 21 seconds north intersects the meridian of longitude of 86 degrees 43 minutes 15 seconds west. The centre of population moved, from 1910 to 1920, about 9.8 miles westward, and to a point about one-fifth of a mile northward of the latitude line of Bloomington, Ind.

"The centre of population," says the U. S. Census Bureau, "may be considered as the centre of gravity for the population of the United States; that is to say, if the surface of the United States be regarded as a rigid, level plane, without weight, but having the population distributed thereon as at present, each individual inhabitant, being assumed to have the same weight as every other inhabitant, would exert a pressure on any given point in the plane directly proportional to his distance from that point. The centre of gravity for this plane, or the pivotal point on which it would balance, is the point referred to by the term 'centre of population.' That being the case, the cities of Seattle, San Francisco and Los Angeles, with a combined population of 1,398,661, exert a greater influence on the location of the centre of population than the cities of Baltimore, Boston, Buffalo, Cleveland, Philadelphia and Pittsburgh, with a combined population of 5,197,624."

GEOGRAPHICAL CENTRE OF THE UNITED STATES.

The "centre of area," or geographical centre, of the United States, which has nothing to do with the centre of population, is determined by drawing lines across the country's greatest width and greatest length. Ten years ago this intersection was located in Northern Kansas, ten miles north of Smith Center, the county seat of Smith County.

Besides the "centre of population" and the "centre of area," there is still another definition used by the Census Bureau—the "median lines." These lines divide the population evenly north and south of a parallel of latitude and east and west of a meridian of longitude. In 1910 the intersecting point of the median lines was situated three and one-quarter miles south of Winchester, in Randolph County, Ind. It had moved 7.5 miles westward and 2.3 miles northward during the decade since 1900.

TREATY WITH COLOMBIA, PAYING FOR PANAMA.

The United States Senate ratified, in 1921, a treaty with Colombia by which that country is to receive $25,000,000 (in five yearly instalments of $5,000,000) as compensation for the loss of territorial sovereignty over Panama and the Canal Zone. The Colombian Senate ratified the treaty, but the Colombian House of Representatives has taken no action. The Colombian Congress adjourned on Nov. 30, and the treaty will again be taken up when it reconvenes, in March, 1922.

For 1890 the rank of Arizona advances from 48 to 47 and that of Oklahoma advances from 46 to 39 when the population specially enumerated in Indian Territory and on Indian reservations is included.

North Dakota included in South Dakota in 1860, 1870, and 1880.

The ranking of Oklahoma in 1900 was 38 and Indian Territory 39. The present ranking for the same census is based on the combined population of Oklahoma and Indian Territory.

For 1890 the rank of South Dakota advances from 37 to 35 when the population specially enumerated on Indian reservations is included.

New England Division—Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut. Middle Atlantic Division—New York, New Jersey, Pennsylvania. East North Central Division—Ohio, Indiana, Illinois, Michigan, Wisconsin. West North Central Division—Minnesota, Iowa, Missouri, North Dakota, South Dakota, Nebraska, Kansas. South Atlantic Division—Delaware, Maryland, District of Columbia, Virginia, West Virginia, North Carolina, South Carolina, Georgia, Florida. East South Central Division—Kentucky, Tennessee, Alabama, Mississippi. West South Central Division—Arkansas, Louisiana, Oklahoma, Texas. Mountain Division—Montana, Idaho, Wyoming, Colorado, New Mexico, Arizona, Utah, Nevada. Pacific Division—Washington, Oregon, California.

The population in 1910, according to United States Census Bureau estimates, of the outlying possessions was as follows: Alaska, 64,366; Hawaii, 192,389; Porto Rico, 1,119,987; Philippines, 8,276,802; Virgin Islands (1917), 26,051. Samoa (1916), 7,426; Guam (1912), 12,240.

DENSITY OF POPULATION PER SQUARE MILE IN UNITED STATES.

[NOTE—In computing density of population for the United States, the areas and population of Alaska, Hawaii, and Porto Rico in 1900 and 1910, of Alaska and Hawaii in 1890, and of Indian Territory in 1860, 1870 and 1880, are not considered.]

DWELLINGS AND FAMILIES IN THE UNITED STATES.

The following table presents statistics as to dwellings and families for the United States as a whole for each census year from 1880 to 1920.

CENSUS YEAR.	Population.	Number of Dwellings.	Number of Families.	Persons to a Dwelling.	Persons to a Family.
1920	105,710,620	20,697,204	24,351,676	5.1	4.3
1910	91,972,266	17,805,345	20,255,555	5.2	4.5
1900	75,994,575	14,430,145	16,187,715	5.3	4.7
1890	62,622,250	11,483,318	12,690,152	5.5	4.9
1880	50,155,783	8,955,812	9,945,916	5.6	5.0

Population total, 1890, is exclusive of population (325,464) specially enumerated in Indian Territory and on Indian reservations, for which statistics of dwellings and families are not available.

DWELLINGS AND FAMILIES IN THE UNITED STATES BY STATES.

The total number of citizens, male and female, in the above table, is 54,421,832. The citizens comprise all native persons and all naturalized foreign-born persons.

Under the provisions of the naturalization laws at the time the 1910 census was taken, the citizenship status of a married woman was the same as that of her husband (but if the husband had taken out his naturalization papers only, his wife was classified in the census returns as an alien); for an unmarried woman the process of naturalization was the same as for a man; a foreign-born widow or foreign-born divorced wife of a citizen of the United States retained the citizenship status of her former husband so long as she continued to reside in this country; and a foreign-born widow or foreign-born divorced wife of an alien could become naturalized in the same manner as a man.

In general, the citizenship returns of 1920 show a greater proportion of women naturalized than of men. The proportion of women shown as having taken out first papers was very much smaller than the proportion shown for men. This is due to the fact that a foreign-born married woman whose husband has taken out his first papers is herself treated as an alien, so that this classification in the case of women relates only to those who are not married.

MALES 21 YEARS OF AGE AND OVER, 1920.

The total number of men 21 years of age and over comprised 28,442,400 whites, 2,792,006 negroes, 61,229 Indians, 46,979 Chinese, 53,411 Japanese, and 7,345 men of other races—Filipinos, Hindus, Hawaiians, Malays, etc. Of the white men 21,513,948 were natives and 6,928,452 were foreign-born, and of the natives, 15,805,063 were of native parentage, 3,956,384 of foreign parentage, and 1,752,501 of mixed native and foreign parentage. The total number of male citizens of all races, 27,661,880, comprised 24,339,776 natives and 3,322,104 foreign-born naturalized men.

Expressed in percentages, the distribution of the several classes of men 21 years of age and over in 1920 was as follows: Total white, 90.6 per cent.; native white of native parentage, 50.3 per cent.; native white of foreign parentage, 12.6 per cent.; native white of mixed native and foreign parentage, 5.6 per cent.; foreign-born white, 22.1 per cent.; negro, 8.9 per cent.; Indian, two-tenths of 1 per cent.; Chinese, one-tenth of 1 per cent.; Japanese, two-tenths of 1 per cent.; total citizens, all races, 88.1 per cent; native citizens, all races, 77.5 per cent.; and foreign-born naturalized citizens, all races, 10.6 per cent. Of the citizens about seven-eighths were native and one-eighth naturalized.

FEMALES 21 YEARS OF AGE AND OVER IN 1910.

Females in the United States, 21 years of age and over, in 1910, numbered 24,555,754, of which 22,059,236 were white, 2,427,742 were colored; 60,169 were Indians, and all others numbered 8,607. Of the white women 21 years of age and over, 12,484,481 were native of native parentage; 4,567,647 were native of foreign or mixed parentage, and 5,007,108 were foreign-born.

In the State of New York, in 1910, the women 21 years of age and over, numbered 2,757,521, of whom 2,706,523 were white; 49,300 were negroes, and 1,502 were Indians. The foreign-born white women totalled 1,068,383, or 38.7 per cent. of the entire number of women 21 years of age and over.

Under the item "All other" women are included Hindus and various Asiatic and Australasian races.

FEMALES WHO VOTE.

Owing to the present condition of the election laws, which in most of the States require no separation of the male and female vote it is not known how many women cast ballots.

The census classifies the foreign-born population into four groups; namely, naturalized, those having taken out "first papers" preparatory to naturalization, aliens, and those whose citizenship status was not ascertained by the enumerators. Under the provisions of the naturalization laws at the time the Fourteenth Census was taken, the citizenship status of a married woman or of a minor child was the same as that of the husband or father (but if the husband or father had taken out his first naturalization papers only, the wife or minor child was classified in the census returns as an alien); for a foreign-born unmarried woman or a foreign-born widow, or foreign-born divorced wife of an alien, the process of naturalization was the same as for a man; but a foreign-born widow or foreign-born divorced wife of a citizen of the United States retained the citizenship status of her former husband so long as she continued to reside in this country.

The total foreign-born population of the United States on January 1, 1920, numbered 13,920,692, representing an increase of 404,806, or 3 per cent since 1910. Of this total, 6,493,088 were naturalized, 1,223,490 had taken out their first papers, and 5,398,605 were aliens, and for the remaining 805,509 the citizenship status was not ascertained by the enumerators. Expressed in percentages, the distribution was: Naturalized, 46.6 per cent; first papers, 8.8 per cent; alien, 38.8 per cent; not reported, 5.8 per cent.

LARGEST NATURALIZED PERCENTAGES.

(From a bulletin of the Bureau of the Census.)

The largest percentage naturalized in the total foreign-born population of any State, 73.3, is shown for North Dakota, and the smallest, 14.8, for Arizona. In eight States—Kentucky, Minnesota, Iowa, North Dakota, South Dakota, Nebraska, Montana and Idaho—more than 60 per cent of the foreign-born population were naturalized. On the other hand, in eight States—Maine, Connecticut, West Virginia, Florida, Louisiana, Texas, New Mexico and Arizona—the corresponding percentage was less than 40.

The largest percentage of aliens in the foreign-born population, 78.7, appears for Arizona. The smallest percentage of aliens in the foreign-born, 11.6, is shown for South Dakota.

Over 10,000 young Indians served in the World War. In the past 8 years the Indians have spent $18,000,000 for homes, barns, and modern farm implements; 37,000 Indian farmers cultivate 1,000,000 acres; 47,000 are raising live stock worth $38,000,000. The 2,100 Osage Indians (in northeast Oklahoma) received over $7,000 apiece income in 1920 from oil and gas lands they had leased. There are 419 Protestant and 208 Catholic missionaries among the Indians, and 657 churches. Churchgoing Indians number 106,176, of whom 58,858 are Catholic. Of the Redskins, 133,193 speak English; 91,331 read and write English; 196,341 wear citizens' clothing; 83,402 are U. S. citizens; 29,738 are voters; 26,949 are engaged in industries other than farming and stock-raising (fishing and native textiles); 6,504 families keep milch cows; 44,195 families live in permanent houses, and 10,946 families in tents; the birth rate is 31.67 per 1,000 population, and the death rate is 22.33 per 1,000 population; 3,049 able bodied and 8,033 disabled Indians receive Government rations without laboring or paying therefor; 61,800 children go to schools, which cost the Government over $4,700,000 a year. The Indians own 156,966 horses and mules, 211,938 cows, 1,361,315 sheep and goats.

Of the white women in the United States in 1920 who were 21 years and over, 21,100,793 were natives and 5,570,268 were foreign born; and of the natives, 15,202,194 were of native parentage, 4,045,947 of foreign parentage, and 1,852,652 of mixed native and foreign parentage. The total number of female citizens, of all races, 26,759,952, comprised 23,860,351 natives and 2,899,601 foreign-born naturalized women.

The per cent distribution of the several classes of women 21 years of age and over in 1920 was as follows: Total white, 90.5 per cent; native white of native parentage, 51.6 per cent; native white of foreign parentage, 13.7 per cent; native white of mixed native and foreign parentage, 6.3 per cent; foreign-born white, 18.9 per cent; negro, 9.3 per cent; Indian, two-tenths of 1 per cent; Japanese, one-tenth of 1 per cent; total citizens, all races, 90.8 per cent; native citizens, all races, 80.9 per cent; and foreign-born naturalized citizens, all races, 9.8 per cent. Of the citizens about nine-tenths were native and one-tenth naturalized.

THE AMERICAN INDIAN.

(The statistics are official, and are as of June 30, 1920.)

Area of Indian lands includes 1,261,586 acres of the public domain not mentioned by States. Of the 71,398,730 acres in reservations, 35,897,069 acres were allotted, and 35,501,661 acres were unallotted. The allotments numbered 226,348, including 8,776 on the public domain.

Valuations of Indian lands do not include oil and gas lands of the Five Civilized Tribes, and the Osages (Oklahoma), estimated at $1,550,000,000.

Income covers year ended June 30, 1920.

Births and deaths are exclusive of the Five Civilized Tribes, including, as to Oklahoma, only 15,028 Indians on reservations.

Population total includes Five Civilized Tribes (101,506), and also includes certain States not in the table—Ala., 909; Ark., 460; Conn., 152; Del., 5; Dis. of Col., 68; Ga., 95; Ill., 188; Ind., 279; Ky., 234; La., 780; Me., 892; Md., 55; Mass., 688; Miss., 1,400; Mo., 313; N. Hamp., 34; N. J., 168; Ohio, 127; Pa., 300; R. I., 284; S. Car., 331; Tenn., 216; Tex., 702; Vt., 26; Va., 539; W. Va., 36.

Of the income of Indians, $11,927,366 was from crops; $4,080,375 from live stock sold; $1,869,907 from weaving and other native industries; $2,060,559 from timber cut; $4,240,149 from wages earned; $6,245,762 from individual leases of land; $5,440,964 from sales of land; and the rest from Indian moneys, trust funds, rations, labor, etc.

LYNCHINGS IN THE UNITED STATES SINCE 1885.

(Compiled for the ALMANAC by Monroe N. Work, head of the Research and Record Department, the Tuskegee Normal and Industrial Institute, and editor of the Negro Year Book.)

The two tables that follow include both white and colored victims.

Hamp., 0; N. J., 1 (in 1886); N. M., 16; N. Y., 2 (1892 and 1896); N. Dak., 3; Ohio, 20; Ore., 10; Pa., 6; R. I., 0; S. Dak., 15; Utah, 0; Vt., 0; Wash., 14; Wis., 5; Wyo., 17.

There were thirty-six lynchings in the United States during the first six months of 1921, twenty-four more than during the same period in 1920, according to a report issued by the Department of Records and Research of Tuskegee Institute.

Lynchings during the first half of 1921 included two white men and thirty-four negroes, two of the latter being women, the report said. Eleven were charged with rape. By States the lynchings were divided: Miss., 10; Ga., 9; Fla. and Ark., 4 each; La. and N. C., 2 each, and Ala., Ky., Mo., S. C., and Tenn., 1 each.

ILLITERACY IN THE UNITED STATES IN 1920.

THE percentage of illiteracy in the native white population decreased between 1910 and 1920 in all States except six, in which it was very low in 1910 and remained unchanged—Idaho, Wyoming, and Washington, each with three-tenths of 1 per cent., and South Dakota, Nevada, and Oregon, each with four-tenths of 1 per cent. The largest proportional decrease between 1910 and 1920 is shown for Arizona, in which State the percentage of illiteracy for the later year, 2.1, was only one-half as great as that for the earlier year, 4.2.

For the foreign-born white population the percentage illiterate increased between 1910 and 1920 in 17 States, decreased in 29 States and the District of Columbia, and remained unchanged in two States. The largest proportional increase took place in Oklahoma, in which State the percentage illiterate in the later year, 14, was more than two-fifths larger than the corresponding percentage for the earlier year, 9.8. The largest proportional decreases occurred in Florida—from 10.5 to 6.3—and Montana—from 9.4 to 5.6—the 1920 percentage in each case being only three-fifths as large as that for 1910.

In the case of the negro population the percentage illiterate decreased in the District of Columbia and in every State except four—Vermont, Rhode Island, Wyoming, and Oregon. The largest proportional increase, from 3.4 in 1910 to 4.7 in 1920, appears for Oregon. The largest proportional decrease is that for New Mexico; in which State the percentage illiterate declined from 14.2 in 1910 to 4.3 in 1920, or by more than two-thirds. The explanation of this pronounced decrease is found in the fact that a large increase took place in the total negro population of New Mexico, due in part to the presence of negro troops in that State in 1920, and that there were few illiterates among the newcomers.

he totals in the above table include 358,547 males and 372,276 females whose citizenship was not re- to the Census Bureau.

PERCENTAGE SUMMARY (1910 FIGURES IN PARENTHESES.)

oreign-born white males, 21 or over, naturalized, 47.8 (45.6), had taken out first papers—16.1 (8.6). 0, first papers had been taken out by 570,772.

oreign-born white females, 21 or over, naturalized—52.0; had taken out first papers—1.4. The in- in alien population in 1920 in the South and Far West was largely due to the temporary war influx xican laborers.

he 1910 census did not cover data as to the citizenship of women.

t the census of 1920 a woman married to a native or naturalized citizen of the United States was re- as a citizen, even though herself foreign born; and a native-born woman married to an alien or to a n-born man who had taken out his first naturalization papers only was returned as an alien. But the r of aliens here considered includes only those who are of foreign birth. An unmarried woman born United States is, of course, a citizen by birth; and for an unmarried foreign-born woman the process of alization is the same as for a man.

CITIZENSHIP OF FOREIGN-BORN WHITES, 21 YEARS AND OVER IN CIT

(U. S. Census Returns, Jan. 1, 1920.)

The largest proportion of men naturalized is shown for Louisville, 69.9 per cent, and the smalles San Antonio, 20.6. In 10 cities—Albany, Cincinnati, Denver, Des Moines, Louisville, Minneapolis, N ville, St. Paul, Salt Lake City, and Spokane—the proportion naturalized was more than 60 per cent.

The largest increase in the proportion naturalized was that for Spokane—from 44.4 per cent in to 62.9 per cent in 1920, and the largest decrease was that for San Antonio—from 42.3 per cent in 191 20.6 per cent in 1920. The very small proportion naturalized in Fort Worth and San Antonio—25.7 cent and 20.6 per cent, respectively—was due, at least in great part, to the presence of large numbers of Mexicans.

In general, the citizenship returns show a greater proportion of women naturalized than of men. largest proportion for any city of 100,000 or over is that for Spokane, 70.6, and in Denver and Salt L City also the corresponding proportion was more than 70 per cent.

The number of persons 10 years of age and over who were gainfully occupied, and the percen which they represented of the total population of all ages, as reported at the last five censuses, were a lows: 1880, 17,392,099, or 34.7 per cent; 1890, 23,318,183, or 37.2 per cent; 1900, 29,073,233, or 38. cent; 1910, 38,167,336, or 41.5 per cent; 1920, 41,609,192, or 39.4 per cent.

The percentages which the number of gainfully occupied persons formed of the habitants 10 years of age and over were: 1880, 47.3; 1890, 49.2; 1900, 50.2; 1910, 5 decrease from 1910 to 1920 was confined mainly to the field of agriculture and is measure, to the change of the census date from April 15 in 1910 to January 1 in 19 sons employed as farm laborers would naturally be considerably smaller in Janu

CONFERENCE ON THE LIMITATION OF ARMAMENT.

Though called for November 11 (Armistice Day), 1921, the conference did not formally assemble November 12, owing to the ceremonies at Arlington National Cemetery, just outside Washington irginia, in connection with the burial of America's unknown soldier.

PRESIDENT HARDING'S CALL TO NATIONS FOR DISARMAMENT CONFERENCE.

(Issued Aug. 11, 1921, at Washington.)

THE President is deeply gratified at the cordial response to his suggestion that there should be a con-ice on the subject of limitation of armaments, in connection with which Pacific and Far Eastern ques-s should also be discussed.

Productive labor is staggering under an economic burden too heavy to be borne unless the present public expenditures are greatly reduced. It is idle to look for stability, or the assurance of social justice, he security of peace, while wasteful and unproductive outlays deprive effort of its just reward and defeat reasonable expectation of progress.

The enormous disbursements in the rivalries of armaments manifestly constitute the greater part of encumbrance upon enterprise and national prosperity; and avoidable or extravagant expense of this re is not only without economic justification but is a constant menace to the peace of the world rather an assurance of its preservation. Yet there would seem to be no ground to expect the halting of these easing outlays unless the powers most largely concerned find a satisfactory basis for an agreement to t their limitation.

The time is believed to be opportune for these powers to approach this subject directly and in confer-; and while, in the discussion of limitation of armament, the question of naval armament may naturally first place, it has been thought best not to exclude questions pertaining to other armament to the end all practicable measures of relief may have appropriate consideration. It may also be found advisable rmulate proposals by which in the interest of humanity the use of new agencies of warfare may be suitably rolled.

It is, however, quite clear that there can be no final assurance of the peace of the world in the absence e desire for peace, and the prospect of reduced armaments is not a hopeful one unless this desire finds ression in a practical effort to remove causes of misunderstanding and to seek ground for agreement o principles and their application.

It is the earnest wish of this Government that through an interchange of views with the facilities af-ed by a conference, it may be possible to find a solution of Pacific and Far Eastern problems, of unques-ed importance at this time, that is, such common understandings with respect to matters which have and are of international concern as may serve to promote enduring friendship among our peoples.

It is not the purpose of this Government to attempt to define the scope of the discussion in relation he Pacific and Far East, but rather to leave this to be the subject of suggestions to be exchanged before meeting of the conference, in the expectation that the spirit of friendship and a cordial appreciation he importance of the elimination of sources of controversy will govern the final decision.

Accordingly in pursuance of the proposal which has been made, and in the light of the gracious indi-n of its acceptance, the President invites the Government of Great Britain (the name is c anged in r invitations) to participate in a conference on the subject of limitation of armament, in connection with h Pacific and Far Eastern questions will also be discussed, to be held in Washington on the 11th day, ovember, 1921.

THE AGENDA, OR PROGRAMME FOR THE CONFERENCE.

Following is an outline of the agenda for the Conference, proposed by the United States.

Limitation of armament:

1. Limitation of naval armament; basis of limitation; extent of limitation; fulfilment of conditions.
2. Rules for control of new agencies of warfare.
3. Limitation of land armament.

Pacific and Far Eastern questions:

1. Questions relating to China; principles to be applied.
2. Application to subjects.
   - A. Territorial integrity.
   - B. Administrative integrity.
   - C. Open door; equally of administrative and industrial opportunity.
   - D. Concessions, monopolies and other economic privileges.
   - E. Development of railways.
   - F. Preferential railroad rates.
   - G. Status of existing commitments.

Questions relating to Siberia; similar to questions relating to China.

3. Mandated islands.

Japan at first raised some objection to the consideration of her interests in the Far East, but later agreed he agenda.

DELEGATES PLENIPOTENTIARY TO THE CONFERENCE.

United States.

Secretary of State Charles E. Hughes, *Chairman of the Conference;* U. S. Senator Henry Cabot Lodge ass., ex-Secretary of State Elihu Root, of N. Y.; U. S. Senator Oscar W. Underwood, of Ala.

Belgium.

Ambassador to the U. S., Baron de Cartier.

British Empire.

Great Britain—Premier David Lloyd George; Lord President of the Council, Right Hon. A. J. Bal-Right Hon. Lord Lee of Fareham; Ambassador to the U. S., Sir Auckland Geddes.
Canada—Right Hon. Sir Robert Borden.
Australia—Minister for Defense, Hon. G. F. Pearce.
New Zealand—Judge Sir John Salmond.
India—Right Hon. Srinivasa Sastri.

China.

Minister to the U. S., Mr. Sao-Ke Alfred Sze; Minister to Great Britain, Mr. V. K. Wellington Koo; Justice Chung-Hui Wang; Mr. Chao-Chu Wu.

France.

Premier Aristide Briand; ex-Premier Rene Viviani; Minister of Colonies, M. Albert Sarraut; Ambas-to the U. S., M. Jules Jusserand.

Italy.

Senator Carlo Schanzer; Ambassador to the U. S., Vittorio Rolandi-Ricci; Senator Luigi Albertini; esentative Filippo Meda.

Japan.

Minister of the Navy, Baron Tomosaburo Kato; Ambassador to the U. S., Baron Kijuro Shide Pres. of the House of Peers, Prince Iyesato Tokugawa; Vice Minister for Foreign Affairs, Mr. Mas Hanihara.

Netherlands.

Foreign Minister Jonkheer H. A. van Karnebeek; Jonkheer F. Beelaerts van Blokland; Dr. F. Mor Alternate delegates—Minister to the U. S., Dr. J. C. A. Everwijn; Jonkheer W. H. de Beaufort.

Portugal.

Minister to the U. S., Viscount d'Alte; Capt. E. de Vasconcellos.

Secretariat General of the Conference—John W. Garrett.

The Advisory Committee of the U. S. delegates was composed of: *Chairman*, George Sutherland; Ch S. Barrett, Mrs. Charles Sumner Bird, Mrs. Katherine Phillips Edson, Mrs. Eleanor Franklin Fgan, U Sec. of State Henry P. Fletcher, Samuel Gompers, Sec. of Commerce Herbert C. Hoover, John L. L Gov. John M. Parker of La., Gen. John J. Pershing, Congressman Stephen G. Porter, Rear Admiral W Rodgers, Asst. Sec. of the Navy Theodore Roosevelt, Willard Saulsbury, Harold M. Sewall, Walter G Smith, Carmi A. Thompson, William Boyce Thompson, Asst. Sec. of War J. Mayhew Wainwright, Mrs. Thomas G. Winter.

PRESIDENT HARDING'S ADDRESS AT LIMITATION OF ARMAMENT. CONFERENC

(Delivered at the opening of the conference at Washington, November 12, 1921.)

Mr. Secretary and members of the conference, ladies and gentlemen, it is a great and happy priv to bid the delegates to this conference a cordial welcome to the capital of the United States of Am It is not only a satisfaction to greet you because we were lately participants in a common cause, in v shared sacrifices and sorrows and triumphs brought our nations more closely together, but it is grati to address you as the spokesman for nations whose convictions and attending actions have so much with the weal or woe of all mankind.

It is not possible to over-appraise the importance of such a conference. It is no unseemly boast, n paragement of other nations which, though not represented are held in highest respect, to declare tha conclusions of this body will have a signal influence on all human progress—on the fortunes of the w

Here is a meeting, I can well believe, which is an earnest of the awakened conscience of twentieth tury civilization. It is not a convention of remorse nor a session of sorrow. It is not the conferen victors to define terms of settlement. Nor is it a council of nations seeking to remake humankind. rather a coming together, from all parts of the earth, to apply the better attributes of mankind to min the faults in our international relationships.

Speaking as official sponsor for the invitation, I think I may say the call is not of the United Sta America alone; it is rather the spoken word of a war-wearied world, struggling for restoration, hung and thirsting for better relationship; of humanity crying for relief and craving assurances of lasting p

It is easy to understand this world-wide aspiration. The glory of triumph, the rejoicing in acl ment, the love of liberty, the devotion to country, the pangs of sorrow, the burdens of debt, the desol of ruin—all these are appraised alike in all lands. Here in the United States we are but freshly tu from the burial of an unknown American soldier, when a nation sorrowed while paying him tribute. Wh it was spoken or not, a hundred millions of our people were summarizing the inexcusable causes, the i culable cost, the unspeakable sacrifices and the unutterable sorrows, and there was the ever impelling tion: How can humanity justify or God forgive? Human hate demands no such toll; ambition and must be denied it. If misunderstanding must take the blame, then let us banish it, and let understar rule and good-will regnant everywhere. All of us demand liberty and justice. There cannot be one out the other, and they must be held the unquestioned possession of all peoples. Inherent rights a God, and the tragedies of the world originate in their attempted denial. The world to-day is infri their enjoyment by arming to defend or deny, when simple sanity calls for their recognition through con understanding.

Out of the cataclysm of the World War came new fellowships, new convictions, new aspirations is ours to make the most of them. A world staggering with debt needs its burden lifted. Humanity v has been shocked by wanton destruction would minimize the agencies of that destruction. Contempl the measureless cost of war and the continuing burden of armament, all thoughtful peoples wish for limitation of armament and would like war outlawed. In soberest reflection the world's hundreds of lions who pay in peace and die in war wish their statesmen to turn the expenditures for destruction means of construction, aimed at a higher state for those who live and follow after.

It is not alone that the world cannot readjust itself and cast aside the excess burdens without from the leaders of men. War has grown progressively cruel and more destructive from the first recc conflict to this pregnant day, and the reverse order would more become our boasted civilization.

Gentlemen of the conference, the United States welcomes you with unselfish hands. We harbc fears; we have no sordid ends to serve; we suspect no enemy; we contemplate or apprehend no conqu Content with what we have, we seek nothing which is another's. We only wish to do with you that i nobler thing which no nation can do alone.

We wish to sit with you at the table of international understanding and good-will. In good consci we are eager to meet you frankly, and invite and offer co-operation. The world demands a sober con plation of the existing order and the realization that there can be no cure without sacrifice, not by oi us, but by all of us.

I do not mean surrendered rights, or narrowed freedom, or denied aspirations, or ignored nationa cessities. Our Republic would no more ask for these than it would give. No pride need be humble nationality submerged, but I would have a mergence of minds committing all of us to less preparatio war and more enjoyment of fortunate peace.

The higher hopes come of the spirit of our coming together. It is but just to recognize varying n and peculiar positions. Nothing can be accomplished in disregard of national apprehensions. Ra we should act together to remove the causes of apprehensions. This is not to be done in intrigue. Gr assurance is found in the exchanges of simple honesty and directness, among men resolved to accom as becomes leaders among nations, when civilization itself has come to its crucial test.

It is not to be challenged that government fails when the excess of its cost robs the people of the to happiness and the opportunity to achieve. If the finer sentiments were not urging, the cold, hard of excessive cost and the eloquence of economics would urge us to reduce our armaments. If the con of a better order does not appeal, then let us ponder the burden and the blight of continued competitio

It is not to be denied that the world has swung along throughout the ages without heeding this from the kindlier hearts of men. But the same world never before was so tragically brought to rea tion of the utter futility of passion's sway when reason and conscience and fellowship point a nobler

I can speak officially only for our United States. Our hundred millions frankly want less of armar and none of war. Wholly free from guile, sure in our own minds that we harbor no unworthy designs accredit the world with the same good intent. So I welcome you not alone in good-will and high pur but with high faith.

We are met for a service to mankind. In all simplicity, in all honesty and all honor, there may be ten here the avowals of a world-conscience refined by the consuming fires of war and made more sensi

anxious aftermath. I hope for that understanding which will emphasize the guarantees of peace, r commitments to less burdens and a better order which will tranquilize the world. In such an acshment there will be added glory to your flags and ours, and the rejoicing of mankind will make the ending music of all succeeding time.

ADDRESS OF SECRETARY OF STATE HUGHES.

VERED on Assuming the Duties of Presiding Officer at the Conference, Washington, D. C., November 12, 1921.)

entlemen, It is with a deep sense of privilege and responsibility that I accept the honor you have con-

ermit me to express the most cordial appreciation of the assurances of friendly co-operation which been generously expressed by the representatives of all the invited Governments. The earnest desire rpose manifested in every step in the approach to this meeting that we should meet the reasonable ation of a watching world by effective action suited to the opportunity is the best augury for the s of the conference.

he President invited the Governments of the British Empire, France, Italy, and Japan to participate nference on the subject of limitation of armament, in connection with which Pacific and Far Eastern ons would also be discussed. It would have been most agreeable to the President to have invited powers to take part in this conference, but it was thought to be a time when other considerations yield to the practical requirements of the existing exigency, and in this view the invitation was ex- to the group known as the principal allied and associated powers, which, by reason of the conditions ed by the war, control in the main the armament of the world. The opportunity to limit armament ithin their grasp.

was recognized, however, that the interests of other powers in the Far East made it appropriate ey should be invited to participate in the discussion of Pacific and Far Eastern problems, and, with proval of the five powers, an invitation to take part in the discussion of those questions has been ex- to Belgium, China, the Netherlands and Portugal.

he inclusion of the proposal for the discussion of Pacific and Far Eastern questions was not for the e of embarrassing or delaying an agreement for limitation of armament, but rather to support that aking by availing ourselves of this meeting to endeavor to reach a common understanding as to the ples and policies to be followed in the Far East and thus greatly to diminish, and if possible wholly ove, discernible sources of controversy. It is believed that by interchanges of views at this opportune he Governments represented here may find a basis of accord and thus give expression to their desire ure enduring friendship.

the public discussions which have preceded the conference there have been apparently two comviews: one, that the consideration of armament should await the result of the discussion of Far Eastern ons, and another, that the latter discussion should be postponed until an agreement for limitation ament has been reached. I am unable to find sufficient reason for adopting either of these extreme

I think that it would be most unfortunate if we should disappoint the hopes which have attached meeting by a postponement of the consideration of the first subject. The world looks to this con- to relieve humanity of the crushing burden created by competition in armament, and it is the view American Government that we should meet that expectation without any unnecessary delay. It efore proposed that the conference should proceed at once to consider the question of the limitation nament.

his, however, does not mean that we must postpone the examination of Far Eastern questions. These ons of vast importance press for solution. It is hoped that immediate provision may be made to deal hem adequately, and it is suggested that it may be found to be entirely practicable through the dision of the work among designated committees to make progress to the ends sought to be achieved t either subject being treated as a hindrance to the proper consideration and disposition of the other. he proposal to limit armament by an agreement of the powers is not a new one, and we are admonished futility of earlier efforts. It may be well to recall the noble aspirations which were voiced 23 years the imperial rescript of His Majesty the Emperor of Russia. It was then pointed out with clarity nphasis that "the intellectual and physical strength of the nations, labor, and capital are for the part diverted from their natural application and unproductively consumed. Hundreds of millions voted to acquiring terrible engines of destruction, which, though to-day regarded as the last word nce, are destined to-morrow to lose all value in consequence of some fresh discovery in the same field. al culture, economic progress, and the production of wealth are either paralyzed or checked in their pment. Moreover, in proportion as the armaments of each power increase, so do they less and less he object which the Governments have set before themselves. The economic crises, due in great the system of armaments a l'outrance and the continual danger which lies in this massing of war als, are transforming the armed peace of our days into a crushing burden which the peoples have more re difficulty in bearing. It appears evident, then, that if this state of things were prolonged it nevitably lead to the calamity which it is desired to avert, and the horrors of which make every thinkn shudder in advance. To put an end to these incessant armaments and to seek the means of warding calamities which are threatening the whole world—such is the supreme duty which is to-day imposed tates."

was with this sense of obligation that His Majesty the Emperor of Russia proposed the conference, was "to occupy itself with this grave problem" and which met at The Hague in the year 1899. Imt as were the deliberations and conclusions of that conference, especially with respect to the pacific ent of international disputes, its result in the specific matter of limitation of armament went no furan the adoption of a final resolution setting forth the opinion "that the restriction of military charges, are at present a heavy burden on the world, is extremely desirable for the increase of the material ral welfare of mankind," and the utterance of the wish that the Governments "may examine the posof an agreement as to the limitation of armed forces by land and sea and of war budgets."

was seven years later that the Secretary of State of the United States, Mr. Elihu Root, in answering of the Russian Ambassador suggesting in outline a programme of the second peace conference, said: Government of the United States, therefore, feels it to be its duty to reserve for itself the liberty to to the second peace conference as one of the subjects for consideration the reduction or limitation of ents, in the hope that if nothing further can be accomplished some slight advance may be made the realization of the lofty conception which actuated the Emperor of Russia in calling the first nce." It is significant that the Imperial German Government expressed itself as "absolutely opposed uestion of disarmament" and that the Emperor of Germany threatened to decline to send delegates ubject of disarmament was to be discussed. In view, however, of the resolution which had been l at the first Hague conference the delegates of the United States were instructed that the subject ation of armament 'should be regarded as unfinished business, and that the second conference should in and give full consideration to the results of such examination as the Governments may have given possibility of an agreement pursuant to the wish expressed by the first conference." But by reason bstacles which the subject had encountered, the second peace conference at The Hague, although notable progress in provision for the peaceful settlement of controversies, was unable to deal with on of armament except by a resolution in the following general terms: "The conference confirms olution adopted by the conference of 1899 in regard to the limitation of military expenditure; and ch as military expenditure has considerably increased in almost every country since that time, the

conference declares that it is eminently desirable that the Governments should resume the seriou
ination of this question."

This was the fruition of the efforts of eight years. Although the effect was clearly perceived,
in preparation of armament, wholly unaffected by these futile suggestions, went on until it fittingly cul
in the greatest war of history; and we are now suffering from the unparalleled loss of life, the des
of hopes, the economic dislocations, and the widespread impoverishment which measure the cost of
tory over the brutal pretensions of military force.

But if we are warned by the inadequacy of earlier endeavors for limitation of armament, we ca
to recognize the extraordinary opportunity now presented. We not only have the lessons of the past
us, not only do we have the reaction from the disillusioning experiences of war, but we must meet the cl
of imperative economic demands. What was convenient or highly desirable before is now a matter
necessity. If there is to be economic rehabilitation, if the longings for reasonable progress are n
denied, if we are to be spared the uprisings of peoples made desperate in the desire to shake off bur
longer endurable, competition in armament must stop. The present opportunity not only derives
vantage from a general appreciation of this fact, but the power to deal with the exigency now rest
small group of nations, represented here, who have every reason to desire peace and to promote amit
astounding ambition which lay athwart the promise of the second Hague conference no longer meni
world, and the great opportunity of liberty-loving and peace-preserving democracies has come. I
plain that the time has passed for mere resolutions that the responsible powers should examine the c
of limitation of armament? We can no longer content ourselves with investigations, with statisti
reports, with the circumlocution of inquiry. The essential facts are sufficiently known. The time h
and this conference has been called not for general resolutions or mutual advice but for action. V
with full understanding that the aspirations of mankind are not to be defeated either by plausible sug
of postponement or by impracticable counsels of perfection. Power and responsibility are here, and tl
awaits a practicable programme which shall at once be put into execution.

I am confident that I shall have your approval in suggesting that in this matter, as well as h
before the conference, it is desirable to follow the course of procedure which has the best promise of a
ment rather than one which would facilitate division, and thus, constantly aiming to agree so far as p
we shall, with each point of agreement, make it easier to proceed to others.

The question in relation to armament which may be regarded as of primary importance at tl
and with which we can deal most promptly and effectively is the limitation of naval armament.
are certain general considerations which may be deemed pertinent to this subject.

The first is that the core of the difficulty is to be found in the competition in naval programmes, a
In order appropriately to limit naval armament, competition in its production must be abandoned.
petition will not be remedied by resolves with respect to the method of its continuance. One pro
inevitably leads to another, and if competition continues, its regulation is impracticable. There is o
adequate way out and that is to end it now.

It is apparent that this cannot be accomplished without serious sacrifices. Enormous sums ha
expended upon ships under construction and building programmes which are now under way ca
given up without heavy loss. Yet if the present construction of capital ships goes forward oth
will inevitably be built to rival them and this will lead to still others. Thus the race will continue
as ability to continue lasts. The effort to escape sacrifices is futile. We must face them or yield our
It is also clear that no one of the naval powers should be expected to make these sacrifices alon
only hope of limitation of naval armament is by agreement among the nations concerned, and thi
ment should be entirely fair and reasonable in the extent of the sacrifices required of each of the
In considering the basis of such an agreement, and the commensurate sacrifices to be required, it i
sary to have regard to the existing naval strength of the great naval powers, including the extent of c
tion already effected in the case of ships in process. This follows from the fact that one nation is
to compete as another, and each may find grounds for its action. What one may do another may
the opportunity to rival, and we remain in the thrall of competitive effort. I may add that the A
delegates are advised by their naval experts that the tonnage of capital ships may fairly be taken to
the relative strength of navies, as the provision for auxiliary combatant craft should sustain a rea
relation to the capital-ship tonnage allowed.

It would also seem to be a vital part of a plan for the limitation of naval armament that there
be a naval holiday. It is proposed that for a period of not less than 10 years there should be no
construction of capital ships.

I am happy to say that I am at liberty to go beyond these general propositions and on behal
American delegation, acting under the instructions of the President of the United States, to submit
a concrete proposition for an agreement for the limitation of naval armament.

It should be added that this proposal immediately concerns the British Empire, Japan, and the
States. In view of the extraordinary conditions due to the World War affecting the existing stre
the navies of France and Italy, it is not thought to be necessary to discuss at this stage of the proc
the tonnage allowance of these nations, but the United States proposes that this matter be reser
the later consideration of the conference.

In making the present proposal the United States is most solicitous to deal with the question u
entirely reasonable and practicable basis, to the end that the just interests of all shall be adequately g
and that national security and defense shall be maintained. Four general principles have been s

(1) That all capital-ship building programmes, either actual or projected, should be abandc
(2) That further reduction should be made through the scrapping of certain of the older s
(3) That in general regard should be had to the existing naval strength of the powers concer
(4) That the capital-ship tonnage should be used as the measurement of strength for navies
proportionate allowance of auxiliary combatant craft prescribed.

The principal features of the proposed agreement are as follows:

CAPITAL SHIPS—UNITED STATES.

The United States is now completing its programme of 1916 calling for 10 new battleships and 6
cruisers. One battleship has been completed. The others are in various stages of construction; i
cases from 60 to over 80 per cent. of the construction has been done. On these 15 capital ships nov
built over $330,000,000 have been spent. Still the United States is willing in the interest of an imm
limitation of naval armament to scrap all these ships.

The United States proposes, if this plan is accepted:

(1) To scrap all capital ships now under construction. This includes 6 battle cruisers and 7
ships on the ways and in course of building, and 2 battleships launched.

The total number of new capital ships thus to be scrapped is 15. The total tonnage of the new
ships when completed would be 618,000 tons.

(2) To scrap all of the older battleships up to but not including the Delaware and North D
The number of these old battleships to be scrapped is 15. Their total tonnage is 227,740 tons.

Thus the number of capital ships to be scrapped by the United States, if this plan is accepted
with an aggregate tonnage (including that of ships in construction, if completed) of 845,740 tons.

GREAT BRITAIN.

The plan contemplates that Great Britain and Japan shall take action which is fairly commer
with this action on the part of the United States.

s proposed that Great Britain—
Shall stop further construction on the four new Hoods, the new capital ships not laid down but
dich money has been spent. These four ships, if completed, would have tonnage displacement of
tons.
Shall, in addition, scrap her predreadnoughts, second line battleships, and first line battleships
ut not including the King George V. class.
se, with certain predreadnoughts which it is understood have already been scrapped, would amount
pital ships and a tonnage reduction of 411,375 tons.
total tonnage of ships thus to be scrapped by Great Britain (including the tonnage of the four Hoods,
oted) would be 583,375 tons.

JAPAN.

s proposed that Japan—
Shall abandon her programme of ships not yet laid down; viz., the Kii, Owari, No. 7 and No. 8
ps, and Nos. 5, 6, 7, and 8 battle cruisers.
hould be observed that this does not involve the stopping of construction, as the construction of
these ships has been begun.
Shall scrap 3 capital ships (the Mutsu launched, the Tosa, and Kago in course of building) and four
uisers (the Amagi and Akagi in course of building, and the Atoga and Takao not yet laid down,
which certain material has been assembled).
total number of new capital ships to be scrapped under this paragraph is 7. The total tonnage
new capital ships when completed would be 289,100 tons.
Shall scrap all predreadnoughts and battleships of the second line. This would include the scrap-
ll ships up to but not including the Settsu; that is, the scrapping of 10 older ships, with a total tonnage
28 tons.
total reduction of tonnage on vessels existing, laid down, or for which material has been assembled
the tonnage of the new ships when completed) would be 448,928 tons.;
s, under this plan there would be immediately destroyed, of the navies of the three powers, 66 cap-
ling ships, built and building, with a total tonnage of 1,878,043.
proposed that it should be agreed by the United States, Great Britain and Japan that their navies,
ject to capital ships, within three months after the making of the agreement shall consist of certain
ignated in the proposal and numbering for the United States 18, for Great Britain 22, for Japan 10.
tonnage of these ships would be as follows: Of the United States, 500,650; of Great Britain, 604,-
Japan, 299,700. In reaching this result the age factor in the case of the respective navies has re-
ppropriate consideration.

REPLACEMENT.

h respect to replacement, the United States proposes:
That it be agreed that the first replacement tonnage shall not be laid down until 10 years from
of the agreement;
That replacement be limited by an agreed maximum of capital-ship tonnage as follows:
the United States, 500,000 tons; for Great Britain, 500,000 tons; for Japan, 300,000 tons.
That, subject to the 10-year limitation above fixed and the maximum standard, capital ships may
ced when they are 20 years old by new capital-ship construction;
That no capital ship shall be built in replacement with a tonnage displacement of more than 35,000

ave sketched the proposal only in outline, leaving the technical details to be supplied by the formal
ion which is ready for submission to the delegates.
plan includes provision for the limitation of auxiliary combatant craft. This term embraces three
that is, (1) auxiliary surface combatant craft, such as cruisers (exclusive of battle cruisers), flotilla
destroyers, and various surface types; (2) submarines; and (3) airplane carriers.
all not attempt to review the proposals for these various classes, as they bear a definite relation
provisions for capital fighting ships.
h the acceptance of this plan the burden of meeting the demands of competition in naval arma-
ll be lifted. Enormous sums will be released to aid the progress of civilization. At the same time
er demands of national defense will be adequately met and the nations will have ample opportunity
he naval holiday of 10 years to consider their future course. Preparation for offensive naval war

all not attempt at this time to take up the other topics which have been listed upon the tentative
proposed in anticipation of the conference.

GREAT POWERS' VERBAL RESPONSE TO U. S. PROPOSALS.

representatives of the powers, on Nov. 15, spoke as follows in response to the U. S. proposals on
n of navies.
hur J. Balfour of Great Britain said:
. Chairman, you have invited those who desire to continue the discussion which began on Saturday
think it would be very unfortunate if we were to allow the events of Saturday to pass without some
bservation on the part of those to whom you, Mr. Chairman, addressed your speech and if, for any
which I shall venture to explain in a moment, I am the first to take up the challenge, it is because
e powers here assembled the country which I represent is, as everybody knows, the most intimately
ed in naval questions.
eesmen of all countries are beginning to discover that the labors and difficulties of peace are almost
ous and require almost as great qualities as those which are demanded for the conduct of a success-

ese struggles to restore the world to the condition of equilibrium, so violently interfered with by
rs of war, is one that taxes and must tax the efforts of everybody. And I congratulate you, if I may,
airman, on the fact that you have added the new anniversary which will henceforth be celebrated
ection with this movement toward reconstruction in the same spirit in which we welcomed the an-
y celebrated only a few hours ago, on the day on which hostilities came to an end. If the 11th of
ber in the minds of the allied and associated powers, in the minds perhaps not less of all the neutrals
t is a date imprinted on grateful hearts, I think Nov. 12 will also prove to be an anniversary welcomed
ught of in a grateful spirit by those who in the future shall look back upon the arduous struggle now
ade by the civilized nations of the world, not merely to restore pre-war conditions, but to see that
nditions shall never again exist.

A GREAT HISTORICAL EVENT.

ount myself among the fortunate of the earth in that I was present, and to that extent had a share
proceedings of last Saturday. They were memorable, indeed. The secret was admirably kept. I
at all the secrets, so long as they ought to be secrets, of our discussions will be as well kept. In my
genuine mood I have doubts. But, however that may be, the secret in this case was most admirably
id I listened to a speech which I thought eloquent, appropriate, in every way a fitting prelude to the
the conference which was about to open, or which, indeed, had been opened by the President, with-
posing that anything very dramatic lay behind. And suddenly I became aware, as I suppose all
became aware, that they were assisting not merely at an eloquent and admirable speech, but at a

great historical event. It was led up to with such art. The transition seemed so natural that when fell, when the speaker uttered the memorable words which have now gone round and found echo quarter of the civilized world, it came as a shock of profound surprise; it excited the sort of emotions when some wholly new event springs into view, and we felt that a new chapter in the history of wor struction had been warily opened.

Mr. Chairman, the absolute simplicity of the procedure, the easy transition and the great climax were the perfection of art, which shows that the highest art and the most perfect simplicity often, indeed very commonly, combined.

Now, I said I would explain, if I was allowed, why I venture to rise first to-day to deal with th which is in all our hearts. As I have hinted, it is because the British Empire and Great Britain, t together, are more profoundly concerned with all that touches matters naval than it is possible for a nation to be, and this not, believe me, for any reasons of ambition, not for any reasons drawn fro or tradition, but from the hard, brutal necessities of claims and obvious facts.

There never has been in the history of the world a great empire constituted as the British E It is a fact no doubt familiar to everybody whom I am addressing at the present moment, but has e whom I am addressing imaginatively conceived precisely what the situation of the British Empire connection?

Most of my audience are citizens of the United States. The United States stands solid, imp self-sufficient, all its lines of communication protected, doubly protected, completely protected conceivable hostile act. It is not merely that you are 110,000,000 of population; it is not that yo wealthiest country in the world; it is that the whole configuration of your country, the geographical of your country, is such that you are wholly immune from the particular perils to which, from th of the case, the British Empire is subjected.

THE NEEDS OF GREAT BRITAIN.

Supposing, for example, that your Western States, for whose safety you are responsible, w denly removed 10,000 miles across the sea. Supposing that you found that the very heart of you the very heart of this great state, was a small, a crowded island depending for oversea trade not not chiefly, for its luxuries, but depending upon overseas communication for the raw material of th ufactures by which its superabundant population lives; depending upon the same oversea commu for the food upon which they subsist. Supposing it was a familiar thought in your minds that the was at any moment of the year within the limits of your state more than seven weeks' food for t lation, and that that food had to be replenished by oversea communication. Then, if you will draw ture, and if you will see all that it implies and all that it carries with it, you will understand why every citizen of the British Empire, whether he comes from the fat dominions of the Pacific or wi lives in the small island in the North Sea, never can forget that it is by sea communication that he that without sea communication he and the empire to which he belongs would perish.

Now, ladies and gentlemen, do not suppose that I am uttering laments over the weakness of my Far from it. We are strong, I hope, in the vigorous life of its constituent parts. We are strong, I the ardent patriotism which binds us all together. But this strategic weakness is obvious to ev who reflects; it is present in the minds of our enemies, if we have enemies. Do not let it be forgotte friends.

These reflections, with your kindness, I have indulged in in order to explain why it is that I dressing you at the present time. We have had to consider, and we have considered, the great sch before you by our Chairman. We have considered it with admiration and approval. We agree w spirit and in principle. We look to it as being the basis of the greatest reform in the matter of ar and preparation for war that has ever been conceived or carried out by the courage and patriotism o men. I do not pretend, of course—it would be folly to pretend—that this or any other scheme, t ever genius it may have been contrived, can deal with every subject; can cover the whole ground national reconstruction. It would be folly to make the attempt and it would be folly to pretend attempt has yet been made in any single scheme, as was clearly explained by the Secretary of State urday. The scheme deals, and deals only, with three nations which own the largest fleets at preser world. It therefore, of necessity, omits all consideration for the time being of those European nati have diminished their fleets, and who at present have no desire, and I hope never will have any d own fleets beyond the necessities that national honor and national defense require.

Again, it does not touch a question which every man coming from Europe must feel to be a of immense and almost paramount importance. I mean the heavy burden of land armaments. left on one side, to be dealt with by other schemes and in other ways.

ONE OF BIGGEST THINGS YET DONE.

What it does is surely one of the biggest things that has ever yet been done by constructive sta ship. It does deal with the three great fleets of the world, and in the broad spirit in which it deals wit fleets in the proportion of disarmament which it lays down for those fleets, the Government of the which I represent is in the fullest and the heartiest sympathy with the policy which the United St brought before us for our consideration. They have, as we think most rightly, taken the battle flee aggressive unit which they have in the main to consider; and in the battle fleet you must include those a ships without which a modern battle fleet has neither eyes nor ears, has little power of defense agai tain forms of attack, and little power of observation; little power of dealing with any equal foe to may be opposed.

Taking those two as really belonging to one subject, namely, the battle fleet, taking those tw battleships themselves and the vessels auxiliary and necessary to a battle fleet—we think that the pro between these various countries is acceptable, we think the limitation of amounts is reasonable; w it should be accepted, we firmly believe that it will be accepted.

In my view, the message which has been sent around the world on Saturday is not a message is going to be received by those most concerned with cool approbation. I believe it is going to be r by them with warm, hearty approval, and with every effort at full, loyal and complete co-operation.

I think it would be ill-fitting on such an occasion as this if I were to attempt to go into any There are questions—and I have no doubt that the Secretary of State, our Chairman, would be t to tell us that there are details which can only be adequately dealt with in committee. At the first for example, and I give it merely as an example, our experts are inclined to think that perhaps to an amount of tonnage has been permitted for submarines. Submarines are a class of vessels most abused in their use and which, in fact, in the late war, were most grossly abused. We quite admit tha ably the submarine is the defensive weapon, properly used, of the weak, and that it would be imp or, if possible, it might well be thought undesirable, to abolish them altogether. But the amount of sub tonnage permitted by the new scheme is far in excess, I believe, of the tonnage possessed by any na the present moment, and I only throw it out as a suggestion that it may be well worth considering w that tonnage should not be further limited, and whether, in addition to limiting the amount of the to it might not be practicable, and, if practicable, desirable, to forbid altogether the construction o submarines of great size which are not intended for defense, which are not the weapon of the weaker whose whole purpose is attack and whose whole purpose is probably attack by methods which ci nations would regard with horror.

THE STRUCTURE WILL REMAIN.

owever, there may be other questions of detail, questions connected with replacement, questions ced with cruisers, which are not connected with or required for fleet action. But those are matters nsideration by the technical experts, and however they be decided, they do not touch the main outline structure which the United States Government desires erected and which we earnestly wish to help in erecting.

hat structure stands, as it seems to me, clear and firm, and I cannot help thinking that in the broad e, whatever may happen in the course of these discussions during the next few weeks, that structure main as it was presented by its original architects, for the admiration and for the use of mankind. have little more to say except this: It is easy to estimate in dollars or in pounds, shillings and pence ving to the taxpayer of each of the nations concerned which the adoption of this scheme will give. asy to show that the relief is great. It is easy to show that indirectly it will, as I hope and believe, y stimulate industry, national and international, and do much to diminish the difficulties under which civilized governments is at this time laboring. All that can be weighed, measured, counted; all that atter of figures. But there is something in this scheme which is aove and beyond numerical calcula- There is something which goes to the root, which is concerned with the highest international morality. his scheme after all—what does it do? It makes idealism a practical proposition. It takes hold of eam which reformers, poets, publicists, even potentates, as we heard the other day, have from time e put before mankind as the goal to which human endeavor should aspire.

narrative of all the attempts made, of all the schemes advanced for diminishing the sorrows of war elancholy one. Some fragments were laid before you by our Chairman on Saturday. They were not rating. They showed how easy it is to make professions and how difficult it is to carry those professions effect.

A CABLE FROM LLOYD GEORGE.

hat makes this scheme a landmark is that combined with the profession is the practice, that in addi- the expression, the eloquent expression of good intentions, in which the speeches of men of all nations been rich, that a way has been found in which, in the most striking fashion, in a manner which must the imagination of everybody, which must come home to the dullest brain and the hardest heart, overnment of the United States has shown its intention not merely to say that peace is a very good that war is horrible, but there is a way by which wars can really be diminished, by which the bur- f peace, almost as intolerable as the burdens of war, can really be lightened for the populations of the

And in doing that, in doing it in the manner in which they have done it, in striking the imagination erely of the audience they were addressing, not merely of the great people to whom they belonged, the whole civilized world—in doing that they have, believe me, made the first and opening day of this ss one of the landmarks in human civilization.

have said all that I propose to say, but if you will allow me I will read a telegram put into my hands s I reached this meeting, this congress, from the British Prime Minister:

Following for Mr. Balfour from Mr. Lloyd George:

Many thanks for our telegram. If you think it will serve useful purpose to let them know, message be published, as follows:

'Government have followed proceedings at opening session of conference with profound appreciation hole-heartedly endorse your opinion that speeches made by President Harding and Secretary of State old and statesmanlike utterances, pregnant with infinite possibilities. Nothing could augur better imate success of conference. Please convey to both our most sincere congratulations.' "

JAPAN.

aron Kato said:

aron deeply appreciates the sincerity of purpose evident in the plan of the American Government e limitation of armaments. She is satisfied that the proposed plan will materially relieve the nations steful expenditures and cannot fail to make for the peace of the world.

e cannot remain unmoved by the high aims which have actuated the American project. Gladly ting, therefore, the proposal in principle, Japan is ready to proceed with determination to a sweeping tion of her naval armament.

t will be universally admitted that a nation must be provided with such armaments as are essential security. This requirement must be fully weighed in the examination of the plan. With this require- in view certain modifications will be proposed with regard to the tonnage basis for replacement of the ss classes of vessels. These suggestions should be referred to special consideration by naval experts. When modifications are proposed I know that the American and other delegations will consider them with me desire to meet our ideas as we have to meet theirs.

apan has never claimed, nor has intention of claiming, to have a general establishment equal in strength t of either the United States or the British Empire. Her existing plan will show conclusively that ad never in view preparations for offensive war.

FRANCE.

remier Briand of France said:

r. Chairman, I fully concur with what the president of the British delegation (Mr. Balfour) has just hen at the beginning of his eloquent statement he said that this conference would be one of the great arks in the history of the world and of civilization. While I do not quite agree with him, at least not same extent, as to his feelings, as expressed when he first heard the statement made by the representa- of the United States, I may say for my own part that when coming here I felt quite sure that a great like the United States could not have begun such a momentous initiative without having some definite, ut purpose. I think, gentlemen, that we have no longer the right to treat questions of peace and war, we undertake to promise to the world that there shall be no more war, that there shall be everlasting —after the painful struggle from which we have just emerged, we have no right to let the people of rld hope for a final peace unless we have made up our minds to prepare and to decide upon the means re most appropriate in order to realize these hopes.

Many conferences and congresses have already met in order to try to carry out this noble idea, and alfour was quite right when he pointed out the great danger there was in looking at this question th the glass of idealism. But Mr. Secretary (Mr. Hughes), you have shown us the way; you have that it was no longer a question of groping for a way out of the difficulty, you have struck out boldly portunity for us by setting the example. I may say that we are back of you, Mr. Secretary.

course, during these difficult, arduous examinations of the details of the subject upon which, after nends the practical realization, if it happens that we are taken out of the straight way and feel the temp- of using the devious paths, we on the part of France are ready to join our efforts to those of other men d will and help in returning to the fair, straight road that would take us to our goal.

he question with which we have first to deal here is, of course, one that mainly concerns the great naval s. But I may say for my part that I have listened with great joy to the very large, broad and general on given in principle by the Governments of Great Britain and Japan. It is not that France feels y disinterested in this question. We shall have, I hope, an opportunity of saying this and showing I may say now—and this will be carried out later on by figures and by concrete facts—that we have y entered upon the right way and that we have already done something in the direction you indicate.

The war has kept us down to a certain level, of course. It has prevented us from carrying out our for a weak fleet, perhaps too weak for the necessities of national defense.

But I will not dwell on this subject. I rather turn to another side of the problem to which Mr. B has alluded, and I thank him for this. Is it only a question here of economy? Is it only a question o mates and budgets? If it were so, if that were the only purpose you have in view, it will be really unw of the great nation that has called us here. So, the main question, the crucial question, which is to l cussed here is to know if the peoples of the world will be at last able to come to an understanding in to avoid the atrocities of war. And then, gentlemen, when it comes on the agenda, as it will inev come, to the question of land armament, a question particularly delicate for France, as you are all a we have no intention to eschew this. We shall answer your appeal, fully conscious that this is a qu of grave and serious nature for us. The question will be raised—it has been raised, gentlemen, and it is a country that desires, that demands, that the question of land armaments should be raised, it is F It will come in due time before the conference, and I hope that I shall enjoy the opportunity, and that be able to state publicly in one of the meetings of this conference what the position of France is, so th United States and the world may fully know; and when I have tried to prove this, when you have lis to this demonstration, I am quite sure that you will be convinced, gentlemen, that France, after t cessities of safety and life have been adequately secured, harbors no thought whatever of disturbing the of the world. The time will come for this demonstration. To-day I will simply record, with great fe of joy, the agreement that has already been reached here on this first great problem of the conferenc expressing the wish that we shall come to a similar agreement upon all the other questions that awa conference.

ITALY.

Senator Schanzer said:

The time has come and this conference has been called not for general resolutions and for mutual a but for action.

You [Secretary Hughes] proved at once that you mean to carry out your suggestion into practic ecution.

The first impression made by your statement concerning the limitation of naval armament is c great sincerity, great force, great courage. You stated clearly and unhesitatingly to the conferen c to the public opinion of the entire world the question of the limitation of naval armament as concerns cially the great naval powers, and you did it with precision of facts and figures, thus affording a solid for discussion.

We shall not consider the technical side of the question which concerns especially the great naval po We only wish to express in the name of the Italian delegation our great satisfaction in the proposals fo eral order. We hope that your proposal when accepted will be the source of the most beneficent econ consequences. The peace of the world cannot be permanently maintained if you do not consider the and means to re-establish the economic balance of the world.

Modern civilization is an economic civilization; and the modern world, in spite of the distances and ural barriers, cannot be conceived except as a single great economic system. This economic system has shattered by the war. It is necessary now to revise it and to get it into motion again.

We think that your proposal is the first effective step toward giving the world a release of such n as to enable it to start the work of its economic reconstruction.

In respect to Mr. Balfour's reference to the question of French and Italian naval forces, may I be all to say a few words?

I think it rather difficult to separate the question of Italian and French naval armament limit from the general question of the limitation of naval armaments of the world. Certainly, as you have st Mr. Chairman, in your address, the question concerning the great naval powers must be considered i first place, and you have stated that the United States proposes that this matter be left for the later sideration of the conference. So we wish and feel sure, in accordance with your statement, that the Fr and Italian naval question will be considered by the conference before concluding the question involv your proposal.

In conclusion, Mr. Chairman, I express in the name of the Italian delegation the most fervent that the conference, taking your proposal as its working basis, may lead to a result which would be extre happy not only for the powers directly interested but for the entire world.

U. S. APPRECIATION OF POWERS' RESPONSES.

After the spokesmen for the four other major powers had declared acceptance in principle of the A lican armament reduction proposals, Secretary Hughes said:

Gentlemen: We have listened not only with gratification but I may say with profound emotic these expressions, so cordial, of agreement in principle with the proposal that has been made on behs the United States with respect to the limitation of naval armament. It will now be in order to con the many details which must be associated with an exact agreement for that purpose.

There are subjects, it has been suggested here, which will appropriately be examined by naval exp and it is the desire of the American Government that what has been proposed by that Government, the suggestions that have been made by Mr. Balfour on behalf of the British Government, by Admiral I on behalf of the Government of Japan, and any other suggestions by way of modification or emendatio criticism that may be proper, shall all be thoroughly considered, to the end that after the most mature careful deliberation we may accomplish the great purpose which this conference in this matter has assembled to achieve.

But while the time is now opportune for the consideration of these details, the great first step has taken in this notable expression of approval in principle of what has been suggested by the American G ernment. And do I go too far in saying that we may commit this matter to a technical examination the assurance, which I am very certain will be gratifying to the hearts of our peoples, that there will c out of this conference an appropriate agreement for satisfactory, important, essential reduction of n armament, to the end that offensive naval warfare will be no more and this great advance will be mad the accomplishment of an enduring peace?

If it is not desired to have further discussion of the matter which has been brought before us, I supp it will be in order to adjourn to give opportunity for the consideration of the project to which I have refer And may I add that I have no doubt that I express the wish of the conference that at an opportune time Briand will enjoy the opportunity of presenting to the conference most fully the views of France with reg to the subjects of land armament, which we must discuss.

CHINA'S TEN POINTS, OR PROPOSALS.

China's delegates to the Conference on the Limitation of Armament submitted on Nov. 16 to that b the following ten proposals, embodying her case.

1. (a) The powers engage to respect and observe the territorial integrity and political and adm istrative independence of the Chinese Republic.

(b) China upon her part is prepared to give an undertaking not to alienate or lease any portion of territory or littoral to any power.

2. China, being in full accord with the principle of the so-called open door, or equal opportunity the commerce and industry of all nations having treaty relations with China, is prepared to accept and ap it in all parts of the Chinese Republic without exception.

With a view to strengthening mutual confidence and maintaining peace in the Pacific and the Far
the powers agree not to conclude between themselves any treaty or agreement directly affecting China
general peace in these regions without previously notifying China and giving her an opportunity to
ipate.

All special rights, privileges, immunities or commitments, whatever their character or contractual
claimed by any of the powers in or relating to China are to be declared, and all such or future claims
made known are to be deemed null and void. The rights, privileges, immunities and commitments
nown to be declared are to be examined with a view to determining their scope and validity, and
d, to harmonize them with one another and with the principles declared by this conference.

Immediately, or as soon as circumstances will permit, existing limitations upon China's political
ctional and administrative freedom of action are to be removed.

Reasonable, definite terms of duration are to be attached to China's present commitments, which
thout time limits.

In the interpretation of instruments granting special rights or privileges, the well-established prin-
of construction that such grants shall be strictly construed in favor of the grantors is to be observed.

China's rights as a neutral are to be fully respected in future wars to which she is not a party.

Provision is to be made for the peaceful settlement of international disputes in the Pacific and
ar East.

). Provision is to be made for future conferences to be held from time to time for the discussion of
ational questions relative to the Pacific and the Far East as a basis for the determination of common
s of the signatory powers in relation thereto.

LIMITATION OF LAND ARMAMENTS.

he representatives of the powers, at the conference session of Nov. 21, gave the views of their Govern-
on the proposal for a limitation of armies.

FRANCE.

remier Briand said:

entlemen, you will readily admit that I, as a delegate of France, should feel moved when rising to
from this full-sounding platform, whence every word that is said goes to the attentive and anxious
f the world and of all civilized people.

wish, first of all, to thank my colleagues of the conference who, on the opening of this public meeting,
idly allowed me to speak as the representative of my country.

shall endeavor to make it appear to your eyes and to the eyes of the world with its true, genuine face,
s, that will show you that she is ready, and I might say perhaps more ready than any other country,
ect her attention and her earnest will to whatever steps may be thought desirable in order to insure
eace for the world. Nothing for my colleagues and myself would be more pleasant than to be able
you this: We bring here sacrifices to the fullest extent possible. We have our own security insured.
y down arms. We should be so happy to be able to make that gesture in order to participate in the
isarmament of the world.

Unfortunately, we cannot speak in this way. I say also, unfortunately, we have not the right to do so.
l briefly explain later on for what reasons. I shall tell you, for France, that she wants to make peace.
want to make peace, there must be two people, yourself and the neighbor opposite. To make peace
m speaking, of course, of land armament—it is not sufficient to reduce effectives and decrease war
ial. That is the physical side, a physical aspect of things.

WANTS MORAL DISARMAMENT.

There is another consideration which we have no right to neglect in such a problem, that touches vital
ons which are of the most serious character for the country concerned. It is necessary that parallel
hysical disarmament there should be in those same circles what I shall call a general state of peace.
In other words, a moral disarmament is as necessary as the material one.

have the right to say this, and I hope to be able to prove it to you. And I have the right to say to
hat in Europe, as it is at present, there are serious elements of instability, there are such conditions
iling that France is obliged to face them and to contemplate the necessary matters from the point of
of her own security.

am now staying in a country many of the men of which have already enjoyed the opportunity of see-
rance and knowing exactly what she is. They came to us in the most critical time of the war. They
and shed their blood—mingled their blood with ours, and they shared our life, and they have seen
e, and they now know what France is. And certainly these men have contributed to enlighten their
ountrymen, and they have done everything to dispel and drive away those noxious gases which have
spread about, and under which certain people have been trying to mask and to conceal the true face
ance.

ere in this country you are living among States which do not know the entangled barriers and fron-
of Europe. Here you live in an immense expanse of space. You do not know any factions on your
and. You have nothing to fear. So that it is rather difficult for some of you—it must be difficult
me of you—to realize what are the conditions at present prevailing in Europe, after war and after
y.

quite admit that every citizen of the United States should come and tell me this: "The war is won.
is signed. Germany has reduced her army to a great extent. Most of her war material has been
yed. What is it that prevents peace from now reigning in Europe? Why is it that France keeps such
siderable army, abundantly provided with war material?

f course in saying this only certain people have got something at the back of their minds. They sug-
hat France also has some hidden thought—some hidden design. It has been said that France wanted
ell in Europe a sort of military supremacy, and that after all she wanted to be so simply to take the
Germany occupied before the war.

entlemen, perhaps this is the most painful, heartrending and cruel thing that a French man can hear.
nd for them to say it, after the dreadful war from which we have just emerged—unprovoked war which
l to undergo—to be again in the cruel necessity to give to the world only the appearance that we have
ous intentions and military design—this, gentlemen, constitutes, I may say, the most disheartening
for us.

we had not the full confidence of those that know my country, those that have seen it—they can
that not one word of it is true. If there is a country that has deliberately turned her steps toward
that wants peace with all her heart, believes in it with her entire faith—if there is a country that does
entlemen, it is France.

nce the armistice we have had many disappointments. France has had to wait for certain realizations
she has not been able to get. She has seen Germany digress—haggle over the signature which had
iven. Germany has refused to stand by her pledged word. She has refused to pay compensation
the devastated regions. She has declined to make the gesture of chastisement that, after all, every
f sense would expect after the horrors that we have witnessed. Germany has refused to disarm.
that time France was strong and Germany could not resist. Public opinion in France was naturally
ent; while under this provocation France remained perfectly cool. There was not one gesture on her
aggravate the situation. I may say here emphatically, in the face of the world, we have no hatred

in our hearts, and France will do everything she can. She will use every means to prevent between Ge and herself a recurrence of these bloody conflicts. She wishes for nothing else but that the two peoples be able to live side by side in the normal conditions of peace.

But after all, we have no right to forget. We have no right to abandon ourselves. We have n to weaken our position, and were it only because we must avoid giving rise in the bosom that wou be ready to take advantage of it, to give rise to certain hopes that would be encouraged by our we

PART OF GERMANY WARLIKE STILL.

Gentlemen, I spoke a few moments ago of the moral aspect of disarmament, and I referred in my r to Germany. I do not want to be unjust; nothing is further from my mind. But we know there is many, there is one part of Germany, that is for peace. There are many people, especially among the ing classes, who want to work, who have had enough of this war, who have had enough of war altog and are most anxious to settle down in peace, and also to set to work. We shall do everything to he Germany, and if she wants to restore her balance in the bosom of a pacific republic and democratic i tions, then we can help her, and we shall all be able to contemplate the future with feelings of secu

But, gentlemen, there is another Germany, a Germany which has not changed her mind and to the last war has taught no lesson. That Germany keeps thoughts in the back of her mind; she has th designs which she entertained before the war; she has kept the same preoccupations and she cherisl same ambitions as the Hohenzollerns did. And how can we close our eyes to this? How can we igno state of things?

This, gentlemen, is happening at our very doors; we have only got to look. This is happening few miles from us, and we follow the thoughts of the Germans, or certain Germans, and the evolution is taking place. And more than that, we have witnessed certain attempts to return to the former s things.

Nobody could be mistaken about the real bearing of what was called the Kapp Putsch. We kno well that if it had succeeded, Germany would have returned to her pre-war state, and we do not kno might have happened, or, rather, we know too well what would have been the consequences of such of things.

READS FROM LUDENDORFF BOOK.

Gentlemen, a volume has been published by no less a man than Field Marshal Ludendorff, wh enjoys great authority in many German circles, and who is followed by a great part of the elite in Ger professors, philosophers, writers, etc. What do we read in this book? Gentlemen, I should not like to too many quotations. I should not like to prolong this speech, and perhaps draw too much of your atte but this is part of my brief, and if you are, like me, convinced that the moral element is of the utmo portance, you will allow me to read just two or three passages. This is the first quotation:

"It is necessary that we should learn to understand that we live in a warlike time, that strugg remain forever for the single individual, as for the state, a natural phenomenon; and that the stru equally on the divine order of the world."

In the same book Marshal Ludendorff produces these terrible words of von Moltke on the 11th cember, 1919:

"Eternal peace is a dream. It is not even a beautiful dream, and war is one of the parts of the of the world, such as it has been created by God. It is by war that are developed the noblest virtues o —courage, disinterestedness, devotion to duty and the spirit of sacrifice, up to the abandonment of own life. Without war the world would sink in the morass of materialism."

And further—this is Marshal Ludendorff himself speaking now:

"It is for the political education of the German people, and it is an indispensable notion with the k edge of this fact that in the future war will be the last and the only decisive means of policy; that th completed by the virile life of war, the Entente shall not be able to forbid the German people to ente although they are trying to take it away from us. War is the cornerstone of all intelligent policy. It cornerstone of every form of future even, and chiefly of the future of the German people."

And, lastly, Marshal Ludendorff says this:

"The warlike qualities of the Prussian and German Army have been put to the proof on the bi battlefields. The German people need no other qualities for their moral renovation. The spirit of th mer army must be the germ which will allow this renovation to take place."

Such, gentlemen, are the words used by the highest German authorities who have preserved, can quite understand it, the full part, the great part at least, of the confidence of the German people that is what we are listening to now. After a war that has caused the death of millions of men, after the wounds that have been inflicted and that are still bleeding in the sides of the countries of Europe, tl the sort of thing that is being taught at the very door of France. How can you expect that France sl close her eyes to such words?

GERMANY'S POTENTIAL SOLDIERS.

I now come to the physical aspects of disarmament. I can quite understand that somebody migh it is not sufficient to harbor evil designs; to make war one must have appropriate means, because wh is a question of war enormous effectives are necessary; you must have the officers and non-commissi officers; you must have plentiful material—rifles, guns, machine guns, artillery, etc.—and Germany no longer any of these.

Germany, from the point of view of effectives, just emerging from the war, from a war where her have been fighting for four years—and I should be the last to underestimate the valor of her soldiers soldiers have had to face and to fight the German soldiers, and they know to what point the German so is able to carry his heroism—but Germany just issuing from the war still has 7,000,000 men over the Germany who have made the war. Of course you will say they are not actually serving under the flag, are not living in barracks. Certainly. Have these men any officers and non-commissioned officers r to be marshalled to the field? Is it possible to mobilize such an army to-morrow?

To this question I answer "yes," and I am going to explain it. Since the war, since the moment p was signed, Germany has constituted a force, a so-called police force, which was intended for the ma nance of public order. That force is called the Reichswehr. It is to include 100,000 men, and, in fact, include 100,000 men. But what men? They are nearly all officers or non-commissioned officers. I m gentlemen, regulars, all having served in or having belonged to the old army. Therefore, the cadres ready there, the officers and non-commissioned officers are ready to marshal the army of to-morrow.

And what is that army? Is it in conformity with the requirements of the peace treaty? Is it for purposes of public order? No. There are a certain number of those of which I have to express the s of facts as they are.

According to secret instructions issued by the military authorities, the Reichswehr is to prepare only for police purposes but also for war, and is to train for war, with the necessary rehearsals and man vres.

There is something more. Germany has another denomination. There is another group called wohnerwehr. This group includes almost all the men of good-will who are ready to serve their country in t of need, and, instead of using it only to preserve internal order, it might be used for other purposes.

The danger was so real that the Allies were obliged to send an ultimatum to Germany to demand force should be disarmed.

RECOGNIZES WIRTH'S GOOD-WILL.

another moment, under an organization called the Orgesch, which is the organization of war, the
nnerwehr acquired such strength and became such a threat that the Prime Minister of Bavaria, ani-
by a spirit of revolt, informed the world that he had at his disposal, and he could raise in a short time,
y of 300,000, plentifully provided with rifles, machine guns and artillery. Well, that force has been
nized. The German Government has done its duty, and nobody more than myself is ready to rec-
it.

is only a duty on my part, a mere duty; a mere sense of fair play. I stated it in my own Parliament.
ady to recognize that the German Chancellor, Chancellor Wirth, is a man of good-will, animated by
rposes, loyal and frank, and that he has applied every endeavor, acting with no small merit on his
order to really realize a state of peace and honor the signature of Germany.
hile I may say that on our side we are ready to do everything in order to allow this great people to
to normal conditions of peace, the German Government, as I said, dissolves the Einwohnerwehr.
is something else, gentlemen.
ere is another force, which is called the Chezheitz Politze. That is also a police force. It includes
men. These are enlisted men. The force is composed exclusively of regulars, officers and non-
ssioned officers, or at least non-commissioned officers ready to undergo a new period of military ser-
Ve demanded the dissolution of this force, but what happened? The Chezheitz Politze disappeared,
ther appeared in its place—Schutz Politze; but it was just the same. That included 150,000 men.
, instead of its being a local police force, it became a general police force at the disposal of the Central
ment, that could be used anywhere on German territory; so that we come to a total of 250,000 men,
ough men that are real officers, ready to marshal the troops who are training, to be ready instantly
of war. These men are constantly watched by the Government.
e Government keeps them under its hands. These 7,000,000 men have not returned to civil life,
occupations entirely. They are grouped together in this marvellously ingenious way which the Ger-
rle always have when they want to achieve their purposes. They are called Frei corps, or former
ants' associations, and what not. Any day, any anniversary—and Germans are rather fond of an-
ries—is favorable in order to convene these men and marshal them, to see that you have got them
your hand ready to do the work that is to be done.

MOBILIZATION FOR SILESIA.

are Frenchmen. We know that. It is happening at our door. And I will only give you an example
you how rapidly these organizations might be put on a war footing. Just one second. When the
Silesian question reached a somewhat acute stage recently, within a few weeks, I might almost say
a few days, there were, out of these Frei corps or other bodies, about 40,000 men ready with guns,
e guns, rifles, armored trains, and with most perfect military instruments, so that this force should
full combatant value.
ese are facts, gentlemen. I am not noticing them and bringing them here just to make my case bet-
hey are facts that have been verified, and that everybody can ascertain for himself. Therefore, as
ion of fact and from the point of view of effectives, Germany can rise in a few weeks, and perhaps al-
a few days, and can begin to raise her 6,000,000 or 7,000,000 men with their officers again, and the
nmissioned officers are ready to do the work.
ow I must ask the great people of the United States, so fond of justice, so noble in their purposes, to
me when I tell them this: Suppose by your side, oh, American people, a nation which has been for
nd centuries in bloody conflict with you; and suppose that this nation, you feel, is still ready, morally
aterially, to enter into a new struggle. What would you do?
ould you turn away your eyes? Would you close your eyes to a danger that was threatening you?
at are said to be such a positive, such a precise people, would you close your eyes? Would you not
o do everything in your power in order to safeguard your life, and, what is more, your honor? Would
anything to weaken yourselves? No. There is not one citizen in the whole United States who would
swer me: "No, never in the world!"
ance is looking upon what is happening. France does not exaggerate. She is only watching and wait-

low come to the question of war material. We have been told that there was no more war material.
he the commissions of control in Germany have done admirable work. A great many guns—artillery,
, e—have been destroyed. Some of the destruction has been supervised by the Allied officers. It is real.
her destruction has taken place, as we have been told. We might have a doubt. We are not quite
. But we must give the opponents the benefit of the doubt, and we believe the destruction on that
practically completed.

WAR INDUSTRIES AVAILABLE.

t the problem of war material is one that can easily be solved. You have seen, in the war, with
romptitude—and that was lucky, because if the help had not come so quickly we might have been
inally—you have seen how quickly immense armies have come over to us, provided with the most
material, and fought on our side upon the battlefields.
ell, what is Germany but a vast country of industry—industrially organized. Germany always had
ns. The first was trade, commerce. And that is only natural. The second was war. All her indus-
l her manufactures, have been working to the full during the war, and they have developed since.
erything is ready in Germany, the plans, the designs and calibres. Everything is there ready to in-
steady manufacturing of guns, machine guns and rifles. Suppose that during a period of diplomatic
purposely protracted for a number of weeks, certain of the manufacturers, certain of the works,
o fabricate, just at the beginning, just to start the war, just to set the war going, and then go on
eturing guns and rifles and artillery; what would happen? It is not only in Germany that industry
k to the full. You can make preparations outside. In fact, preparations have actually taken place.
great captains of industry or great industrial magnates have bought important firms in Scandinavia
other parts of Europe.
is easy enough to fabricate these guns without our seeing it, outside of our supervision. You know
ell that it is possible to build great railroads. You know very well that it is impossible to bring here
of that Germany is not actually making or purchasing war materials.
s different from the navy. It is rather difficult to lay the keel of a ship in the stocks, to prepare
kyards without the world knowing it. But suppose that was possible, do you think you could launch
l ship without somebody being on the spot and knowing what was happening? But the guns, the
e machine guns—any instruments used on the field of battle—they can be manufactured and cannot
trolled with any measure of certainty.
, gentlemen, this is not the first time in history that France has had to face a situation of this kind.
re known Prussia disarmed. And disarmed by whom? By Napoleon. Well, that Prussia, which
practically disarmed, which was harmless to all intents and purposes, we found her again on the
eld and we were nearly bled white. How can we forget that?

"DIREFUL LESSON" REMAINS.

course, we know what is often said of the French people. It is often said that we are a frivolous
and that naturally, when the danger is passed, we turn our minds to other things—just as befits a

frivolous people. Evidently, gentlemen, we are not the sort of men to keep our eyes steadily fixed ever is sad and depressing.

We have not been doing that since the war, but we have been too deeply wounded, I might a murdered, to forget the direful lesson which has just been taught us. Gentlemen, there are too ma in mourning in the country, there are too many men in the streets that are disabled and maim if we wanted to forget we could not.

Therefore we have not the right and we do not intend to leave France defenseless. France all intents and purposes, protect herself.

Such is the situation as far as we are concerned. You will grant me, gentlemen, that it is seriou But that is not all. What about the rest of Europe? Apparently Europe is at peace, although here on the ground certain volumes of smoke just arising seem to indicate that the fire is not extinguish where. I might say that this fire is smoldering in certain parts of Europe and if France had not hac war would already have broken out in Europe again.

I will just draw your attention to one subject to which I may refer later on, and that is the Russia. Russia is a country of 120,000,000 men, which is actually boiling over with anarchy. T an enormous standing army, which is in theory 1,500,000 men but which has a practical strength men. What will Russia do? Who can say what will happen on that side?

About a year and a half ago there was a wild rush of Russia on Europe. Russia tried to rus and through Poland to reach Germany, where some people were beckoning to her. Gentlemen, that time terribly anxious hours in France. If the barrier had not held good, if that anarchic army able to join the people who were calling them on the other side, what would have happened? Wh France be and where would the rest of Europe be? Happily there was the French Army, which was t of order for its own account and for the sake of the world.

The situation in Russia is far from being settled. It is a sort of permanent anxiety to everybo will become of that enormous army? What could, or might, Germany do in order to equip Russi ploit her? We know not. There are so many problems, economic, financial, etc., with which w deal that really, gentlemen, we do not know to which to turn, but the greatest problem of all, th question, is life.

First of all, we must be able to live. That is a sort of a question mark in France. Thanks to to whom our gratitude will remain everlasting—thanks to their efforts—we have been able alto insure the life, liberty and dignity of men, but, gentlemen, I trust you will certainly feel the weig argument and recognize that we are faced with a very terribly serious situation.

When we say we contemplate a reduction of naval armaments, when we discuss it with ourselves to heart, we could have nothing in our minds. We were speaking between friends. There is no war; if there is any menace to peace it is so far distant that you can hardly conceive it, and yet not assumed the right of ignoring this danger altogether. You intend to keep your navies to the e ssary to defend your liberties and insure your life.

FOR PEACE BUT NOT PERIL.

If you do that, gentlemen, on the sea, what shall we do when the danger is there at our doors ing over our heads? I may say that I have always been in favor of peace; I have assumed power fo of peace in very difficult conditions. When my country was feeling natural impatience at the state I formally attached myself to the cause of peace. I fastened my heart on that noble task, and I that if ever peace is to be disturbed in the world, I shall not be the one to disturb it. But, gentle cisely because I have urged everybody on the road to peace, because I have done everything in in order to obtain peace, I feel all the more the great weight of the responsibility which I have and if to-morrow, because I had been too optimistic, I saw my country again attacked, trampled u bleeding because I had weakened her, gentlemen, I should be a most despicable traitor.

It is that situation which we have got to take into account, gentlemen, and the weight of th sibilities with which we are burdened.

Only the other day the course of events turned in such a way that it certainly became acute, as y in Upper Silesia. I have already referred to this subject. Germany, which did not think that th people were ready to undertake a military operation, suddenly informed us that she was going to Reichswehr to the spot in Upper Silesia in order to preserve order.

Those were momentous times for us, and, although I have been through many critical times i I may say that no hour was perhaps of more importance than that, and that I clearly and definit up my mind, and I told Germany that such a thing was not possible, and that if Germany undertoo of the sort she would have to bear the consequences, and the language was understood.

But, gentlemen, if I had spoken without having the French Army back of me, what would n have become? And if the event had actually taken place, what would have become of Europe itself? is still in a troublous state. It is composed of young states, newly come to life. Who could say w conflict might have become?

That is the problem and that was the problem, and the struggle did not take place because it that there was still a sufficient force in Europe and in France to preserve order.

Quite recently another attempt has been made, a certain attempt at the restoring of the old things in the centre of Europe, that might have set fire to the powder magazine again. Nothing h because the Allies were in perfect understanding and the incident was peaceably settled.

Gentlemen, I give you these reflections for you to ponder over. You will see that there is n that that would draw us aside from the path that leads to final peace. I apologize for having been so long and for having so trespassed upon your attention. Perhaps at another time the President wi inclined to allow me to speak.

ARMY TO BE CUT BY HALF.

The thought of reducing the armaments, which was the noble purpose of this conference, is from which we would feel disinterested from the point of view of land armaments. We have shown it Immediately after the armistice demobilization began, and demobilization began as rapidly and as co as possible. According to the military laws of France there are to be three classes of men; that generations of young men under the flag. That law is still extant; that law is still valid. It has abrogated yet, and the Government has taken the responsibility to reduce to two years the time spe the flag, and instead of three classes—three generations of young men—we have only two undergo tary service.

It is therefore an immediate reduction by one-third that has already taken place in the effe and I am speaking of the normal effectives of the metropolis, leaving aside troops needed for colon pation or obligation imposed by treaty in the Rhineland or other countries and plebiscites.

We do not think that endeavor was sufficient, and in the future we have plans in order to restrict the extent of our armies. In a few days it is certain that the proposals of the Government will b in the Chamber, in order to reduce further the military service by half. That is to say, there will one class and a half actually serving. The metropolitan French Army would be therefore reduced but if anybody asks us to go further, to consent to other reductions, I should have to answer cle definitely that it would be impossible for us to do it without exposing ourselves to a most serious

You might possibly come and tell us, "This danger that you are exposed to, we see it, we realiz we are going to share it with you. We are going to offer you all means—put all means at your dis order to secure your safety."

mmediately, if we heard those words, of course, we would strike upon another plan. We should be too pleased to demonstrate the sincerity of our purpose. But we understand the difficulties and the sities of the statesmen of other countries. We understand the position of other peoples who have also ce difficult and troublous situations.

We are not selfish enough to ask other peoples to give a part of their sovereign national independence ler to turn it to our benefit and come to our help. We do not expect it; but here I am appealing to your iences, if France is to remain alone, facing the situation such as I have described—and without any eration—you must not deny her what she wants in order to insure her security. You must let her do she has to do, if the need arises and if the time comes.

should be the last one here to try to restrict the noble endeavors which are being made here in order ut armament in the conference which has been convened, with such noble purposes in view, and I should o be able to say that I foresee no limit, no restriction to your labors and to the results which you may ve. Any question here can be debated and can be resolved upon, but I must draw your attention to hing—moral disarmament of France would be very dangerous.

SHUNS MORAL ISOLATION.

Allow me to say it will be most unjust. We do not enjoy the sufficient condition. We should be ready it, but the time has not come yet to give up our defense for the sake of final peace in Europe. We have to know, however, that France is not morally isolated, that she still lies with her the men of will, and the hearts of all people who have fought with her on the same battlefield. The true con- n of a moral disarmament in Germany—I mean to say I am referring to these noxious elements of which e already spoken—the true condition at this time of disarmament in Germany lies in the fact that it d be known over there that France is not alone, and then I feel quite sure that the poisonous propa- a of which I have spoken will simply run up dead against the wall; that it will not be able to go through, that nobody anywhere will believe in it.

f those that still harbor evil designs know that, and if those that entertain happy ideas of peace—this ing class that wants to return to a normal state of peace—if it is known in Germany that France is not lly alone, peace will come back much quicker; and the words of anger, the words of revenge, will be y preached in the wilderness. It will be impossible for Germany to reconstruct a defensive army, he will be able to install democratic institutions, and then we can all hope for final conditions of peace. Everything that France can do in this direction she will do. In fact, she has already done much. She ot hesitate to open conversations with the German Government in order to settle this painful question paration for the devastated regions. Everything has been done and will be done in order to restore al conditions, and the hour will come when everything will be settled, but the hour has not come yet. If by direction given to the labors of the conference it were possible somewhere over there in Europe—were possible to say that the outcome of this conference is indirect blame and opprobrium cast upon ce—if it were possible to point out France is the only country in the world that is still imperialistic, only country that opposes final disarmament, then, gentlemen, indeed this conference would have dealt severe blow; but I am quite sure nothing is further from your minds and from your interiors.

If, after listening to this argument, after weighing the reasons which you have just heard, you consider n as valid, then, gentlemen, you will still be with us and you will agree with me and say that France ot possibly do anything but what she has actually done.

GREAT BRITAIN.

Mr. Balfour said:

Mr. Chairman, evidently this is not a fitting moment to deal at length or in detail with the great speech h has just come to its conclusion. It has been your privilege, and my privilege, to hear one of the great ers of parliamentary oratory. We have heard him with admiration, we have heard him with a full ure of sympathy; but we have done much more, I think, than merely been the auditors of a great, artistic rmance. We have heard something more than a great speech; we have heard a perfectly candid, per- lucid, perfectly unmistakable exposition of the inmost thoughts of the Prime Minister of our great

He has told us, I believe without reserve, what are the anxieties, what are the preoccupations, of the ry over whose destinies he presides. He has told us what they fear and why they fear it. And nothing e more useful, nothing can be more instructive to us of other nations than to have this full revelation e inner thoughts of one of our allied and associated statesmen.

We live under very different conditions from the French citizens, for whom M. Briand has so eloquently en. In the secure homes of America no terrors exist or can exist comparable to those which inevitably t the thoughts, waking and sleeping, of the leaders of French politics. For they have what neither you nerica nor we in England have. I do not venture to speak for the other nations represented around able.

They have at their very doors the great country, great in spite of defeat, powerful in spite of losses of its policy, of the course which it means to pursue in the future, they necessarily remain in anxious s.

It is good for all of us, I venture to say, from whatever nation we may be drawn, from whatever part great continent we come, that we should be initiated, as we have been initiated this morning, into the sanctuary of French policy.

MORAL DISARMAMENT AS TO NAVIES.

t must be acknowledged, sorrowfully acknowledged, that the speech to which we have just listened hopeful for any immediate solution of the great problem of land armaments. And why is it—why is t there is this great difference between land armaments and sea armaments? Why is it that we all look forward with a confidence, which I think is not overrated, a serene confidence, to bringing about result of our deliberations some great measure, and under the guidance of the programme laid before by the United States Government. Why is it we are hopeful of coming to some solution of the great problem?

t is because, in the language of M. Briand, there has been, in matters maritime, a moral disarmament, t is on the basis of the moral disarmament that the physical and material disarmament is going to lit. That is why we are hopeful about the naval question.

And why are we less hopeful about at least any immediate settlement of the military questions? It ause, as M. Briand has explained to you, in that case there has not been moral disarmament, because ve no assurance, or because the French Government, who watch these things closely, have no assur- either in Russia or in Germany that moral disarmament has made the degree of progress which would material disarmament an immediate possibility.

do not venture to offer an opinion of my own upon this question. I leave you to judge of the facts, ey have been expounded by one who has profoundly studied them and whose gifts of exposition cannot celled.

Only this I would say, for I need hardly tell you that I am not going to make a speech: M. Briand rs to have some fears lest France should feel herself in moral isolation. That would be a tragedy indeed.

BRITAIN MAINTAINS HER STAND.

That the liberties of Europe and the world in general, and of France in particular, should be main-

tained and guarded against the dominating policy of her eastern neighbor is the cause for which the Empire fought and in which the British Empire still believes. Killed on the field of battle, we lost n million men. I am talking of the British Empire now. We lost nearly a million men. We lost we two million men in addition, maimed and wounded.

We grieve over the sacrifice; we do not repent it. And if the cause of international liberty was of this immense sacrifice from one of the Allied Powers—I speak not of others, it is not my right to for them—if it deserved and required this sacrifice from one of the Allied and Associated Powers, an at all events have not changed our views, either as to the righteousness of the war or as to its nec how can it be otherwise than that if a similar necessity should again arise, if again the lust of domin which has been the curse of Europe for so many generations, should threaten the peace, the independ the self-development of our neighbors and allies, how should it be possible that the sympathies, o warm, should become refrigerated, should become cold, and that we who had done so much for the cause of international liberty, should see that cause perish before our eyes rather than make further sa in its defense?

Those are the thoughts which rise in my mind after hearing the great speech of M. Briand. I only be interfering, I should only be weakening its effect were I to dwell further upon it, and I will c myself, therefore, with thanking M. Briand for the admirable and candid account which he has gi the policy of his country, and wishing him and his country every success and every prosperity in tha of unaggressive prosperity which I hope and believe they are now entering.

ITALY.

Senator Schanzer said:

Gentlemen, I am going to use the French language because I wish that the thought of the Italian gation should arrive direct, and without the short delay of translation, direct to the French delegation the table.

Gentlemen, we have listened with almost religious silence to the magnificent speech which M. I has delivered with warm eloquence to explain the position of France and the French point of view.

We are united to France, certainly, not only by the bonds of affinity and common race, but also l brotherhood in art, by the fraternity of a long and glorious war which received a new and unforge consecration when the two peoples fought together on the same battlefields for the sacred defense of na liberty and for the cause of justice.

We listened with the greatest attention to the figures and documents quoted by M. Briand, and we with great pleasure that France, in spite of the great difficulties, and within the limits of probabilit ready to contemplate the principle of limitation of land armament.

It is far from my mind to discuss what France considers indispensable for her national safety. safety is as dear to us as it may be to them, and we are still morally by the side of our allies of yest and our friends of to-day.

PLANS TO CUT ARMY TO 175,000.

I wanted to say this only, may I be allowed to express the wish and the hope that the general limi of land armament may become a reality within the shortest possible space of time? Italy has fough war for the highest aims which a country can seek, but Italy is in her soul a peace-loving nation. I not repeat what I had the honor to state at the first meeting of the conference, but I should like to emp again that Italy is one of the surest factors of the world's peace, that she has no reason whatsoever o fliet with any other country, that she is following and putting constantly into action a policy inspired b principle of maintaining peace among all nations.

Italy has succeeded in coming to a direct understanding with the Serb, Croat and Slovene people in order to attain such an end has made considerable sacrifices for the interest of the peace of Europe. has pursued toward the successor countries to her former enemies a policy not only of pacification b assistance; and when a conflict arose between Austria and Hungary, a conflict which might have dr into war the Danubian peoples, offered to the two countries in conflict her friendly help in order to the dispute. Italy has succeeded, and in so doing has actively contributed to the peace of Europe.

Moreover, Italy has acted similarly within her own frontiers and has reduced her armed forces t largest possible measure. She has considerably curtailed her navy expenditures in comparison to the war time. The total amount of her armed forces does not exceed 200,000 men, and a further redu to 175,000 men is already planned, and 35,000 colored troops.

ORDINARY WAR BUDGET $52,000.000.

Our ordinary war budget for the present financial year amounts to $52,000,000, including $11,00 expenses for police forces; the extraordinary part of the war budget, representing expenses dependen the liquidation of the war, expenses therefore of a purely transitory character, amounts to $62,00(

However, although we have all reduced our armaments to the greatest possible extent, we con it necessary, for a complete solution of the problem of limitation of armament in Europe to take into sideration the armaments of the countries either created or transformed as a result of the war. The lem is not a simple one. It must be considered as a whole. It is a serious and urgent problem, for wh solution at no far distant day is necessary.

Gentlemen, I trust I have said all that is necessary to explain the Italian point of view. The U States in calling this conference has taken a great and noble initiative, with the aim of creating sound antees for the safeguarding of the peace of the world.

In conclusion, may I express the desire and the hope that the conference, while taking into acc the present difficulties, should give attention also to the problem of the limitation of land armaments solution of which is an essential condition for promoting throughout the world that atmosphere of which M. Briand has so clearly explained and without which it would be hopeless to anticipate tha economic and social reconstruction of the nations which have suffered most severely during and afte war may be fulfilled?

BELGIUM.

Baron de Cartier said:

Mr. President, being still under the spell of the thrilling and convincing speech delivered by M. Bri I would just like to state briefly the point of view of Belgium on the question of limitation of land a ments.

Belgium, trusting in the undertaking given by the powers that guaranteed her neutrality, rema for three-quarters of a century faithful to a policy of peace and limitation of armament. The tragical ev of 1914 were for her a terrible awakener. While she was aspiring to nothing but peace, while she was anxious to accomplish her duties as a neutral state, war was carried on her own territory by the two po that had not only taken the engagements with respect to neutrality but to see that neutrality shoul respected.

Devastation, fire, wanton devastation of her industries, murdering and wounding of her inhabita deportation of civilian population, heavy losses in her armies, were the reward of her peaceful policy an the fulfilment of her international obligations.

The Treaty of Versailles put an end to this regime, which events had proved to be worthless and gerous for her. Owing to her special geographical position and to her situation, Belgium is forced to rel in a certain position, and in 1920 she concluded with France a military agreement purely for defensive

nd in case of new, unprovoked aggression on the part of Germany. She keeps her army down to a at is strictly consistent with the requirements of her national security and she could not possibly to a further reduction of her armament. And yet there is perhaps no state that is more sincerely ving. We have no hatred whatever, and we do not want to see war, which has inflicted such painful gs upon us.

may refer to the words which King Albert of the Belgians, in his message to President Harding, will say that the Belgian nation calls with her earnest wishes for the moment where the general situa- l allow us to enter upon the path of limitation of armaments. She admires the initiative taken by vernment of the United States and wishes every success to the conference for the greater benefit of ole world.

AMERICA AND FRANCE.

er the delegates of the powers had spoken, Secretary Hughes said, for the American Government: hall detain you, gentlemen, but a moment. It would not do justice to my own sentiment or to that colleagues of the American delegation if I did not, in a word, take part in this expression of the sense lege which has been felt in listening to this brilliant, eloquent, comprehensive and instructive address the position and policy of France.

words ever spoken by France have fallen upon deaf ears in the United States. The heart of America illed by her valor and her sacrifice, and the memory of her stand for liberty is imperishable in this , devoted to the institutions of liberty.

is evident from what M. Briand has said that what is essential at this time, in order that we may the great ideal, is the will to peace. And there can be no hope of a will to peace until institutions ty and justice are secure among all peace-loving people.

y I say, in response to a word which challenged us all as it was uttered by M. Briand, that there is l isolation for the defenders of liberty and justice? We understand the difficulties: what has been ll be read throughout this broad land by a people that desires to understand.

e essential conditions of progress toward a mutual understanding and a maintenance of the peace orld is that we should know exactly the difficulties which each nation has to consider, that we should justly to appraise them, that we should have the most candid and complete statement of all that lved in them and then with that full appreciation of the apprehensions, of the dangers, of all y create obstacles in the path of the policy that we are most anxious to pursue, we should then plan the case to the utmost practicable extent; and thus the will to peace may have effective expression. cannot go into a statement of detail now. Apparently the conference is so organized that this may have an appropriate place in our discussion. We cannot foresee at the moment what practical es may be available, but the expressions that we have heard from the representatives of the powers in this conference make us confident that here will be generated that disposition which is essential onal security, the final assurance of security which armies and officers and men and material can upply, that is, the disposition of a world conscious of its mutual interests and of the dependence, e fact that if they desire, most ardently and wholly desire it, peace will be enduring among our people. t the desire of the delegates that the matters suggested by the addresses that have been made and ject itself of land armament should now be committed for the consideration of the Committee on ent, consisting of the plenipotentiary delegates of the five powers? Assent is manifested, and it will ordered.

t now in accordance with your wish that we should adjourn subject to the call of the Chair? journed.

JAPAN.

ron Kato said:

is needless for me to assure M. Briand that Japan has nothing but a most profound sympathy for ullarly difficult position which has been so clearly and so eloquently presented to us this morning. venture also to add Japan's appreciation of and sympathies for the great sacrifices in men and wealth y France, the British Empire, Italy and the United States in the great war for the cause of peace, and harmony?

ould like to say this morning just a few words on land armament limitation. Japan is quite ready unce her hearty approval of the principle which aims to relieve a people of heavy burdens by limit- l armaments to those which are necessary for national security and the maintenance of order within itory.

e size of the land armaments of each state should be determined by its peculiar geographical situ- nd other circumstances, and these basic factors are so divergent and complicated that an effort to al comparisons is hardly possible. If I may venture to say it, it is not an easy task to lay down al scheme for the limitation of land armaments, as in the case of limitation of naval armaments. eless, Japan has not the slightest intention of maintaining land armaments which are in excess e which are absolutely necessary for purely defensive purposes, necessitated by the Far Eastern n.

FOUR-POWER PACIFIC TREATY.

the conference's plenary session of December 10, Senator Lodge read the draft of a treaty. This was signed December 13 by the delegates of the United States, British Empire, France, and Japan, ted States delegates making in writing these reservations:

That the treaty shall apply to the mandated islands in the Pacific Ocean; provided, however, making of the treaty shall not be deemed to be an assent on the part of the United States of America mandates and shall not preclude agreements between the United States of America and the man- powers respectively in relation to the mandated islands.

That the controversies to which the second paragraph of Article I. refers shall not be taken to e questions which, according to principles of international law, lie exclusively within the domestic tion of the respective powers.

e text of the treaty runs thus:

e United States of America, the British Empire, France and Japan, with a view to the preservation eneral peace and the maintenance of their rights in relation to their insular possessions and insular ns in the regions of the Pacific Ocean, have determined to conclude a treaty to this effect and have ed as their plenipotentiaries:

e President of the United States; His Majesty the King of the United Kingdom of Great Britain land, etc.; And for the Dominion of Canada; For the Commonwealth of Australia; For the Domin- ew Zealand; For India; The President of the French Republic; His Majesty the Emperor of Japan: o having communicated their full powers, found in good and due form, have agreed as follows:

ARTICLE 1.

e high contracting parties agree as between themselves to respect their rights in relation to their possessions and insular dominions in the regions of the Pacific Ocean.

here should develop between any of the high contracting parties a controversy arising out of any question and involving their said rights which is not satisfactorily settled by diplomacy and is likely , the harmonious accord now happily subsisting between them, they shall invite the high contracting to a joint conference to which the whole subject will be referred for consideration and adjustment.

ARTICLE 2.

he said rights are threatened by the aggressive action of any other power the high contracting parties

shall communicate with one another fully and frankly in order to arrive at an understanding as to efficient measures to be taken, jointly and separately, to meet the exigencies of the particular situ

ARTICLE 3.

This agreement shall remain in force for ten years from the time it shall take effect, and afte piration of said period it shall continue to be in force subject to the right of any of the high co parties to terminate it upon twelve months' notice.

ARTICLE 4.

This agreement shall be ratified as soon as possible in accordance with the constitutional of the high contracting parties and shall take effect on the deposit of ratifications, which shall ta at Washington, and thereupon the agreement between Great Britain and Japan, which was conc London on July 13, 1911, shall terminate.

Senator Lodge, after he had read the treaty, said:

I should be insensible indeed if I did not feel deeply gratified by the opportunity which has me to lay before the conference a draft of a treaty the terms of which have been agreed upon by fo great powers of the earth in regard to the islands of the Pacific which they control, either as po or dominions. I will begin by reading to the conference the treaty, which is both brief and simple, a I am sure is full of meaning and importance to the world's peace.

Senator Lodge here read the text of the treaty, which is printed above.

The signing of this treaty is on the part of the United States subject to the making of a co with Japan concerning the status of the island of Yap, and what are termed the mandated islan Pacific Ocean north of the equator, the negotiations in regard to which are almost concluded; an the reservations with respect to what are termed the mandated islands in the Pacific Ocean sout equator.

It should also be observed that the controversies to which the proposed treaty refers do not questions which, according to principles of international law, lie exclusively within the domestic jur of the respective powers.

The conference will perceive that I spoke correctly when I referred to the terms of the treaty a To put it in a few words, the treaty provides that the four signatory powers will agree as between th to respect their insular possessions and dominions in the region of the Pacific and that if any con should arise as to such rights all the high contracting parties shall be invited to a joint conference to the adjustment of such controversy. They agree to take similar action in the case of aggressior other power upon these insular possessions or dominions. The agreement is to remain in force for te and after ratification under the constitutional methods of the high contracting parties the existing ag between Great Britain and Japan, which was concluded at London on July 13, 1911, shall termina that is all. Each signer is bound to respect the rights of the others, and before taking action in troversy to consult with them. There is no provision for the use of force to carry out any of the the agreement and no military or naval sanction lurks anywhere in the background or under cover plain and direct clauses.

REMOVING CAUSES OF WAR.

The surest way to prevent war is to remove the causes of war. There is an attempt to remov of war over a great area of the globe's surface by reliance upon the good faith and honest intentio nations which sign the treaty, solving all differences through the processes of diplomacy and joint ation and conciliation. No doubt we shall hear it said that the region to which this agreement a one most likely to give birth to serious disputes and therefore an agreement of this character is of li sequence. History unhappily has shown that there is no corner of the earth so remote or so valuc it is not capable of giving cause for controversy or even for war between the tribes and the nations kind. But the islands of the Pacific, although remote from the dwelling places of the mass of h are far from valueless. The islands of the Southwestern Pacific extend over a vast space in that gres They reach from the Marquesas on the east to the Philippines on the west; from the Aleutian Island north nearly to the Antarctic circle on the south. They are far more numerous than is generally I do not know what the total number is, but I am informed as to the Philippines and it appears t group alone contains over 3,100 islands, of which 1,600 have names. We have probably heard of the of Robert Louis Stevenson, who, on leaving one of the Pacific islands, was asked how he was g Samoa. He replied that he should just go out and turn to the left. These islands are, comparatively ing, so dense that we might deseribe them in the words of Browning as the "sprinkled isles, lily on o'erlace the sea." And yet the region through which they are scattered is so vast that the isles o and the Aegean Sea, so famous in history and in poetry, could easily be lost therein and continue un except by wandering seamen or stray adventurers. They range from Australia, continental in ma to atolls, where there are no dwellers but the builders of the coral reefs or lonely rocks marking t of mountains which rise up from the ocean's floor through miles of water before they touch the air. Western and Eastern world alike most of the islands in the Southwestern Pacific are little known, a still lingers about them the charm so compelling and so fascinating which an undiscovered country the sons of men who are weary of main travelled roads and the trampled highways of trade and co which cover the surface of the patient earth.

IMPORTANCE OF PACIFIC ISLES

Upon these islands still shines the drama of romance in the stories of Melville and the writings of Louis Stevenson, to whom the south seas gave both a grave and a monument imperishable as his ow But the Pacific islands are much more than this. They possess certain qualities other than natural and romantic charm, which to many minds are more enticing. The larger ones are rich in many ways in the gifts of soil and climate, and in other forms of riches desired by men, which extend from the mineral resources of Australia to the pearls which are brought from the depths of the ocean. Th among them all great areas of forest and of plain fit for the support and prosperity of civilized m a word, they have a very great material value, largely undeveloped, and where this condition exists sires of men will enter and conflicting human desires have throughout recorded history been breeders Thus far the wastes of the Pacific Ocean with all the crowding islands, except on the edges of the con have not been the scene of great wars; and yet not many years have passed since three great natio their warships to Samoa because there was a dispute in regard to those distant islands. Therefore an ment among the nations controlling these islands has a very serious importance to the peace of the

We make the experiment here in this treaty of trying to assure peace in that immense region by ing the preservation of its tranquillity to the good faith of the nations responsible for it. The wo just passed through a war the very memory of which makes us shudder. We all believe deep in our that this hideous destruction of life, this suffering and ruin, which still beset us must not be perm come again if we can prevent it. If the nations of the earth are still in the innermost recesses of the sciousness planning or dreaming of coming wars and longing for conquests, no treaties of partition alliance can stay them; but if, as I firmly hope, the world has learned a frightful lesson from the aw periences of the great war of 1914, then our surest appeal in order to prevent wars in the future mus the hearts, the sympathies, the reason and the higher impulses of mankind.

Such an appeal we make to-day by this agreement among four great nations. We rely upon the faith to carry out the terms of this instrument, knowing that by so doing they will prevent war shou

oversies ever arise among them. If this spirit prevails and rules we can have no better support than the ith of nations. For one, I devoutly believe the spirit of the world is such that we can trust to the good ith and the high purposes which the treaty I have laid before you embodies and enshrines. Agreements this kind I know have often been made before, only to fail. But there has been a far-reaching change the mental condition of men and women everywhere. That which really counts is the intention of the utions who make the agreement. In this hour of trial and darkness which has followed the war with Ger- any the spirit of the world is no longer the same. If we enter upon this agreement which rests only upon e will and honor of those who sign it, we at least make the great experiment and appeal to the men and omen of the nation to help us sustain it in spirit and in truth.

FRANCE.

Mr. Viviani said: Mr. Chairman and Gentlemen—In the name of the Government of the French epublic, whose authority I am borrowing now, and who speaks through my voice, I am glad to bring here. Its full amplitude, without any reticence or any reservations, our full adhesion to the pact that has just en read, and which has been followed by such a penetrating and thorough analysis on the part of Sen- or Lodge.

Gentlemen, the day after the ratification has been exchanged, France will assume all the obligations at fall upon her by virtue of this pact, just as she will exercise the rights that she derives from the agree- ent. Here, gentlemen, in the midst of the nations that have come to meet here, I think I am entitled say that when speaking of the agreement France enjoys a good place here and that she has never declined stand by her plighted word. And when there has been a question of either standing by her pledged word d honoring her signature, or taking arms, France has not hesitated to seal with the blood of her own chil- en the treaties to which she had appended her name, and she has kept oath.

Gentlemen, the political and diplomatic value of the instrument which has just been read, thanks to e very simple summary given by Senator Lodge, has been perfectly understood by you. Yet I think will be fit to tarry awhile and mark here together the full accord of our wills.

It is understood between the four powers that as regards the insular possessions and dominions that ey will respect the rights of each other; and, if on the horizon there should arise any cause of conflict or ntroversy, a controversy that cannot be settled through the usual channels of diplomacy, they will consult ether and they will conciliate. Should any aggression arise on the part of any power, should real danger reaten the peace of the world in those regions, then the four nations will take counsel together and they I see what is necessary to do owing to the exigencies of the situation. And this agreement is to last ten ars, while the agreement concluded between Great Britain and Japan is to terminate. That is, gentlemen, juridical scope of the draft treaty which has just been read out, but I think we should be failing to our- ves and to what we owe ourselves and to you, and especially to the very sumptuous hospitality that have enjoyed in the United States, if we did not try all together to develop and emphasize the great ral value of what I can call an historical date.

A SUFFICIENT GUARANTEE.

Senator Lodge has shown quite well that without any naval or military sanctions being provided, or n thought of, it was sufficient that four nations had put their heads together, were animated by the same l to preserve peace; that was sufficient; that was a sufficient guarantee and protection for the peace of the rld.

Gentlemen, in this illustrious room, from this high-sounding platform, so high that however weak y be the voice of the man who speaks it will be heard by the whole world; gentlemen, after having listened the documents, after having thus proved our willingness to collaborate and co-operate together, I think m entitled to say that this conference, in which we have had the honor to participate and in which we e been proud to help, has fully and entirely succeeded.

Gentlemen, when we came here we knew that we were taking risks to a certain extent. And what risks e these?

Senator Lodge has just alluded to them, not without certain bitterness. Well, gentlemen, things are at they are, and we have got to take things as they are. Since the armistice some of the peoples of the ld have been wondering what use there had been in this war and whether any good was ever to come of it. They have been wondering whether all these sacrifices were to have been made in vain. They e been asking themselves in anxiety whether really there would be no change in the conditions of the lized world, and they have been wondering whether justice would rise to the height of their noble en- vors. And then this conference was convened.

Well, the peoples of the world began to say: "What will be the outcome of this conference? Is it to another meeting? Is it to be another consultation? Is it to end in idle talk? Or is it going to result ither right or light issuing out of this conference?"

Gentlemen, I think the answer has been clearly given, and thanks to the limitation contemplated in al armaments, thanks to this draft treaty, I think the conference has been a success and that the peoples mankind can at last believe in the progress of civilization.

WORDS OF PEACE WELCOME.

Senator Lodge referred to the Pacific regions being far removed, in far distant parts of the globe, and sh was expressed that the will of peace should be extended to other parts of the world. Ah, gentlemen, hom but the French delegation could these words be more agreeable and sound more welcome? I say , thinking of all the suffering that we have had to go through, having in mind mourning families, the dead cover our soil, 1,500,000 tombs that are on such bare, barren ground that we wonder if the spring will bring flowers enough to enable us to decorate these tombs.

Gentlemen, when we remember all this there are no words that can be more welcome than the words eace. We have done everything to avoid war. I can personally bear witness to this, as because of un- ard circumstances I happened to be at the head of the French Government when war broke out.

I as head of the Government, assumed the terrible responsibility of ordering the French troops to draw within ten kilometres of our own frontier. I assumed the responsibility of delivering part of my ntry to the enemy in order to avoid any possible cause of conflict and so that it could not be said that ce had been the first to open hostilities. I took the responsibility to wait until the last moment to order ilization in Europe that was shivering and ready in her armor to meet the foe. I waited until the hour, the last minute; I waited as long as there was a gleam of hope left, until there was a hope for peace It was only at the last moment when no human hope was left, that I assumed the responsibility of or- own dignity and independence, but for the liberties of the world and the destinies of civilization.

Gentlemen, now we have laid down our arms. Of course I cannot presume to speak on behalf of other ons, but I feel sure they will be with me and permit me to say that we in Europe do not ask you here he States to interfere with European affairs. We respect the independence of the United States. We ot presume to ask you to interfere in any way whatever, but, however you judge us, you are free to e us, and before you judge us, before you express your opinion, we will ask you to listen to us and have tle forbearance.

STRUGGLE OF NEW NATIONS.

Europe is an old country; it is a war-wearied world, over which twenty centuries of fighting and strug- have passed. It has been steeped hundreds of times in blood and tears, frontiers have been trampled

upon, countries have been torn to pieces and floods of hatred and villainy have been pouring during centuri over that old ground. And to end this there has been a war which has laid whole countries waste and whic has destroyed whole expanses of cultivated land. A war, did I say, gentlemen? That is not the right wor You have witnessed and you have taken a share in a revolution, not a war; that is to say, a revolution tha crushed forever, I hope, the spirit of militarism and autocracy, and while we were crushing the old spir of domination we were calling to life, we were calling to light and to joy a number of young nations.

Gentlemen, these nations have just now been brought into the world, they have been created, and yc have helped to create them. They must learn. They do not know yet what it is to be a nation. Therefor I tell you, you must use a little forbearance, you must be patient.

How is it possible to say in these troublous times, in these parts of Europe that are still disturbed, th have not had the time to settle down, how is it possible to say that we shall have, we must have peace, v must establish peace at once?

Gentlemen, it is impossible to ask for tranquility at once, any more than it is possible to expect th after a storm has troubled the depths of the ocean the waters will immediately become tranquil and lie smoot So, gentlemen, you must have a little forbearance, as I say. We have, I must say, assumed more confiden by coming into touch with you and in seeing the men who have been obliged to take arms on our side, t men who not only have been obliged to fight, but now are obliged to organize a troubled world.

Well, these men, of whom I am one, here enter their solemn oath to establish peace among men, it bei understood that peace will prevail in the world when justice has been satisfied.

GREAT BRITAIN.

Mr. Balfour said: Mr. Chairman and Gentlemen of the Conference, you have heard an exposition Senator Lodge of the contents of this treaty, admirable in its clarity, perfect in its literary form, and y have just heard the way in which this treaty strikes a great Frenchman in its world relations. You ha heard the views in an eloquent speech by one of the greatest masters of eloquence now living.

So far as I am concerned, I would most gladly leave the matter in their hands, for I have nothing to ad nothing to add to what they have said upon the general aspects of the treaty. If I rise to occupy your attention for one or two moments, it is not to deal with the treaty in its entirety but merely to say somethi about one clause in that treaty in which only my friends from Japan and the British delegation can reg themselves as immediately interested, although I think it touches, in truth and in reality, the interests the whole world.

You will all have noticed that Clause 4 provides that when this treaty receives its ratification at hands of the signatory powers, that at that moment the treaty between Japan and Great Britain comes an end. Now, I am perfectly well aware that the treaty between Great Britain and Japan has been cause of much searchings of heart, of some suspicions, of a good deal of animadversion in important secti of opinion in the United States, and I think that from a historical point of view that attitude may at fi cause surprise, for certainly nothing was further from the thoughts of the original framers of the tre between Japan and Great Britain than that it could touch in the remotest way, either for good or for e the interests of the United States. The United States seemed as remote from any subject touched in original agreement as Chile or Peru.

I think that was the original view taken in the United States by all sections of opinion. To whs it that the change of opinion is due? I think it is due to the fact that a state of international tension arise in the Pacific area—and I hope I may incidentally say that it is now forever at rest—but at all eve it did arise in the area of the Pacific Ocean, and critics in the United States began to say to themselv Why is there this treaty between Japan and Great Britain? What further interests does it serve?

REASONS FOR THE ALLIANCE.

They call to mind the fact that it originally came into being on account of the aggressive attitude ta in Far Eastern affairs by Russia and by Germany, and they asked themselves, "Is there any further dar from Russia? Is there any further peril to be feared from Germany?" And when they answered that qu tion, as of course, they were obliged to answer it, in the negative, when they perceived that the pract objects for which the Anglo-Japanese alliance was brought into being no longer existed, that history wiped them out, they said to themselves, "Why, then, is this treaty continued? May it not in certain c ceivable eventualities prove hampering and injurious in case strained relations should become yet n strained?"

I understand that point of view, but there is another point of view which I want you to underst and which even those who disagree with it will sympathize with. There is no audience that I would ra appeal to than an American audience on the point I am just going to mention. This treaty, remem was not a treaty that had to be renewed. It was a treaty that ran until it was formally denounced by of the two parties to it. It is true that the objects for which the treaty had been created no longer requ international attention.

But, after all, that treaty or its predecessors had been in existence within a few days of twenty ye It had served a great purpose in two great wars. It had stood the strain of common sacrifices, comi anxieties, common efforts, common triumphs.

When two nations have been united in that fiery ordeal they cannot at the end of it take off their one to the other and politely part as two strangers part who travel together for a few hours in a rail train. Something more, something closer, unites them than the mere words of the treaty, and as it w gratuitously and without a cause to tear up the written contract, although it serves no longer any v or effective purpose, may lead to misunderstandings in one nation just as much as the maintenance of treaty has led to misunderstandings in another.

WANT INCLUSIVE SUBSTITUTE.

So that Great Britain found itself between the possibilities of two misunderstandings, a misunderst ing if they retained the treaty, a misunderstanding if they denounced the treaty, and we have long c to the conclusion that the only possible way out of this impasse, the only possible way of removing t suspicions and difficulties which are some of the greatest obstacles to that condition of serene peace w is the only tolerable condition after all for civilized people, the only solution was that we should annul, m destroy, as it were, this ancient and outward and unnecessary agreement, and to replace it by somet new, something effective, which should embrace all the powers concerned in the vast area of the Pacifi

I hope at not too great length I have explained the frame of mind in which my government approac this difficult problem. The solution is one which gives me a satisfaction which I find it difficult, whi find it impossible adequately to express in words.

It so happens that I was at the head of the British Administration which twenty years ago brou the first Anglo-Japanese alliance into existence. It so happens that I was at the head of the British Adm istration which brought into existence the entente between the British Empire and France, and thr all my life I have been a constant, ardent and persistent advocate of intimate and friendly relations betw the two great branches of the English-speaking race.

You may well, therefore, conceive how deep is my satisfaction when I see all these four powers put their signature to a treaty which I believe will for all time insure perfect harmony of co-operation betw them in the great region with which the treaty deals.

Mr. Chairman, you told us at the beginning of this part of our meeting, most truly, that this tr did not strictly come within the four corners of the conference programme; and that statement was

fectly accurate; but no man or woman who has listened at this discussion, who has heard Senator Lodge read and comment on the treaty, who has heard M. Viviani's eloquent statement of the effect it has produced on his country, nobody can consider the substance and matter of the treaty itself without seeing that, whether or not it be within the strict programme of our conference, nothing is more germane to its spirit and nothing that we could possibly have done would better prepare the way for that diminution of naval armament which I hope will be one of our greatest triumphs.

JAPAN.

Prince Tokugawa said: Mr. Chairman and Gentlemen—Although it is unnecessary to add to what has already been said by Mr. Senator Lodge, M. Viviani and Mr. Balfour, I hope, Mr. Chairman, I shall be permitted to say a few words.

The terms of the important pact assuring mutual security and friendship have just been made known. It is needless for me to say that all Japan will approve the consummation of this work.

Japan will rejoice in this pledge of peace upon the Pacific Ocean.

As to the Anglo-Japanese agreement which is soon to terminate, I desire to associate myself with the words of appreciation so ably expressed by our distinguished colleague, Mr. Balfour, with respect to the glorious service which that agreement has done for the preservation of peace and liberty.

ITALY.

Senator Schanzer said: Mr. Chairman and Gentlemen of the Conference—The Italian delegation is very much gratified by the public announcement of the agreement reached between the four great powers having insular possessions in the Pacific Ocean, the agreement which was courteously communicated to us previous to its conclusion.

Any measure aiming to the creation of guarantees for the safeguard of peace in the world cannot but meet with our fullest consent. The principles involved in the agreement are entirely in accordance with the main lines of policy inspired by the high aim of a peaceful elimination of conflicts between nations.

We express our full confidence that this great agreement may represent the most firm and lasting guarantees for the safeguard of peace in the Pacific.

HOLLAND.

Jonkheer von Karnebeek said: Mr. Chairman, may I say a few words in addition to those which have already been spoken by others?

I feel that this is a great meeting. It is a meeting, Mr. Chairman, in which you have been able to produce first results of the fruitful co-operation, international collaboration which you have directed, and you have been able at the same time to explain those results and commend them to a world which is eagerly listening.

Mr. Chairman, you have referred to the resolutions with respect to China. We have assented, and we have done it in the fullest sympathy with the spirit which has animated the mission. In the second place, public announcement has been made of the treaty which is going to be concluded between the United States of America, the British Empire, France and Japan. Mr. Chairman, I want to seize this opportunity to state that I feel that in my country, Holland, this treaty will be received with great sympathy, because in that country it will be felt that it constitutes and embodies an endeavor to promote peace and tranquillity in these far-off regions neighboring the Netherland's possessions.

We feel there that it is an endeavor which may be a new and a happy beginning in the world's history, and for which you, Mr. Chairman, among others, may be sincerely congratulated.

When, now, Mr. Chairman, as a corollary to this treaty, the resolutions concerning China will be entirely incorporated in a general understanding of policy of all the powers interested, and such understanding will be extended to such matters as you have mentioned in connection with the status quo in general, then, confidence, and restoration of confidence, Mr. Chairman, I believe is what the world wants and what we are here for.

CHINA.

Dr. Alfred Sze said: Mr. Chairman and Gentlemen, I rise just to add a few words to express our great satisfaction at the work the conference has already accomplished. The Chinese delegation notes with gratification the intention of the powers agreeing to the draft treaty reported this morning to preserve general peace and to adjust by peaceful means all matters of controversy that may arise between them with reference to their rights in relation to their insular possessions and insular dominions in the region of the Pacific Ocean.

The Chinese delegation anticipates, as indicated by our distinguished Chairman, that this agreement will be supplemented by a further convention to which all the powers, including China, will be parties, which will adjust conditions in the Far East upon a basis satisfactory to all the powers, and which it is hoped will provide for the amicable settlement of any future controversies. The Chinese delegation, Mr. Chairman and Gentlemen, has been greatly impressed by the friendliness by which the discussions in the conference and the proposals by us, as on other matters have been carried on, and it is convinced that a satisfactory solution can be found for the remaining questions which represent Chinese sovereignty and her aspirations. China, upon her part, will do what she can to bring this about, and will at all times give her whole-hearted help in the maintenance of the most friendly relations between herself and the other powers and thus add the effort for the preservation of peace in the Pacific and the Far East.

BELGIUM.

Baron de Cartier said: Gentlemen, I think it is an honor for me to concur with all my heart in the eloquent words which have just fallen from the lips of our honorable colleagues and to have given to this great historical date all its full value and its full bearing.

PORTUGAL.

Viscount d'Alte said: Mr. Chairman and Gentlemen, I can add but little to all that my distinguished colleagues who sit around this table have so ably said to-day, but I may perhaps be forgiven if I endeavor to draw attention to a notable feature of the agreement which has been the object of our thoughts to-day.

Even more than the words in which it is written, it is the spirit in which this memorable agreement has been conceived that will fill the whole civilized world with high hopes for the future. It would, of course, be easy to evade any of the clauses of the treaty of which I am speaking; it would even seem as if the men who have drafted it have tried to signify that they did not place their main reliance and the achievement of their aims in a long series of carefully worded clauses. Only four powers who repose the most implicit trust in the honor and integrity of each other could sign a treaty such as this. And it is this fact that gives the agreement its tremendous binding power. The confidence so fully given no nation would dare to betray.

A VERY SIMPLE PAPER.

Secretary Hughes then said: Gentlemen, we have been dealing with a very simple paper. Probably it would not be able to find an international document couched in more simple or even briefer terms, but we are again reminded that the great things are the simple ones. I firmly believe that when this agreement takes effect we shall have gone further in the direction of securing an enduring peace than by anything that has yet been done.

May I announce before the adjournment that the General Committee on Pacific and Far Eastern Questions will resume its sessions on Monday next at 11 o'clock, and if it is agreeable to you, we shall now ad-

journ subject to the call of the Chair to resume our labors in order that we may accomplish still more in the further achievement of a fair co-operation without derogating from the proper liberty of any nation, and in order to obtain, in all matters that are within the range of our examination within this conference, the fullest satisfaction of natural and legitimate aspirations, while at the same time we shall conserve the fundamental interests of peace and assure for the future that there will be tranquillity in this war-wearied world.

THE POWERS TO GUARD OVER CHINA.

Also, at the plenary session of Dec. 10, four definite proposals regarding China were presented by Mr Hughes in reports from the Far Eastern Committee. Each was unanimously adopted. On explaining the purport of each proposal, Mr. Hughes called for a vote from the nine powers. The first vote was cast by America, it being presented by Mr. Hughes himself. In each instance Mr. Hughes said: "The United States of America assents."

Adoption of what are known as the four Root principles marked the first final action taken by the conference on any measure. The Root principles were adopted by the Far Eastern Committee on Nov. 21. They provide in substance that China's sovereignty and territorial and administrative integrity will be respected, that "the fullest and most unembarrassed opportunity" will be given to China for her development, that the open door will be applied, that the powers will refrain from taking advantage of China's present chaotic condition.

AMERICAN-JAPANESE AGREEMENT ON YAP AND OTHER PACIFIC ISLANDS

(Made public at Washington, Dec. 12, 1921.)

1. It is agreed that the United States shall have free access to the Island of Yap on the footing of entire equality with Japan or any other nation in all that relates to the landing and operation of the existing Yap-Guam cable or of any cable which may hereafter be laid by the United States or its nationals.

2. It is also agreed that the United States and its nationals are to be accorded the same rights and privileges with respect to radio telegraphic service as with regard to cables. It is provided that so long as the Japanese Government shall maintain on the Island of Yap an adequate radio telegraphic station co-operating effectively with the cables and with other radio stations or ships and shore, without discriminatory exactions or preferences, the exercise of the right to establish radio telegraphic stations at Yap by the United States or its nationals shall be suspended.

3. It is further agreed that the United States shall enjoy in the Island of Yap the following rights privileges and exemptions in relation to electrical communications:

(*a*) Right of residence without restriction; and rights of acquisition and enjoyment and undisturbed possession upon a footing of entire equality with Japan or any other nation or their respective nationals of all property and interests, both personal and real, including lands, buildings, residences, offices, works and appurtenances.

(*b*) No permit or license to be required for the enjoyment of any of these rights and privileges.

(*c*) Each country to be free to operate both ends of its cables, either directly or through its nationals including corporations or associations.

NO CABLE CENSORSHIP.

(*d*) No cable censorship or supervision of operation or messages.

(*e*) Free entry and exit for persons and property.

(*f*) No taxes, port, harbor or landing charges or exactions, either with respect to operation of cable or to property, persons or vessels.

(*g*) No discriminatory police regulations.

4. Japan agrees that it will use its power of expropriation to secure to the United States needed property and facilities for the purpose of electrical communication in the island, if such property or facilities cannot otherwise be obtained. It is understood that the location and area of land to be so expropriated shall be arranged each time between the two governments according to the requirements of each case. American property and facilities for the purpose of electrical communication in the island are to be exempt from the process of expropriation.

5. The United States consents to the administration by Japan of the mandated islands in the Pacific Ocean north of the equator, subject to the above provisions with respect to the Island of Yap and also subject to the following conditions:

(*a*) The United States is to have the benefit of the engagements of Japan set forth in the mandate particularly these as follows:

Article III.—"The mandatory shall see that the slave trade is prohibited and that no forced labor is permitted except for essential public work and services, and then only for adequate remuneration.

"The mandatory shall also see that the traffic in arms and ammunition is controlled in accordance with principles analogous to those laid down in the convention relating to the control of the arms traffic signed on Sept. 10, 1919, or in any convention amending same.

NO LIQUOR FOR NATIVES.

"The supply of intoxicating spirits and beverages to the natives shall be prohibited."

Article IV.—"The military training of the natives, otherwise than for purposes of internal police and the local defense of the territory, shall be prohibited. Furthermore, no military or naval bases shall be established or fortifications erected in the territory."

(*b*) With respect to missionaries, it is agreed that Japan shall insure complete freedom of conscience and the free exercise of all forms of worship which are consonant with public order and morality and that missionaries of all such religions shall be free to enter the territory and to travel and reside therein, to acquire and possess property, to erect religious buildings and to open schools throughout the territory. Japan shall, however, have the right to exercise such control as may be necessary for the maintenance of public order and good government and to take all measures required for such control.

(*c*) Japan agrees that vested American property rights will be maintained and respected.

(*d*) It is agreed that the treaties between the United States and Japan now in force shall apply to the mandated islands.

(*e*) It is agreed that any modifications in the mandate are to be subject to the consent of the United States, and, further, that Japan will address to the United States a duplicate report on the administration of the mandate.

A formal convention embodying these provisions will be drawn up for signature and will be subject to ratification by the Senate.

THE ISLAND OF YAP AND ITS CABLE.

The Island of Yap lies south of Japan, on the vessel route from Guam to Borneo. From Yap three cables run out. One goes to Guam, the American-owned island to the northeast, which in its turn is connected by cable with San Francisco via Midway Island and Honolulu. A second runs to Shanghai; a third to Menado, in the Dutch Indies. Thus the cable station of Yap is of considerable importance to American communications with the Far East. The Guam-Yap cable is owned by the Postal Telegraph and Cable Company, of New York.

On May 7, 1919, the Supreme Council of the Allies awarded to Japan the mandate over the German

wned islands north of the equator. Japan claims that the award was without any reservation as to the xclusion of Yap from the mandate.

During the negotiations over Yap, the United States Government gave to the Japanese Government he following statement from President Wilson, made to the U. S. State Department on March 3, 1921.

"My first information of a contention that the so-called decision of May 7, 1919, by the Council of our assigned to Japan a mandate for the Island of Yap, was conveyed to me by Mr. Norman Davis in October last. I then informed him that I had never consented to the assignment of the Island of Yap to Japan.

"I had not previously given particular attention to the wording of the council's minutes of May 7, 919, which were only recently called to my attention. I had on several occasions prior to the date menioned made specific reservations regarding the Island of Yap and had taken the position that it should ot be assigned under mandate to any one power but should be internationalized for cable purposes. I ssumed that this position would be duly considered in connection with the settlement of the cable question nd that it therefore was no longer a matter for consideration in connection with the peace negotiations. never abandoned or modified this position in respect to the Island of Yap, and I did not agree on May , 1919, or at any other time, that the Island of Yap should be included in the assignment of mandates to apan.

"As a matter of fact, all agreements arrived at regarding the assignment of mandates were conditional pon a subsequent agreement being reached as to the specific terms of the mandates, and further, upon heir acceptance by each of the principal Allied and Associated Powers. The consent of the United States essential both as to assignments of mandates and the terms of provisions of the mandates, after agreement to their assignment or allocation.

"The consent of the United States, as you know, has never been given on either point, as to the Island Yap."

To which statement, the United States Secretary of State, in his note to the Japanese Government, ided:

UNITED STATES HAS NOT LOST RIGHTS, IT SAYS.

"In particular, as no treaty has ever been concluded with the United States relating to the island Yap, and as no one has ever been authorized to cede or surrender the right or interest of the United States the Island, this Government must insist that it has not lost its right or interest as it existed prior to any tion of the Supreme Council or of the League of Nations, and cannot recognize the allocation of the island the vali lity of the mandate to Japan.

"In this view, this Government deems it to be unnecessary at this time to consider the terms of the -called 'C' mandates, or the discussion with respect thereto.

"This Government, as has been clearly stated in previous communications, seeks no exclusive interest the Island of Yap and has no desire to secure any privileges witnout naving similar privileges accorded other powers, including, of course, Japan, and relying upon the sense of justice of the Government of pan and of the Governments of the other Allied and Associated Powers, this Government looks with nfidence to a disposition of the matter whereby the just interests of all may be properly conserved."

THE ANGLO-JAPANESE TREATY.

(The Four-Power Pacific Treaty of Dec., 1921, will supercede, it is said, the treaty printed below.)

THE complete text of the Anglo-Japanese Treaty follows:

"The Government of Japan and the Government of Great Britain having in view important changes ich have taken place in the situation since the conclusion of the Anglo-Japanese agreement on the 12th August, 1905, and believing that a revision of that agreement responding to such changes would contribute the general stability and repose, have agreed upon the following stipulations to replace the agreement ove mentioned, such stipulations having the same object as said agreement, namely:

"(a) Consolidation and maintenance of general peace in the regions of Eastern Asia and India.

"(b) Preservation of the common interests of all powers in China by insuring the independence and egrity of the Chinese Empire and the principle of equal opportunities in commerce and industry of all tions with China.

"(c) Maintenance of the territorial rights of the high contracting parties in the regions of Eastern ia and India and the defense of their special interests in said regions.

"Article I—It is agreed that whenever in the opinion either of Japan or Great Britain any of the rights d interests referred to in the preamble of this agreement are in jeopardy, the two Governments will commuate with one another fully and frankly and consider in common the measures which should be taken safeguard those menaced rights and interests.

"Article II—If by reason of an unprovoked attack or aggressive action, wherever arising on the part any powers, either high contracting party should be involved in war for the defense of its territorial rights special interests mentioned in the preamble of this agreement, either high contracting party will at once ne to the assistance of its ally and will conduct the war in common and make mutual peace in agreement h it.

"Article III—The high contracting parties agree that neither of them will, without consulting the other, er separate arrangements with another power to prejudice the objects described in the preamble.

"Article IV—Should either high contracting party conclude a treaty of general arbitration with a third ver, it is agreed that nothing in this agreement shall entail upon such contracting party an obligation go to war with the power with whom such treaty of arbitration is in force.

"Article V—The conditions under which armed assistance would be afforded by either power to the er in the circumstances mentioned in the present agreement, and the means by which such assistance uld be made available, will be arranged by the naval and military authorities of the high contracting rties, who will from time to time consult one another fully and freely upon all questions of mutual interest.

"Article VI—The present agreement shall come into effect immediately after the date of signature remain in force ten years from that date; in case neither of the high contracting parties should have notiding until the expiration of one year from the day on which either of the high contracting parties shall e denounced it. But if or when the date fixed for expiration arrives and either ally is actually engaged war, the alliance shall ipso facto continue until peace is concluded.

"In faith whereof the undersigned, duly authorized by their respective Governments, have signed the eement and affixed thereto their seals, done in duplicate, at London, the 13th day of July, 1911."

WOOD-FORBES REPORT ON THE PHILIPPINES.

IN a report to President Harding, Nov. 29, 1921, on the status of American affairs in the Philippines, Governor General, former Major Gen., Leonard Wood, and ex-Governor General W. Cameron Forbes, :

"We recommend that the present general status of the Philippine Islands continue until the people e had time to absorb and thoroughly master the powers already in their hands.

"We recommend that the responsible representative of the United States, the Governor General, have thority commensurate with the responsibilities of his position. In case of failure to secure the neces- corrective action by the Philippine Legislature we recommend that Congress declare null and void islation which has been enacted diminishing, limiting or dividing the authority granted the Governor neral under act No. 240 of the Sixty-fourth Congress, known as the Jones bill.

"We recommend that in case of a deadlock between the Governor General and the Philippine Senate

WOOD-FORBES RE ORT ON THE PHILIPPINES—*Continued.*

in the confirmation of appointments that the President of the United States be authorized to make ai render the final decision.

"We recommend that under no circumstances should the American Government permit to be esta lished in the Philippine Islands a situation which would leave the United States in a position of respon bility without authority."

Their general conclusions are as follows:

"We find the people happy, peaceful and in the main prosperous and keenly appreciative of the ben fits of American rule.

"We find everywhere among the Christian Filipinos the desire for independence, generally under t protection of the United States. The non-Christians and Americans are for continuance of Americ control.

"We find a general failure to appreciate that independence under the protection of another nati is not true independence.

"We find that the Government is not reasonably free from those underlying causes which result the destruction of government.

"We find that a reasonable proportion of officials and employees are men of good character and abili and reasonably faithful to the trust imposed upon them; but that the efficiency of the public services h fallen off and that they are now relatively inefficient due to lack of inspections and to the too rapid trans of control to officials who have not had the necessary time for proper training.

"We find that many Filipinos have shown marked capacity for Government service and that the you generation is full of promise; that the civil service laws have in the main been honestly administered, t there is a marked deterioration due to the injection of politics.

"We find there is a disquieting lack of confidence in the administration of justice, to an extent wh constitutes a menace to the stability of the Government.

"We find that the people are not organized economically nor from the standpoint of national defe to maintain an independent Government.

"We find that the legislative chambers are conducted with dignity and decorum and are compos of representative men.

"We feel that the lack of success in certain departments should not be considered as proof of essent incapacity on the part of Filipinos, but rather as indicating lack of experience and opportunity and pecially lack of inspection.

"We find that questions in regard to confirmation of appointments might at any time arise wh would make a deadlock between the Governor General and the Philippine Senate."

THE ARMY OF THE UNITED STATES.

THE army of the United States consists of the Regular Army, the National Guard while in the serv of the United States, and the Organized Reserves, including the Officers' Reserve Corps and the Enlis Reserve Corps.

The Regular Army consists of the Infantry, the Cavalry, the Field Artillery, the Coast Artillery Cor the Air Service, the Corps of Engineers, the Signal Corps, which shall be designated as the combatant ar or the line of the army; the General Staff Corps, the Adjutant General's Department, the Inspector Gener Department, the Judge Advocate General's Department, the Quartermaster Corps, the Finance Dep ment, the Medical Department, the Ordnance Department, the Chemical Warfare Service, the offic of the Bureau of Insular Affairs, the officers and enlisted men under the jurisdiction of the Militia Bure the chaplains, the professors and cadets of the United States Military Academy, the present military st keeper, detached officers, detached enlisted men, unassigned recruits, the Indian Scouts, the officers and listed men of the retired list, and such other officers and enlisted men as are now or may hereafter be p vided for. Except in time of war or similar emergency when the public safety demands it, the numbe enlisted men of the Regular Army shall not exceed 280,000, including the Philippine Scouts.

The Army Appropriation Act, approved June 30, 1921, provides for the reduction of the Regular Ar to 150,000 enlisted men, not including the Philippine Scouts.

The National Guard consists of the regularly enlisted militia between the ages of 18 and 45 years a of commissioned officers between the ages of 21 and 64 years, of the several States territories and the D trict of Columbia. The organization thereof in general is the same as that prescribed for the Regular Ar The National Guard may be called as such into the service of the United States, and when so called is s ject to the laws and regulations governing the Regular Army as far as applicable. When Congress authorized the use of troops in excess of those of the Regular Army, the members of the National Gu may be drafted into the military service to serve therein for the period of the war or emergency, unless soo discharged.

THE ARMY OF THE UNITED STATES—*Continued.*

The Organized Reserves constitute a war force in order to meet any major emergency requiring the use of troops in excess of those of the Regular Army and the National Guard. They are liable to military service only in the event of a serious national emergency especially proclaimed by Congress.

MILITARY DEPARTMENTS AND CORPS AREAS, U. S. ARMY

Pan. Canal Dept..	Quarry Heights, Balboa Heights.....	Canal Zone.

COAST ARTILLERY DISTRICTS.

First.....	Boston.....	Coast defenses of Boston, L. I Sound Narragansett Bay, New Bedford, Portland and Portsmouth.
Second.....	N. Y. (Gov. Isl.).....	Coast defenses of the Delaware, Eastern N. Y., Sandy Hook, and Southern N. Y
Third.....	Ft. Howard, Md.....	Coast defenses of Baltimore. Chesapeake Bay, and the Potomac.
Fourth.....	Ft. McPherson, Ga.....	Coast defenses of the Cape Fear, Charleston, Key West, Mobile, New Orleans, Pensacola, Savannah and Tampa.
Ninth.....	Presidio of San Francisco, Cal.....	Coast defenses of the Columbia, Los Angeles, Puget Sound, San Diego, and San Francisco.
Panama.....	Ft. Amador, Canal Zone	Coast defenses of Balboa and Cristobal.
Hawaiian.....	Honolulu.....	Coast defenses of Honolulu and Pearl Harbor.

Effective Sept. 1, 1920, the six military departments within the continental limits of the United States were discontinued and the continental area divided into nine corps areas. The military departments and corps areas include the coast artillery districts, coast defenses, forts and camps within their limits. In October, 1920, there was attached to the First Corps Area such part of the State of New York as lies east of west longitude 72° 30′; Sept. 1, 1920, the island of Porto Rico, with the islands and keys adjacent, was attached to the Second Corps Area, and the Territory of Alaska to the Ninth Corps Area, Sept. 1 1920. There was attached to the Ninth Corps Area that part of the State of Arizona west of the 114th meridian and south of the 33d parallel. The territorial limits of the coast artillery districts within the continental limits of the United States are those of the corps areas bearing the same numerical designations.

TACTICAL DIVISIONS.

The tactical divisions into which the United States is divided, with their headquarters, are as follows: *First*, Camp Dix, N. J.; *Second*, Camp Travis, Tex.; *Third*, Camp Lewis, Wash. *First and Second Provisional Brigades*, Coblenz, Germany.

GENERAL ARMY HOSPITALS.

The General Hospitals of the army are located at Hot Springs, Ark. (also navy); Denver, Colo.; Presidio, San Francisco; Manila, Philippines; Honolulu, Hawaii; Takoma Park at Washington, D. C., and El Paso, Tex.

The Colorado was launched at Camden, N. J., March 22, 1921.

All of the battleships have submerged torpedo tubes, mostly two each. They have a crew of 60 to officers, and 800 to 1,600 enlisted men.

Battleships are divided into three classes—pre-dreadnoughts, dreadnoughts, and super-dreadnoughts according to their displacement and guns. The first named class usually are not over 16,000 tons; the second 18,000 tons or so; the third, 25,000 tons or more. The dreadnoughts have a main battery of all big guns (11 inches or more). The super-dreadnoughts have more than 10 big guns in the main battery, or a very large displacement, and a speed of 21 to 25 knots an hour.

Of the bat leships in the above list the following are officially classed as second line ("obsolete"), Connecticut, Kansas, Michigan, Minnesota, Ohio, South Carolina.

Other second-line battleships on the navy list in July, 1921, but not in commission, were the Georgia (14,948), Illinois (11,552), Kentucky (11,520), Louisiana (16,000), Nebraska (14,948), New Hampshire (16,000), New Jersey (14,948), Rhode Island (14,948), Vermont (16,000), and Virginia (14,948). All but the Illinois and Kentucky carry four 12-in. guns, the two named having four 13-in. guns. Their contract speed ranged from 16.9 knots to 19.26 knots an hour.

Several of the older bat leships have been used or designated for use as targets during the past year; others have been designated for sale. The Kearsarge has been converted into a 250-ton crane ship.

Each of the battleships Indiana, Iowa, Massachusetts, Montana, North Carolina, and South Dakota will have 60,000 shaft horse-power.

The battleship Maryland, launched in 1920, the first in the world to carry 16-in. guns, is electrically equipped, and is driven by electricity.

BATTLE CRUISERS.

In 1916, Congress authorized the construction of six battle cruisers (Lexington, Constellation, Saratoga, Ranger, Constitution, United States), each of 43,500 tons displacement, and capable of going 33 knots an hour. Each is to carry eight torpedo tubes, and in the main battery, eight 16-inch guns of 50 calibre, and in the secondary battery, sixteen 6-inch 50 calibre guns, the weight of one main broadside will be 16,800 pounds, and of one secondary broadside 1,728 pounds. The cruisers will be electrically driven by four propellers. Each craft will be 874 feet long, 105 feet wide, 31 feet draft, 180,000 shaft horse-power, 4 main turbo-generators, 8 main propeller motors, 6 auxiliary turbo-generators, 16 boilers. Construction was not actively undertaken until after the armistice of Nov. 11, 1918. The designs were modified to embody improvements based on World War experiences. Four were building at private yards, and two at the Navy Yard, Philadelphia, on July 1, 1921. The Saratoga was most advanced, being 25 per cent. complete.

Monitors.

There were two monitors still in commission in 1921, the Cheyenne, 3,356 tons, and the Tallahassee, 3,356 tons. The Cheyenne, formerly the old Wyoming, was ordered by Congress in 1898, and so was the Tallahassee, formerly the old Florida. Each has a main battery of two 12-in. 40 calibre guns; the Cheyenne has a secondary battery of four 4-in. 50 calibre guns; the Tallahassee has three 4-in. 50 calibre guns. Both are retained for training purposes.

Cruisers. (Tonnage in parentheses.)

There were in commission, in 1921, nine cruisers, all of the second line—Chicago (4,500), Charleston (9,700), Frederick (13,680), Huron (13,680), Olympia (5,860), Pueblo (13,680), Pittsburgh (13,680), Rochester (9,700), St. Louis (9,700). The Charleston and the St. Louis carry, each of them, twelve 6-in. 50 calibre guns in their main battery. The Chicago has four 5-in. guns, the Olympia ten, the Frederick and the

SHIPS IN THE U. S. NAVY—*Continued.*

Huron (ex-South Dakota) have four 8-in. 45 calibre cannon; so have the Pittsburgh, the Pueblo and the Rochester. The Frederick, Huron, Pittsburgh and Pueblo have submerged torpedo tubes.

Also on the cruiser list of the navy in July, 1921, were the Charlotte (ex-North Carolina) (14,500), Huntington (13,680), Missoula (ex-Montana) (14,500), and the Seattle (14,500).

A number of the old cruisers, including the Brooklyn, Columbia, and Minneapolis, were in 1921 ordered by the Navy Department to be sold. Still others were transferred to the gunboat class.

Light Cruisers. (Tonnage in parentheses.)

The light cruisers in commission in July, 1921, were the Birmingham (3,750), and the Salem (3,750). Each carries four 5-in. 51 calibre guns in its main battery, and their torpedo tubes, two each, are above water. Also on the navy list was the Chester (3,750). All three were classed as second line light cruisers.

There were building, in July, 1921, ten 7,500-ton light scout cruisers of the first line, authorized in 1916. Construction was not begun until after the war. They are to have 33.7 knots speed, and each will carry in the main battery twelve 6-in. 53 calibre guns. They are to be known as the Cincinnati, Concord, Detroit, Marblehead, Memphis, Milwaukee, Omaha, Raleigh, Richmond and Trenton.

Destroyers, Submarines, Etc.

There were in commission, in 1921, destroyers to the number of 276, 14 mine layers, 56 first line submarines, 46 second line submarines, 2 fleet submarines, 52 patrol vessels (Eagles), 61 patrol vessels (submarine chasers), 20 gunboats, 6 patrol yachts, 7 destroyer tenders, 7 submarine tenders, 3 repair ships, 4 store ships, 21 colliers and oils, 2 ammunition ships, 9 navy cargo vessels, 1 transport (the Henderson, 10,000 tons), 3 hospital ships, 42 fleet tugs, 46 mine sweepers, and 100 or more miscellaneous craft, including the old Philadelphia (4,410 tons), and the Reina Mercedes (2,835 tons). Included in the gunboats are the old Albany, Chattanooga, Cleveland, Denver, Galveston, New Orleans, and Tacoma, each of over 3,000 tons. The President's yacht, Mayflower, is classed as a patrol yacht (2,690 tons.)

1920-1921	441,861,500	757,486,849	199,668,287	78,389,226	187,207,522

Naval budgets, 1921-1922—United States, $425,848,079; Britain, $400,847,940; France, $181,509,986; Japan, $248,519,224; Italy, $81,068,742.

All the old British battleships, except Commonwealth, Bellerophon, Temeraire, Superb, St. Vincent, and Collingwood, and all the old British cruisers, except Essex Antrim, and Shannon (already have been disposed of. The class of armored cruisers is extinct, as well as pre-dreadnoughts. Of the 37 monitors, 11 are gone but 4, reserved for training and depot purposes.

France has given up her pre-dreadnoughts and armored cruisers. She had, at last accounts, the dreadnoughts Jean Bart, Courbet, France, Paris, Bretagne, Lorraine, and Provence. The project of building battleships of 25,387 tons each has been abandoned.

Italy, also, has abandoned the plan to build 4 super-dreadnoughts of 30,000 tons each. The dreadnought Leonardo da Vinci is not to be reconditioned. Two old battleships have been disposed of and others are to go.

Japan is still building (Dec. 1921) battleships under her 1916-17 programme, which provided for 8 battleships and 8 battle cruisers. Four new battleships and 4 battle cruisers have been built or begun under this plan. In 1920 Japan began on a programme of 4 additional battleships, 4 additional battle cruisers, and 12 light cruisers and destroyers and submarines, all to be completed by 1927-28. All are to be built in Japanese shipyards, and factories and foundries to arm and equip all her warships have been established in Japan.

The super-dreadnoughts, Kaga, and Tosa, launched late in 1921, are of 39,000 tons displacement, 700 feet long, 100 feet wide, speed 23½ knots. Their main batteries carry ten or twelve 16-inch guns, throwing one-ton shell. These ships have multiple steel decks over vital parts as a defense against shells and aircraft bombs. The hulls have anti-torpedo bulges.

Japan is building a 9,000-ton, 21-knot, aircraft carrier, the Hosho, without upper works or funnels, the smoke of the furnaces being expelled at the side of the ship by horizontal pipes. She will be armed with three old-fire guns.

UNITED STATES NAVAL ACADEMY AT ANNAPOLIS.

THE students of the Naval Academy are styled midshipmen. Five midshipmen are allowed for each Senator, Representative and Delegate in Congress, five for the Resident Commissioner from Porto Rico, five for the District of Columbia, and fifteen appointed each year from the United States at large. The appointments from the District of Columbia and fifteen each year at large are made by the President. It is the custom of Presidents to give the appointments of midshipmen at large to the sons of officers of the army and navy, for the reason that officers, owing to the nature of their duties, are usually not in a position to establish permanent residences.

The selection of candidates, by competitive examination or otherwise, for nomination for vacancies in the quota of Senators, Representatives and Delegates in Congress is entirely in the hands of each Senator, Representative, and Delegate in Congress having a vacancy; and all applications for appointment or inquiries relative to competitive examinations should be addressed accordingly. Two examinations for admission are held each year, the first on the third Wednesday in February, the second on the third Wednesday in April.

The law authorizes the appointment of one hundred enlisted men each year to be selected as a result of a competitive examination of enlisted men of the regular navy and Marine Corps, and members of the Naval Reserve force on active duty, who must not be more than twenty years of age on April 1 of the year they enter, and who will have been in the service at least one year by August 15 of that year. The mental and physical requirements, as well as the amount of money to be deposited upon admission, are the same for these candidates as for other candidates for midshipmen. The competitive examination of these enlisted men is held on the third Wednesday in April of each year. Candidates may also be accepted on certificate. For details write Bureau of Navigation, Navy Department, Washington, D. C.

All candidates, except 4 Filipinos, are required to be citizens of the U. S. and must be not less than 16 nor more than 20 years of age on April 1 of the calendar year in which they enter the Naval Academy.

The course for midshipmen is four years. Examinations on the ground covered are held at the end of each academic term. During the summer, midshipmen of the first, second and third classes go to sea for about three months. Midshipmen after graduation are commissioned as Ensigns in the navy, and occasionally to fill vacancies in the Marine Corps and in certain of the staff corps of the navy. The act of June 29,1906, prescribes that the Secretary of the Navy shall notify in writing each Senator, Representative and Delegate in Congress of any vacancy that will exist at the Naval Academy and which he shall be entitled to fill by nomination of a candidate and one or more alternates therefor. The nomination of a candidate and alternate or alternates to fill said vacancy shall be made upon the recommendation of the Senator, Representative or Delegate, if said recommendation is made by the fourth day of March of the year following that in which said notice in writing is given, but if it is not made by that time the Secretary of the Navy shall fill the vacancy by appointment of an actual resident of the State, Congressional district or Territory, as the case may be, in which the vacancy will exist, who shall have been for at least two years immediately preceding the date of his appointment an actual and bona fide resident of the State, Congressional district or Territory.

The height of candidates for admission shall not be less than five feet two inches between the ages of sixteen and eighteen years, and not less than five feet four inches between the ages of eighteen and twenty years; and the minimum weight at sixteen years shall be one hundred and eleven pounds, with an increase of not less than three pounds for each additional year, or fraction of a year over one-half. Any marked deviation in the height and weight relative to the age of a candidate will add materially to the consideration for rejection. Candidates must be unmarried, and any midshipman who shall marry, or who shall be found to be married before his final graduation, shall be dismissed from the service. Each candidate who has passed the required examinations must, before being admitted as a midshipman, deposit the sum of $350 to cover the cost of his initial outfit—clothing, uniforms, text books and equipment.

Each candidate before admission will be required to sign articles by which he binds himself to serve in the United States Navy during the pleasure of the President of the United States (including his time of probation at the Naval Academy) unless sooner discharged. The pay of a midshipman is $780 a year.

ORIGIN OF THE UNITED STATES NAVAL ACADEMY.

The United States Naval Academy was founded at Annapolis, Md., in 1845 by George Bancroft, who then was Secretary of the Navy. Owing to the Civil War it was removed to Newport, R. I., in May, 1861, but was re-established at Annapolis in September, 1865.

UNITED STATES COAST GUARD.

HEADQUARTERS, TREASURY DEPARTMENT, WASHINGTON, D. C.

THE United States Coast Guard was created by an act of January 28, 1915, which combined the Revenue Cutter Service, organized by act of Congress approved August 4, 1790, and the Life Saving Service, which latter was originally operated under the Revenue Cutter Service, but on June 20, 1874, created a separate service under the Treasury Department.

The Coast Guard operates: (a) Eighteen seagoing cutters engaged in the assistance of vessels in distress, the enforcement of the navigation laws, the protection of the seal fisheries in Alaska, the destruction of derelicts, the conduct of the International Ice Observation and Ice Patrol Service off the Grand Banks of Newfoundland and other maritime duties, (b) A number of harbor tugs, inland water patrol vessels, and launches engaged in the service of the customs; (c) 270 Coast Guard stations engaged in saving life and property along the coast, (d) A coast patrol system guaranteeing early assistance to vessels and persons in distress; (e) A communication system linking by telephone all Coast Guard stations and practically all light houses with each other and the commercial systems of the country and with the navy radio and radio compass stations; (f) One aviation station for the protection of life and property along the coast and at sea contiguous thereto.

The commissioned line officers of the service are appointed by the President by and with the advice and consent of the Senate from cadets who have completed a three-year course at the Coast Guard Academy, New London, Conn., practically identical with the course given at Annapolis. Engineer officers are appointed similarly from those who have completed a special course of one year at the academy. Cadetships, line and engineer, are filled by the appointment of candidates who have passed the competitive entrance examination held periodically throughout the country. The age limits for line cadets are 18 to 24 years. No cadet engineer may be appointed who is less than 20½ years of age and no person may be appointed an Ensign (engineering) from Cadet Engineer who is less than 21 nor who is more than 26 years of age. The pay of officers and men is assimilated to that of the navy and, when operating with the navy in time of war or when the President so directs, officers and men of the service have the same authority as officers and men of the navy of corresponding ranks or rates.

MILITARY EDUCATIONAL SYSTEM OF THE UNITED STATES.

(Prepared by the Adjutant General's Office, U. S. A.)

THE Military Educational System of the United States is under the supervision and co-ordination of the General Staff of the Army. The system provides for the military education of the officers and enlisted men of the Army. It contemplates that all officers upon being newly commissioned from West Point, from the ranks, from civil life, or from any other source, shall pursue a year's basic course at the special service school of their respective arms. Upon completion of this, they are assigned to duty with troops of their arm of the service for a minimum period of two years.

The Operations and Training Division, General Staff, is charged with the supervision of activities concerning educational and vocational training, the special service schools, and military training in civilian institutions and in civilian training camps. The War Plans Division, General Staff, is charged with the supervision of activities concerning the general service schools.

Special Service Schools are maintained for each branch of the service.

These schools are under the direct supervision and control of the chiefs of the respective arms or services. The object of the courses for officers is to develop and standardize the instruction and training of officers in the technique and tactics of their respective arm or service.

Basic courses, where officers are sent upon their initial entry into the Regular Army, are maintained at the five special service schools of the combatant arms of the service; viz.: infantry, cavalry, field artillery, coast artillery, and engineers. These basic courses have for their object: So to qualify all officers upon their initial entry into the service that they may function intelligently on being assigned to duty with their arm of the service

Advanced courses for the training of officers are maintained. They are of such scope as will completely fit the graduates for the performance of all duties that devolve upon officers of their grade in their respective arm or service. Other important provisions, by Sections, are:

III. *General Service Schools*, including (*a*) the School of the Line and (*b*) the General Staff School located at Fort Leavenworth, Kansas, and (*c*) the Army War College, Washington, D. C., are under the direct supervision and control of the Chief of Staff of the Army. It is contemplated that the officer will spend his first school year at the School of the Line. On the recommendation of the school faculty, which is based on his competitive class standing, he is eligible for the course at the General Staff School the succeeding year. The third year of his military education is to be spent, if practicable, on duty with troops of arms of the service other than that with which he has previously served. Having received the recommendation of the General Staff School faculty at the end of his second year, the officer is eligible to enter the Army War College at the beginning of his fourth year. This course continues for one year, at the end of which period the officer's school education is complete and he is eligible for detail on the War Department General Staff after having complied with the law as to eligibility for detached duty from his own arm of the service.

The School of the Line, Fort Leavenworth, Kansas. The object of this school is to train officers (*a*) in the combined use of all arms and services functioning with a division, including the functioning of corps and army troops and services, in their relation to the division, in accordance with a uniform doctrine approved by the War Department; (*b*) in the duties and responsibilities of field officers with regard to education and training in the Army.

The General Staff School, Fort Leavenworth, Kansas. The object of this school is to train selected officers who have completed the course in the School of the Line for higher tactical command and duty as General Staff officers with tactical units. In addition, special courses are conducted for general officers and selected officers of the technical and administrative services.

The General Staff College, Washington, D. C. The object of this institution is to train selected officers who have completed the course in the General Staff School for high command and for duty in the War Department, General Staff. In addition, special courses are conducted for general officers. and for selected officers of the technical and administrative services.

IV. *Unit Schools for Officers.* These schools include those for officers which are under the direct control of territorial or tactical commanders. Their primary object is the training and instruction of officers in all grades with a view to securing uniform and efficient training of the troops or personnel under their respective commands. The courses are conducted concurrently with and closely co-ordinated with the training schedules or work of the troops or personnel under the student officers.

V. *Unit Schools for Enlisted Men.* These schools include schools for the military training and instruction of enlisted men. They have for their object (*a*) to prepare non-commissioned officers, selected privates, and enlisted specialists to carry out efficiently the schedule of training or work in progress; (*b*) to insure proper uniformity and co-ordination in the training or work of different elements of the same command; (*c*) to provide such additional technical and tactical instruction as may be practicable and suited to the needs of the students.

VI. *Special Service Schools for Enlisted Men.* Courses are established at the special service schools enumerated in paragraph II. above for the special training and instruction of enlisted men. The objects of the schools are (*a*) to train selected non-commissioned officers in the duties of junior officers of their respective arm or service; (*b*) to give special training to selected enlisted men in the duties of non-commissioned officers and enlisted specialists of their respective arm or service.

VII. *The Reserve Officers' Training Corps* consists of units established under the provisions of Section 47c. of the National Defence Act, as amended June 4, 1920, in civil educational institutions under a system of regulations and instructions prescribed by the Secretary of War. These units are composed of students and represent the various branches of the military service. The military instruction is conducted by many officers detailed for the purpose who are designated as professors of military science and tactics. The Reserve Officers' Training Corps consists of a senior division organized in general in colleges and universities which require four years of collegiate study for a degree, and a junior division established at other approved institutions. Military training in the Reserve Officers' Training Corps is carried on from three to five hours each week throughout the four academic years, and also includes attendance at a summer camp of six weeks' duration. Upon the satisfactory completion of the four-year course, including the camp training, the students are eligible for appointment as Second Lieutenants in the Officers' Reserve Corps of the Army.

VIII. *General and Vocational Education of Soldiers.* The Army school system provides for the enlisted personnel elementary and advanced education and vocational training. Education is voluntary, except for illiterates and non-English speaking recruits. Recruit educational centres have been established within the several territorial departments where intensive specialized training is given this class of student. In the advanced general education, an opportunity is given the soldier to pursue work preparatory to college and to West Point. Vocational training is offered with the dual purpose of providing the soldier with the technicians needed, and to qualify the soldier for a place in the industrial world on his return to civil life. The courses now offered are automotive, electrical, building, textile, food, animal transportation, metals, printing, medicine, highway construction and topography, steam, gas and electrical engineer, music, leather, machine, business, agriculture and miscellaneous. The "applicatory" or "learning by doing" method of instruction is followed in both the general education and vocational courses. Funds are provided by Congressional appropriation. The instructors are qualified civilians and officers and officers within the service. A special educational school has been established for the purpose of developing courses along vocational and general educational lines, and for the instruction of teachers to insure uniform standards of achievement throughout the Army. Any Army recruiting officer will furnish detailed information concerning courses, and posts, camps and stations at which such courses are taught.

UNITED STATES MILITARY ACADEMY AT WEST POINT.

EACH Senator, Congressional district and Territory, including Porto Rico, Alaska and Hawaii, is entitled to have two cadets at the academy; the District of Columbia, four cadets. There are also eighty-two appointments at large, two of whom are appointed upon the recommendation of the Vice-President, specially conferred by the President of the United States. The law (act of May 4, 1916) authorizes the President to appoint cadets to the United States Military Academy from among enlisted men in the Regular Army and National Guard, the total number not to exceed one hundred and eighty at any one time.

Appointments are usually made one year in advance of date of admission, by the Secretary of War, upon the nomination of the Senator or Representative. These nominations may either be made after competitive examination or given direct, at the option of the Representative. The Representative may nominate two legally qualified second candidates, to be designated first and second alternates. The alternates will receive from the War Department a letter of appointment, and will be examined with the regular appointee, and the better qualified will be admitted to the academy in the event of the failure of the principal to pass the prescribed preliminary examinations. Appointees to the Military Academy must be between seventeen and twenty-two years of age, except in the following case: that during the calendar years 1919, 1920 and 1921 any appointee who has served honorably and faithfully not less than one year in the armed forces of the United States or allied armies in the late war with Germany, and who possesses the other qualifications required by law, may be admitted between the ages of seventeen and twenty-four years: *Provided*, that whenever any member of the graduating class shall fail to complete the course with his class by reason of sickness, or deficiency in his studies, or other cause, such failure shall not operate to delay the admission of his successor.

Appointees must be free from any infirmity which may render them unfit for military service, and able to pass, unless a satisfactory certificate is submitted, a careful examination in English grammar, English composition, English literature, algebra through quadratic equations, plane geometry, United States history and the outlines of general history. The Secretary of War is authorized to permit not exceeding four Filipinos to be designated, one for each class, by the Governor-General of the Philippine Islands, to receive instruction at the United States Military Academy at West Point: *Provided*, that the Filipinos undergoing instruction shall receive the same pay, allowances and emoluments as are authorized by law for cadets at the Military Academy appointed from the United States, to be paid out of the same appropriations; *And provided further*, that said Filipinos undergoing instruction, on graduation shall be eligible only to commissions in the Philippine Scouts; serve for eight years, unless sooner discharged.

The course of instruction, which is quite thorough, requires four years; *Provided*, that any person heretofore nominated in accordance with regulations, for appointment to fill a vacancy which would have resulted from the graduation of a cadet during the present year, may be so appointed notwithstanding the retention of such cadet at the academy; *Provided further*, that any cadet now at the academy may at his option, exercised prior to June 11, 1920, continue at the academy one additional year and postpone thereby his prospective graduation, and cadets not electing so to prolong their course shall be graduated in the years assigned to their respective classes prior to the passage of this Act.

The course is largely mathematical and professional. The principal subjects taught are mathematics, English, French, drawing, drill regulations of all arms of the service, natural and experimental philosophy, chemistry, chemical physics, mineralogy, geology, electricity, history, international, constitutional and military law, Spanish, civil and military engineering, art and science of war, and ordnance and gunnery.

From about the middle of June to the end of August cadets live in camp, engaged only in military duties and receiving practical military instruction. Cadets are allowed but one leave of absence during the four years' course, and this is granted at the expiration of the first two years. The pay of a cadet is $1,174.20 per year and with proper economy is sufficient for his support.

Upon graduating, cadets are commissioned as Second Lieutenants in the United States Army. The whole number of cadets graduated from 1802 to 1921, inclusive, has been 6,827. It is virtually absolutely necessary for a person seeking an appointment to apply to his Senator or Member of Congress. The Superintendent is Brig.-Gen. Douglas MacArthur, U. S. A., and the military and academic staff consists of fifteen persons. Number of cadets July 20, 1921, was 1,238.

NATIONAL CEMETERIES.

(Figures show, respectively, acres and interments.)

Alexandria (Pineville), La., 8.24—4,607; Alexandria, Va., 5.50—3,569; Andersonville, Ga., 120—13,737; Andrew Johnson (Greeneville), Tenn., 15—33; Annapolis, Md. 4.12—2,553; Antietam (Sharpsburg) Md. 11—4,812; Arlington (Ft. Myer) Va. 408.03—29,795.

Balls Bluff (Leesburg) Va., .01—25; Barrancas, Fla., 8.56—1,687; Baton Rouge, La., 7.50—3,200; Battle Ground (Takoma Park), D. C., 1.03—44; Beaufort, S. C. 29—9,550; Beverly, N. J., 1—245.

Camp Butler (Springfield), Ill., 6.02—1,604; Camp Nelson, Ky., 9.50—3,664; Cave Hill (Louisville), Ky., 4.29—5,009; Chalmette (Arabi) La., 16—13,215; Chattanooga, Tenn., 129.53—14,008; City Point, Va., 7.49—5,203; Cold Harbor (Richmond), Va., 1.75—1,970; Corinth, Miss., 20—5,743; Crown Hill (Indianap.), Ind., 1.37—830; Culpeper, Va., 6—1,375; Custer Battlefield (Crow Agency), Mont. 640—1,615; Cypress Hills (Brooklyn), 18.14—8,742.

Danville, Ky., .31—362; Danville, Va., 3.50—1,331.

Fayetteville, Ark., 6.63—1,337; Finns Point (Salem), N. J., 2.50—2,641; Florence, S. C., 3.76—3,015; Fort Donelson (Dover), Tenn., 15.34—680; Fort Gibson, Okla., 6 90—2,506; Fort Harrison (Richmond), Va., 1.55—818; Fort Leavenworth, Kan., 15—5,781; Fort McPherson (Brady), Neb. 20—871; Fort Scott, Kan., 10.26—1,015; Fort Smith, Ark., 14.74—2,467; Fredericksburg, Va., 12.01—15,193.

Gettysburg, Pa., 14.87—3,712; Glendale, Va., 2.12—1,200; Grafton, W. Va., 3.40—1,290.

Hampton, Va., 19.61—12,171; Jefferson Barracks, Mo., 50—13,069; Jefferson City, Mo., 2—869.

Keokuk, Iowa, 2 75—945; Knoxville, Tenn., 9.85—3,699.

Lebanon, Ky., 2.50—879; Lexington, Ky., .75—1,708; Little Rock, Ark., 23.12—7,120; Loudon Park (Baltimore), 3.69—4,313.

Marietta, Ga., 24—10,475; Memphis, Tenn., 43.91—14,592; Mexico City, Mexico, 2—1,557; Mill Springs (Somerset), Ky., 3.50—735; Mobile, Ala., 2.68—1,170; Mound City, Ill., 10.50—5,487.

Nashville (Madison), Tenn., (—16,505; Natchez, Miss., 11.07—3,522; New Albany, Ind., 5.46—3,236; Newbern, N. C., 7.69—3,426.

Philadelphia (Pittsville Sta. 13.26—3,735; Poplar Grove (Petersburg), Va., 8.65—6,227; Port Hudson, La., 8—3,855; Quincy, Il 46—320.

Raleigh, N. C., 7.83—1,22 Richmond, Va., 9.74—6,597; Ro Island, Ill., 1—442.

Salisbury, N. C., 6—12,16 San Antonio, Texas, 3.63—2,40 San Francisco (Presidio Sta.), 9—8,646; Santa Fe. N. M., 9.44—1,177; Seven Pines (Richmond Va., 1.55—1,401; Shiloh (Pittsburg Landing), Tenn., 10.05—3,630; Soldiers' Home, D. C., 16—8,208; Springfield, Mo., 11—2,55 St. Augustine, Fla., 1.33—1,81 Staunton, Va., 1.15—773; Stones River (Murfreesboro), Tenn., 20.—6,149.

Vicksburg, Miss., 40—7,172; Wilmington, N. C., .5—3,401; Winchester, Va., 4 89—4,552; Woodlawn (Elmira), N. Y., 2.36—3,29 Yorktown, Va., 3—2,203.

Total, 387,812.

Of the interments, 234,569 are those of known, 153,243 those of unknown dead.

About 10,700 of the bodies are those of Confederates, being mainly in the National Cemeteries at Arlington, Camp Butler, City Point, Cypress Hills, Finns Point, Fort Smith, Hampton, Jefferson Barracks, Little Rock, Philadelphia, Springfield and Woodlawn.

Portuguese Premier, Antonio Granjo, Ex-Pres. Machado dos Santos, and two other high officials, Lisbon October 19, 1921.
Ta Kashi Hara, Japanese Premier, at Tokio, by Korean youth, November 4, 1921.
Bulgarian Minister of War, M. Demitroff, at Kostendil, October 22, 1921.

U. S. COURT OF CUSTOMS APPEALS.

The Clerk of the Board is De Witt P. Dutcher, 641 Washington Street, New York, N. Y. The Board consists of Jerre B. Sullivan (President) of Iowa, Byron S. White of Michigan, Eugene G. Hay of Minnesota, William B. Howell of New Jersey, Israel F. Fischer of New York, Geo. E. Weller of New York, Charles P. McClelland of New York, George Stewart Brown of Maryland, and William C. Adamson of Georgia. The U. S. Court of Customs Appeals consists of Marion De Vries, Presiding Judge; James M. Smith, Orlo M. Barber and George E. Martin, Associate Judges. Clerk, Arthur B. Sheldon.

THE BRITISH PARLIAMENT.

The House of Lords is composed of the whole Peerage of England and of the United Kingdom, and of certain representative Peers of Scotland and Ireland, but many members of these latter have also English titles which give them seats in the House. The Duke of Buccleuch sits as Earl of Doncaster, and the Duke of Leinster as Viscount Leinster. The House at present consists of 3 Princes of the Blood, 2 Archbishops, 20 Dukes, 29 Marquises, 131 Earls, 64 Viscounts, 24 Bishops, 402 Barons, 16 Scottish Representative Peers elected for each Parliament, and 28 Irish Representative Peers elected for life. Besides the Peers, the House of Lords contains, as members, the Archbishops of Canterbury and York, and 24 Bishops of the Established Church. The Archbishops and the Bishops of London, Durham, and Winchester are always members. The other Bishops in the present Lords are Bath and Wells, Wakefield, Liverpool, Oxford, Southwell, Ely, Gloucester, Rochester, Coventry, Chichester, Norwich, Birmingham, Salisbury, Lichfield, Chelmsford, Ipswich, Bristol, Sheffield, Newcastle, and Peterborough. The Lords Temporal are divided into Dukes, Marquises, Earls, Viscounts, and Barons, ranking in the order named.

The Parliament chosen December 14, 1918, had 707 members (as against 670 in the previous), of which the Coalitionists (Unionist, Liberal, and Nat. Dem.), were 507; Labor, 67; Sinn Feiners, 73; rest, scattering. Total electorate, including women, 21,371,612. Of the 707 seats, England has 492 (of which 62 are London); Wales, 36; Scotland, 74; Ireland, 105. By-elections in 1920 and 1921 did not materially alter the strength of the parties. The usual life of Parliament is five years.

BRITISH PRIME MINISTERS SINCE 1762.

Earl of Bute	May	29,	1762
Mr. Grenville	April	16,	1763
Marquis of Rockingham	July	12,	1765
Duke of Grafton	Aug.	2,	1766

476	Rome taken by Odoacer, King of Italy; extinction of Western Empire.

ROMAN EMPIRE OF THE EAST.

A. D.	Ruler.
491	Anastasius.
518	Justin I.
527	Justinian I.
565	Justin II.
578	Tiberius II.
582	Maurice.
602	Phocas.
611	Heradius.
641	Constantine.
641	Heradionas and Tiberius III.
642	Constans.
668	Constantius V (Pogonatus).
685	Justinian II.
695	Leontius.
697	Apsimar or Tiberius.
711	Philippicus Bardanes.
713	Anastasius II.
714	Theodosius.
716	Leo (the Isaurian).
742	Constantine (Copronymus).
775	Leo IV.
781	Constantine (Porphyrogenitus).
793	Nicephorus.
811	Michael (Curopalatts).
813	Leo (the Armenian).
821	Michael (Balbous).
829	Theophilus.
842	Michael III.
851	Basilius.
886	Leo (the Philosopher).
911	Constantine IX.
915	Constantine and Romanus.
959	Romanus II.
963	Nicephorus Phocus.
969	John Zemlsses.
975	Basilius and Constantine X
1028	Romanus Argyrus.
1034	Michael IV.
1041	Michael (Caliphales).
1042	Constantine (Monomachus).
1054	Theodora (Empress).
1057	Isaac (Comnenus).
1059	Constantine XII (Ducas).
1068	Romanus Diogenes.
1071	Michael Ducas.
1078	Nicephorus (Botoa).
1081	Alexis I (Comnenus).
1118	John (Comnenus).
1143	Manuel (Comnenus).
1180	Alexius II (Comnenus).
1183	Andronicus (Comnenus).
1185	Isaac Angelus.
1195	Alexius Angelus (the Tyrant).
1203	Alexius and Murbzuphlus.
1216	Peter and John Ducas.
1219	Robert.
1283	Andronicus I (Palaelogus).
1295	Michael Andronicus.
1320	Andronicus II (Palaelogus).
1341	John V. (Palaelogus).
1391	Manuel II. (Palaelogus).
1421	John VI. (Palaelogus).

FORM OF ADDRESS FOR PERSONS OF RANK.

An *Emperor* is to be addressed, in a letter, as "Sire," or "Your Imperial Majesty."

A *King* or *Queen* is to be addressed, in a letter, as "Sire" (or "Madam"), or "Your Majesty." The envelope is to be addressed, "The King's (or Queen's) Most Excellent Majesty."

Princes and *Princesses*, and other persons of royal blood, are addressed as "His (or Her) Royal Highness." Here, as in the cases above, a letter may begin "May it please," following with the words "Your Majesty" or "Your Royal Highness." "May it please" goes well at the start of any letter.

A *Duke* or *Marquis* is "My Lord Duke" (or "Marquis"), a Duke is "His (or Your) Grace." A Marquis is also "My Lord," or "Your Lordship."

An *Earl* or a *Baron* is "My Lord," or "Your Lordship," as "the Right Honorable."

A *Viscount* is "the Right Honorable."

A *Baronet* or a *Knight* is "Sir."

Wives of any peer may be addressed as "Madam," with the further alternative of "Your Ladyship," or "Your Grace," if she is of high rank. Women of peers may be addressed also as "the Right Honorable," or "the Honorable," according to the rank. The wife of an Earl is a *Countess*.

A *Cardinal* is "Your (or His) Eminence." An *Archbishop* is "My Lord" or "His Grace." A *Bishop* is "My Lord." An *Archdeacon* is "Venerable Sir."

An *Ambassador* is "Your Excellency." A *Minister Plenipotentiary* is "Sir."

ORICIN OF THE NAMES OF THE STATES AND TERRITORIES.

ALABAMA—Alibama was the Indian name of a tribe in Southern Alabama—a Mushhogean tribe of the Creek Confederacy. Alibamu is from the Choctaw words alba aya mule, meaning "I open or clear the thicket."

ALASKA—From "Al-ay-es-ka," a native Eskimo or Innuit word, meaning Great Country.

ARIZONA—From Ariconac, "Few Springs." Papago name of a ranch in Sonora.

ARKANSAS—Algonkin name of the Quapaw Indians

CALIFORNIA—Spanish "Calida formax," a hot furnace.

COLORADO—Spanish, meaning red.

COLUMBIA, DISTRICT OF—A poetical adoption of the name of Columbus; applied to the territory in 1791 by the Federal Commissioners who laid it out.

CONNECTICUT—Indian, "Quonecktacut," Long River or River of Pines.

DELAWARE—Named after Lord De La War, of England, Governor of Virginia, who entered the Bay in 1610.

FLORIDA—Spanish words, "Pascua Florida," Feast of Flowers (Palm Sunday), on which day it is said to have been named, in 1512, by Juan Ponce de Leon.

GEORGIA—Named after King George II of England.

HAWAII—English spelling of Owhyhee, where Capt. Cook was killed by the natives in 1779.

IDAHO—Indian words, "Edah hoe," Light on the Mountains.

ILLINOIS—Indian word, by some translated "The River of Men. A form of the word Illiniwek. "Illini" meant "man," "lw" meant "is," and "ek," was a plural signification.

INDIANA—Named after Indians, State of Indians.

IOWA—The Ioways, or Aiaouez, or Aiaouas were a Sioux tribe. The word means "sleepy ones." They called themselves "Pahoja," gray snow.

KANSAS—Name of a tribe of the Sioux.

KENTUCKY—From Wyandot (Iroquoian) name "Ken-tah-teh," meaning to-morrow, or Land of To-morrow.

LOUISIANA—Named by the Mississippi River navigator Robert de la Salle, in 1682, after King Louis XIV of France.

MAINE—From Maine, an ancient province of France, south of Normandy, owned by Queen Henrietta Maria of England, wife of King Charles I.

MARYLAND—Named in honor of the foregoing, Queen Henrietta Marie.

MASSACHUSETTS—An Algonkin Indian name from Massadchu-es-et, meaning "great-hill-small place," indicating a place at or about the big little hills.

MICHIGAN—The Mishigamaw or Mishawiguma were Indians. The word means "big lake" and was applied to Lake Michigan. "Michi" meant "great," and "gama" meant "water."

MINNESOTA—Sioux word for cloudy or smoky water.

MISSISSIPPI—Indian words "Sipu," Algonquin word for river; "Maesi," fish—Fish-River.

MISSOURI—The Missouri were Sioux of that name.

MONTANA—Spanish for mountainous; used now by Peruvians as a name for their Andean districts.

NEBRASKA—An Omaha Indian name for the "wide river," Platte.

NEVADA—A Spanish word, meaning "snow clad."

NEW HAMPSHIRE—Named, in 1629, after the County of Hampshire, England, by the patentee, Capt. John Mason of the Plymouth Council.

NEW JERSEY—In 1664 the Duke of York, of England, granted to Lord John Berkeley and Sir George Carteret a patent or deed to the present boundaries to be called Neva Caesaria, or New Jersey. Caesarea, or Caesaria, was the ancient name of the Island of Jersey of which Carteret had been administrator.

NEW MEXICO—Mexico is a word derived from the Aztec word "mexitli," title of their national war god.

NEW YORK—So called in honor of the Duke of York (1664), who got the patent from his brother, King Charles II of England, and sent an expedition and took possession of New Netherlands.

NORTH CAROLINA—The Carolinas were originally named, it is said, in honor of King Charles IX of France by Jean Ribault, whose expedition (1562) was financed by Admiral Coligny. "Carolus" is the Latin word for Charles. In 1663, King Charles II granted a patent to the land under the name of Carolina.

NORTH DAKOTA—"Dakota" means "alliance of friends," and is a Sioux Indian word. Koda in Santee dialect and Kola in Teton dialect are the root words.

OHIO—Iroquois name, denoting great.

OKLAHOMA—Choctaw word for "red people."

OREGON—The Oregon State Librarian, Cornelia Marvin, says various origins of the name have been suggested as follows: *Origanum*, a wild sage found on the coast; *Orejon*, or Oregones, a Spanish name for big-eared (Indian) men; Origon, a river in Chinese Tartary; *Oyer-un-gon*, a Shoshone Indian word for "place of plenty;" *Aura agua*, Spanish word meaning gently falling waters; *Ouragan*, a French word for hurricanes; *Wau-re-gan*, an Algonkin word for "beautiful water."

PENNSYLVANIA—Penn-sylvania, from Penn; and Sylva, Latin word for grove or woods. Groves of Penn; so called in honor of William Penn, who, in 1681, got a deed for the State from King Charles II of England, in settlement of a debt which the British Government owed Penn's father. William called the country Sylvania, and the King prefixed it with "Penn."

PHILIPPINES—Spanish, "Islas Filipinas," discovered in 1521 by Magellan, whom the natives killed in a skirmish; named in honor of King Philip II of Spain by a colonizing expedition from Mexico.

PORTO RICO—From the Spanish "Puerto Rico," Rich Port.

RHODE ISLAND—"Isles of Rhodes" was the name, chosen by the General Court of the colony, in 1644. The name of one of the islands had been Aquedneck. The name of Providence Plantations then gradually lapsed.

SOUTH CAROLINA—(See North Carolina).

SOUTH DAKOTA—(See North Dakota).

TENNESSEE—Called, from 1784 to 1788, the State of Franklin. "Tennessee" is an Anglicized Indian word—Ten-asse, said to mean "a curved spoon."

TEXAS—According to Elizabeth H. West, State Librarian at Austin, "Texas is an Indian word meaning Friends or Allies. So far as I know, it has not an Aztec origin. It applied, originally, in the Indian usage to the Indian tribes about the early Spanish missions around Eastern Texas; and later to tribes ranging as far west as the Rio Grande, to designate a large number of tribes who were ordinarily allied against the Apaches."

UTAH—Named after the Utes, an Indian tribe.

VERMONT—From Verd and Mont, two French words meaning Green Mountains. The name is said to have been bestowed by Samuel de Champlain when he saw from the lake, later called after him, green hills to the East.

VIRGINIA—Named in honor of Elizabeth, daughter of Henry VIII, sometimes called by her courtiers the "Virgin Queen" of England. The name was bestowed by one of the courtiers, Sir Walter Ralegh, who fitted out the expedition of discovery in 1584.

WASHINGTON—Named after George Washington. When the bill creating the Territory of Columbia was introduced in the 32nd Congress, second session, the name was changed in the bill to Washington because of the existence of the District of Columbia.

WEST VIRGINIA—(See Virginia).

WISCONSIN—An Indian name which, according to Reuben Goldthwaites, was originally spelled "Ouiscousin" by the French missionaries and in old French-American documents; also was spelled "Misconsing," "Ouisconching," "Ouiskensing." The Yankee settlers spelled it "Wiskonsan," then "Wiskonsin;" but Congress changed it to "Wisconsin."

WYOMING—(By the State Historian, Eunice G. Anderson)—What we would determine to be the most authentic publication upon the derivatives of the name of our State gives the following: "The word Wyoming was taken from Wyoming Valley, Pennsylvania, rendered famous from Campbell's beautiful poem, 'Gertrude of Wyoming.' The word means 'mountains and valleys alternating.' Or, as we construed it, 'Here God has bent down the backs of His mountains for man to make his habitations.'" This is given by Gen. Freeman.

NICKNAMES OF THE STATES.

The nicknames of the States are as follows:

Ala...“Cotton,” “Lizard.”
Ariz...“Sunset,” “Apache.”
Ark...“Bear,” “Bowie.”
Cal...“Golden,” “El Dorado.”
Col...“Centennial,” “Silver.”
Conn..“Nutmeg,” “Freestone.”
Del...“Diamond,” “Blue Hen.”
Fla...“Peninsula,” “Everglade.”
Ga....“Cracker,” “Buzzard.”
Idaho.“Gem.”
Ill....“Sucker,” “Prairie.”
Ind...“Hoosier.”
Iowa..“Hawkeye.”
Kan..“Sunflower,” “Jayhawk.”
Ky...“Blue Grass,” “Corn-Cracker.”
La....“Pelican,” “Creole.”
Me...“Pine Tree,” “Old Dirigo.”
Md...“Old Line,” “Cockade.”
Mass..“Bay,” “Old Colony.”
Mich..“Wolverine,” “Auto.”
Minn. “Gopher,” “North Star.”
Miss..“Bayou,” “Eagle.”
Mo...“Ozark,” “Iron Mountain.”
Mont.“Stub Toe,” “Bonanza.”
Neb...“Antelope,” “Black Water.”
Nev...“Silver,” “Sage Brush.”
N. H..“Granite.”
N. J..“Jersey Blue,” “Garden,” “New Spain.”
N. M.“Sunshine,” “Spanish.”
N. Y..“Empire,” “Excelsior.”
N. C..“Old North,” “Turpentine,” “Tar Heel.”
N. D..“Flickertail,” “Sioux.”
Ohio..“Buckeye.”
Okla..“Boomer.”
Ore...“Beaver,” “Web-Foot.”
Pa....“Keystone,” “Steel,” “Coal.”
R. I...“Little Rhody,” “Plantation.”
S. C...“Palmetto.”
S. D..“Sunshine,” “Swiagecat.”
Tenn..“BigBend,”“Volunteer,”“Hog-and-Hominy.”
Tex...“Lone Star,” “Beef.”
Utah..“Desert,” “Mormon.”
Vt....“Green Mountain.”
Va....“Old Dominion,” “Mother.”
Wash.“Evergreen,” “Chinook.”
W. Va.“Panhandle.”
Wis...“Badger,” “Copper.”
Wyo..“Equality” (Suffrage Pioneer).

SOBRIQUETS OR BY-NAMES OF CITIES IN THE UNITED STATES.

Albany—The Capital City.
Atlanta—The Gate City of the South.
Baltimore—The Monumental City.
Birmingham—Birmingham the Beautiful.
Boston—The Hub, Bean Town, Athens of America.
Brooklyn—The City of Churches.
Buffalo—The Queen City of the Lake.
Charleston, S. C.—The Palmetto City.
Chicago—The Windy City and Garden City.
Cincinnati—The Queen City and Porkopolis.
Cleveland—The Forest City.
Dallas—The City of the Hour.
Dayton—The Gem City.
Denver—The City of the Plains.
Des Moines—The City of Certainties.
Detroit—The City of the Straits.
Duluth—The Zenith City of the Unsalted Sea.
Galveston—The Oleander City.
Hannibal, Mo.—The Bluff City.
Hartford—Insurance City and Charter Oak City.
Indianapolis—The Railroad City.
Jacksonville—The Gateway City.
Kansas City, Mo.—The Heart of America.
Keokuk, Iowa—The Gate City.
Little Rock—The City of Roses.
Los Angeles—The Metropolis of the West and The City of the Angels.
Louisville—The Falls City.
Lowell—The City of Spindles.
Lynn—The City of Shoes.
Madison, Wis.—The Lake City.
Memphis—The Bluff City.
Milwaukee—Milwaukee the Bright Spot and The Cream City.
Minneapolis—The Flour City.
Nashville—The City of Rocks.
Newark—Newark Knows How.
New Bedford—The Whaling City.
New Haven—The City of Elms.
New Orleans—The Crescent City.
New York—The Empire City, Gotham, The Metropolis.
Omaha—The Gate City of the West.
Paterson—The Silk City and the Lyons of America.
Philadelphia—The City of Brotherly Love and The Quaker City.
Pittsburgh—The Iron City and The Smoky City.
Portland, Me.—The Forest City.
Portland, Ore.—The Rose City.
Providence—The Gateway of Southern New England.
Reading—The Pretzel City.
Rochester—The Flour City.
St. Joseph—The City Worth While.
St. Louis—The Mound City.
St. Paul, Minn.—The Saintly City and The Gem City.
Salt Lake City—The City of the Saints.
San Francisco—The Golden Gate City.
Savannah, Ga.—The Forest City of the South.
Scranton—The Electric City.
Seattle—The Queen City.
Springfield, Ill.—The Flower City.
Springfield, Mass.—The City of Homes.
Syracuse—The Salt City and the Central City of the Empire State.
Toledo—The Corn City.
Troy—The Collar City.
Washington—The City of Magnificent Distances.
Worcester—The Heart of the Commonwealth.

THE AMERICAN BONAPARTES.

PRINCE JEROME BONAPARTE (King of Westphalia), youngest brother of Napoleon, born Ajaccio, Corsica, November 15, 1784; died at Ville Genis, near Paris, June 24, 1860. Married, first, at Baltimore, Md., December 24, 1803, Elizabeth, daughter of William Patterson, Esq. She was born at Baltimore, February 6, 1785, and died in that city April 4, 1879. Jerome remained in the United States until 1805 and then was summoned to France by Napoleon, who issued a decree annulling the marriage with Miss Patterson, and made him King of Westphalia on July 8, 1807. Jerome on August 22, 1807, married the daughter of Frederick, King of Wurttemberg. By the second marriage he had two sons and a daughter. One son, Joseph Charles Paul Bonaparte, called Prince Napoleon, was born in 1822. The issue of the first marriage was:

Jerome Napoleon Bonaparte, born at Camberwell, England, July 7, 1805; died at Baltimore, Md., June 17, 1870. Married November 3, 1829, Susan May, daughter of Benjamin Williams, who was born in Roxbury, Mass., but spent his life in Baltimore, Md. She was born April 2, 1812, and died September 15, 1881. The issue of the marriage was:

(1) Jerome Napoleon Bonaparte, born at Baltimore, Md., November 5, 1830; died at Beverly, Mass., September 3, 1893. He was educated at and graduated from West Point Military Academy, and served for two years in the American Army, entered the French Army in 1854, took part in the Crimean and Italian campaigns and resigned after seventeen years' service at the close of the Franco-Prussian War with the rank of Lieutenant-Colonel. He was married September 7, 1871, to Caroline Le Roy, daughter of Samuel Appleton, granddaughter of Daniel Webster, and widow of Newbold Edgar. She died November 19, 1911. The issue of the marriage was:

(A) Louise Eugenie Bonaparte, born February 7, 1873. Married December 29, 1896, Comte Adam de Moltke-Huitfeldt, of Denmark, and has issue: (1) Marie Louise Caroline, born November 7, 1897; (2) Leon Charles Joseph, born November 14, 1898; (3) Jerome Eugene Otto, born January 14, 1902; (4) Adam Nicolas, born May 17, 1908; (5) Eyler Helweg.

(B) Jerome Napoleon Bonaparte, born Paris, France, February 26, 1878. Harvard B. A. and Georgetown University. Lives in Washington, D. C. Married April 8, 1914, to Blanche Pierce Strebeigh.

(2) Charles Joseph Bonaparte, born at Baltimore, Md., June 9, 1851; died near Baltimore, Md., June 28, 1921; he married, September 1, 1875, Ellen Channing, daughter of Thomas Mills Day, of Hartford, Ct. No issue. Mr. Bonaparte was a Harvard B. A., 1871; LL. B., 1875; a lawyer. Was Secretary of the Navy from July 1, 1905, to December 17, 1906, and Attorney-General of the United States from December 17, 1906, to March 5, 1909; President of Enoch Pratt Library of Baltimore and for 12 years Overseer of Harvard.

THE FRENCH ROYAL CLAIMANTS.

BONAPARTIST.

Of the Emperor Napoleon I. and his brothers Joseph and Louis, male issue is now extinct. The Emperor's brothers Lucien and Jerome had the following descendants:

Prince Victor Napoleon (of the house of Jerome), born July 18, 1862, is the son of the late Prince Napoleon, who died March 18, 1891, and the Princess Clotilde, who died June 25, 1911, sister of the late King Humbert of Italy. He in 1910 married Clementine, third daughter of Leopold I., King of Belgium. A daughter was born in 1912 and a son in 1914. His only brother, Prince Louis Napoleon, was born 1864. His sister, Princess Letitia, born 1866, is the widow of Prince Amedeo of Italy, her own uncle, by whom she had a son, Prince Humbert, born 1889.

The late aunt of Prince Victor Napoleon, the Princess Mathilde, born 1820, married, 1840, Prince Demidoff of Russia; died in 1904 without children.

Prince Charles Napoleon, brother of the late Cardinal Bonaparte, who died February 12, 1899, was the last representative of the eldest son of Napoleon's brother Lucien in the male line. He was born 1839, was married, and had two daughters—Marie, wife of Lieutenant Gotti, of the Italian Army, and Eugenie, unmarried. He had three sisters, married respectively to the Marquis of Roccagiovine, Count Primoli and Prince Gabrelli, who have descendants.

Prince Roland Bonaparte is the only living male cousin of Prince Charles Napoleon. He is a son of the late Prince Pierre Napoleon Bonaparte, was born 1858, married, 1880, the daughter of Blanc, one of the proprietors of the Monte Carlo gaming place. His wife died in 1882, leaving him a daughter, who married Prince George of Greece. He has one sister, Jeanne, born 1861, and married to the Marquis de Villeneuve, who died in 1910.

Ex-Empress Eugenie, widow of Emperor Napoleon III., was a daughter of Count Cyprien de Montijo, a Spanish grandee, was born May 5, 1826. She married 1853. Became a widow 1873; died 1920. Her only son, Prince Louis Napoleon, was killed in Zululand in 1879.

BOURBON—ORLEANIST.

Philippe, Duke of Orleans, born 1869, succeeded his father, the late Count of Paris, in 1894, as the head of the royal family of France. He married, in 1896, the Archduchess Marie-Dorothea, daughter of the Archduke Joseph, cousin of the Emperor of Austria. His mother was the Spanish Infanta Louise of Montpensier, and he has one brother, the Duke of Montpensier, and four sisters—Princess Amelie, married to the late King Charles of Portugal; Helena, married to the Duke of Aosta, nephew of the late King Humbert of Italy; Isabel, married to the Duke of Guise, son of the Duke of Chartres, and Louise, married to Prince Charles of Bourbon, grandson of King Ferdinand II. of Naples.

The only uncle of the Duke of Orleans, who died 1910, was the Duke of Chartres, born 1840. He married, 1863, Frances, Princess of Orleans, and had two children, Marguerite, born 1869, married, 1896, Patrice MacMahon, Duke of Magenta, and Jean, Duke of Guise, born 1874, married, 1899, Isabelle, Princess of France.

The grandnuncles of the Duke of Orleans (who were the sons of King Louis Philippe) are dead. They were Louis, Duke of Nemours, born 1814, died 1896, married, 1840, Victoria, Princess of Saxe-Coburg and Gotha; Prince of Joinville, born 1818, died 1900, married, 1843, Frances, Princess of Braganee; Antony, Duke of Montpensier, born 1824, died 1890, married, 1846, Louise, Infanta of Spain. The children of the Duke of Nemours are Gaston, Comte of Eu, born 1842, married, 1864, Isabelle, Princess of Braganee, and has three sons—Pierre of Alcantara, born 1875; Louis, born 1878, and Antony, born 1881; Duke of Alencon, born 1844, died 1910, married, 1868, Sophie, Duchess of Bavaria (who was burned in the Paris bazaar fire in 1897), and Blanche, born 1857. The children of the Prince of Joinville are Frances, born 1844, married, 1863, Robert, Prince of Orleans, Duke of Chartres, and Pierre, Duke of Penthievre, born 1845. The children of the Duke of Montpensier are Isabelle, born 1848, married, 1864, Philippe, Count of Paris, and Antony, Duke of Galliera, born 1856, married, 1886, Eulalie, Infanta of Spain. Prince Pierre of Alcantara, son of the Comte of Eu, has two children, Isabelle, born 1911, and Pierre, born 1913. His brother, Prince Louis, married, 1908, Marie, Princess of Bourbon-Sicilies, and has three children.

The Duke of Alencon has issue: Princess Louise, born 1869, married, 1891, Prince Alphonse of Bavaria; Emmanuel, Duke of Vendome and Alencon, born 1872, married Henrietta, Princess of Belgium. The children of Prince Antony are Alphonse, born 1886, married, 1909, Beatrice, Princess of Saxe-Coburg and Gotha, and Louis Ferdinand, born 1888.

By the death of the Count of Chambord, in 1883, the elder line of the Bourbons of France became extinct and the right of succession merged in the Count of Paris, grandson of King Louis Philippe, representative of the younger, or Orleans, line.

POETS-LAUREATE OF ENGLAND.

THERE is no authentic record of the origin of the office of Poet-Laureate of England. According to Warton, there was a *Versificator Regis*, or King's Poet, in the reign of Henry III. (1216-1272), and he was paid 100 shillings a year. Geoffrey Chaucer (1328-1400) assumed the title of Poet-Laureate, and in 1389 got a royal grant of a yearly allowance of wine. In the reign of Edward IV. (1461-1483) John Kay held the post. Under Henry VII. (1485-1509) Andrew Bernard was the Poet-Laureate, and was succeeded under Henry VIII. (1509-1547) by John Skelton. Next came Edmund Spenser, who died in 1599; then Samuel Daniel, who died in 1619; and after him, Ben Johnson (1574-1637), Sir William Davenant (1637-1668), John Dryden (1631-1700), who was deposed at the time of the Revolution. The others, with the date of appointment, when known, have been: Thomas Shadwell, 1689; Nahum Tate, 1692; Nicholas Rowe, 1715; the Rev. Laurence Eusden, 1718; Colly Cibber, 1730; William Whitehead, 1758, on the refusal of Gray; Rev. Thomas Warton, 1785, on the refusal of Mason; Henry J. Pye, 1790; Robert Southey, 1813, on the refusal of Sir Walter Scott; William Wordsworth, 1843; Alfred Tennyson, 1850; Alfred Austin, 1896; Robert Bridges, 1913.

CATHOLIC BOYS' BRIGADE OF THE UNITED STATES.

Founded in 1916, by the late Cardinal Farley, New York City; a national official organization for Catholic boys. National office; National Catholic Welfare Council, 1312 Massachusetts Ave., N. W., Washington, D. C. General Executive Headquarters, 128 West 37th Street, New York. This movement aims to improve, it is announced, the religious and civic character of boys. It has a program of athletics, sports, military exercises, signalling, first-aid, civics, music, entertainments, hikes, camping, parades, contests and employment; it aims to promote patriotism, religious practices and higher education. Membership is open to all manly boys 10 years of age or over. *Junior and Senior division* branches all over the country and has its own uniform. Executive Officers, N. Y. Gen. Headquarters [illegible]. Thomas J. Lynch, Dir. Gen.

1915 Italian Army crosses the Isonzo, June 2.

1915 Allied forces land at Saloñica, Oct. 5; Austro-German Army invades Serbia, Oct. 6; Nurse Cavell shot at Brussels, Oct. 12.

1915 Fall of Monastir, Dec. 2.

1916 Cettinje, capital of Montenegro, falls, Jan. 13.

1916 Russians capture Erzerum, Feb. 16; Germans attack Verdun, Feb. 21-28.

1916 Rebel rising in Dublin, April 24; Brit. Gen. Townshend (3,000 British, 6,000 Indian troops) surrenders at Kut, April 29.

1916 Naval battle off Jutland, May 31.

1916 Third battle of Ypres, June 2; Grand Sherif of Mecca captures Mecca, Jeddah and Taif, June 21.

1916 Battle of Somme, July 1-10; Great Britain publishes "Order in Council" rescinding Declaration of London, July 8; second battle of Somme, July 14-Aug. 5; Capt. Fryatt executed, July 27.

1916 Germans capture Bucharest, Dec. 6; President Wilson's Peace Note published, Dec. 20.

1917 Germany begins unrestricted submarine warfare, Feb. 1; United States broke off diplomatic relations with Germany, Feb. 3; British capture Kut-el-Amara, Feb. 24.

1917 Bagdad captured, March 11; Russian Czar abdicates, March 14.

1917 United States entered the war, April 6; battle of Arras begins, April 9.

1917 First American troops landed in France, June 26.

1917 Russia proclaimed a Republic, Sept. 15.

1917 First shot by American troops in France, Oct. 27; Austro-Germans capture Gorizia, Oct. 28.

1917 First American casualties in France, Nov. 3; Bolsheviks under Lenin seize supreme power in Russia, Nov. 7.

1917 Battle of Cambrai, Nov. 20-Dec. 4; German East Africa conquered, Dec. 1; Russo-German armistice arranged until Dec. 17, Dec. 6; Jerusalem captured, Dec. 9.

1918 The Breslau sunk and the Goeben damaged off Imbras, Jan. 20.

1918 Jericho captured, Feb. 21; Germans capture Reval, Feb. 25.

1918 Peace signed at Brest-Litovsk between the Bolsheviks on the one side, and Germany, Austria-Hungary, Bulgravia and Turkey on the other, March 3; peace signed between Germany and Finland, March 7; battle of the Somme, March 21 to April 6; Paris bombarded by long range guns at distance of 75 miles, March 23.

1918 Japanese and British marines land in Vostock, April 5; battles in Lys V April 9 to May 27; British naval force Zeebrugge and Ostend, April 22.

1918 Germans seize Sebastopol, May 1; peace s at Bucharest between Germany and mania, May 7; pro-German plot disco in Ireland, Sinn Fein leaders arrested, 17; battle of the Aisne, May 27 to June

1918 British air squadron bombards Karl June 1; Allies air raid on Cologne, Ju Germans pushed back across the M June 4; Germans attack in Noyon-M didier sector, June 9-15.

1918 British naval air forces bombard Constanti July 7; French attack on Marne se July 10; Germans offensive Champ Marne sector, July 15-18; German re across the Marne begins, July 19; offensive in Aisne-Marne sector, Jul to Aug. 6; French occupy Chateau-Th July 21.

1918 British strike at Somme salient, Aug. 8 to 11; French advance in Oise-Aisne re Aug. 18 to Nov. 11; British attack in Y Lys seetor, Aug. 19 to Nov. 11; Ger retreat from Flanders, Aug. 30.

1918 Germans withdraw from the Scarpe to Marne, Sept. 3; battle of St. Mihiel, 12-16; United States troops take St. M Sept. 13; battle of the Meuse-Argonne, 20 to Nov. 11; general Bulgarian ret Sept. 25; Franco-American attack in gonne, Sept. 26; British attack br Hindenburg line, Sept. 27; Bulgaria armistice and surrenders, Sept. 29.

1918 British capture Damascus, Oct. 1; Ferdi of Bulgaria abdicates, Oct. 5; United St troops capture St. Etienne; Germans e uate Le Cateau, Oct. 6; President Wi replies to German first peace note, Oct Allies capture Cambrai, Le Cateau Roncroy, Oct. 9; second German peace n reaches United States, Oct. 9; Presi Wilson replies to second German peace n Oct. 14; Czech revolution against Aus breaks out in Prague, Oct. 15; Allies occ Ostend, Bruges and Lille, Oct. 17; Germ in third peace note accept President Wils terms and recall submarines to their ba Oct. 20; President Wilson replies to G mans' third peace note, Oct. 23; the Bri and Italians cross the Piave, Oct. 27; mistice granted to Turkey, Oct. 30.

1918 Hungarian Republic proclaimed in Budap and Republic of German Austria in Vien Nov. 1; Italians capture Trent, Nov. Serbian Army occupies Belgrade, Nov. Austria accepts truce terms, Nov. 4; Uni States troops capture Sedan, Nov. 7; re lution in Kiel and Hamburg, Nov. 7; varia proclaimed a republic, Nov. 8; Kaiser abdicates, Nov. 9; William II. f to Holland, Nov. 10; Germans sign armisti Nov. 11; German fleet surrenders to Brit Nov. 21; last of German forces in E Africa surrenders, Nov. 25.

1918 William II. signs a formal renunciation crown of Prussia and of German Empi Dec. 1; United States troops enter Mayc and Belgian troops enter Dusseidorf, D 6; British troops enter Cologne, Dec. American troops crossed the Rhine, Dec.

1919 Allied Peace Conference officially inaugurat at Versailles, Jan. 18; peace terms hand to German delegates, May 7, treaty sign at Versailles, June 28, 1919, by the Tres Plenipotentiaries of Germany and Allied Powers; ratified by the Germ National Assembly July 10, by the Briti Parliament July 25, and by King Geor July 31; by the King of Italy Oct. 7, France Oct. 13, and by Japan Oct. 27; jected by the United States Senate Nov.

1920 The United States Senate for the second tim defeated the German treaty, March 19.

1921 President Harding signed (July 2) joint res lution of Congress declaring peace wi Germany and Austria.

TROOPS ENGAGED IN AMERICAN WARS.

NOTE—The United States has been actually engaged in war for more than 16 per cent. of its national y (23 years and 346 days of conflicts) according to a statement read in Congress in 1921. Indian and the Boxer (China) expedition are not included in the calculation, which covers the Revolution, of 1812, War with Barbary Pirates, Mexican War, Civil War, Spanish-American War, Philippine rrection, and the World War to the date of the Armistice.

n the Cayuse Indian, Oregon War, 1848, no regulars were engaged. Naval figures as to the Spanish-ican War, the Philippine Insurrection, and the Boxer expedition in China, in 1900, include officers S. Marine Corps, but not officers in U. S. Navy proper. There were no volunteers in the Boxer lition.

n the Civil War actual hostilities commenced upon the firing on Fort Sumter, April 12, 1861, and d by the surrender of the Confederate forces under Gen. Kirby Smith, May 26, 1865.
Figures for the French and Tripoli Wars of 1798 and 1801 show only the naval forces. In the Civil War Confederates had over 750,000 troops actually engaged.
The Continental Army was organized by the Continental Congress, June 15, 1775, under George Wash-n as Maj.-Gen. and Commander-in-Chief. The so-called Continentals in the Revolution totaled 32. The War Department was established, August 7, 1789. The standing army was organized, mber, 1790.
n addition to the 2,772,408 troops furnished the United States Government, 1861-65, there were 4 men who paid commutation, raising the total to 2,859,132.

UNION ARMY LOSSES IN THE CIVIL WAR.

n "Regimental Losses in the American Civil War," by William F. Fox, Lieutenant-Colonel, U. S. V.)

DATE.	Battle.	Killed.	Wounded.	Missing.	Aggregate.
1-3, 1863	Gettysburg	3,070	14,497	5,434	23,001
8-18, 1864	Spottsylvania	2,725	13,413	2,258	18,396

1-3, 1863	Chancellorsville	1,606	9,762	5,919	17,287
mber 19-20, 1863	Chickamauga	1,656	9,749	4,774	16,179
1-4, 1864	Cold Harbor	1,844	9,077	1,816	12,737
mber 11-14, 1862	Fredericksburg	1,284	9,600	1,769	12,653
st 28-30, 1862	Manassas	1,747	8,452	4,263	14,462
6-7, 1862	Shiloh	1,754	8,408	2,855	13,047
mber 31, 1862	Stone River	1,730	7,802	3,717	13,249
15-19, 1864	Petersburg (assault)	1,688	8,513	1,185	11,386

The Union losses at Bull Run (first Manassas), July 21, 1861, were: Killed, 470; wounded, 1,071; ured and missing, 1,793; aggregate, 3,334.

ARMY LOSSES IN THE CIVIL WAR—*Continued.*

The Confederate losses in particular engagements were as follows: Bull Run (first Manassas), July 1861, killed, 387; wounded, 1,582; captured and missing, 13; aggregate, 1,982. Fort Donelson, Tenn., February 14-16, 1862, killed, 466; wounded, 1,534; captured and missing, 13,829; aggregate, 15,829. Shiloh, Tenn., April 6-7, 1862, killed, 1,723; wounded 8,012; captured and missing, 959; aggregate, 10,694. Seven Days' Battle, Virginia, June 25-July 1, 1862, killed, 3,478; wounded, 16,261; captured and missing, aggregate, 20,614. Second Manassas, August 21-September 2, 1862, killed, 1,481; wounded and missing, 7,627; captured and missing, 89; aggregate, 9,197. Antietam campaign, September 12-20, 1862, killed, 1,886; wounded, 9,348; captured and missing, 1,367; aggregate, 12,601. Fredericksburg, December 13, 1862, killed, 596; wounded, 4,068; captured and missing, 651; aggregate, 5,315. Stone River, Tenn., December 31, 1862, killed, 1,294; wounded, 7,945; captured and missing, 1,027; aggregate, 10,266. Chancellorsville, May 1-4, 1863, killed, 1,665; wounded, 9,081; captured and missing, 2,018; aggregate, 12,764. Gettysburg, July 1-3, 1863, killed, 2,592; wounded, 12,706; captured and missing, 5,150; aggregate, 20,448. Chickamauga, September 19-20, 1863, killed, 2,268; wounded, 13,613; captured and missing, 1,090; aggregate, 16,

Gettysburg was the greatest battle of the war; Antietam the bloodiest. The largest army was assembled by the Confederates at the seven days' fight; by the Unionists at the Wilderness.

The number of casualties in the volunteer and regular armies of the United States during the war 1861-65, according to a statement prepared by the Adjutant-General's office, was as follows: Killed in battle, 67,058; died of wounds, 43,012; died of disease, 199,720; other causes, such as accidents, murder, Confederate prisons, etc., 40,154; total died, 349,944; total deserted, 199,105. Number of soldiers in the Confederate service who died of wounds or disease (partial statement), 133,821; deserted (partial statement), 104,428. Number of United States troops captured during the war, 212,608; Confederate troops captured, 476,169. Number of United States troops paroled on the field, 16,431; Confederate troops paroled on the field, 248,000. Number of United States troops who died while prisoners, 30,156; Confederate troops who died while prisoners, 30,152.

Jan. 3—Lambertville, N. J.; Del. Quarry & Construction Co. plant; $100,000.
Jan. 12—Columbus, O.; City Hall; $300,000.
Jan. 14—New York; 54-56 Broad St., restaurant; $75,000 to $100,000.
Jan. 19—Worcester, Mass.; wood-working plant; $100,000.
Jan. 23—Near Florence, Ala.; town of Killeen; 5 stores, Post Office and 3 lodge halls.
Jan. 24—Memphis, Tenn.; gasoline explosion; a block of frame dwellings and part of plant destroyed; $200,000; 10 killed, 2 severely burned.
Jan. 25—Athens, Ga.; 3 city blocks; $4,000,000; no lives lost.
Jan. 26—Cleveland, O.; Gray's Armory, 10,000 cartridges; $300,000.
Feb. 4—Augusta, Ga.; Bon Air Hotel.
Feb. 16—Saskatoon, Sask.; Cahill Block, $500,000.
Feb. 22—Renova, Pa.; 2 hotels; $150,000 to $200,000.
Feb. 25—Hamilton, N. Y.; west wing of Lathrop Hall.
March 7—Fallsburg, N. Y; Post Office and 5 buildings; $100,000.
March 11—Greenpoint; Standard Oil plant; $100,000.
March 13—Richmond, Va.; stores; $500,000; 5 men killed.
March 19—Chicago, Ill.; grain elevator explosion; one man killed, houses for 5 miles injured.
—Mineola, L. I.; Mitchel Field Hospital; $250,000.
March 21—Norfolk, Va.; John Marshall Pub. School; $200,000.
March 23—Hammond, Ind.; oil plant; $200,000.
March 25—Los Angeles, Cal.; wharf, 4 yachts, &c.; $500,000.
March 26—Vincennes, Ind. (near); 35,000 barrel oil tank; $350,000.
—Tokio; 1,000 houses, 3 hospitals, a bank; $12,500,000; 133 injured.
April 1—Kingston, Jamaica; Amer. Tobacco Co. building; $1,000,000.
—Manila, P. I.; 3,000 houses in San Lazaro district; $3,000,000; 2 lives lost.
April 6—Tokio; 1,700 houses destroyed.
April 13—Hakodate, Japan; 4,000 houses, 3 Christian missions, British Consulate, banks, hospitals, school houses.
April 14—Buffalo, N. Y.; elevator; $250,000.
April 15—Randolph, Mass.; fireworks blast; $50,000
April 19—Montreal; Church of the Nativity; $800,000.
April 23—Newark, N. J.; fur factory; $300,000.
April 27—Turin, Italy; Labor headquarters; $1,000,000.
May 11—Brooklyn, 275 Greene St.; bronze wo $150,000, besides 100 models of statues.
May 29—Butler, Pa.; 60,000 barrels of oil; $400,
June 5—Iquique, Chile; 30,000 tons nitrate; 2,000 pesos.
June 11—Niagara Falls; Fort Niagara; $26,00
—Salt Lake City; Utah Oil Refining Co. pl $1,000,000; 2 dead.
June 26—Hampton Beach, N. H.; 6 hotels, the garage, Post Office, stores and cottages; $300 to $500,000.
July 11—Round Lake, N. Y.; stores and hor $100,000.
July 18—Linden, N. J.; storage tanks of Asphalt $1,000,000.
July 20—Beaumont, Tex.; sugar plant; $300,00
July 15 to Aug. 3—New Brunswick; series of fi $3,000,000.
Aug. 8—London, England; lumber yard at Sack wich; $5,000,000.
Aug. 10—Ottawa, Canada; town of Aylmer (ne $1,000,000; 1 man burned to death.
Aug. 12—Pinsk, Poland; 700 buildings, 50,000 ho less.
Aug. 13—Paris, France; Ford motor plant; 6,000 to 7,000,000 francs.
—Newcastle, Del.; steel patterns; $170,000.
Aug. 14—Philadelphia; Point Breeze oil works; 000,000; 4 men were killed.
Aug. 15—Richwood, W. Va.; church, bank and residences; $300,000.
Aug. 17—Greenpoint, Brooklyn; 10 factories, w block; $500,000.
Aug. 19—Macedon, N. Y.; half business section.
Aug. 22—Macon, Ga.; Brown House; 3 lives los —Jersey City, N. J.; Vulcan Iron Works; $250,
Aug. 23—New York City, 5th Ave. and 49th St.; objects; $500,000.
Aug. 27—Long Branch, N. J.; 6 incendiary fi school, R. R. station and factories; $75,000.
Sept. 3—Baltimore, Md.; arsenal; $500,000.
Sept. 7—Annapolis Royal, Md.; business sect $500,000.
Sept. 11—Jersey City, N. J.; roundhouse and l motives, $350,000.
Sept. 15—Philadelphia, Pa.; oil explosion; 10 burned to death.
—Rockaway Beach; entire block; $300,000; 1 life l
Sept. 21—Oppau, village near Berlin, Germa nitrate plant; village destroyed; 300 lives lost.
Sept. 22—Astoria; lumber and coal; $350,000.
Sept. 25—Hatton, Sask.; business section; $200,
Sept. 27—Jersey City; asphalt plant; $200,00
Sept. 28—Paris, France; dept. store; 75,000 fra
Oct. 1—Jersey City; Erie R. R. pier; $250,000.
Oct. 2—Washington, D. C.; National Hotel; $1 000; 2 lives lost.
Oct. 5—Ionia, Mich.; State Reformatory; $500,
Oct. 30—Tokio, Japan; Kabuzkiza Theatre; 500,000.
Nov. 3-4—Hoboken, N. J.; 4 piers, 20 lighters, 000,000 to $10,000,000.
Nov. 26—Augusta, Ga., business block, $2,000,
Nov. 28—Charlotte, N. C., Chambers Hall at Da son College.

WRECK OF ZR-2.

One of the great catastrophes of 1921, and of the history of aviation in times of peace, was the wreck the giant Dirigible ZR-2, on Aug. 25. Of its crew and passengers numbering 66, all but six were at once owned or burned, and two survivors subsequently died in a hospital from burns. There were 17 Americans board and 49 British, the greater number of them being experienced and expert flyers.

The ZR-2 was the largest dirigible ever built, being 700 feet long, diameter 84.4 feet, total lifting power tons. It had six 350 horse power, Sunbeam-Cossack motors, a cruising radius of 9,000 miles, and speed pacity of 60 miles per hour. She closely resembled her sister ship, the R-34 which sailed across the Atlantic in July, 1919, but was 41 feet longer and 7 feet greater in diameter. It was estimated that with Lakehurst as a base she could sail to Europe and back without refueling, could go to the Hawaiian Islands to the Panama Canal Zone and South America, or accompany the American fleet on its day of manoeuvres at Guantanamo Bay. She was equipped with fourteen Lewis guns, one one pound automatic gun and racks for four 520 pound and eight 230 pound bombs, a wireless telephone and a radio set with a sending apparatus for about 1,500 miles. If all the piano wire (used as stays and braces) were put into one string, it would be forty miles long. If stood on end by the Washington Monument the tail of the ship would be 150 feet higher than the top of the monument. Alongside of the Woolworth Building, 92 feet of the Woolworth tower would loom above the bulk of the airship. The passenger quarters had comfortable chairs, tables, benches, a victrola with records, and a black cat mascot, which failed to live up to its name.

The crew was to have consisted of a Captain, an executive officer, navigator and engineer officer, three watch officers, sixteen mechanics and ten riggers.

For practically ten days, beginning about 7 A. M., Aug. 23, the ZR-2 had been sailing around near her base, Howden, over the town of Hull, not far from London, England, making various tests and from time to time sending out reports of a satisfactory nature. About 7.30 P. M. of the 24th, while concluding a long trial flight, the dirigible was suddenly noticed to crumple in the middle, burst into flames, and drop; a terrible explosion followed, succeeded by a second, and the airship fell into the river (Humber) The broken halves reached the water nearly a mile apart. The concussion felt in the City of Hull was so great as to break windows over an area of a mile square. The shock was felt in Grimsby, 15 miles away, across the mouth of the river, where windows shook and rattled. The residents of Hull were reminded of the German Zeppelin air raids. The water was covered with burning gasoline, and the heat from the wreckage was so intense that rescuers experienced great difficulty in approaching.

The ZR-2 had not been turned over to the American Navy. It was partly built when the United States agreed to purchase it from the British for $2,000,000. The purchase was to be made under the authority of legislation which also gave the Navy authority to build the ZR-L. 1. The understanding was that if, after delivery and before the ZR-2 reached this side, it should be lost in a transatlantic flight, the loss should be equally shared. Construction was started in 1918 at the plant of Short Brothers in Cardington, Bedford, from plans formulated by the British Admiralty. It was at first named the R-38, the designation being changed after the signing of the contract of sale to the United States Navy

Some of the most expert airmen of both nations were among the lost. Brig. Gen. Edward Maitland is considered one of the most daring of Britain's pioneers and occupied a place and post in British Military Aviation corresponding to that of Brig. Gen. William Mitchell, Assistant to the Chief of the Army Air Service in this country

C. I. R. Campbell was Superintendent of the Royal Airship Works and designer of the R-38. C. W. Affield was assistant at the National Physical Laboratory. J. C. Little and Lieut. Pritchard were British flight Lieutenants. Two Americans, Quartermaster, N. O. Walker and Lieut. Little were rescued alive and died in the hospital soon afterward. Lieut. G. Little of Newburyport, Mass., received the Navy Cross for services on patrol duty in French waters and was one of the Navy's most expert officers in dirigible aeronautics. Lieut. Commander, Emery W. Coil was the flying Commander of the C-5 on her Newfoundland voyage. Commander Louis Henry Mayfield was a native of St. Paul, Minn., and a graduate of Annapolis Naval Academy, a pioneer in U. S. naval aviation, qualified as a pilot and was the commanding officer of the airship detachment at Howden. Lieut. Marcus H. Esterly of Columbiana, Ohio, had been detailed to the radio officer for the transatlantic flight. Lieut. Commander Valentine N. Bieg, Senior Engineer officer, was from Alexandria, Va., a graduate of Annapolis and had served on the Destroyers Tripp and Dent. He was a son of the late Capt. Valentine Bieg of the U. S. N. Lieut. Commander Emery W. Coil, designated as the Executive Officer of the ZR-2 was born at Westboro, Mass., also an Alumnus of Annapolis, served as a member of the Allied Aeronautical Commission of Control. Lieut. Henry W. Hoyt, wore the Navy Cross, was born at Clearwater, Fla., an Alumnus of Annapolis. He had specialized on kite-balloon duty at sea. Chas. H. Broome, Chief Machinists' Mate, lived at Atlantic City, N. J. Ten of the American crew of the ZR-2 had been married in England.

Other Americans lost in the wreck of the ZR-2, were: A. D. Pettit of New York, C. J. Aller of Denver, Col. Lay of Greensboro, N. C., Chief Boatswain's Mates; R. M. Coons, Owensboro, Ky., Lloyd E. Cowell, Charleston, S. C., J. T. Hancock, London, England; Wm. Julius, Los Angeles, A. L. Loftin, Los Angeles, W. J. Steele, Bainbridge, Ind, and Geo. Welsh, Elgin, Ill., Chief Machinists' Mates; Quartermaster, Norman Walker, Commerce, Texas.

VILLAGE OF OPPAU DESTROYED BY EXPLOSION OF A NEW GAS.

On September 21, 1921, the village of Oppau, on the Rhine, was entirely destroyed by an explosion of new gas being made from ammonium sulphate. The plant covered from 200 to 250 acres. The effect was like that of an earthquake, extending upward of 40 miles in every direction. The inhabitants of Oppau, about 6,500, were practically all either killed by the explosion or suffocated by the fumes of the escaping gas.

Upward of 4,500 others in the surrounding country were killed and 4,000 or more injured. The French barracks at Eisenheim were wrecked, several soldiers killed and many wounded; a train leaving Eisenheim was blown off the track. At Mannheim, 13 miles away, 35 persons were seriously injured and many more slightly. At Ludwigshafen, across the river from Mannheim, three workmen's trains were buried under the wreckage and many school children hurt. In a nearby cemetery tombstones were lifted and hurled in various directions. The plant was known as the Badische Anilinfabrik Company. It was at the Badische Works that the first poison gas used in the war was produced and during the war chlorine, phosgene and lachrymatory gases manufactured for the German Army. They were severely damaged but never entirely put out of business in the course of twenty-nine air raids which the French and British made on Mannheim, one of the chief objectives of the Allied bombing squadrons.

NEW YORK CITY CHARTER REVISION COMMISSION.

Chairman—Former Supreme Court Justice Francis M. Scott, Dem.; Mayor John F. Hylan, Dem.; City Comptroller Charles L. Craig, Dem.; Brooklyn Borough President Edward Riegelmann, Dem.; Alderman Jan J. Keller, Rep.; Edward M. Bassett, Rep.; George Cromwell, Rep.; Lewis L. Delafield, Rep.; Joseph Byrne, Rep.; Prof. Howard L. McBain, Ind.; Herman A. Metz, Dem.; Col. William Barclay Parsons, Rep.; Frank L. Polk, Dem.; Arthur S. Somers, Dem.; H. P. Williams, Rep.

The commission, which was authorized by the Legislature and appointed by Gov. Miller, organized Dec. 3, 1921. Prof. McBain, who is at Columbia University, was chosen *Secretary*. *Counsel*—Edward McGoldrick.

BENEFACTIONS OF 1921.

As a result of joint conferences the Carnegie Corporation of New York will add to its benefactions more than $17,462,000, to be expended over a period of years for maintenance and development of the Carnegie Institutes in Pittsburgh.

Mrs. Elizabeth Milbank Anderson to Memorial Fund Association $1,500,000; to other organizations and charities, $3,500,000.

Mrs. Gertrude Strong Achilles and Mrs. Helen Strong Carter, daughters of the late Henry A. Strong of Rochester, N. Y., $1,000,000 for joint memorial clinical hospital at Rochester University.

Sir J. Langdon Bonython, £f40,000 to Melbourne University.

Geo. F. Baker, N. Y., banker, to Cornell University $1,500,000 for new chemical laboratory.

Mrs. Fanny Bridgman, of East Providence, R. I., by will, $450,000 to N. Y. City institutions; to the Cathedral of St. John the Evangelist at Denver, $40,000 for a home for consumptives.

Of 55 beneficiaries named in will of Max G. Breitenbach, distributing $4,890,740; 22 are charitable and educational institutions.

Edmund G. Converse, N. Y. financier, who died in Greenwich, Conn., to colleges and hospitals $20,000,000; to the Metropolitan Museum of Art, Van Dyck's portrait of Mlle. Cottigniers, and collections of Chinese, Persian, Japanese and Italian ceramics, glass and jades

David Martin Currie of London to the Victoria and Albert Museum at South Kensington all his works of art, arms, armor, bronze, tapestry, etc.; to hospitals and charities nearly $5,000,000.

R. M. Colgatt, bequest to Yale Corporation of $100,000.

Moses T. Pyne of New York and Princeton, N. J., to Princeton University a parcel of land South of Nassau and Stockton Streets, Princeton, N. J.

Col. Samuel P. Colt of Newport, R. I., to each employee of Industrial Trust Company and branches and of Rhode Island Safe Deposit Co., $1,000; to institutions $500,000; to Brown University $50,000.

Francis Appleton Foster of Weston, Mass., to Mass. Institute of Technology, $1,000,000; to Wellesley College, $500,000.

D. J. Carroll of N. Y., to R. C. Orphan Asylum, Catholic Protectory and St. Vincent's Hospital, each $100,000.

Michael Dreicer, N. Y., to Metropolitan Museum of Art, art collections valued at $1,000,000.

Mrs. Annie Mills Dustin, who was widow of John D. Archbold, to homes and hospitals, $125,000.

Cleveland H. Dodge to Robert College, Constantinople, $50,000, conditioned on equal amount being raised.

Widow of J. H. Eastwood, Belleville, N. J., to Newark charitable institutions, $600,000; $30,000 to found a library in Chatham.

A war veteran, Jas. F. Gallagher, of Coeur d'Alene, Idaho, to Salvation Army and Knights of Columbus, each $25,000

Gen. Rush C. Hawkins to Norwich University, Vt., $400,000; to Actors' Fund $200,000; to S. P. C. A. $100,000, to Brown U. $100,000; to University of Vermont, $100,000.

Mrs. E. V. D. Hazleton to N. Y. institutions, $100,000.

A. A. Healy to Brooklyn Institute of Arts and Sciences $120,000.

Amos F. Holden of Newburgh, N. Y., $250,000 to found Home for Aged Women.

Mrs. Annie Hurt, widow of Henry Hurt to American Surety and Trust Co. of Washington, D. C., $500,000, for erection and maintenance of home for blind; and $500,000 to be distributed equally to Children's and Sibley Memorial Hospitals, Home for Incurables, House of Mercy and Washington City Orphans' Asylum.

Felix M. Warburg to Trustees for Teachers' College to found Chair of Civic Education in memory of Jacob H. Schiff.

Mrs. H. H. Jenkins to Trustees of Teachers' College, $50,000 for endowment of Department of Nursing.

Geo. F. Johnson, Binghamton, N. Y., park tract valued at $125,000, to Binghamton; $50,000 each to American Legion posts in Johnson City and Endicott.

C. Fred Johnson $100,000 cash to village of Johnson City.

R. M. Judson, New Canaan, Conn., large part of $1,000,000 estate to Yale University for buildings.

Mrs. W. W. Kimball, Chicago, $100,000 trust fund for newsboys and bootblacks; and art collection valued at $1,000,000 to the Art Institute.

Edward A. Kerks, N. Y., to Trudeau Sanitarium $50,000.

Adolph Lewisohn $150,000 for Mt. Sinai Pathological Laboratory.

Miss Agnes M. Lincoln, Cincinnati, $50,000 the Pope to save delinquents.

T. F. and H. E. Manville $100,000 toward completion of New Fifth Avenue Hospital.

Miss C. E. Mason, founder and principal of Castle School for Girls at Tarrytown, to Board of Trustees its property including ten buildings, with $250,000 and all of its preferred stock.

Paul G. McIntire, Charlottesville, W. Va., $20,000 to establish a department of Commerce & Finance.

John McMullen, Norwalk, Conn., to Cornell University, $1,000,000.

A. W. Mellon, Secretary of Treasury and brother R. B. Mellon, to University of Pittsburgh, a plot of 14 acres valued at $1,500,000.

Hiram F. Mills of Hingham, Mass., to Harvard University, $200,000, for investigation of origin and cure of cancer.

Nathaniel Myers, N. Y., $1,000 each to about 30 N. Y. homes, asylums, hospitals and educational institutions.

Miss Elizabeth A. Osgood to Roosevelt Hospital $407,800.

Miss Emily F. Southmayd, N. Y., about $1,500,000 equally to Grace P. E. Church, Children's Aid Society, Roosevelt Hospital, St. Luke's Hospital and Society of New York Hospital; over $500,000 to various other N. Y. homes, asylums, hospitals etc.

Jonathan M. Parmenter, a farmer of Wayland, Mass., $225,000 for water supply system for Wayland; $200,000 for building of a hospital at Wayland.

Drs. J. Frank Schamberg, John A. Kolmer and Prof. Geo. M. Raiziss, all of faculty of University of Pennsylvania, donate $375,000 cash and $125,000 in equipment to Dermatological research laboratori

Mrs. Geo. M. Pullman to Pullman Free Manual Training School $250,000.

Annie Louise Carey (Mrs. C. M. Raymond) to Norwalk, Conn., to People's Symphony of N. Y. $50,000.

American Red Cross to American Legion $100,000 to Federal Board for Vocational Education to provide recreation for war veterans, $175,000.

Mrs. J. F. Rogers, Brooklyn, to missions, homes etc., $50,000.

Edmond de Rothschild 10,000,000 francs to endow scientific research institute in France.

Rev. H. M. Sanders $150,000 to Vassar College physics laboratory; $145,000 to other educational and religious institutions.

Miss Anna M. Sandham $31,871 to Rutgers College $118,000 to other public organizations.

Mrs. Sophie Scheftel, N. Y., to Jewish benevolences $50,000.

Mrs. J. P. Schenkl, Kingston, N. Y., left most of estate to establish home for gentlewomen in Poston.

Mrs. Jacob H. Schiff $300,000 to establish Visiting Nurse Service as a memorial to Mr. Schiff.

Mrs. Jefferson Seligman to charities $108,500.

Roger C. Sullivan, Chicago, fund to establish scholarship in American Universities for Chicago youth.

C. H. Tenney, N. Y., $50,000 each to Seminary and Female College at Tilton, N. H.; Boston University and the Lawrence, Mass., General Hospital.

M. C. Treat, Pasadena, Cal., to American Baptist Home Mission Society, a fund of $1,650,000.

Alfred Tredwell White, Brooklyn, charity fund $508,500; of this $168,000 to Brooklyn Bureau of Charities, $186,000 to Visiting Nurses' Association of Brooklyn.

Philip Waldheim $75,000 for public forum in Hoboken, N. J.

John Wanamaker, Phila., fund to Y. M. C. A. to erect a building in Moscow.

H. R. C. Watson of Rutland, Vt., and Paris, France, $130,000 to New York institutions.

BENEFACTIONS OF 1921—*Continued.*

Geo. W. Watts, Durham, N. C., $200,000 to Watts ospital; $150,000 to First Presbyterian Church of rham.
John C. Webster, Hartford, Conn., to charity ganization of Hartford, $100,000.
Mr. and Mrs. W. A. Wieboldt $4,500,000 fund to icago charitable corporations.
Mrs. G. B. Wright to Duxbury, Mass., library 0,000; to N. Y. Probationary and Protective Asso- tion, $50,000; to Harvard University, $473,800.
Rockefeller Foundation—University of Brussels, ,000,000; Medical School of Columbia University, ,000,000; Public Health School of Harvard Univer- y, $2,160,000; Institute of Public Health in Prague, echo-Slovakia, 27,000,000 crowns: McGill Univer- y, $1,000,000. Pledges of $1,000,000 to the iversity of Toronto, and $500,000 to the University Manitoba, made in 1920 were not included in the MANAC's 1920 list
A. Barton Hepburn, New York City, added, in c., 1921, it was announced, nearly $500,000 to the dowment fund of the Hepburn Hospital, at Ogdens- rg, N. Y. Previously he had donated $460,000 to e same fund.
General Education Board—Chief appropriations the fiscal year 1920-21: For Medical Schools or partments: Albany Medical School, Medical Department of Union College, Albany, N. Y., $60,000; Baylor University, Dallas, Tex., $30,000; Columbia University (College of Physicians and Surgeons), N. Y. City, $1,000,000; Emory University, Atlanta, Ga., $40,000; Johns Hopkins University, Baltimore, Md., $3,000,000; Tulane University, New Orleans, La., $904,375; University of Cincinnati, Cincinnati; Ohio, $700,000; University of Colorado, Denver, Col.; $50,000; University of Georgia, Augusta, Ga., $50,000; University of Oregon, Eugene, Ore., $163,269.50; Vanderbilt University, Nashville, Tenn., $1,500,000; Yale University, New Haven, Conn., $185,000. Total, $7,682,644.50.

To Colleges and Universities for Teachers' Salaries $18,205,353.50. For co-operation with State Universities and State Departments of Education in Southern States in the Field of Secondary and Rural Education, $271,210; Lincoln School—New building, approximately, $1,000,000; current expenses, $125,000,.

For educational surveys, $143,000; for negro education: For colleges and schools, $646,000; medical Schools, $170,000; county training schools, $128,000; supervising Industrial teachers of the Jeanes Foundation, $131,500; critic teachers, $12,000; miscellaneous purposes, $47,200. Total, $1,134,700.

Total, all appropriations, $28,561,908.

BRONX COUNTY DEMOCRATIC EXECUTIVE COMMITTEE.

thur H. Murphy, Chairman; Dr. K. S. Kennard, Secretary; James A. McMahon, Recording Secretary; Daniel J. Carr, Treasurer.

rst—James F. Geraghty, 475 E. 141st St.; Cath- rine Goodwin, 479 E. 141st St.; James W. Brown, 371 Willis Ave.; May Skiffington, 354 E. 135th St.

cond—Earl H. Miller, 834 Eagle Ave.; Mary Clark, 833 Washington Ave.

ird—Vacant.

urth—Stephen A. Nugent, 1115 Boston Road; Helen McRedmond, 1061 Tinton Ave.

Fifth—John J. Daly, 945 E. 163d St.; Sarah Friedman, 962 Whitlock Ave.
Sixth—Thomas H. O'Neil, 2577 Poplar St., Margaret Behan, 558 Van Nest Ave.
Seventh—Charles F. Griffin, 749 Oakland Place; Mary E. Shea, 2160 Crotona Ave.
Eighth—Charles A. Buckley, 2233 Creston Ave.; Edna Standish, 2746 Decatur Ave.
Ninth—Albert H. Liebenau, 3492 Park Ave.; May Kennedy, 1253 Washington Ave.

BRONX COUNTY REPUBLICAN ORGANIZATION.

(The women are "coadjutors"; their addresses are those of the men.)

hard W. Lawrence, Chairman, 412 E. Tremont Ave.; Miss Florence W. Newbold, Coadjutor, 2411 Butler Place.

rst—A. D. Bunner, Executive Member, 2661 3d Ave.; Mrs. Henrietta Hahn, Coadjutor.
cond—Peter Wynne, Executive Member, 412 E. Tremont Ave.; Mrs. Elizabeth Back, Coadjutor.
ird—Alfred B. Simonds, Executive Member, 785 Westchester Ave.; Mrs. Alice E. Kinehan, Coadjutor.
urth—Ernest W. Bradbury, Executive Member, 1324 Franklin Ave.; Mrs. Sadie Bernard, Coadjutor.
fth—Harry B. Harris, Executive Member, 760 Prospect Ave.; Mrs. Mae Harris, Coadjutor.

Sixth—John J. Knewitz, Executive Member, 3547 Willett Ave.; Miss Florence W. Newbold, Coadjutor.
Seventh—Michael J. Reagan, Executive Member, 800 E. Tremont Ave.; Mrs. Elizabeth Barnett, Coadjutor.
Eighth—Thomas W. Whittle, Executive Member, 4778 3d Ave.; Mrs. Jennie E. Ziegler, Coadjutor.
Ninth—Samuel J. Joseph, Executive Member, 1029 E. 163d St.; Mrs. Hannah Weiss, Coadjutor.
Tenth—Charles Rathfelder, Executive Member, 409 E. 156th St.; Mrs. Charles Rathfelder, Coadjutor.

UNITED STATES GOVERNMENT LOANS TO FOREIGN COUNTRIES.

(As of August 3, 1921.)

Established credits and cash advances to foreign governments, pursuant to acts of April 24, 1917, Sept. 1917; April 4, 1918, and July 9, 1918, as at close of business Aug. 3, 1921.

SOLDIERS' HOMES.

NATIONAL HOME FOR DISABLED VOLUNTEER SOLDIERS.

President of the Board of Managers.....George H. Wood, National Military Home, Ohio

There are branches of the National Home at Dayton, Ohio; Milwaukee, Wis.; Togus, Me.; Hampton Va.; Leavenworth, Kan.; Santa Monica, Cal.; Marion, Ind.; Danville, Ill.; Johnson City, Tenn., and Hot Springs, S. D. The aggregate number of members cared for is about 25,000.

STATE HOMES FOR DISABLED VOLUNTEER SOLDIERS.

States.	Location.	States.	Location.	States.	Location.
California	Yountville.	Missouri	St. James.	Ohio	Sandusky.
Colorado	Monte Vista.	Montana	Columbus Falls.		Madison.
Connecticut	Noroton Heights	Nebraska	Burkett.	Oregon	Roseburg.
Idaho	Boise.		Milford.	Pennsylvania	Erie.
Illinois	Quincy.	N. Hampshire	Tilton.	Rhode Island	Bristol.
Indiana	Lafayette.	New Jersey	Kearny.	South Dakota	Hot Springs.
Iowa	Marshalltown.		Vineland.	Vermont	Bennington.
Kansas	Fort Dodge.	New York	Bath.	Washington	Orting.
Massachusetts	Chelsea.		Oxford.		Retsil.
Michigan	Grand Rapids.	North Dakota	Lisbon.	Wisconsin	Waupaca.
Minnesota	Minnehaha.	Oklahoma	Oklahoma City.	Wyoming	Buffalo.

UNITED STATES SOLDIERS' HOME FOR THE REGULAR ARMY.

The United States Soldiers' Home in the District of Columbia was established by an Act of Congress, approved March 3, 1851, for the relief and support of invalid and disabled soldiers of the Army.

Blank applications for admission may be obtained from the Board of Commissioners, U. S. Soldiers' Home, Washington, D. C. Inmates are comfortably lodged, fed and clothed and receive medical attendance and medicine, all without cost to them. Pensions and compensations are not forfeited to the Home.

There were on June 30, 1921, 840 resident beneficiaries; 58 on outdoor relief, 50 in St. Elizabeth's Hospital; 159 on furlough; and 59 at the Fitzsimons U. S. A. General Hospital, Denver, Col., for the treatment of tuberculosis, making a total of 1,166.

Governor—Major Gen. Tasker H. Bliss (retired) *Dep. Governor*—Major Parker W. West (retired). *Secretary-Treasurer*—Brig. Gen. I. W. Littell (retired), U. S. A. *Attending Surgeon*—Col. H. P. Birmingham (retired), U. S. A.

RULERS OF THE WORLD.

The date of birth, when known, is in parentheses.

Country.	Name of Ruler, Etc.	Access'n.
Abyssinia	Walzeru Zauditu (1876), *Empress*, daughter of Menelik	1917
Afghanistan	Amanullah Khan (1892), *Amir*, son of Habibull h	1919
Albania	Provisional government, under the Allies	
Argentina	Hipolito Irigoyen, *President;* term, six years	1916
Australia	Lord H. W. Forster, *Governor-General*	1920
Austria	Dr. Richard Weiss Kirchner, *President, National Assembly*	1921

Bolivia	Dr. Bautista Saavedra, *Provisional President;* term, four years	1921
Brazil	Dr. Epitacio Pessoa (1865), *President;* term, four years	1919
Bulgaria	Boris III. (1894), *Czar*, son of Ferdinand	1918
Cambodia	Sisoweth, *King* (French protectorate)	1904
Canada	Gen. Lord Byng, *Governor-General*	1921
Central American Republics, Fed. of Guatemala, Honduras, and Salvador	Administered by board of three Councillors—F. M. Suarez (Salvador), Polycarp Bonillao (Honduras), and Dr. Julio Bianchi (Guatemala)	1921
Chile	Arturo Alessandri, *President;* term, five years	1920
China	Hsu-Shi-Chang (1853), *President*	1918
Colombia	Gen. Jorge Holguin, *Provisional;* term, four years	1921
Costa Rica	Julio Acosta Garcia, *President;* term, four years	1920
Cuba	Dr. Alfredo Zayas, *President;* term, four years	1921
Czecho-Slovakia	Thomas G. Masaryk (1850), *President*	1918
Danzig	Gen. Sir Richard Haking, *High Commissioner*	1921
Denmark	Christian X. (*1870*), *King*, son of Frederik VIII	1912
Dominica	Dr. F. H. y Caravajal, *Pres.;* term, 6 years (under U.S. milit. control)	1916
Ecuador	Dr. Jose Tamayo, *President;* term, four years	1920
Egypt	Fuad I. (1868), *Sultan* (under Brit. control)	1917
Esthonia	Constantine Paets, *State Head*	1920
Finland	Prof. K. J. Stahlberg (1865), *President;* term, six years	1919
Fiume	Prof. Riccardo Zanella, *President*	1921
France	Alexandre Millerand (1859). He succeeded Paul Deschanel (1856), elected and resigned; *President;* term, seven years	1920
Georgia	N. Jordania, *President*	1920
Germany	Friedrich Ebert (1870), *President;* term, seven years	1919
Greece	Constantine, *King*	1921
Guatemala	*President;* term, six years	
Hayti	P. S. Dartiguenave, *President* (under American quasi-protectorate)	1915
Hedjaz	Husein Ibn Ali *King* (Emir)	1916
Honduras	Gen. R. L. Gutierrez, *President;* term, four years	1920
Hungary	Admiral Nicholas von Horthy, *Regent*	1920
India (British)	The Earl of Reading, *Viceroy*	1921
Italy	Victor Emmanuel III. (1869), *King*, son of Humbert I	1900
Japan	Yoshihito (1879), *Mikado*, Crown Prince Hirohito, *Regent*	1912
Jugo-Slavia—(See Serbs, Croats and Slovenes, Kingdom of)		
Latvia	K. Ulmanis, *Premier*	1920
Liberia	Charles D. B. King, *President;* term, four years	1920
Liechtenstein	John II. (1840), *Prince*	1858
Lithuania	A. Stulginskis, *Acting President*	1921
Luxemburg	Charlotte (1896), *Grand Duchess*	1919
Mesopotamia	Feisal I, *King*	1921
Mexico	Gen. Alvaro Obregon, *President;* term, four years	1920
Monaco	Albert (1848), *Prince*, son of Charles III	1889
Montenegro	Queen Milena, *Regent*	1921
Morocco	Mulai Yusef, *Sultan*, son of Mulai-Hassan	1912
Nepal	Tribhubana Bir Bikram (1906), *Shah*	1911
Netherlands	Wilhelmina (1880), *Queen*, daughter of William III	1890
Newfoundland	Sir C. A. Harris, *Governor;* M. P. Cashin, *Prime Minister*	
New Zealand	Viscount Jellicoe, *Governor-General;* W. F. Massey, *Premier*	1921
Nicaragua	Gen. Emiliano Chamorro, *President;* term, four years	1916
Norway	Haakon VII. (1872), *King*, son of Frederik VIII. of Denmark	1905
Oman	Seyyid Taimur, *Sultan*, son of Seyyid Feysil	1913
Palestine	Governed by British *High Commissioner*	1920
Panama	Dr. Belisario Porras, *President;* term, four years	1920
Paraguay	Felix Paiva, *President;* term, four years	1921
Persia	Ahmed Mirza (1898), *Sultan* (Shah), son of Mohammed Ali	1909
Peru	Agusto B. Legula, *President;* term, four years	1919
Poland	Joseph Pilsudski (1867), *President*	
Portugal	Dr. Antonio J. d'Almeida (1865), *President;* term, four years	1919
Prussia	Herr Adam Stegerwald, *Premier*	1921
Rome, See and Church	Benedict XV. (1854), *Pope*	1914
Roumania	Ferdinand I. (1865), *King*, nephew of late King Carol	1914
Russia	Governed by a Soviet Cabinet, by Lenin and Trotzky	1918
Salvador	Jorge Melendez, *President;* term, four years	1919
Serbs, Croats and Slovenes, Kingdom of	Alexander, son of King Peter. (Peter died Aug. 16, 1921.)	1921
Siam	Chao Fa Maha Vajiravudh (1881), *King*, son of Chulalongkorn I	1910
South Africa, Union of	Prince Arthur of Connaught, *Governor-General*	1920

Panama—Ricardo J. Alfaro (Interior and Justice).
Peru—Dr. Alberto Salomon (Foreign).
Uruguay—Dr. Gabriel Terra (Interior).
Venezuela—Ignacio Andrade (Foreign).

The new Republic of Central America comprises the states of Guatemala, El Salvador and Honduras.

THE FEDERAL MATERNITY BILL.

(By the Children's Bureau, U. S. Dept. of Labor.)

On the day before Thanksgiving, 1921, President Harding signed the Maternity Bill, providing for Federal co-operation with the States in promoting the welfare of maternity and infancy. After more than three years of struggle, the bill was passed by both houses of Congress by overwhelming votes. The Children's Bureau of the U. S. Department of Labor is given the administration of the act, and the Chief of the Children's Bureau is made the executive officer. A Board of Maternity and Infant Hygiene, consisting of the Chief of the Children's Bureau, the Surgeon General of the U. S. Public Health Service, and the United States Commissioner of Education, is given certain powers of review and approval. A total appropriation of $1,480,000 is authorized for the current fiscal year, and an appropriation of $1,240,000 for each of five years thereafter. Except for a very small percentage to be used for administrative purposes, the money is to be divided among the States accepting the provisions of the act, to be used, together with State funds, for promoting the welfare and hygiene of maternity and infancy.

So eagerly was the passage of this bill awaited that at least six States in the 1921 sessions of their legislatures passed laws accepting the act, if it should become a law, and authorizing a State board or division to co-operate with the Federal Government. These States include Delaware, Minnesota, New Hampshire, New Mexico, Pennsylvania, and South Dakota. The rest of the States will not have to wait until the next regular session of their Legislatures, for the law provides that if the Legislature has not acted, the Governor may, in so far as the laws of his State permit, accept the provisions of the act and authorize a State agency to co-operate with the Children's Bureau until the Legislature has had opportunity to act. More than 30 States have child welfare or child hygiene divisions in their State Boards of Health, and in these States the law provides that its administration shall be in the hands of these divisions. Any State desiring to benefit from the act must submit to the Children's Bureau detailed plans for its administration, and these plans are subject to approval of the Federal Board of Maternity and Infant Hygiene.

How much money will a State accepting the act receive from the Federal Government to be used in making maternity and infancy more safe? In the first place, $10,000 the first year, and $5,000 a year thereafter will be paid each State indicating its desire to co-operate. An additional $5,000 will be paid providing the State appropriates $5,000 of its own for the same purpose. That makes a total of $15,000 the first year and $10,000 a year for each year thereafter available from Federal funds to each State regardless of its size. In addition $710,000 a year is provided to be distributed among the States on the basis of population, providing the amounts thus apportioned are matched by State appropriations.

The act contains specific clauses protecting parents in their right to liberty of action, and providing that the States shall take the initiative in preparing and carrying out plans.

THE IRISH FREE STATE.

Following is the text of the agreement between Great Britain and Ireland, signed and made public at London, Dec. 6, 1921:

Article I.—Ireland shall have the same constitutional status in the community of nations known as the British Empire as the Dominion of Canada, the Commonwealth of Australia, the Dominion of New Zealand and the Union of South Africa, with a Parliament having powers to make laws for peace and order and good government in Ireland, and an executive responsible to that Parliament, and shall be styled and known as the Irish Free State.

Article II.—Subject to provisions hereinafter set out, the position of the Irish Free State in relation to the Imperial Parliament, the Government and otherwise shall be that of the Dominion of Canada, and the law, practice and constitutional usage governing the relationship of the Crown or representative of the Crown and the Imperial Parliament to the Dominion of Canada shall govern their relationship to the Irish Free State.

Article III.—A representative of the Crown in Ireland shall be appointed in like manner as the Governor General of Canada and in accordance with the practice observed in making such appointments.

THE OATH OF ALLEGIANCE.

Article IV.—The oath to be taken by members of the Parliament of the Irish Free State shall be in the following form:

"I do solemnly swear true faith and allegiance to the Constitution of the Irish Free State as by law established, and that I will be faithful to His Majesty King George V. and his heirs and successors by law, in virtue of the common citizenship of Ireland with Great Britain and her adherence to and membership of the group of nations forming the British Commonwealth of nations.

Article V.—The Irish Free State shall assume liability for service of the public debt of the United Kingdom as existing at the date thereof and toward the payment of war pensions as existing upon that date, in such proportion as may be fair and equitable, having regard for any just claims on the part of Ireland by way of set off or counter claim, the amount of such sums being determined, in default of agreement, by the arbitration of one or more independent persons being citizens of the British Empire.

Article VI.—Until an arrangement has been made between the British and Irish Governments whereby the Irish Free State undertakes her own coastal defense, defense by sea of Great Britain and Ireland shall be undertaken by His Majesty's imperial forces, but this shall not prevent the construction or maintenance by the Government of the Irish Free State of such vessels as are necessary for the protection of the revenue or the fisheries. The foregoing provisions of this article shall be reviewed at a conference of representatives of the British and Irish Governments, to be held at the expiration of five years from the date hereof, with a view to the undertaking by Ireland of a share in her own coastal defense.

HARBOR FOR DEFENSE.

Article VII.—The Government of the Irish Free State shall afford to His Majesty's imperial force (A) in time of peace such harbor and other facilities as are indicated in the annex thereto, or such other facilities as may from time to time be agreed between the British Government and the Government of the Irish Free State, and (B) in time of war or of strained relations with a foreign power such harbor and other facilities as the British Government may require for the purposes of such defense, as aforesaid.

Article VIII.—With a view to securing observance of the principle of international limitation of armaments, if the Government of the Irish Free State establishes and maintains a military defense force the establishment thereof shall not exceed in size such proportion of the military establishments maintained in Great Britain as that which the population of Ireland bears to the population of Great Britain.

Article IX.—The ports of Great Britain and the Irish Free State shall be freely open to the ships of the other country on the payment of the customary port and other dues.

Article X.—The Government of the Irish Free State agrees to pay fair compensation, on terms not less favorable than those accorded by the act of 1920, to Judges, officials, members of the police forces and other public servants who are discharged by it or who retire in consequence of the change of Government effected in pursuance of the hereof paragraph:

Provided that this agreement shall not apply to members of the auxiliary police force or persons recruited in Great Britain for the Royal Irish Constabulary during the two years next preceding the date hereof. The British Government will assume responsibility for such compensation or pensions as may be payable to any of these excepted persons.

PROTECTION FOR ULSTER.

Article XI.—Until the expiration of one month from the passing of the Act of Parliament for the ratification of this instrument the powers of the Parliament and Government of the Irish Free State shall not be exercisable as respects Northern Ireland, and the provisions of the Government of Ireland Act of 1920 shall, so far as they relate to Northern Ireland, remain of full force and effect, and no election shall be held for the return of members to serve in the Parliament of the Irish Free State for the constituencies of Northern Ireland unless a resolution is passed by both Houses of Parliament of Northern Ireland in favor of holding such elections before the end of said month.

Article XII.—If before the expiration of said month an address is presented to His Majesty by both Houses of Parliament of Northern Ireland to that effect, the powers of the Parliament and Government of the Irish Free State shall no longer extend to Northern Ireland and the provisions of the Government of Ireland Act of 1920 (including those relating to the Council of Ireland) shall, so far as they relate to Northern Ireland, continue to be of full force and effect and this instrument shall have effect, subject to the necessary modifications:

Provided that if such an address is so presented, a commission, consisting of three persons, one to be appointed by the Government of the Irish Free State, one to be appointed by the Government of Northern Ireland and one, who shall be Chairman, to be appointed by the British Government, shall determine in accordance with the wishes of the inhabitants, so far as may be compatible with economic and geographic conditions, the boundaries between Northern Ireland and the rest of Ireland, and for the purposes of the Government of Ireland Act of 1920 and of this instrument the boundary of Northern Ireland shall be such as may be determined by such commission.

Article XIII.—For the purpose of the last foregoing article the powers of the Parliament of Southern Ireland under the Government of Ireland Act of 1920, to elect members of the Council of Ireland, shall after the Parliament of the Irish Free State is constituted be exercised by that Parliament.

FREEDOM FOR THE NORTH.

Article XIV.—After the expiration of said month, if no such address as mentioned in Article XII. hereof is presented, the Parliament of the Government of Northern Ireland shall continue to exercise as respects Northern Ireland the powers conferred upon them by the Government of Ireland Act of 1920, but the Parliament of the Government of the Irish Free State shall in Northern Ireland have in relation to matters in respect of which the Parliament of Northern Ireland has not the power to make laws under that act (including matters which under said act are within the jurisdiction of the Council of Ireland) the same powers as in the rest of Ireland, subject to such other provisions as may be agreed to in the manner hereinafter appearing.

Article XV.—At any time after the date hereof the Government of Northern Ireland and the Provisional Government of Southern Ireland, hereinafter constituted, may meet for the purpose of discussing provisions,

THE IRISH FREE STATE—*Continued.*

subject to which the last of the foregoing article is to operate in the event of no such address as is therein mentioned being presented, and those provisions may include:

(A) Safeguards with regard to patronage in Northern Ireland.
(B) Safeguards with regard to the collection of revenue in Northern Ireland.
(C) Safeguards with regard to import and export duties affecting the trade and industry of Northern Ireland.
(D) Safeguards for the minorities in Northern Ireland.
(E) Settlement of financial relations between Northern Ireland and the Irish Free State.
(F) Establishment and powers of a local militia in Northern Ireland and the relation of the defense forces of the Irish Free State and of Northern Ireland respectively.

And if at any such meeting provision are agreed to, the same shall have effect as if they were included among the provisions subject to which the powers of Parliament and the Government of the Irish Free State are to be exercisable in Northern Ireland under Article XIV. hereof.

NO STATE CHURCH ALLOWED.

Article XVI.—Neither the Parliament of the Irish Free State nor the Parliament of Northern Ireland shall make any law so as either directly or indirectly to endow any religion or prohibit or restrict the free exercise thereof, or give any preference or impose any disability on the account of religious belief or religious status, or affect prejudicially the right of any child to attend school receiving public money, without attending the religious instruction of the school, or make any discrimination as respects state aid between schools under the management of the different religious denominations, or divert from any religious denomination or any educational institution any of its property except for public utility purposes and on the payment of compensation.

Article XVII.—By way of provisional arrangement for the administration of Southern Ireland during the interval which must elapse between the date hereof and the constitution of a Parliament and a Government of the Irish Free State in accordance therewith, steps shall be taken forthwith for summoning a meeting of the members of Parliament elected for the constituencies in Southern Ireland since the passing of the Government of Ireland Act in 1920 and for constituting a Provisional Government. And the British Government shall take steps necessary to transfer to such Provisional Government the powers and machinery requisite for the discharge of its duties, provided that every member of such Provisional Government shall have signified in writing his or her acceptance of this instrument. But this arrangement shall not continue in force beyond the expiration of twelve months from the date hereof.

Article XVIII.—This instrument shall be submitted forthwith by His Majesty's Government for the approval of Parliament and by the Irish signatories to a meeting summoned for the purpose of members elected to sit in the House of Commons of Southern Ireland, and if approved it shall be ratified by the necessary legislation.

The agreement was signed on behalf of the British delegation by Lloyd George, Austen Chamberlain, Birkenhead, Winston Churchill, Worthington-Evans, Hamar Greenwood, Gordon Hewart.

Those of the Irish delegation who signed were Art of Griobhtha (Arthur Griffith), Michael O. O. Sliesin (Michael Collins), Riobard Bartun (Robert C. Barton), E. S. Dugan (Eamon J. Duggan), Seorsa Ghabgain Ui Dhubhthaigh (George Gavan Duffy).

PROVISION FOR NAVY.

An annex is attached to the treaty. Clause 1 specifies that admiralty property and rights at the dock yard port of Berehaven are to be retained as at present date and the harbor defenses and facilities for coastal defense by air at Queenstown, Belfast Lough and Loughswilly to remain under British care.

Clause 2 provides that submarine cables shall not be landed or wireless stations for communication with places outside of Ireland established and that existing cable rights and wireless concessions shall not be withdrawn except by agreement with the British Government, and that the British Government shall be entitled to land additional submarine cables or establish additional wireless stations for communication with places outside of Ireland.

Clause 3 provides that a convention shall be made between the two Governments for the regulation of civil communication by air.

SERGEANT SAMUEL WOODFILL, WAR HERO.

GEN. PERSHING, after a search among the World War records, selected Sergt. Thomas Woodfill as the soldier of "outstanding heroism" who should serve as the Infantry's body bearer at the burial of America's unknown soldier, Nov. 11, Armistice Day, at Arlington National Cemetery, near Washington.

Sergt. Woodfill's citation read:

"For conspicuous gallantry and intrepidity above and beyond the call of duty in action with the enemy at Cunel, France, Oct. 12, 1918. While he was leading his company against the enemy his line came under heavy machine-gun fire which threatened to hold up the advance. Followed by two soldiers at twenty-five yards, this officer went out ahead of his first line toward a machine-gun nest and worked his way around its flank, leaving two soldiers in front. When he got within ten yards of the gun it ceased firing, and four of the enemy appeared, three of whom were shot by Sergt. Woodfill. The fourth, an officer, rushed at Sergt. Woodfill, who attempted to club the officer with his rifle. After a hand-to-hand struggle Sergt. Woodfill killed the officer with his pistol. His company thereupon continued to advance, until shortly afterward another machine-gun nest was encountered.

"Calling on his men to follow Sergt. Woodfill rushed ahead of his line in the face of heavy fire from the nest, and when several of the enemy appeared above the nest he shot them, capturing three other members of the crew and silencing the gun. A few minutes later this officer, for the third time demonstrated conspicuous daring by charging another machine-gun position, killing five men in one machine-gun pit with his rifle. He then drew his revolver and started to jump into the pit when two other gunners, only a few yards away, turned their gun on him.

"Failing to kill them with his revolver he grabbed a pick lying nearby and killed both of them. Inspired by the exceptional courage displayed by this officer, his men pressed on to their objective under severe shell and machine-gun fire."

Sergt Woodfill's promotion to a Captaincy was the result of this exploit. He also received, in addition to the Congressional Medal, the Legion of Honor (Cavelier) and the Croix de Guerre, with palm.

Sergt. Woodfill received the Congressional Medal of Honor, and was twice decorated by France, and once by Montenegro. He has been in the Regular Army for twenty years, was commissioned as Lieutenant in the war, and was promoted to Captain for heroism. He was a Sergeant at Fort Thomas, after the World War.

YORK AND WHITTLESEY.

Of the three soldiers mentioned by Gen. Pershing in the report the name of Samuel Woodfill appears first. The other two already were well known throughout the country—Sergt. Alvin C. York and Major Charles W Whittlesey.

Sergt. York is officially credited with having killed twenty-five Germans and captured one hundred and thirty-two, including a major and three lieutenants; he put thirty-five machine guns out of commission.

Major Whittlesey, who disappeared from a steamer on the way to the West Indies, Nov. 19, 1921, was the commanding officer of the "Lost Legion"—a battalion that took part in the Argonne Forest drive and broke through the German lines on Oct. 2, 1918. They were cut off, until Oct. 7, from the American forces. When rescued, only 252 of the battalion were left out of 679 officers and men.

THE MONROE DOCTRINE.

THE Monroe Doctrine dates from a declaration of December 2, 1823, by James Monroe, President of the United States, in his seventh annual message to Congress. Brazil had declared its independence of Portugal the year before. Troubles in the latter country had caused a modification of the Constitution. In Spain a revolution had occurred, and the dominion of Peru was lost. The Holy Alliance, formed in 1815 by Russia, Austria and Prussia, was threatening, so it was alleged, to help Spain recover its control in South America. Russia and the United States were in controversy over their Pacific Coast boundaries. Mr. Monroe in his message took up the Russian matter first, saying:

"In the discussions to which this interest has given rise, and in the arrangements by which they may terminate, the occasion has been judged proper for asserting, as a principle in which the rights and interests of the United States are involved, that the American continents, by the free and independent condition which they have assumed and maintain, are henceforth not to be considered as subjects for future colonization by any European powers."

The President then spoke of Spain and Portugal in this wise:

"Of events in that quarter of the globe with which we have so much intercourse and from which we derive our origin we have always been anxious and interested spectators. The citizens of the United States cherish sentiments the most friendly in favor of the liberty and happiness of their fellowmen on that side of the Atlantic. In the wars of the European powers, in matters relating to themselves, we have never taken any part, nor does it comport with our policy so to do. It is only when our rights are invaded or seriously menaced that we resent injuries or make preparation for our defence. With the movements in this hemisphere we are of necessity more immediately connected, and by causes which must be obvious to all enlightened and impartial observers. The political system of the allied powers is essentially different in this respect from that of America. This difference proceeds from that which exists in their respective Governments. And to the defence of our own, which has been achieved by the loss of so much blood and treasure, and matured by the wisdom of their most enlightened citizens, and under which we have enjoyed unexampled felicity, this whole nation is devoted. We owe it, therefore, to candor and to the amicable relations existing between the United States and those powers to declare that we should consider any attempt on their part to extend their system to any portion of this hemisphere as dangerous to our peace and safety.

"With the existing colonies or dependencies of any European power we have not interfered and shall not interfere. But with the Governments who have declared their independence and maintained it, and whose independence we have, on great consideration and on just principles, acknowledged, we could not view any interposition for the purpose of oppressing them, or controlling, in any other manner, their destiny, by any European power, in any other light than as the manifestation of an unfriendly disposition towards the United States."

CLEVELAND'S DECLARATION IN 1895.

When President Grover Cleveland, in 1895, urged Great Britain to arbitrate her dispute over the boundary between Venezuela and British Guiana, he said (December 17) in a message to Congress:

"The doctrine "(Monroe) "upon which we stand is strong and sound because its enforcement is important to our peace and safety as a nation, and is essential to the integrity of our free institutions and the tranquil maintenance of our distinctive form of government. It was intended to apply to every stage of our national life, and cannot become obsolete while our Republic endures. If the balance of power is justly a cause for jealous anxiety among the Governments of the Old World and a subject for our absolute non-interference, none the less is an observance of the Monroe Doctrine of vital concern to our people and their Government. * * * If a European power, by an extension of its boundaries, takes possession of the territory of one of our neighboring republics against its will and in derogation of its rights, it is difficult to see why to that extent such European power does not thereby attempt to extend its system of government to that portion of this continent which is thus taken. This is the precise action which President Monroe declared to be 'dangerous to our peace and safety,' and it can make no difference whether the European system is extended by an advance of frontier or otherwise. * * * The Monroe Doctrine finds its recognition in those principles of international law which are based upon the theory that every nation shall have its rights protected and its just claims enforced."

PRESIDENT WILSON'S WORDS IN 1915.

President Wilson said of the Monroe Doctrine (December 7, 1915) in an address to a joint session of Congress: "There was a time in the early days of our own great nation and of the republics fighting their way to independence in Central and South America when the Government of the United States looked upon itself as in some sort the guardian of the republics to the south of her as against any encroachments or efforts at political control from the other side of the water; felt it its duty to play the part even without invitation from them; and I think that we can claim that the task was undertaken with a true and disinterested enthusiasm for the freedom of the Americas and the unmolested self-government of her independent peoples. But it was always difficult to maintain such a rôle without offence to the pride of the peoples whose freedom of action we sought to protect and without provoking serious misconceptions of our motives, and every thoughtful man of affairs must welcome the altered circumstances of the new day in whose light we now stand, when there is no claim of guardianship or thought of wards but, instead, a full and honorable association as of partners between ourselves and our neighbors, in the interest of all America, north and south.

"Our concern for the independence and prosperity of the states of Central and South America is not altered. We retain unabated the spirit that has inspired us throughout the whole life of our Government and which was so frankly put into words by President Monroe. We still mean always to make a common cause of national independence and of political liberty in America. But that purpose is now better understood so far as it concerns ourselves. It is known not to be a selfish purpose. It is known to have in it no thought of taking advantage of any Government in this hemisphere or playing its political fortunes for our own benefit. All the Governments of America stand, so far as we are concerned, upon a footing of genuine equality and unquestioned independence."

PRESIDENT HARDING'S WORDS IN 1921.

President Harding, April 19, 1921, at the unveiling of the Bolivar Statue, New York City, said:

"Having sacrificed in arms to establish the human inheritance belonging to free men, the American republics may well touch elbows to prove their unselfishness and show to mankind that righteous achievement does not mean anybody's destruction, individually or nationally, but that real victory lies in that human progress wherein every contender, individual or national, may share as it is sought to merit it.

"The doctrine proclaimed under Monroe, which ever since has been jealously guarded as a fundamental of our own Republic, maintained that these continents should not again be regarded as fields for the colonial enterprises of Old-World powers. There have been times when the meaning of Monroeism was misunderstood by some, perverted by others, and made the subject of distorting propaganda by those who saw in it an obstacle to the realization of their own ambitions. Some have sought to make our adhesion to this doctorine a justification for prejudice against the United States. They have falsely charged that we sought to hold the nations of the Old World at arm's length, in order that we might monopolize the privilege of exploitation for ourselves. Others have protested that the doctrine would never be enforced if to enforce it should involve us in actual hostilities.

"The history of the generations since that doctrine was proclaimed has proved that we never intended it selfishly; that we had no dream of exploitation. On the other side, the history of the last decade certainly must have convinced all the world that we stand willing to fight, if necessary, to protect these continents, these sturdy young democracies, from oppression and tyranny."

THE RESOLUTION OF WAR--1917.

(Public resolution No. 1, Sixty-fifth Congress. Senate joint resolution 1.)

AT the first session, begun and held at the city of Washington, on Monday, the 2d day of April, 1917.

Joint resolution (S. J. Res. 1) declaring a state of war exists between the Imperial German Government, and the Government and the people of the United States and making provisions to prosecute the same.

Whereas the Imperial German Government has committed repeated acts of war against the Government and the people of the United States of America: Therefore be it

Resolved, etc. That the state of war between the United States and the Imperial German Government which has thus been thrust upon the United States is hereby formally declared; and that the President be, and he is hereby, authorized and directed to employ the entire naval and military forces of the United States and the resources of the Government to carry on war against the Imperial German Government, and to bring the conflict to a successful termination all of the resources of the country are hereby pledged by the Congress of the United States.

THE PEACE RESOLUTION--1921.

THE Joint Resolution of Peace was passed by the House of Representatives on June 30, 1921 (263 to 59); and by the Senate (38 to 19) on July 1, 1921. It was signed by President Harding on July 2, 1921 (3.10 p. m.,) at Senator Frelinghuysen's home, Raritan, N. J.

The result was announced in the Senate, as follows: Yeas—38. Ball, Borah, Brandegee, Bursum, Cameron, Capper, Cummins, Curtis, Dillingham, Gooding, Johnson, Jones, Wash., Kenyon, La Follette, Lodge, McCumber, McKinley, McNary, Moses, New, Nicholson, Norris, Oddie, Poindexter, Shields, Shortridge, Smoot, Spencer, Sterling, Sutherland, Townsend, Wadsworth, Walsh, Mass., Warren, Watson, Ga., Watson Ind., Weller, Willis.

Nays—19. Ashurst, Broussard, Caraway, Fletcher, Gerry, Glass, Harris, Harrison, Heflin, Hitchcock, King, McKeller, Overman, Ransdell, Robinson, Sheppard, Smith, Swanson, Underwood.

Not Voting—39. Calder, Colt, Culberson, Dial, Edge, Elkins, Ernst, Fernald, France, Frelinghuysen, Hale, Harreld, Jones, N. Mex., Kellogg, Kendrick, Keyes, Knox, Ladd, Lenroot, McCormick, McLean, Myers, Nelson, Newberry, Norbeck, Owen, Page, Penrose, Phipps, Pittman, Pomerene, Reed, Simmons, Stanfield, Stanley, Trammell, Walsh, Mont., Williams, Wolcott.

TEXT OF THE PEACE RESOLUTION.

The text of the Peace Resolution is as follows:

Joint resolution (S. J. Res. 16) terminating the state of war between the Imperial German Government and the United States of America and between the Imperial and Royal Austro-Hungarian Government and the United States of America.

Resolved, etc., That the state of war declared to exist between the Imperial German Government and the United States of America by the joint resolution of Congress approved April 6, 1917, is hereby declared at an end.

SEC. 2. That in making this declaration, and as a part of it, there are expressly reserved to the United States of America and its nationals any and all rights, privileges, indemnities, reparations, or advantages, together with the right to enforce the same, to which it or they have become entitled under the terms of the armistice signed November 11, 1918, or any extensions or modifications thereof; or which were acquired by or are in the possession of the United States of America by reason of its participation in the war or to which its nationals have thereby become rightfully entitled; or which, under the treaty of Versailles, have been stipulated for its or their benefit; or to which it is entitled as one of the principal allied and associated powers; or to which it is entitled by virtue of any act or acts of Congress; or otherwise.

SEC. 3. That the state of war declared to exist between the Imperial Royal Austro-Hungarian Government and the United States of America by the joint resolution of Congress approved December 7, 191 is hereby declared at an end.

SEC. 4. That in making this declaration, and as a part of it, there are expressly reserved to the United States of America and its nationals any and all rights, privileges, indemnities, reparations, or advantages together with the right to enforce the same, to which it or they have become entitled under the terms of the armistice signed November, 3, 1918, or any extensions or modifications thereof; or which were acquired by or are in the possession of the United States of America by reason of its participation in the war or to which its nationals have thereby become rightfully entitled; or which, under the treaty of Saint Germain-en-Laye or the treaty of Trianon, have been stipulated for its or their benefit; or to which it is entitled as one of the principal allied and associated powers; or to which it is entitled by virtue of any act or acts of Congress; or otherwise.

SEC. 5. All property of the Imperial German Government, or its successor or successors, and of all German nationals which was, on April 6, 1917, in or has since that date come into the possession or under control of, or has been the subject of a demand by the United States of America or of any of its officers, agents, or employees, from any source or by any agency whatsoever, and all property of the Imperial and Royal Austro-Hungarian Government, or its successor or successors, and of all Austro-Hungarian nationals which was on December 7, 1917, in or has since that date come into the possession or under control of, or has been the subject of a demand by the United States of America or any of its officers, agents, or employees, from any source or by any agency whatsoever, shall be retained by the United States of America and no disposition thereof made except as shall have been heretofore or specifically hereafter shall be provided by law until such time as the Imperial German Government and the Imperial and Royal Austro-Hungarian Government, or their successor or successors, shall have respectively made suitable provision for the satisfaction of all claims against said Governments, respectively, of all persons wheresoever domiciled, who owe permanent allegiance to the United States of America and who have suffered, through the acts of the Imperial German Government, or its agents, or the Imperial and Royal Austro-Hungarian Government, or its agents, since July 31, 1914, loss, damage, or injury to their persons or property, directly or indirectly, whether through the ownership of shares of stock in German, Austro-Hungarian, American, or other corporations, or in consequence of hostilities or of any operations of war, or otherwise, and also shall have granted to persons owing permanent allegiance to the United States of America most-favored-nation treatment, whether the same be national or otherwise, in all matters affecting residence, business, profession, trade, navigation, commerce, and industrial property rights, and until the Imperial German Government and the Imperial and Royal Austro-Hungarian Government, or their successor or successors, shall have respectively, confirmed to the United States of America all fines, forfeitures, penalties, and seizures imposed or made by the United States of America during the war, whether in respect to the property of the Imperial German Government or German nationals or the Imperial and Royal Austro-Hungarian Government or Austro-Hungarian nationals, and shall have waived any and all pecuniary claims against the United States of America.

SEC. 6. Nothing herein contained shall be construed to repeal, modify, or amend the provisions of the joint resolution "declaring that certain acts of Congress, joint resolutions, and proclamations shall be construed as if the war had ended and the present or existing emergency expired," approved March 3, 1921, or the passport control provisions of an act entitled "An act making appropriations for the Diplomatic and Consular Service for the fiscal year ending June 30, 1922," approved March 2, 1921; nor to be effective to terminate the military status of any person now in desertion from the military or naval service of the United States, nor to terminate the liability to prosecution and punishment under the selective service law, approved May 18, 1917, of any person who failed to comply with the provisions of said act, or of acts amendatory thereof.

TREATY OF PEACE BETWEEN THE UNITED STATES AND GERMANY.

FOLLOWING is the text of the Treaty of Peace between the United States of America and the German Republic, signed at Berlin, August 25, 1921, by Ellis Loring Dresel, Commissioner for the United States, and by Dr. Friedrich Rosen, German Minister for Foreign Affairs.

"The United States of America and Germany:

"Considering that the United States, acting with its co-belligerents, entered into an armistice with Germany on Nov. 11, 1918, in order that a treaty of peace might be concluded;

"Considering that the Treaty of Versailles was signed on June 28, 1919, and came into force according to the terms of its Article 440, but has not been ratified by the United States;

"Considering that the Congress of the United States passed a joint resolution, approved by the President July 2, 1921, which reads in part as follows:

Resolved, by the Senate and House of Representatives of the United States of America in Congress assembled, That the state of war declared to exist between the Imperial German Government and the United States of America by the joint resolution Congress approved April 6, 1917, is hereby declared at an end.

Sec. 2. That in making this declaration, and as a part of it, there are expressly reserved to the United States of America and its nationals any and all rights, privileges, indemnities, reparations or advantages together with the right to enforce the same, to which it or they have become entitled under the terms of the armistice, signed Nov. 11, 1918, or any extensions or modifications thereof, or which were acquired by or are in the possession of the United States of America by reason of its participation in the war or to which its nationals have thereby become rightly entitled; or which, under the Treaty of Versailles, have been stipulated for its or their benefit or to which it is entitled as one of the principal Allied and Associated Powers; or to which it is entitled by virtue of any act or acts of Congress, or otherwise.

(Secs. 3 and 4 refer to Austria and are covered in the treaty with Hungary.)

Sec. 5. All property of the Imperial German Government, or its successor or successors, and of all German nationals which was, on April 6, 1917, in or has since that date come into possession or under control of, or has been the subject of a demand by the United States of America or of any of its officers, agents or employees, from any source or by any agency whatsoever, and all property of the Imperial and Royal Austro-Hungarian Government, or its successor or successors, and of all Austro-Hungarian nationals which was on Dec. 7, 1917, in or has since that date come into the possession or under control of, or has been the subject of a demand by the United States of America or any of its officers, agents or employees, from any source or by any agency whatsoever, shall be retained by the United States of America and no disposition thereof made, except as shall have been heretofore or specifically hereafter shall be provided by law, until such time as the Imperial German Government and the Imperial and Royal Austro-Hungarian Government, or their successor or successors, shall have respectively made suitable provision for the satisfaction of all claims against said Government respectively, of all persons, wheresoever domiciled, who owe permanent allegiance to the United States of America and who have suffered, through the acts of the Imperial German Government, or its agents, or the Imperial and Royal Austro-Hungarian Government, or its agents, since July 31, 1914, loss, damage or injury to their persons or property, directly or indirectly, whether through the ownership of shares of stock in German, Austro-Hungarian, American or other corporations, or in consequence of hostilities or of any operations of war, or otherwise, and also shall have granted to persons owing permanent allegiance to the United States of America most-favored-nation treatment, whether the same be national or otherwise, in all matters affecting residence, business, profession, trade, navigation, commerce and industrial property rights, and until the Imperial German Government and the Imperial and Royal Austro-Hungarian Government, or their successor or successors, shall have respectively confirmed to the United States of America all fines, forfeitures, penalties and seizures imposed or made by the United States of America during the war, whether in respect to the property of the Imperial German Government or German national or of the Imperial and Royal Austro-Hungarian Government or Austro-Hungarian nationals, and shall have solved any and all pecuniary claims against the United States of America.

"Being desirous of restoring the friendly relations existing between the two nations prior to the outbreak of war;

"Have for that purpose appointed their plenipotentiaries—

"The President of the United States of America, Ellis Loring Dresel, Commissioner of the United States of America to Germany, and

"The President of the German Empire, Dr. Friedrich Rosen, Minister for Foreign Affairs—

"Who having communicated their full powers, found to be in good and due form, have agreed as follows:

ARTICLE I.

"Germany undertakes to accord to the United States, and the United States shall have and enjoy, all the rights, privileges, indemnities, reparations or advantages specified in the aforesaid joint resolutions of the Congress of the United States of July 2, 1921, including all the rights and advantages stipulated for the benefit of the United States in the Treaty of Versailles, which the United States shall fully enjoy notwithstanding the fact that such treaty has not been ratified by the United States.

ARTICLE II.

"With a view to defining more particularly the obligations of Germany under the foregoing article with respect to certain provisions in the Treaty of Versailles, it is understood and agreed between the high contracting parties:

"(1). That the rights and advantages stipulated in that treaty for the benefit of the United States, which it is intended the United States shall have and enjoy, are those defined in section 1 of part 4, and parts 5, 6, 8, 9, 10, 11, 12, 14 and 15. The United States, in availing itself of the rights and advantages stipulated in the provisions of that treaty mentioned in this paragraph, will do so in a manner consistent with the rights accorded to Germany under such provision.

"(2). That the United States shall not be bound by the provisions of part I of that treaty, nor by any provisions of that treaty including those mentioned in paragraph I of this article, which relate to the covenant of the League of Nations, nor shall the United States be bound by any action taken by the League of Nations, or by the Councillor by the Assembly thereof, unless the United States shall expressly give its assent to such action.

"(3). That the United States assumes no obligations under or with respect to the provisions of part 2, part 3, sections 2 to 8 inclusive of part 4, and part 13 of that treaty.

"(4). That, while the United States is privileged to participate in the Reparation Commission, according to the terms of part 8 of that treaty, and in any other commission established under the treaty or under any agreement supplemental thereto, the United States is not bound to participate in any such commission unless it shall elect to do so.

"(5). That the periods of time to which reference is made in article 440 of the Treaty of Versailles, shall run, with respect to any act or election on the part of the United States, from the date of the coming into force of the present treaty.

ARTICLE III.

"The present treaty shall be ratified in accordance with the constitutional forms of the high contracting parties and shall take effect immediately on the exchange of ratifications, which shall take place as soon as possible at Berlin.

"In witness whereof, the respective plenipotentiaries have signed this treaty and have hereunto affixed their seals.

"Done in duplicate in Berlin this twenty-fifth day of August, 1921."

ILLITERACY IN BIG UNITED STATES CITIES.

(U. S. Census, 1920 returns. Illiterates are those 10 years old and over who cannot read or write.)

The pronounced differences between the percentages of illiteracy for the total population and for native whites which appear for many cities are due to the large proportions of illiterates among the foreign-born whites and the negroes, the former having a considerable effect upon the average percentages in the northern cities, and the latter in the southern cities. For example, in Fall River, Mass., where the illiteracy in the population 10 years of age and over was 11.9 per cent. for all classes combined, it was only 1 per cent. for the native, but was 25.5 per cent. for the foreign-born white. Again, in Birmingham, Ala., the percentage of illiteracy was 8.4 for the total population, 0.7 for the native whites, and 18.4 for the negroes.

UNITED DAUGHTERS OF THE CONFEDERACY.

President-General—Mrs. Livingston Rowe Schuyler, 520 W. 114th St., N. Y. City; *Vice Presidents*—Mrs. Frank Harrold, Americus, Ga.; Mrs. Bennett D. Bell, Nashville, Tenn.; Mrs. W. E. Massey, Hot Springs, Ark.; *Secretary*—Mrs. R. D. Wright, Newberry, S. C. There are over 100,000 members.

SPOKANE SHOWS LEAST PERCENTAGE OF ILLITERACY.

Among the cities having 100,000 inhabitants or more, the smallest proportion of illiteracy for the total population, eight-tenths of 1 per cent., is that for Spokane; for the native whites the smallest proportion, one-tenth of 1 per cent., appears for Boston, Cambridge, Hartford, Minneapolis, Seattle, and Spokane; for the foreign-born whites it is 3.3 for Spokane; and for the negroes, it is 1.9 for Grand Rapids, Rochester, and Seattle.

CONFERENCE ON LIMITATION OF ARMAMENT.

It was officially announced at Washington, on Dec. 15, 1921, that the United States, Great Britain, and Japan, had reached the following agreement with respect to their capital fighting ships:

"The proposal of the American Government that the ratio should be 5-5-3 is accepted. It is agreed that with respect to fortifications and naval bases in the Pacific region, including Hongkong, the status quo shall be maintained—that is, that there shall be no increase in these fortifications and naval bases except that at this restriction shall not apply to the Hawaiian Islands, Australia, New Zealand, and the islands composing Japan proper, or, of course, to the coasts of the United States and Canada, as to which the respective powers retain their entire freedom.

"The Japanese Government has found special difficulty with respect to the Mutsu, as that is its newest ship. In order to retain the Mutsu, Japan has proposed to scrap the Settsu, one of her older ships, which, under the American proposal, was to have been retained. This would leave the number of Japan's capital ships the same—that is, ten, as under the American proposal. The retention of the Mutsu by Japan in place of the Settsu makes a difference in net tonnage of 13,600 tons, making the total tonnage of Japan's capital ships 313,300 tons, as against 299,700 tons under the original American proposal.

"While the difference in tonnage is small, there would be considerable difference in efficiency, as the retention of the Mutsu would give to Japan two (2) post-Jutland ships of the latest design.

"In order to meet this situation and to preserve the relative strength on the basis of the agreed ratio, it is agreed that the United States shall complete two (2) of the ships in course of construction—that is, the Colorado and the Washington—which are now about 90 per cent. completed, and scrap two (2) of the older ships—that is, the North Dakota and the Delaware, which under the original proposal were to be retained. This would leave the United States with the same number of capital ships—that is, eighteen, as under the original proposal, with a tonnage of 525,850 tons, as against 500,650 tons, as originally proposed. Three (3) of the ships would be post-Jutland ships of the Maryland type.

"As the British have no post-Jutland ships, except one Hood, the construction of which is only partly post-Jutland, it is agreed that in order to maintain proper relative strength, the British Government may construct two (2) new ships not to exceed 35,000 legend tons each; that is, calculating the tonnage according to British standards of measurement, or, according to American calculations, the equivalent of 37,000 tons each. It is agreed that the British Government shall, on the completion of these two (2) new ships, scrap four (4) of their ships of the King George V. type; that is, the Erin, King George V., Centurion and Ajax, which were to have been retained under the original American proposal.

"This would leave the British capital ships in number, twenty, as against twenty-two under the American proposal. Taking the tonnage of the two (2) new ships according to American calculation, it would amount to 74,000, and the four ships scrapped having a tonnage of 96,400 tons, there would be a reduction in net tonnage of 22,400 tons, leaving the British tonnage of capital ships 582,050, instead of 604,450. This would give the British as against the United States an excess tonnage of 56,200 tons, which is deemed to be fair, in view of the age of the ships of the Royal Sovereign and the Queen Elizabeth types.

Replacement Tonnage.

"The maximum limitation for the tonnage of ships to be constructed in replacement is to be fixed at 35,000 legend tons—that is, according to British standards of measurement, or according to American calculations, the equivalent of 37,000 tons, in order to give accommodation to these changes. The maximum tonnage of capital ships is fixed, for the purpose of replacement, on the basis of American standards of calculation, as follows:

"United States, 525,000 tons; Great Britain, 523,000 tons; Japan 315,000 tons.

"Comparing this arrangement with the original American proposal, it will be observed that the United States is to scrap thirty ships, as proposed, save that there will be scrapped thirteen of the fifteen ships under construction and seventeen instead of fifteen of the older ships.

"The total tonnage of the American capital ships to be scrapped under the original proposal, including the tonnage of ships in construction if completed, was stated to be 845,740 tons. Under the present arrangement the tonnage of the thirty ships to be scrapped, taking that of the ships in construction if completed, would be 820,540 tons.

"The number of the Japanese ships to be retained remains the same as under the original proposal. The total tonnage of the ships to be scrapped by Japan under the original American proposal, taking the tonnage of the new ships when completed, was stated to be 448,923 tons. The total tonnage of the ships to be scrapped under the present arrangement is 435,328 tons.

Capital Ships to Be Scrapped.

"Under the original proposal Great Britain was to scrap nineteen capital ships (including certain pre-dreadnoughts already scrapped), whereas under the present arrangement she will scrap four more, or a total of twenty-three. The total tonnage of ships to be scrapped by Great Britain, including the tonnage of the four Hoods to which the proposal referred as laid down, if completed, was stated to be 583,375 tons. The corresponding total of scrapped ships under the new arrangement will be 22,600 tons more, or 605,975 tons.

"Under the American proposal there were to be scrapped sixty-six capital fighting ships built and building, with a total tonnage (taking ships laid down as completed) of 1,878,043 tons. Under the present arrangement, on the same basis of calculation, there are to be scrapped sixty-eight capital fighting ships with a tonnage of 1,861,643 tons.

"The naval holiday of ten years with respect to capital ships, as originally proposed by the American Government, is to be maintained except for the permission to construct ships as above stated.

"This arrangement between the United States, Great Britain, and Japan is, so far as the number of ships to be retained and scrapped is concerned, dependent upon a suitable agreement with France and Italy as to their capital ships, a matter which is now in course of negotiation."

THE IRISH FREE STATE.

Dec. 16, 1921, both Houses of the British Parliament ratified the treaty creating the Irish Free State.

FOUR-POWER PACIFIC TREATY.

Four-Power Pacific Treaty (U. S., Britain, France, Japan), was signed at Washington, Dec. 13, the U. S. delegates making written reservations as to Yap.

FOOTBALL.

Dec. 3—Penn State, 21, Washington, 7; Washington and Jefferson, 14, Detroit, 2; Alabama, 14, Tulane, 7; Louisiana State, 17, Mississippi A. and M., 14; North Carolina, 14, Florida, 0.

Anti-Saloon League of America—*President*, M. E. Bishop Thos. C. Nicholson of Chicago; *General Supt.*, Rev. P. A. Baker, Westerville, Ohio; *Secretary*, S. E. Nicholson, Richmond, Ind.

Aero Club of America—*President*, Benedict Crowell; *Executive Secretary*, Lieut.-Col. Harold E. Hartney.

At Constantinople, on Dec. 8, Archbishop Meletios Metaxakis.

Wool production in the U. S.—(1921) 224,564,000 lbs.; (1920) 235,005,000 lbs.

World's wheat crop of 1921 totalled 2,853,000,000 bushels, an increase of 190,000,000 bushels over 1920.

The American birth rate advanced 1.4 per 1,000 in 1920, as compared with 1919, the Census Bureau announced. The birth rate was 23.7 per 1,000 population in 1920, as compared with 22.3 in 1919. The rate in 1920 was 1.3 below the rate of 1916, a more normal year, as it preceded the influenza epidemic and the entrance of the United States into the war. The highest birth rate for the white population was reported for North Carolina, with 31.7, and the lowest for California, with 18.3.

DEATH RATE IN UNITED STATES REGISTRATION AREA, 1900-1918.

Crooked Spines Straightened!

NO matter how old you are: no matter what caused your affliction; no matter how many years you have suffered or how hopeless you believe your case to be, there is hope for you in the Philo Burt Method.

Eminent specialists who have studied and treated spinal diseases and deformities for years are first astonished, then convinced and quickly become enthusiastic upon finding one success follow another when the Philo Burt Method is used. Ask us for the names of happy patrons right in your vicinity.

A young woman who was bed-ridden at 26 with spinal tuberculosis after suffering for 20 years, is married, happy and perfectly strong and vigorous at 29.

A boy of 8 was unable to walk or hold his head erect. After a few months every symptom disappeared and he walks daily three miles to school.

A man of 45, in cruel agony for six years, spent over $3,000 in a vain search for relief. Now works every day without the aid of any artificial support.

FREE—30 Days' Trial

The Philo Burt Method is new and different, not like anything you have tried. It has benefited or cured over 30,000 sufferers from spinal trouble caused by tuberculosis, Pott's disease, infantile paralysis, spinal meningitis, pleurisy, rheumatism, injuries, wrong sitting and standing postures, etc. Treat yourself at home. A 30-days' trial costs you nothing; no obligations of any kind if it fails.

The Philo Burt Appliance will positively cure any case that is curable and straighten any crooked spine that can be straightened. It gives firmer and more natural support to the spine than any torturing, unsanitary, old style brace made of steel, iron, leather, plaster of paris, etc. It is as yielding, soft and comfortable as a corset. Goes on and off like a coat and cannot be detected under the clothing. It relieves and strengthens and has accomplished many amazing cures. Let us send you sworn proof. Send no money. Simply describe your case fully. Get our liberal offer and helpful book on spinal troubles absolutely free.

Noses and Throats Freed of Catarrh!

Hundreds of noses and throats all over this country from Maine to California have been freed from Catarrh with its annoying features. These noses and throats were pretty bad—some of them. They had bothered their owners for long periods. The noses had been stopped up—crusts formed—mucus gathered and made discharges which had to be constantly blown out on handkerchiefs.

Some of this mucus dropped into the throats belonging to the above noses and made them raw and sore, with an annoying constant tickling sensation.

Little wonder that the eyes accompanying these noses and throats became watery and weak—the breaths foul and the sense of smell gradually disappearing.

But what a change has come over these same noses and throats through the Method of treatment originated by Catarrh Specialist Sproule, 200 Trade Building, Boston. They became once again the clear, sweet, useful portions of the body their Creator intended. The nasal discharges stopped, because there was no more inflammation and Catarrh germs to cause it. The eyes, the noses, the throats became free and clear. Those stupid dull feelings vanished—and the happy individuals met their friends frankly, grateful they needed no longer worry over what serious thing their Catarrh might develop into.

Free Consultation About YOUR Nose and Throat

Wouldn't you like to know how your nose and throat might be freed of its Catarrh? Then just sign your full name and address, and mail to Specialist Sproule's Office.

This Coupon entitles readers of this paper to consultation free on Catarrh.

FULL NAME .....

ADDRESS .....

.....

Specialist Sproule has been in the business of ridding noses and throats of this inflammation of the mucous membranes—called Catarrh—for 30 odd years after studying and graduating from Dublin University, Ireland. Any man who works at a trade for 30 years knows whereof he speaks, and he says with all earnestness—"if your nose and throat have fallen a victim of the Catarrh germ get advice and help speedily. You may regret delay."

Don't delay but write right now for advice. Take pity upon that Catarrh infested nose and throat of yours and see if they cannot be made the healthy and comfortable parts of your body they should be. Write now and mail to

$6,000 EXPORT JOBS

A New Profession

Every foreign market in the world is calling for America's goods. We must supply the world. We have the factories—we have the materials—we have the ships. The greatest need now is for men who are trained to handle the shipment of goods to foreign markets with speed and economy.

Thousands of men are needed right now. Manufacturers, jobbers and exporters are calling for trained men to handle the intricate problems of transportation and overseas shipment. Not only is the work fascinating but it commands big money. Men in export and import work are making from $2,500 to $10,000 a year—and $6,000 jobs are common. You can do the same. The opportunity of a lifetime lies before you.

Send for Free Export Book

What is your present occupation? Tell us about yourself that we may judge your qualifications. This is your chance to benefit by the greatest good which has grown out of the war—the expansion of American trade. We will gladly supply any information you may desire. Simply drop us a line about yourself and we will send you our free booklet, "Export Shipping."

Stop Using a Truss

Yes, STOP IT, I say! You KNOW by your own experience that it is only a makeshift, a false prop against a collapsing wall, and that it is undermining your health. Why, then, continue to wear it? Let me point out a better way.

FREE TO THE RUPTURED

I want to send to every RUPTURED SUFFERER, absolutely FREE, A TRIAL OF PLAPAO and my interesting, instructive 48-page book on Rupture—explains what rupture is and why trusses and similar MERE MECHANICAL supports cannot be relied upon.

The PLAPAO-PADS are nature's way. This simple, inexpensive home treatment gives quick relief, strengthens weakened muscles. Does away with steel and rubber bands that chafe and pinch. Close the hernial opening as nature intended, so the rupture CAN'T come down. Hundreds have testified under oath that the PLAPAO-PADS positively and permanently cured their rupture—some of them most aggravated cases and of long standing. Awarded Gold Medal and Grand Prix.

Soft as Velvet—Easy to Apply—Inexpensive

There is no metal about the PLAPAO-PADS—no straps, buckles or springs attached—soft as velvet. Easy to wear. No delay from work. Easy to apply and require no readjusting. Process of recovery is natural, so afterward no use for trusses. Ask me to prove what I say by sending Trial PLAPAO and a most convincing mass of evidence FREE—no charge for it now or ever—nothing to be returned. Don't wait. Write today—NOW.

Catarrh, Asthma

Bronchitis, Hay Fever and All Ailments of the Breathing Tract Relieved While You Sleep.

Hundreds of cases—many of them of more than 50 years' duration — have been permanently relieved by this remedy. Its soothing and healing effects are continuous during day and night, as desired. It is absolutely harmless, safe and pleasant. Our patients call it **"THE LITTLE WONDER," "THE ONLY CATARRH CURE."** On the market and unequalled for over twenty-five years, because it combines Right Method with Right Medicine; Science with Common Sense. Says S. J. Avery, M. D.—"I recommend it to all, but especially in bad cases." D. Munderback—"It saved my life." Rev. Deckard—"It's the boss." J. W. Mauldin—"The blessed little inhaler saved my life." Judge Eggleston—"It is a wonderful remedy for Asthma." D. D. Porter—"You have cured my Asthma and saved my life." W. G. Caswell—"I am cured of Catarrh, Asthma, Bronchitis—the whole push." Scores like these in our FREE BOOK. Never before has come to you a thing so wise in its means, so strong in its proofs, so easy in its application, so generous in its terms, so certain in its results. You may not see this again, so, write today for our positive GUARANTEED TRIAL PLAN and the FREE BOOK.

Rheumatism Left Him "As If By Magic!"

How It Happened

Had Suffered Over 50 Years!

Now 83 Years, Yet a Big Surprise To Friends

Regains Strength Goes Out Fishing. Back at Business Laughs at "URIC ACID"

How "The Inner Mysteries" Reveals Startling Facts Overlooked By Doctors and Scientists For Centuries

"I am eighty-three years old and I doctored for rheumatism ever since I came out of the army fifty years ago," writes J. B. Ashelman. "Like many others, I spent money freely for so-called 'cures,' and I have read about 'Uric Acid' until I could almost taste it. I could not sleep nights or walk without pain; my hands were so sore and stiff I could not hold a pen. But now, as if by magic, I am again in active business and can walk with ease or write all day with comfort. Friends are surprised at the change."

Mr. Ashelman is only one of thousands who suffered for years, owing to the general belief in the old, false theory that "Uric Acid" causes rheumatism. This erroneous belief induced him and legions of unfortunate men and women to take wrong treatments. You might just as well attempt to put out a fire with oil as to try and get rid of your rheumatism, neuritis and like complaints by taking treatments supposed to drive Uric Acid out of your blood and body. Many physicians and scientists now know that Uric Acid never did, never can and never will cause rheumatism; that it is a natural and necessary constituent of the blood; that it is found in every new-born babe; and that without it we could not live!

These statements may seem strange to some folks, who have all along been led to believe in the old "Uric Acid" humbug. It took Mr. Ashelman fifty years to find out this truth. He learned how to get rid of the true cause of his rheumatism, other disorders, and recover his strength from "The Inner Mysteries," a remarkable book now being distributed free by an authority who devoted over 20 years to the scientific study of this particular trouble.

NOTE: If any reader of The World Almanac wishes the book that reveals these facts regarding the true cause and cure of rheumatism, facts that were overlooked by doctors and scientists for centuries past, simply send a post card or letter to H. P. Clearwater, No. 380 D Street, Hallowell, Maine, and it will be sent by return mail without any charge whatever. Cut out this notice lest you forget! If not a sufferer yourself hand this good news to some afflicted friend.

BROWN'S BRONCHIAL TROCHES

were first introduced to the public in the year 1850 and are known over the entire world as a preparation of superior merit for the relief of coughs and throat troubles.

They give prompt and effective relief in the coughing spells and throat irritation incident to Bronchitis, Asthma and Lung troubles.

Of great value to singers, speakers, preachers and teachers, as a means to clear the voice, remove hoarseness and irritations caused by use of the voice.

As they contain no opiates or anything injurious, BROWN'S BRONCHIAL TROCHES may be used in all cases where cough or throat lozenges are employed, without the least danger.

Sold only in boxes. Not sold by weight.
15c, 35c, 75c, $1.25.

Department W. BOSTON, MASSACHUSETTS, U. S. A.
General Sales Agents: Harold F. Ritchie & Co., Inc., New York, London, Toronto.

ECZEMA

Also Called Tetter, Salt Rheum, Pruritus, Milk Crust, Water Poison, Weeping Skin, etc.

DR. CANNADAY
Eczema Specialist for 15 Years

For fifteen years I have been treating one disease alone, ECZEMA. I have handled over one million cases. I do not pretend to know it all, but I am convinced the disease is due to an excess of acid in the blood, and closely related to rheumatism and cancer. **This acid must be removed.**

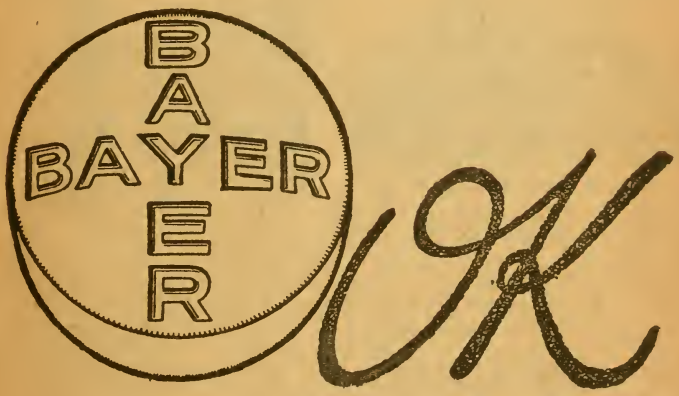
Eczema is called by some people Itch, Tetter, Salt Rheum, Pruritis, Milk Crust, Weeping Skin, etc. I am fully convinced Eczema is a curable disease, and when I say it can be CURED, I mean just what I say—C-U-R-E-D, and not merely patched up for a while to return worse than before. It makes no difference what other doctors have told you, or what all you have tried, all I ask is just a chance to prove to you that this vast experience has taught me a great deal that would be of help to you. If you will write me to-day I will send you a free trial of my mild, soothing, guaranteed treatment that will do more to convince you than I or anyone else could in a month's preaching. It's all up to you. If you suffer any more with eczema and refuse to merely write to me for free trial, just blame yourself. No matter where you live, I have treated your neighbors. Merely dropping me a postal to-day is likely to give you more real comfort in a week than you ever expected to enjoy again. Do it right now; your very life may be at stake.

J. E. CANNADAY, M. D., 1423 Court Bk., Sedalia, Mo.

Reference: Third National Bank, Sedalia, or ask your banker to find out about me.
Send this notice to some poor sufferer from eczema. It will be a kind act by you

"ASPIRIN"

WARNING! Unless you see the name "Bayer" on tablets, you are not getting genuine Aspirin prescribed by physicians for 20 years and proved safe by millions.



SAFETY FIRST! Accept only an "unbroken package" of genuine "Bayer Tablets of Aspirin," which contains proper directions for Headache, Earache, Toothache, Neuralgia, Colds, Rheumatism, Neuritis, Lumbago, and for pain generally. Strictly American!

Handy tin boxes of 12 tablets cost but a few cents—Larger packages.

Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

Cured His Piles

Now 88 Years Old, But Works at Trade of Blacksmith and Feels Younger Since Piles Are Gone.

The oldest active blacksmith in Michigan is still pounding his anvil in the town of Homer—thanks to my internal method for curing piles.

Mr. Jacob Lyon, Homer, Mich.

I wish that you could hear him tell of his many experiences with ointments, salves, dilators, etc., before he tried my method. Here is a letter just received from him:

Mr. E. R. Page, Marshall, Mich.

Dear Sir: I want you to know what your treatment has done for me. I had suffered with piles for many years and used suppositories and all kinds of treatments, but never got relief until I tried yours. Am now completely cured. Although I am 88 years old, and the oldest active blacksmith in Michigan, I feel years younger since the piles have left me. I will surely recommend it to all I know who suffer this way. You can use my letter any way you wish and I hope it will lead others to try this wonderful remedy. Yours truly,

J. L. LYON.

Don't let a doctor cut you and don't waste money on foolish salves, ointments, dilators, etc., but send today for a Free Trial of my internal method for the Permanent Cure of Piles.

I especially want to send it to those apparently hopeless cases where all forms of salves, ointments, dilators and other local treatments have failed.

FREE PILE CURE COUPON

No More Getting Up Nights!

Bladder Weakness Quickly Corrected by Recent Scientific Discovery For Old and Young.

50 Cent Package Free

What a wonderful comfort to sleep all night and not get up at least once, and maybe six or eight times, every night because of bladder weakness. Have you forgotten what the restfulness and luxury of an unbroken night of untroubled sleep is like?

Wonderful! Wonderful! Sleep Like a Top All Night Long! Kellogg's Brown Tablets Make One Feel Young Again.

Among the principal causes of this trouble is chronic enlargement of the prostate gland and bladder irritation and of these and of the scientific discovery upon which Kellogg's Brown Tablets are based, a noted medical authority says: "A symptomatic cure is usually achieved * * * The frequent impulses to urinate and the recurring desire at night cease. Successes with this salt * * * have been had in men of ninety years."

Every man, young and old, should try this wonderful treatment. It works upon the bladder to correct the faults that are causing a host of men days and nights of untold misery.

Send coupon to-day, with six cents in stamps to help pay postage and packing, for a free 50c trial box of Kellogg's Brown Tablets, to Frank J. Kellogg Co., 3490 Hoffmaster Block, Battle Creek, Mich.

FREE TRIAL COUPON

What You Can Do With a Well Drill

A well-to-do Ohio farmer whose land lay in a shallow oil territory desired to drill three oil wells for the purpose of testing his properties, and to do this without too great an expenditure. He found that he could buy a Cyclone Drill and do his work at a cost equal to the price charged by drilling contractors. His test wells proved successful and several more oil wells were drilled. Afterward he put down several water wells on his own farm and contracted some water well work in his neighborhood. He then leased the rig to some friends, who used it, with some slight changes in the tool equipment, to prospect for coal. Later he sold it to a railroad contractor, who employed it for drilling blast holes for a rock cut.

Aside from the profit derived from the oil production, for which the well drill was directly responsible, this farmer's investment in the drilling outfit showed a profit of several thousand dollars in a period of a little more than two years.

This is an example of what a wide range of work can be done with a well drilling outfit. We have enumerated only a few of the more important uses of a well drill in the above example. There is practically no field of endeavor that has for its purpose the exploration and development of the earth's natural resources that cannot in some way be handled with a well drilling outfit.

Many men make their living—and a good living, too—as drilling contractors. There is no business that pays as high a return on the amount invested as well drilling.

Write for a copy of our Bulletin, "Drilling for Profits," and additional information concerning the uses of a well drill.

Why Many Men Are Old At Forty

You have observed that some men of 70 appear to be younger in vitality than other men of 40 or 50. There is a vigor, an alertness, a commanding appearance much admired and coveted by the man who knows he is much younger in years. Perhaps the most common cause of ebbing strength is a disturbed condition of a vital gland. Even men of iron constitution are not exempt from this amazingly common irregularity. We have for limited distribution an ethically accurate, educational and interesting free book.

Prostatology

Its message may prove of unsuspected value to you. It explains how a disturbed condition of this vital gland may cause sciatica, backache, painful and tender feet, interrupted sleep and other extremely uncomfortable and often serious conditions. It tells of Thermalaid, a simple means by which the essential of a new hygienic principle, done into convenient form, corrects this prostate gland condition and its attendant health faults without medicine, massage or knife. Followers of the great Metchnikoff and other investigators in the science of long life, endorse this means. The record of its success for five years is incontrovertible. The book is free. Simply address

The ELECTRO THERMAL Company
3502 Main St., Steubenville, Ohio

I Will Pay Railway Fare to Kansas City

My big announcement this season. You can come to the world's largest and best trade school at no more expense than if it were located in your home town, for I am rebating fare from any point in the U. S. to the Sweeney School. No advance in tuition, no extras—just a fair, square rebate. No matter where you live, this brings THE SWEENEY MILLION DOLLAR SCHOOL RIGHT TO YOUR DOOR.

Learn by Doing

The Sweeney man is taught seven different trades. No extras. No books to buy. We teach by doing the actual work. *Learn in eight weeks.* You cannot get the Sweeney System of Practical Experience anywhere else. The system that trained over 5,000 men for Uncle Sam during the war and that has turned out an army or over 46,000 graduates. You can hardly go any place in the world without bumping into a Sweeney man holding down some mechanical job, ready to greet a fellow Sweeney graduate.

FREE!

I will gladly send my 72-page illustrated catalog Free—Simply send name today. Read how Frank Powell and Harry Wilson built up a $20,000 business in about two years after graduating. Read how Elbert A. Pence built up a $25,000 yearly garage business at Clearmont, Mo. Also how my students enjoy themselves after work in the swimming pool, the club and reading rooms, etc.

EMORY J. SWEENEY, Pres.

LEARN A TRADE—Sweeney
SCHOOL OF AUTO-TRACTOR-AVIATION
883 SWEENEY BLDG. KANSAS CITY, MO

Sweeney trained men are in demand everywhere at good wages, $50 a week and more, from garages, tire shops, welding concerns, auto repair shops, etc. In the last six months farm products have all gone down *but autos still kept running and no trained mechanic had to hunt a job.* Top wages are paid but Sweeney Trained Men are wanted. Here's the proof:

HUNDREDS OF OPENINGS FOR MEN

South Dakota wires: "Will pay most any price for man; send him right away." Indiana says: "Want one more man for my new garage. Steady work at good prices." Kansas appeals: "Send me a man who understands Ford Car from A to Z. Will pay top wages." Florida calls: Want a head mechanic. "Will pay $50 a week. Let me hear by return mail." Thousands of Sweeney graduates now owning their own business in various parts of the country naturally favor Sweeney trained men. Our daily mail is conclusive proof that the trained man with a Sweeney diploma can secure jobs like these at $50 a week and more.

MacDONALD'S Family ALMANAC.

1922

1922

PREDICTIONS
ABOUT CROPS; THE WEATHER; SICKNESS, AND VALUABLE INFORMATION FOR THE WHOLE FAMILY.

RULES FOR
PLANTING AND HARVESTING BY THE MOON.

Published Solely by

Reuben H. Mac Donald,
(Son of Prof. J. Mac Donald, M. D., Deceased)
Binghamton, New York, U. S. A.

Price: 20 Cents.

Copyright, 1921, by R. H. MacDonald.

Illustration ¼ actual size

Free Contest—$40.00 in Cash

One Dozen Boxes of ALDON COMPOUND TABLETS

For generations, people all over the world have been planting and harvesting when the Moon is increasing or decreasing in size and in the different signs of the Zodiac. The influence which the Moon has upon the tides will convince the mind of its proportionate action on vegetable life.

To convince yourself and others that it is best to plant and harvest when the Moon is increasing or decreasing in size and is in a good sign of the Zodiac I offer fifteen prizes.

The First Prize will be $25 00 for the best article; the Second Prize will be $10.00; the Third Prize will be $5.00; for the twelve next best articles One Box of ALDON COMPOUND, tax and postage prepaid. The articles should be written in English and contain not more than two hundred words. I reserve the right to publish any of the articles, giving credit to the author, in my large edition Almanac for 1923.

This is the best Astrological Almanac published. The information given does not conflict with the information sent out by the Agricultural Department of the Government.

The price of these Almanacs for 1922 will be 20c. each; three for 50c.; or $1.50 per dozen, sent postpaid to any place in the United States. Foreign Countries, 25c. Order one or more of these Almanacs now so you will be one of the first to receive them.

Addres all orders to **REUBEN H. MacDONALD, P. O. Box 789-W., Binghamton, N. Y.**

CRUEL PILES

Dr. Van Vleck Found Genuine Relief Which Is Healing Thousands.

Send Postal for Dollar Trial FREE.

To anyone suffering from Piles we make this unlimited offer: Send us your address and return mail will bring you a regular Dollar Package of Dr. Van Vleck's 3-fold Absorption Treatment for Itching Bleeding, Protruding Piles, and such Pile trouble — all in plain wrapper — TO TRY FREE. Dr. Van Vleck, ex-surgeon, U. S. Army, spent forty years perfecting his now world famous **Absorption Method.** No knife, no pain, no doctor bills—just a simple home treatment that can be tried by any one **without cost.** Then after trying, if you are fully satisfied with the relief and comfort it gives you, send us One Dollar. If not, it **costs you nothing.** You decide and **we take your word.** We don't know how we could show more unbounded faith in our remedy. It is relieving almost every stage and condition of Itching, Bleeding, Protruding Piles, even after whole lifetimes of misery. We have received hundreds of letters telling of the success of this remarkably effective system after everything else, including costly and dangerous operations, had failed, even after 30 and 40 years of suffering. The milder cases are **often controlled in a single day.** Won't you try it at our expense? Address Dr. Van Vleck Co., Dept. WA-22, Jackson, Mich. Send no money. Send today.

HERE IT IS

Final Solution of the Vibrator Problem Absolutely Astonishing

NEWEST

and Greatest Invention

You know that Vibration means new life, power, health, beauty. You know it is Nature's way to banish pain and to give you new energy and vitality. You know all of this, but do you know that the BIG problem of science has been to devise a hand vibrator that would be absolutely satisfactory in every way? That problem has vanished. We have solved it. We have triumphed where science failed. Our new, wonderful **Vitapulser** is GUARANTEED to effect all the astonishing benefits made possible by this wonderful method of treatment.

From now on the **Vitapulser** will be pointed to as the **correct** method to gain good health, new life, strength, vitality and freedom from the numberless disorders—rheumatism, sciatica, sore and stiff muscles, indigestion, neuralgia, lumbago, etc.—that come from faulty circulation. It's a wonderful instrument! It effects quick results. First trial **demonstrates** its extraordinary powers. **Not an experiment but a proved success.** Hundreds of doctors and trained nurses use it in daily practice to inject new strength into worn-out and "sickly" persons.

THE VITAPULSER

requires no connection with electric wires. Different from other instruments! **It supplies its own power.** You can operate it anywhere. It is simple, light, compact, easy to handle and cannot get out of order. Compare it with old fashioned vibrators and massage machines and you'll quickly understand why the **Vitapulser** is the modern choice of thousands of careful buyers.

Everyone Can Afford This Marvelous Instrument

If you are holding back from buying a vibrator because you think the price is out of your reach, here is your chance to own one at **a price you can afford to pay.** We have taken care of the price question. Makes no difference what other machines sell for—**you can afford the Vitapulser, the Wireless Vibrator.**

Sent on Approval The **Vitapulser** is sold at a **rock bottom** price that enormous sales make possible. AND—you need not decide to buy until after you have **tried** one in your own home. This remarkable instrument must first prove itself to you. **We will send you one on approval for testing purposes. Coupon below brings Approval Offer.**

Remarkable Book Free! "The Vital Impulse" is a remarkably interesting book on the important subject of circulation and its relation to the boundless energy and joy of perfect health. Tells you how many women and men everywhere have literally "made themselves over," and how simply you can. **If you are weak, mentally and physically depressed, and are not 100% efficient and getting everything out of life,** you should not waste a minute sending for it.

How Charles Wilson Jumped to $600 a Month

One morning, three years ago, two brothers, Charles and John Wilson, dropped into my office for a little man-to-man talk on the future. At that time John was driving a delivery wagon—Charles was a clerk in a grocery store. Both were earning about $20.00 a week and could see nothing ahead except long hours at small pay.

Having heard of the big opportunities in the Electrical Field, and my easy home-study Course in practical electricity, they came to me for advice.

"Boys," I told them, "if you will follow my easy course of training, which I will outline for you, you can qualify in a very short time as Electrical Experts and be ready to earn at least $75 to $100 a week."

Charles Wilson Said YES

And Today Earns $600 a Month

Charles Wilson promptly agreed to follow my instructions, and that week took up the study of my course in Practical Electricity. He made rapid progress with the various lessons. And, by doing practical work on the side, with the tools which I gave him, more than paid for the course through spare-time work.

He graduated as an Electrical Expert in less than a year. And in the two years since he finished my course has made wonderful progress. Today he earns $600 a month as an Electrical Expert.

A prompt *yes*, three years ago, coupled with back-bone and the determination to get ahead, has brought him big success.

John Wilson Said NO

And Still Earns $85 a Month

John Wilson, the younger of the two brothers, could not see the big possibilities of my plan—he wanted to "think it over," "talk to his friends," "would come back and see me again," etc. And, as is usually the case when a man delays action, he failed to do anything definite. He drifted along, month after month in the same old job, at the same old pay.

The other day John Wilson dropped into my office again. "Mr Cooke," he said, "three years of foolish indecision have cost me thousands of dollars. I say this because Charles, who wrote me yesterday of his new position, is now earning $600 a month as an Electrical Expert.

I have simply wasted three years. Now I want you to start in and do for me just what you did for Charles. I want to start today to make up for lost time."

You, Too, Can Earn $600 a Month—*Even More*

How long will you stay in the "John Wilson" class? Why should you work for $20 to $30 a week when with a few months' training under me, through my Home Study Course in Practical Electricity you too can quickly fit yourself for a big-pay job and be ready to earn your $3,500 to $10,000 a year.

I know exactly the kind of training you need for a big-pay job. And I give you that training. I furnish you with a complete set of fine electrical tools and instruments **free of charge.** I positively guarantee your success and satisfaction.

Fill in the coupon and mail it today for my Big Free Book, "How to Become an Electrical Expert," and full particulars on my course in Electricity.

Do It TODAY! It's the first step towards bigger pay.

Yours for success!

Tobacco Habit BANISHED in 48 to 72 Hours

Immediate Results

Trying to quit the tobacco habit unaided is a losing fight against heavy odds and means a serious shock to your nervous system. So don't try it! Make the tobacco habit quit you. It will quit you if you will just take Tobacco Redeemer according to directions.

It doesn't make a particle of difference whether you have been a user of tobacco for a single month or for 50 years, or how much you use, or in what form you use it. Whether you smoke cigars, cigarettes, pipe, chew plug or fine cut or use snuff, Tobacco Redeemer will positively remove all craving for tobacco in any form in a very short time. Your tobacco craving will begin to decrease after the very first dose—there's no waiting for results.

Tobacco Redeemer is absolutely harmless and contains no habit-forming drugs of any kind—the most marvelously quick, thoroughly reliable remedy for the tobacco habit the world has ever known.

Not a Substitute

Tobacco Redeemer is in no sense a substitute for tobacco, but is a radical, efficient treatment. After finishing the treatment you have absolutely no desire to use tobacco again or to continue the use of the remedy. It quiets the nerves, and will make you feel better in every way. If you really want to quit the tobacco habit—get rid of it so completely that when you see others using it it will not awaken the slightest desire in you—you should at once begin a course of **Tobacco Redeemer** treatment for the habit.

Results Absolutely Guaranteed

A single trial will convince the most skeptical. Our legal, binding, money-back guarantee goes with each full treatment. If **Tobacco Redeemer** fails to banish the tobacco habit when taken according to the plain and easy directions, your money will be cheerfully refunded upon demand.

Let Us Send You Convincing Proof

If you're a slave of the tobacco habit and want to find a sure, quick way of quitting "for keeps you owe it to your self and your family to mail the coupon below or send your name and address on a postal and receive our **free** booklet on the deadly effect of tobacco on the human system, and positive proof that **Tobacco Redeemer** will quickly free you from the habit.

What 15 Cts Will bring You From the Nation's Capital

The little matter of 15 cents will bring you the Pathfinder thirteen weeks on trial. The Pathfinder is a cheerful illustrated weekly published at the Nation's center, for people everywhere; an independent home paper that tells the story of the world's news in an interesting, understandable way. Now in its 29th year. This splendid National weekly supplies a long-felt want; it costs but $1 a year. If you want to know what is going on in the world, this is your means. If you want a paper in your home which is reliable and wholesome; if you would appreciate a paper which puts everything clearly, strongly, briefly, entertainingly—here it is. Splendid serial and short stories and miscellany. The Question Box answers YOUR questions and is a mine of information. Send 15c to show that you might like such a paper and we will send the Pathfinder on probation 13 weeks. The 15c does not repay us, but we are glad to invest in new friends.

The Pathfinder, Box 67, Washington, D. C.

Washington has become the World's Capital, and the Pathfinder keeps you in close touch with new developments in all lines, both there and everywhere.
